

# THE GLOBE-REPUBLICAN.

The FORD CO. GLOBE, Established 1877. (Consolidated, 1886.)  
The FORD CO. REPUBLICAN, 1881.

DODGE CITY, KANSAS, THURSDAY, NOVEMBER 8 1900.

TWENTY-FIFTH YEAR. VOL. XXIV, NO. 5.

## McKINLEY AND ROOSEVELT

Elected by an Increased Majority All Over the Country.

## KANSAS AGAIN IN LINE.

The Great Suspense is Over and The Country Will Continue in the Line of Prosperity.

The latest returns indicate a landslide for McKinley and Roosevelt.

Odell and the entire Republican ticket is elected in New York by about 200,000 majority. McKinley and Roosevelt carry the State by the same vote.

Twenty-seven States give McKinley and Roosevelt an electoral vote of 284. A Republican Congress is assured.

**TOPEKA, KAN., Nov. 6.**—The reports received at the Republican headquarters from all over the State show that the State is safe for McKinley by 25,000 majority and that the State ticket is elected and the Republicans have elected all of the seven congressmen.

A majority of the Republican candidates for the legislature have been elected and the legislature will be safely Republican on joint ballot, insuring the election of a Republican to the United States Senate.

Hon. Chester I. Long is elected to Congress by about two thousand majority.

The returns indicate that Bryan has lost Nebraska.

The returns from Ford county are incomplete. All precincts are represented but Pleasant Valley. In this precinct Baird receives 20 votes and Sidlow 14. This is the only vote given. As far as reported at Democratic headquarters, with the exception of the precinct named the returns are as follows:

Bryan	585	McKinley	600
Briedenthal	692	Stanley	591
Bival	621	Long	559
Ravenscraft	543	Nofziger	527
Swinehart	651	Evans	564
Sidlow	610	Baird	614
Oyler	584	Grobety	438
Erick	525	Lopp	603
Pettillon	512	Finley	607
Anthony	250	Brown	199

The Republicans elect the candidates for Probate Judge, County Superintendent and District Clerk.

In Bucklin McKinley received 25 votes and Bryan 20 votes, but the difference is larger between the county candidates.

Ford county has four votes in the Philippines. It will be seen that the county gives McKinley 21 majority. But—if prosperity struck the head of the Republican ticket, adversity follows after. It will not do to say that Ford county is a Republican county.

The election was quiet and the defeat of some of the Republican candidates is a surprise to their friends.

Utah is claimed by the Republicans by 4000 majority. The Topeka Journal says: Election returns show an overwhelming victory for McKinley and the Republicans.

Bryan appears to have carried but few states outside the southern states. Kansas, Illinois, Indiana, Maryland, New Jersey, New York and practically all the northern states are in the Republican column. Nebraska is close and in doubt. Kentucky is in doubt.

Stocks and other securities went up with a rush on the receipt of the election returns.

Missouri has gone Democratic by reduced majorities, and Colorado has gone fusion by 35,000, while Pennsylvania gives the Republicans 300,000 majority.

Oregon gives McKinley the largest majority ever given in the state.

The Republicans claim a majority of 54 in the next house of congress.

Of the election in Kansas the Topeka Journal says:

Based on returns received up to 11 o'clock Wednesday, the indications are that the Republicans have carried Kansas by a majority now aggregating from 24,000 to 26,000.

The same returns indicate that the Republicans will have at least 17, and probably 25, on joint ballot in the legislature thereby insuring the election of a Republican United States senator and a Republican state printer.

The Republicans also seem to have re-elected their congressmen in the First, Second, Fourth, Fifth, Sixth and Seventh districts.

The returns have been slow coming from the Third congressional district, but those which have been received do not hold out much hope for the election of George W. Wheatly, the Republican nominee.

The Populist state committee officials concede the election of the Republican ticket and admit the loss by the fusionists of the legislature and congressional districts, except the Third. There the Populists believe A. M. Jackson, the fusion nominee, will win.

Chester I. Long has 2000 majority. Bryanism is dead. There will be increased prosperity from now on.

**NEW YORK, Nov. 7.**—Election returns received this morning indicate that the Republicans have carried New York state by about 146,000 and that the Democrats have carried Greater New York by about 27,500. This forms one of the surprises of the campaign, for the reason that the Republican chairman and candidate for governor, Mr. Odell, had claimed the state in his ante-election estimates by only 100,000, and the Republicans generally have been willing to concede that Mr. Bryan would carry Greater New York by at least 50,000. The Democrats claimed that Bryan would carry New York by from 80,000 to 90,000.

Richard Croker sent Mr. Bryan a telegram informing him that though the state had gone heavily Republican, New York county, which in 1896 gave McKinley 23,000 plurality, had been carried by the Democratic electors by 33,000, a gain of 50,000.

Detailed returns have not been received on governor as yet, but it is known that the entire Republican state ticket has been elected and that the Republicans have made gains in both houses of the state legislature. Mr. Stanchfield, the Democratic nominee for governor, ran ahead of his ticket in the southern tier and in Brooklyn, but on the other hand Odell carried some of the up-state counties by pluralities larger than the

Republican presidential electors received. The Republicans gained several members of congress from this state, but the official count may be required to decide in one or more close districts.

**Chicago, Nov. 7.**—Chairman Rowe, of the Republican state central committee, after reading a mass of telegrams piled on his desk, this morning declared his belief that Richard Yates, for governor, would have a majority in Illinois equal to that on the national ticket. The returns early today make McKinley's plurality 100,000 in the state but the Democrats are not disposed to concede any such majority for Yates over Samuel Alschuler the Democratic candidate. The returns from the congressional districts up to a late hour indicate the election of 12 Republicans and 10 Democrats.

Judge Day, who is with President McKinley, says McKinley carries 27 states with 284 electoral votes.

Kansas is all right, and the state is now permanently in the Republican column.

New York gave McKinley 150,000 plurality; Greater New York went for Bryan by 25,000; Odell, Republican, elected governor by more than McKinley's plurality.

Indiana gave McKinley a small majority. Maryland Republican by 10,000; Baltimore Republican by 6,500.

Nebraska probably for McKinley by small plurality. Legislature almost certainly Republican, which cooks Bryan's senatorial goose.

Ohio Republican by 50,000; same as in '96. New Jersey Republican by more than 50,000.

Michigan Republican by bigger majority than 1896.

Illinois Republican by 90,000; Cook county Republican by 15,000.

**RAILROAD NEWS.**

—G. H. Saunders succeeds C. L. Short as trainmaster on the Chicago division.

—See the new time card of the Santa Fe Railway on local page. It went into effect yesterday.

—B. C. Jones is spending a 30 days vacation at Petersburg, Colo. Mrs. Jones has been there for a few weeks past.

—John M. Kilborn, who was formerly employed in the Santa Fe offices in this city, and who removed to Windsor, Vt., is now engaged in the Santa Fe Railway offices at Florence, Kansas.

—While prospecting for good water between Kinsley and the river last week, the Santa Fe well diggers found a vein of soft water just this side of the river at a depth of only thirty-five feet.—Kinsley Mercury.

—A. Fasig, in drilling for water for the Santa Fe company, near Kinsley, found soft water at a depth of 35 feet. He struck the second sheet of water at 21 feet in sand rock, and followed down to 36 feet. The boring was continued to 118 feet, when finding no water the drilling was discontinued and the hole refilled to a depth of 36 feet from the top. A sample of the water tested is all that is desired by the company.

—Statistics indicate that railway men are not only becoming more proficient in the performance of their duties, but are also becoming far more temperate in their habits. It is stated that twenty years ago more than 20 per cent of the men discharged from service on the New York Central were dismissed on account of drunkenness. In an army of 30,000 men now employed by that company, less than one per cent of those dropped from the pay rolls can trace their discharge to the intemperate use of liquor. These facts show what wonderful good influence is being made by the Young Men's Christian Association among the railway men. While it is not supposed that that association is responsible for all this change, yet credit is due it for the most of it.

**Easy to Cure a Cold**  
If you go about it right. Take two or three Krause's Cold Cure Capsules during the day and two before retiring at night. This will insure a good night's rest and a free movement of the bowels next morning. Continue the treatment next day and your cold will melt away. Price 25c. Sold by W. F. Pine.

The railway companies are now devoting a considerable attention and financial support to the education of their employees, and also making every effort to better their general conditions by throwing around them more inspiring and enlightening environments. Besides contributing to the support of the railroad branch of the Young Men's Christian Association, they are also establishing and supporting other reading rooms, encouraging their employees to take the leading publications for their line of work, and also encouraging them in railway club and association organizations. The railway men of today, whether he be an official or an apprentice, is obliged to reinforce his practical training with the assistance of current technical and railway news publications. No man is original enough to grasp intuitively the thoughts of many others, hence if he wishes to broaden his mind and keep apace with the times, he is obliged to mingle with them and read the ideas expressed by his fellow railway men in publications adapted to his branch of service. There is no field of business activity that requires better trained and broader minds than that of railroading. There is no business vocation that has a tendency to inspire those associated with it to enlarge their store of knowledge through educational agencies, and encourage them to strive for continued promotion, than that of the railway service. The man who has ambition enough to better his conditions will surely aspire to fit himself for these conditions in order that he might retain and enjoy them. It never does anyone any material good to look forward to a future if he has not the ambition to fit himself for what that future has in store. The railroad man who will permit his fellow employe to surpass him in practical training and general imparted information, can only expect to see that employe surpass himself in the line of promotion. The best material is invariably selected for the best places. The disposition on the part of railway men is to participate in various railway associations and clubs and read one or more of the standard publications, is becoming more and more general, in fact, it is almost impossible to-day to find a bright, active man who is without them.—Railway Journal, St. Louis.

# Royal

## BAKING POWDER

-Absolutely Pure-

For the third of a century the standard for strength and purity. It makes the hot bread, hot biscuit, cake and other pastry light, sweet and excellent in every quality.

No other baking powder is "just as good as Royal," either in strength, purity or wholesomeness.

Many low priced, imitation baking powders are upon the market. These are made with alum, and care should be taken to avoid them, as alum is a poison, never to be taken in the food.

### Novel Election Bet.

Late Tuesday evening Sam Stubbs and Jack Lillis made an election bet on the general result. In case McKinley is elected Mr. Lillis is to ride a donkey through the principal streets of the city, and carry a banner bearing the sign of Mr. Stubbs' grocery business. In case Bryan is elected Mr. Stubbs is to ride a donkey through the principal streets and carry a sign showing where good sewing machines can be had. The time and arrangements for the carrying out of the bet are to be arranged hereafter. Mr. Stubbs desired that the riding be done on bare back, but out of consideration for Mr. Lillis' weak back, he consented that the loser should ride on a saddle. Mr. Lillis can perhaps be seen in his back lot exercising on a donkey's back.

Mrs. T. Briddleman of Parshville, Michigan, was troubled with salt rheum for thirteen years, and had tried a number of doctors without relief. After two or three applications of Banner Salve, her hands became better and in a short time she was entirely cured. W. S. Amos.

### SOULE COLLEGE NOTES.

The faculty of the College will give a literary and musical entertainment at Ford City town hall on Saturday evening, Nov. 10. Exercises to commence at 7:30 o'clock.

Miss Jessie Kissel visited at home over last Sunday.

School is doing fine this week. Prof. LeMaster has one of the finest Algebra classes he ever saw.

The vote for President at the College by the teachers and students on election day resulted as follows: Republican 13; Prohibition 5; Democrat 4.

Prof. LeMaster was the recipient of a present of two black pigs from Mr. Cramer this week. One of them escaped from the box in which they were confined. Anyone who may know of its whereabouts will please let Prof. LeMaster know about it.

The faculty will give an entertainment at Ford Dodge on Monday evening, Nov. 12. These entertainments are in the interest of the school.

Several new students have already assured Prof. LeMaster of their intention to begin school Jan. 3rd.

J. Odgers of Frostburg, Md., writes: "I had a very bad attack of kidney complaint and tried Foley's Kidney Cure which gave me immediate relief, and I was perfectly cured after taking two bottles." Take no substitute. W. S. Amos.
