LOCAL NEWS FROM BUCKLIN

Returned Minister Given a Reception Friday Evening, Attended by Large Crowd of His Friends.

Monday morning there was a woman called at Dr. Pritchard's drug store and said that she wished to consult the doctor in regard to treatment. The doctor took her into his private office and when she had stated her case he told her that he could not treat her but that she had better go to a hospital where she could receive treatment. As they were leaving the office she made an excuse that she wished to adjust some of her clothing. The doctor stepped out and closed the door. Mrs. Pritchard had left her pocket book containing about \$40, laying on a lounge in the private office but the doctor did not know that the pocket book was there; the woman came out in a few minutes and passed out to the street. Some little time after Mrs. Pritchard thought of the pocket book and when she counted the money found it was about \$14 short. Then the doctor got busy. He traced the woman to the depot where he found her waiting for a train, and invited her to return to the drug store with him. She at first demurred but he insisted and she finally went with him, arriving at the store she was accused of the theft and after a little fencing she confessed that she took the money. She had spent a part of it but as she still had the articles they were returned to where she had bought them and the money returned. They got back all but 10c of the money taken, then the doctor opened his heart and gave her a dollar, and told her to go and sin no more. She went, but as for sinning no more that is doubtful. It was learned later that she stole a pocket book from a lady at the depot before she left town.

STOMACH AGONY

Abolish the Cause, and Misery and Distress of Indigestion will vanish.

Can indigestion be cured? Hundreds of thousands of people who suffer from belching of gas, biliousness, sour stomach, fullness, nausea, shortness of breath, bad taste in mouth, foul breath, nervousness and other distressing symptoms, are asking themselves that question daily.

And if these same doubting dyspeptics could only read the thousands of sincere letters from people who once suffered as badly as they do now, but who have been quickly and permanently cured by the use of M-I-O-Na, the mighty dyspepsia remedy that cures by removing the cause, they would go to the Palace Drug store this very day and get a large bottle of M-I-O-Na tablets.

The price of M-I-O-Na tablets is only 60 cents, and the Palace Drug Co. guarantees them to cure indigestion or money back.

This or lean or scrawny people will find in M-I-O-Na a maker of flesh and blood, because it causes the stomach to extract more nutritious matter from the food.
