

The FORD CO. GLOBE, Established 1877. The FORD CO. REPUBLICAN, 1888. Consolidated, 1889.

BUCKLIN BRIEFS.

From our Regular Correspondent. Harry Davis of Pittsburg, Kansas is visiting his grand parents, Mr. and Mrs. H. C. Davis. Mrs. L. O. Elder is visiting her parents, Combs Storer and wife, in Dodge City this week. Dr. W. W. Pritchard of Lexington, was interviewing old friends on the streets of Bucklin Saturday. L. M. Taylor has shipped another car of hogs Tuesday. Where? Oh, where is our next winter's bacon to come from? Mrs. G. W. Trexler, a few miles southeast of Bucklin, has been quite ill, but we learn that she is much better now. O. Steen and W. P. Imman have accepted positions on the pay roll of the Rock Island, Vice Haynes and Clark, resigned. O. B. Melia was shaking hands with friends on our street Friday evening. He had just returned from the State Normal for his summer vacation. L. O. Elder has purchased the property on main street formerly owned and used by the E. Church. He will repair and fit it along about the first of July; it will open up a first class restaurant there. Mrs. Hayne of Preston, mother of D. W. Haynes, and Mrs. D. Fisher, is visiting with her son and daughter here. Miss Mamie Haynes, a cousin of Miss Octa Fisher is visiting with her and other friends here. The weather here at this writing is not just what would be called favorable from the farmers viewpoint. It is a little too dry, hot and windy; in fact it is tough on all kinds of vegetation and trying on the flesh, too. John Fisher, and family are visiting with his brother, D. Fisher in South Bucklin. We understand that Mr. Fisher will remain here through harvest, after which he will occupy his recently purchased farm near Ashland in Clark county. Ab. Berger has returned from a visit to the scenes of his childhood in Indiana. It matters not where we roam, still our memories cluster around the old homestead, and the farther we get away from them in distance and time, the dearer the memory of them become. Mrs. Hammer the mother of Isaac and C. J. Hammer, is quite sick at the home of her son Isaac. Mrs. Hammer is seventy-five years old and feeble. She has been in poor health for several months and the hot weather is telling on her. She is almost entirely helpless now. Joe Adams has quit and Taylor's meat palace is presided over by Mr. Norton of Great Bend. We are sorry to lose Joe, but we are informed that the gentleman that is now in charge of the place has had long years of experience at the block and perhaps he can cut you a porter house steak a little nearer to the horns of a Texas steer than Joe could. Miss Lela Pritchard has secured enough pupils to form a class in instrumental music and will begin giving lessons next Wednesday. That is well, we need somebody to develop the latest musical talent of this town. Now if some good Samaritan would start the vocal possibilities of this town in a musical direction he would confer a great favor on the citizens thereof. Mrs. E. O. Clark and children, Master Hal and Miss Mierle of Ottawa, Kas., came in on Saturday on a visit to her parents, Mr. and Mrs. J. W. Goslee. She stopped on the way and took in the musical Jubilee at Hutchinson. Mrs. Clark was accompanied by her sister-in-law, Mrs. W. C. Goslee, of Herrington, who is spending a few days with her parents, Mr. and Mrs. J. H. Dellinger. Scott and McCausland, the real estate men, are kept quite busy these days showing land seekers over the country and they are no slouchers, either, but know how to treat their patrons. Everyone receives courteous and gentlemanly treatment from them. We do not know how much land they are disposing of but they are showing many people a lot of fine country and incidentally helping out the lively man. Have you heard of that addition to Bucklin, that is soon to be staked out and placed on the market to satiate the growing desire for corner lots and other desired? Well, they say that it is a myth, but a real live proposition, and what possibilities it suggests. The Metropolitan airs we shall put on, then there is the alderman, the mayor. Oh, my! but in this connection we must call the GLOBE REPUBLICAN down a notch. A few weeks ago it made the statement that S. E. Coons was to be the first mayor of Bucklin. I think that decision premature, and that you did not give the subject that calm and deliberate consideration that so grave a matter requires. It is admitted that S. M. would fill the bill in every respect, save one—corporosity; and that is fatal. After long and sleepless deliberation we suggest Vet Steifer as being the proper build. When Vet gets that blue skull cap on and occupies the judicial chair with his feet on the table he can look as wise and dignified as an owl. The mayorality being disposed of, we will consider the aldermanic timber later on. A few months ago, food which I ate for breakfast would not remain on my stomach for half an hour. I used one bottle of your Kodol Dyspepsia Cure and can now eat my breakfast and other meals with a relish and my food is thoroughly digested. Nothing equals Kodol Dyspepsia Cure for stomach troubles. H. S. Pitts, Arlington Tex. Kodol Dyspepsia Cure digests what you eat. Amos & Gwinner.

GRAY COUNTY NEWS.

From the Cimarron Sentinel, June 6. It is a strange thing that some people never discover how much they like a man until after he is dead. A land buyer came near meeting his death here Monday at the hands of a couple of real estate agents who insisted on pulling his legs in opposite directions. Frank A. Lee, a former resident of Cimarron, and who will be remembered by some of the young ladies and gentlemen as their "first teacher," is in town today looking after real estate interests. He is located at Quitman, Mo., where he is practicing medicine. Miss Rosa Makin and Mr. W. P. Crossdale, both of this county, were married at Dodge City, Wednesday evening, May 29, 1901, by Probate Judge Finley. The bride is the pretty young daughter of Mr and Mrs. F. E. Makin, of Foote township, and has many friends. The groom is also a resident of Foote township, being engaged in farming and stockraising. He is a thorough gentleman and quite well-to-do. Miss Ethel Emery received a letter from Miss Etta Markey this morning telling of the death of the latter's grandfather, before Mr. Koontz as his son known here, which occurred at the home of his daughter in Miltonvale, Kansas, Saturday, June 1, 1901. He left Cimarron after the death of his aged wife about a year ago, and has since been making his home with his daughter. He was 87 years old. Charged with Murder. Cimarron Sentinel June 6. After numerous adjournments from time to time the coroner's jury impaneled on the night of March 21st to inquire into the death of Eugene W. Hall, who died at his home on that date under very mysterious circumstances, met at the court house Tuesday afternoon and agreed upon and signed the following verdict: An inquisition holden at Cimarron in Gray Co., Kas., on the 21st day of March, A. D. 1901, before me G. L. Hiatt, Coroner of said county on the body of Eugene W. Hall, then lying dead, by the Jurors whose names are hereto subscribed. The said Jurors upon their oaths, do say that said Eugene W. Hall came to his death by poisoning, and that the Jurors believe said poison was administered to said Eugene W. Hall by William Shay, unlawfully, feloniously, and with malice aforethought. In testimony whereof, the said Jurors have hereunto set their hands, the day and year aforesaid. J. J. Fowler, J. A. Evans, C. M. Weeks, J. P. Emery, E. S. Garten, C. M. Dillman. Attest:—This 4th day of June, A. D., 1901. G. L. HIATT, Coroner Gray County, Kansas. A warrant, charging William Shay with causing the death of Eugene W. Hall, was issued at once and placed in the hands of Sheriff Pribble, who wired the sheriff of Ford county to take Shay into custody. He brought him to Dodge City, where Sheriff Pribble's arrival on No 3 Wednesday. Shay was brought to Cimarron this morning and arraigned before Justice Barton. The preliminary hearing was postponed until the 17th inst. In order that we may not prejudice the case, we shall defer further comment for the present. We understand Mr. Shay has stated that he was expecting to be arrested for the crime, and that he is anxious for the case to be brought to trial in order that he may prove his innocence and clear the matter up. The charge is murder in the first degree, and is therefore not a bailable offense. A few hours after Shay's arrest he was married to Mrs. Hattie McDowell, the divorced wife of J. F. McDowell of this place, and a sister of the dead man with whom murder her husband stands charged. Mrs. Shay was advised of her husband's arrest before the wedding occurred. Just a Word. There is becoming modesty and eternal fitness even in the blowing of one's own horn when the facts are cited. It is not vanity that prompts us to say "this is the place."—It is pride; justifiable gratification at having a wide and stock as nearly from sea to sea. The demands and requirements of our patrons as is possible. We strive to anticipate your wants; we try to have what you ask for as well as a great many things that you cannot get in any other store. That is why we ask you to come to our store. Come to see us every time, every day, every hour that any of you want anything that could possibly be found in an up-to-date drug store. Last year's goods have been sold, not "carried over." This year's stock is new. We have what you ask for hence need not substitute. In keeping with our usual enterprise we have just secured the agency for Dr. Caldwell's Syrup Pepsin, a liquid laxative put up in 50c and \$1.00 bottles. The manufacturers instruct us to guarantee Dr. Caldwell's Syrup Pepsin to cure Constipation, Indigestion of any form, Biliousness, Sick Headache, Dyspepsia or Stomach troubles. We are instructed to assure you that being the "King of Laxatives" it is as good for a child as for a grown person and shall be pleased to tell you more about this remedy when you come to our store. Palace Drug Co. The terribly mangled remains of an unknown man were found at Deerfield Monday morning along the Santa Fe railroad. He had on brown striped clothes, dark hat and heavy shoes, but nothing to identify him except two stamped envelopes with Hutchinson, Kan., printed on them. The man was about 25 years age, sandy complexion and light mustache. The Best Prescription for Malaria Chills and Fever is a bottle of GROVE'S TASTELESS CHILL TONIC. It is simply Iron and Quinine in a tasteless form. No cure—no pay. Price 50c.

DESIGNATES FLAG DAY.

Governor Stanley Issued a Proclamation, Naming June 14. Governor Stanley Saturday made proclamation naming Friday, June 14, as Flag day. Referring to the matter Governor Stanley says: "A beautiful custom has grown up in this country of observing one day in each year as Flag day. In pursuance of that custom, I hereby designate Friday, June 14, 1901, as Flag day, and recommend that the day be observed by all patriotic citizens of the state by appropriate exercises. I would suggest that the flag be prominently displayed upon all public and private buildings, that suitable exercises be held in commemoration of the anniversary of the adoption of the flag and on the Sunday following, exercises of a patriotic character be held in the various churches of the state, that we may have an increased love for the Stars and Stripes and stronger devotion to the institutions which it represents."

MEAT IS GOING UP.

Advances Is Due to Big Demand and High Prices for Cattle. The butchers of Topeka are complaining that the packing houses are charging such high prices for meat that they are not able to make a profit without raising the price of meat in the markets here. The retail dealers and butchers here claim that they have been selling the best cuts of beef at 20 cents per pound when to be making a reasonable profit they should be charging 25 cents. "If the price of beef carcasses goes up a quarter of a cent," said a Topeka butcher yesterday, "we retail men will have to advance the price to 25 cents." Chas. Wolf, of the Wolf Packing house, says that the price of cattle is somewhat higher than usual this year. He attributes the high price to the fact that there was a shortage in the corn crop last year in some localities and consequently the farmers did not feed many cattle. This together with the large demand has naturally forced prices upward. The Kansas City packers are expecting a steady advance in prices this summer owing to the high price of corn and scarcity of cattle. Mr. Wolf says that he does not expect the price to advance more than a quarter of a cent during the next two months and by that time the grass fed cattle will be on the market, which will force the price of meat down. He says that cattle are always higher at this time of year and although the price is slightly above the normal now, he does not expect any great advances.—Capital.

The Wright Skimming Station.

The skimming station at Wright is increasing its business. 3,000 pounds is furnished daily. Monday we visited the station and obtained some facts regarding the operation of the plant. We append the names of patrons, with number of pounds of milk furnished by each one and the tests during the seventeen days of May in which the station was operated. The business for the month of June promises to be much larger, some patrons will receive as much as \$50 each. This station has a capacity of turning out 1750 pounds of milk an hour, during five hours operation. The cream is sent daily to the creamery at Larned. The following table will show the business at the station for the seventeen days in May:

Table with columns: Names, No., Lbs., Test, Lbs. Butter, Fat. Lists names like J. H. Trebilcock, M. H. Kissel, N. Wiseman, etc.

Smith & Chambers run two delivery wagons to farmers' houses for milk, and much trouble is avoided. The prospect of building a steady and growing business is promising. "The Doctors told me my cough was incurable. One Minute Cough cure made me a well man." Norris Silver, North Stratford, N. H.—Because you've not found relief from stubborn cough, don't despair. One Minute Cough Cure has cured thousands and it will cure you. Safe and sure. Amos & Gwinner. The world may owe us all a living but no man can collect the debt without pulling off his coat and taking it from the bosom of the earth.

RAILROAD NEWS.

The operation of the Rock Island between Liberal and Twist, Texas, began Monday. Ed Able, the brakeman whose foot was injured, couple of weeks ago, suffered the loss of his toes by amputation. He is in the hospital at LaJunta. Conductor Frank Pope is still suffering with an injured limb, but he no longer uses crutches. It is more than five weeks since he sprained his ankle. It will be two weeks before he is able to resume work. The new time card took effect on Sunday. There is little change in the schedule. The taken off the daily California trains and running semi-weekly trains will change the runs of some of the crews. Alex McLeod, car inspector, was making his usual rounds Saturday night, and was examining a chair car containing a gas generator. Putting his lantern into the dark corner the escaping gas exploded and threw the lantern over his head, and the flash of fire singed his hair and slightly burned his face. The first regular train on the Chicago, Rock Island & Mexican railroad left Liberal Monday morning at 6:40 for Dalhart, Texas, a point on the Denver and Fort Worth. According to schedule this train will reach Dalhart at 4 o'clock each afternoon the same hour at which the train from the west will reach Liberal. The train is mixed, carrying passengers and freight and was well filled yesterday morning. According to a statement printed in the Atchison Champion twenty years ago the equipment of the Santa Fe road at that time was as follows: Ninety locomotives, 82 passenger cars, 36 express and mail cars, 401 cattle cars, 1,320 coal cars, 1,055 platform cars, 3 parlor cars, 716 combination cars, 73 caboose cars, 278 push cars, and 9 sleeping cars. The California newspaper excursion which passed through Friday on route to Buffalo made a great run on the Santa Fe from Dodge City to Hutchinson. The distance is 183 miles and the run was made in two hours and twenty minutes. The striking part of the story lies in the time of one mile per minute.—Hutchinson News. Conductor B. C. Jones and family are visiting relatives at Colby, Kansas. An aunt of Mrs. Jones, who had been lost to the family for forty-two years, is visiting at Colby. When young the aunt was taken by another family to raise, and this family went from Illinois to Canada, where all traces of them was lost until a short time ago. This is a funny world as the following will testify. There is a helper working for the Santa Fe in Newton who receives \$1.25 a day, and works six days a week. His monthly pay will amount to about \$30. There is another railroad man in Newton who earns \$4 a day, or any where from \$100 to \$150 a month. The striking part of the story lies in the fact that the latter's wife does the washing for the helper's family every week, receiving therefor fifty cents. This is a true story.—Newton Republican.

The Rock Island is Now 111 Miles into Texas.

John M. Steele of the reportorial staff of the Kansas City Star has been along of the new extension of the Rock Island. In speaking of the extension from Liberal to El Paso, Mr. Steele said: "The Rock Island extension from Liberal, Kan., to El Paso, Tex., has been 111 miles from Liberal. A local train running from Liberal to Twist will be put on about June 10th. There promises to be considerable delay in the final completion of the extension. The preliminary work for the bridge across the Canadian river has twice washed away and slow progress is being made with some of the grading beyond Twist. The gang working south expects to meet the workmen building from El Paso at Santa Rosa, N. M. "In projecting the new extension," said Mr. Steele, "the Rock Island purchased the El Paso & Northeastern Railroad—118 miles long, running from El Paso to White Oaks. The track between White Oaks and Santa Rosa is now being laid. It is not thought that through trains will be running on the new extension before February or March of next year. The through trains from Chicago to San Francisco will run over the new extension. "There is a lively controversy now on over the establishment of division points. The railroad officials are extremely reticent and the population of Pratt, Bucklin and Liberal are anxiously awaiting the outcome. "The names of some of the new towns between Liberal and Twist include Shade, Buffalo No. 1, Buffalo No. 2, Optimo, Sanford, Poca de Agua, Goodwell, Stratford, Sunset, Revellie and Beer Top."

Children's Day.

There will be Children's Day Exercises at the Bell Center school house, Sunday, June 16, at 10 a. m. A vacant place will be left in the program for all the members of the Home Department of this Sunday school and the desire is that they may be present. An offering will be accepted at the close of the exercises for the benefit of the H. D. You know What You Are Taking When you take Grove's Tasteless Chill Tonic because the formula is plainly printed on every bottle showing that it is simply Iron and Quinine in a tasteless form. No Cure, No Pay. 50c. Bicycles for rent at the Novelty Works.

SUNDAY'S SORROW.

Two Boys Drowned in 5-mile Creek. Sunday afternoon, at about 3:30 o'clock, at 5-mile creek, in the vicinity of Mt. Pleasant school house, was the scene of an unusual occurrence, the drowning of two boys—Hugh McRoberts, age 11 years, and John McRoberts, age 11 years—sons of W. F. McRoberts, who lives at Wright station. Five-mile creek ordinarily has little water, but the recent rains had filled its dry bed and increased the capacity of its water supply, until it afforded a swimming place for venturesome boys. The little stream is a tributary of Sawlog, and as its name indicates, it is one of those "sawed off" water courses that is a draw for a more pretentious flow of water, and it fills and empties itself dependent on the rainfall; but there are ponds in all these streams, fed by springs, and often the ponds contain water to a considerable depth. The pond in question contains water 10 to 15 feet deep, and the boys were drowned in water over ten feet deep. The width of the pool is more than 25 feet. It is situated in D. W. Sturgeon's pasture, and is about three miles north of Wright Station. Neighborhood boys are in the habit of going to this pond for swimming and the desire of the McRoberts' boys was against the wishes of the father but who went to the creek with his sons under protest. Both boys were swimmers, and the elder desired to show his skill in the art of swimming by carrying his younger brother on his back across the water. About midway of the water the elder boy became choked with water, and was seen to throw his brother from his back, and both were observed to be struggling, probably from strangulation. The elder boy reached the shore safely. Hugh rushed into the water to save his drowning brother but both were drowned. Walter Ferguson, son of Ben Ferguson, a boy about 17 years of age, was standing on the bank and noticing the predicament the boys were in rushed to their rescue. He was in the act of catching the younger boy when a kick on the stomach from the struggling boy almost knocked him senseless, and before he could recover himself both boys were drowned. The father of the boys who was in halting distance waded into the water to rescue his perishing sons, but though his inability to swim, or want of presence of mind in the fright, he was unable to give them assistance. The drowning boys were struggling together, and it is probable that the cold water produced cramps and both were unable to help each other. The alarm was given, and the people at the Sunday school at Mt. Pleasant school house rushed to the scene. The bodies were taken from the water soon after drowning but they were beyond resuscitation. The funeral took place Monday afternoon, the interment taking place in the cemetery north of Spearville. Rev. Geo. G. Bruce, in charge of the Presbyterian church, at Spearville, conducted the services. A large number of people attended the funeral. Mr. McRoberts has six children, two older than the deceased boys. The sad occurrence filled the county with gloom and it is sincerely regretted. Mr. McRoberts has lived in this county for two years. He is an industrious man and a good citizen; and the family have the sympathy of the people. Henry is the name of the boy who escaped drowning. The father's statement differs only slightly from the general statement of the drowning of the boys. He says an older son, about 17 years of age, was the one who undertook to swim across the creek with the younger boy, John, when he became strangled and threw the younger boy aside. He made his escape to the shore. Hugh, age 14 years, saw his younger brother drowning, when he plunged into the water to save him, when both were drowned. It was at this time when Walter Ferguson also went to the rescue. A telegram was sent to Dr. Garrett, who arrived at Wright at 8 o'clock, but the bodies had been out of the water several hours and no relief could be given. The bodies probably laid in the water nearly an hour before they were recovered. Every means was used to bring the boys to life, but were of no avail. When Dr. Garrett arrived the bodies were discolored. Undertaker Hulpieu prepared the bodies for burial.

Sale of Osage Indian Land.

At the sale of Osage Indian land to be held at the land office at Dodge City on July 10th, 1901, not more than 160 acres can be purchased by any one person. It will be necessary for bidders to furnish proof of citizenship, consisting of an affidavit showing where the bidder was born. A foreign-born person must furnish, in addition, a certified copy of his first or second naturalization papers. The land office holds that one person may purchase two or more tracts not exceeding in the aggregate 160 acres. A separate affidavit as to citizenship (and copy of naturalization papers were necessary) must be furnished for each tract purchased. Each bidder must have his papers prepared before he submits his bid as no papers will be prepared by the land office officials, although the papers may be sworn to before the land office. A bidder must appear in person or by representative who will be permitted to buy in land in the name of his principal. The representative must be prepared to file the necessary proofs of the citizenship of his principal before the land will be sold. A man who thinks he knows it all is rarely ever any benefit to his fellowmen. He spends all his time to the admiration of himself. A Kansas paper says that Miss May Madden "threw" the first shovelful of earth for the Orient railroad at Emporia. It is quite probable that the spectators crowded back to a safe distance when they saw her spit on her fair hands and seize the shovel to make the throw.—Denver Post. The girl staying in the house of F. D. Smith, during the family's absence, swallowed a pin yesterday afternoon. Dr. Mosher was telephoned for, but found upon examination, that the pin had gone too far to be extracted. The doctor did not consider the matter at all serious.—Kinsley Mercury. W. B. Gee sold his 160 acre farm to a Woodson county man about ten days ago for \$1200. He looked around for a few days for another location and not finding anything else that suited him, he offered to buy his place back, and pay for what improvements had been made. The proposition was accepted, and he is again "boss of the ranch."—Jetmore Herald. Down near Pratt, the Union says, H. T. Randle has a field of wheat that reaches to a man's waist, with long, full heads of grain. Adjoining this wheat are fields only knee high, and short heads to correspond. Randle prepared his ground by listing deeply, the same as for corn, then cultivated down, harrowed thoroughly and put the wheat in with a drill. The other wheat was drilled in the usual way. A large number of people settling in this county at the present time, are from some other locality in Kansas, a great many coming from just a few counties east of us, an item of considerable importance, as a great many of them have lived in the state for a long term of years and are well acquainted with the conditions. The fact is though, that the true condition of this country is pretty well known throughout the United States, and people know enough about it, that if the general appearance of things strikes them right when they see it, it doesn't take them long to make up their minds to locate.—Jetmore Herald. Nearly everyone in Kansas is familiar with the story of the county seat war in Gray county, which was a fierce affair than many insurrections in the Central American country. Some significant reminders of that "strenuous" period were found a few days ago, as the following paragraph from the Cimarron Jacksonian shows: "While Eugene Douglass was repairing the court house roof last week and the roof of the bank building this week, several cartridges were found in the spotting of the buildings that are hanging about the roof of the Gray county seat war, having been left on the roofs by the Cimarron sharpshooters."

Nearly the whole philosophy of life can be learned from the smallest of feathered creation—the humming bird.

Nearly the whole philosophy of life can be learned from the smallest of feathered creation—the humming bird flits from flower to flower, extracting the sweet and evading the thorns. Ah, the philosophy in that example—extracting the sweet and evading the thorns. Again, as the humming bird flits from hyacinth to hyacinth, from buttercup to buttercup, from rose to never sees the dead rat half hid among the debris of the garden. The humming bird is not hunting dead rats. It is hunting flowers. Young men, listen: You will find in this world just what you hunt. If you are hunting schools, and colleges, and diplomas, and churches, and good company, and high character, and business integrity, and all the elements of success in life, you will find them. Or if you are hunting gambling dens, and joints, and nameless resorts and loafing places, and evil companions; and fields in which to sow wild oats, and rocks upon which to wreck your life boat you will find them. Yes, the humming bird is a great philosopher!—Marion Record. The bilious, tired, nervous man cannot successfully compete with his healthy rival. DeWitt's Little Early Risers the famous pills for constipation will remove the cause of your troubles. Amos & Gwinner.

WALL PAPER, PAINT AND OIL CITY DRUG STORE. Cameras, Kodaks and Supplies always on hand. AT AMOS & GWINNER.
