A "CAR famine" is threatened on some of the railroads.

Abram S. Dempsey, of Ford, county, has a respite of pension.

M. M. Pierce, of Garden City, was in the city on business, Friday; on a return from a trip to Wichita.

Col. L. L. Ady, a prominent citizen of Cimarron, was in the city, Friday, transacting business at the land office.

The earthquake shock in drouthy Indiana has started the dry creeks and rivulets to flowing vigorously.

The October which closed last night is the coldest known in seven years, and, with the exception of 1893, the driest in nine years.—Topeka Capital, Nov. 1.

The Kansas corn crop is now estimated to be only 300,000,000, quite a falling off of the original boast; yet there is plenty, and enough to supply the drouth-stricken East.

It is said that railroad men, especially engineers, firemen and brakemen suffer a good deal from kidney trouble, and after several years running on a road, especially if they are the least susceptible to such troubles, they suffer quite a good deal from diseases of the kidneys.

The California limited, the first train in the fast winter service inaugurated by the Santa Fe company, arrived at Los Angeles, Friday night at 6:05 from Chicago. Time, two days, twenty hours and five minutes, which is the fastest time ever made between Chicago and Los Angeles, by a regular passenger train.

The youngest president of a railroad that amounts to anything from the point of view of practical railroading, will probably be elected in a short time. He will be only twenty-two years old. The young man to whom common report gives the honor and distinction in a son of General Samuel Thomas, who is Senator Brice's partner in his railroad business. Young Thomas is to be made president of the Ohio Southern, which is in the hands of a receiver.

The Globe Democrat says that, financially, the A. T. & S. F. road is said to be as good as, if not better than, any other western line, and there is reason to anticipate that a dividend paying basis will be reached when the company gets through with the reorganization. As a matter of fact, the system is doing more than paying expenses, and with several changes recommended by the committee, the earning capacity of the road will be more than doubled in the thinly-settled districts.

Took Another Man's Wife.

A Great Bend dispatch, of a few weeks ago, contained the following concerning parties who were formerly residents of Dodge City:

Mrs. Charles Vance left for parts unknown, yesterday evening, accompanied by a man from Nickerson, whose name cannot be learned. The couple left while Mr. Vance, who is mail messenger, was attending to his duties and so far nothing has been heard of them.

The woman leaves her husband with three young children on his hands. They had had no domestic trouble and no reason can be given for the elopement.

GOOD BYE, DEAR PASTOR.

T. C. OWEN. Some talk about Napoleon, And many a noted master; But none were greater in their day. Than you, our own dear pastor. Your soothing words sweet comfort gave And helped us feel encouraged; In pressing forward 'twards the prize, When we were, Oh, so worried. O, such beauty we could see When pointed out by God through thee. Astounding miracles would be As clear as Zacheus in his tree. But good bye, loved one; we must part; Although it almost breaks the heart— We hold thee sacred in our thought, When to God by prayer we're brought.

Spotting Santa Fe Employees. A dispatch from Arkansas City says that spotters in the employ of the Santa Fe Railway company are keeping a close watch upon the trainmen to see whether they are in the habit of indulging in intoxicating liquors. So many men have lost their jobs lately because they were reported to be in the habit of frequenting saloons that railroad men are unwilling to risk the consequences of visited such places. It is evident that the company wants none but sober men in their employ, and the close espionage of the baunts of trainmen is making the latter very careful.

The state of Kansas pays out a good deal of money every year to a bank examiner and his deputies on the theory that the frequent examination of banks which they are supposed to make will protect the people. But the failure of the Fort Scott bank is giving that theory a good deal of a shock. The defaulting cashier admits that his crooked work was begun two years ago and yet it was never detected, although the bank has doubtless been "examined" a dozen times since then. If a bank examiner doesn't examine, what good is he?—Iola Register.
