

CONGRESSMEN PLEASED WITH NEW MEXICO

And Want to Come Back and See More of It.

BELIEVE ARIZONA SOLID AGAINST JOINT STATEHOOD

The party of United States congressmen touring Arizona as the guests of President Frank M. Murphy of the Santa Fe, Prescott & Phoenix railway arrived in Albuquerque about 10 o'clock yesterday morning on their special train and left after about an hour and a half for the east. Congressmen go straight through to Chicago from here without further stops and expect to arrive in that city Saturday.

The party was met at the train by B. S. Rodey, Colonel E. W. Dobson and quite a number of other Albuquerqueans.

Those on the train yesterday were James A. Tawney, C. R. Davis and H. Steenerson, of Minnesota; Thomas F. Marshall, of North Dakota; Herman P. Goebel, of Cincinnati, Ohio; Martin D. Madden, of Chicago; H. L. Maynard, of Virginia; H. C. Adams and E. S. Minor, of Wisconsin; Carl Hennrichson, a banker of Grafton, North Dakota; V. L. Mason, of New York, vice president of the Development Co. of America, and Colonel Rutherford Trowbridge and J. B. Carrington, of New Haven, Conn., stockholders in the company; H. P. Teare, secretary to E. D. Kenna, vice president of the Santa Fe system; Excursion Agent Connell, of the Santa Fe, brother to the newly appointed general passenger agent of the system; and H. P. Fellows, secretary to Mr. Tawney, W. H. Clarke, of Holbrook, Ariz., also came in with the party.

When the train reached here yesterday it consisted of the three special cars and two Pullmans. At one time, however, down in southern Arizona, it consisted of the Pullmans and eight palatial private cars including that of Mr. Murphy. Egan Randolph, Colonel of the Maricopa and Phoenix, Manager Simmons of the Phelps-Dodge lines and Manager Walter Douglas of the smelter at Douglas.

As a result of their trip the statesmen are, all apparently convinced that Arizona is solid against joint statehood. They are loud in their praise of the resources and development of the sister territory, its people and its possibilities, but contrary to an erroneous impression, not a single member has been heard to draw an unfavorable comparison between Arizona and New Mexico.

"You are both great and wonderful and growing territories," said Mr. Tawney yesterday with enthusiasm. "Too much cannot be said in praise of the people and the resources of New Mexico and Arizona alike. Both are magnificent domains and both would make splendid states."

The members of the party expressed great regret that they were unable to

make a trip from here to El Paso and thence to the rich Pecos valley as they had planned. Several of the congressmen had pressing engagements in the east and could not possibly spare the time necessary to make the trip.

The excursionists received a telegraphic invitation to stop in Gallup a day and be introduced to a whole New Mexico county solid in favor of joint statehood. It was impossible, however, to arrange a stop over at the Carbon city as the congressmen wanted to make a stop in Albuquerque, and so regrets were wired to the Gallupites.

"We are determined to see more of New Mexico later," said one of the visitors enthusiastically to the Journal yesterday. "This is a splendid territory and we want to see as much of it as we have of Arizona. But as we accepted Mr. Murphy's invitation to be his guests in a tour of Arizona it was of course impossible to spend much time in New Mexico. We especially want to see the Pecos valley and are planning a special trip later to that section."

The travelers spoke enthusiastically of their appreciation of their reception in Las Vegas, Santa Fe and Albuquerque and were especially pleased with this city. During the short time the train stopped here yesterday they acted around town and saw a good deal of the biggest city in the two territories.

The tourists spent Wednesday afternoon and evening seeing the wonders of the petrified forests of Arizona near Adamans and did not leave that point until 11:30 at night, arriving at Laguna at 7 o'clock yesterday morning. They were very much interested in seeing the sights of the ancient Indian pueblo and attended church in

the old native sanctuary in a body.

Fun at the Grand Canyon.
"It has been a most delightful trip," said one of the congressmen to the Journal yesterday. "We have been wined and dined and feted, as it were, all over Arizona, and aside from the pleasure of the trip it has been one of the most interesting we have ever taken. We cannot speak too highly of the courtesy that has been extended to us by Mr. Murphy and also by the Santa Fe Co. Among the banquets we have enjoyed was one at Las Vegas, one at Morenci, 100 feet down in a mine; one at Tucson, two at Phoenix, one at Prescott and one at the splendid El Tovar hotel at the Grand Canyon. That I think was the most enjoyable of all. We were all sore and tired from a trip on mule back down to the bottom of the chasm and up again, which took the whole day, but it seemed to make us enjoy the evening all the more, and we turned the whole occasion into a kind of a Grid Iron club and roasted each other to a finish. I believe we had more fun that evening at the Grand Canyon than on all the rest of the trip."

807 West Railroad Avenue.
Both Phones. Day or Night.

Engine For Sale.
Enlarging our power plant we offer for sale one 6x12 30 h. p. 285 revolution Buckeye automatic cut-off engine for \$250; can be seen in operation at our mill at Belen. It is an excellent machine. The John Becker company.

WIRELESS TELEGRAPHY

The above is a "wireless telegraph" and reads as follows: "The main relay station for New Mexico and Arizona for the De Forest's Wireless Telegraph Company will be located at Albuquerque."

Like all large companies, they select Albuquerque because it is destined to be the great commercial city of the great southwest. For this reason, if you can spare a dollar to invest, buy some of those beautiful fifty-foot residence lots in the Eastern Addition—Highlands—\$100, \$150 to \$200 per lot; payable \$10.00 down, balance \$1.00 per week.

Every dollar so invested will earn you an additional dollar in less than two years. Albuquerque must grow and there is only one direction—above the lowlands. Call at the office of the Surety Investment Company, owners of the addition. We charge no commissions and will be pleased to go with you over the property. A perfect abstract of title given with every deed. D. K. B. SELLERS, Manager. Office, 110 South Second Street.

FEDERAL BUILDING CAN BE HAD FOR THE ASKING

Congressman Minor Guarantees Appropriation.

SAYS ALL THAT IS NEEDED IS TO SEND IN A BILL

Congressman E. S. Minor, of Wisconsin, second on the appropriation committee in the house of representatives and chairman of the sub-committee on public buildings, gave assurances to the Morning Journal yesterday that there would be no difficulty in getting an appropriation through congress next winter for a federal building in Albuquerque.

It will be remembered that the government has already paid 10,000 for a site in this city for a federal building, the land purchased being on the corner of Gold avenue and Fourth street opposite the Commercial club building.

office building, where—Minor was introduced to Postmaster Hopkins. Mr. Minor asked Mr. Hopkins a few searching questions regarding the postoffice business, the amount and value of mail and money handled through the office, the number of mail carriers and the estimated population of the city and was much pleased with the showing which is the best he has found during his tour of the southwest, as the annual receipts of the local office are not far from \$40,000.

Mr. Minor is enthusiastic regarding the project to have a federal building here and will use his very considerable influence to have the appropriation pushed through the house at the next session.

"If you will have your delegate in congress put in his bill for an appropriation for a federal building in Albuquerque," said Mr. Minor. "I guarantee that it will be included in the general appropriation next winter. This is a splendid city and has been a most agreeable surprise to me. You certainly deserve the appropriation and are as certain to get the federal building if you ask for it."

No matter how large or how small the book required, we can make it for you and guarantee satisfaction. The Mitchell company.

Colonist Rates to the Northwest.
Commencing September 15th and daily thereafter until October 31st, the Santa Fe will sell tickets to Billings, Butte, Helena and Missoula at a rate of \$33.95; Spokane and Walla Walla, \$36.45; Portland, Seattle and Tacoma, \$38.95. For particulars call on any agent of the Santa Fe. H. S. LUTZ, Agent, Albuquerque, N. M.

SULPHUR ABOUNDS IN THE JARILLA DISTRICT

BIG DEPOSITS WILL BE EXPLOITED WITH ADVENT OF SMELTER.

Correspondence Morning Journal. Jarilla, N. M., Oct. 15.—On the property owned by Garrett & Lewis, on Garrett hill, there is a body of native sulphur, that runs about 40 to 50 per cent and which carries as well some values in gold, silver and copper. The sulphur was opened in a trench and tunnel some years ago. Not until recently has any attention been paid to it, but it is believed, with the advent of the new smelter, that the ore bodies of this hill will be exploited. On the opposite side of the same hill, the Southwest company owns the Copper King group, which has been opened at numerous points, and that company thinks enough of the ground to have ordered a thorough examination of it, with a view to opening it up to the best possible advantage.

There is no doubt now but that the drift being run in the first level north of the Lucky, is to continue until it reaches the ore exposed on the surface. The face of the drift at the present time is filled with iron, and that it is rapidly approaching a large ore body is not questioned by the manager.

The Alice property, owned by Al Culver and associates, of El Paso, is developed by a shaft sunk on the edge of the desert, to a depth of nearly three hundred feet. This shaft is sunk in the dyke, alongside one of the strongest leads ever exposed in the Jarilla mountains. The best of air is

obtained the entire distance. The shaft opened a series of caves, which are connected with an outlet which furnishes the best of ventilation. Ore has been raised, and ore has been exposed, but it has been the policy of the operators to gain depth, and then, with the ore exposed, to raise on it.

Mr. W. G. Kelly intends to operate the Francis J., the entire length of which there passes one of the strongest contacts in the hills.

The By-Chance, in which there is exposed forty feet of copper ore of high grade, is to be operated, so Mr. George Powell says, at the earliest possible moment. The ore is a heavy sulphide in character, being yellow and peacock copper, with occasional streaks of copper glance. The shaft is down to a depth of 100 feet, the ore is cut at the surface and it is exposed in the shaft for forty feet. A level is to be run from the 100 foot station.

Whitewash Your Chicken House
With Hahn's Eureka White Lime. Keeps out lice.

Railroad Men.
Get your train book covers from Mitchell's, at the Journal office.

Preserve Your Lawn.
Kill the worms with Hahn's Eureka Lime.
\$25.00—Second Class—\$25.00. Colonist Rates to California.
Commencing September 15th and daily thereafter until October 31st, the Santa Fe will sell tickets to all points in California at a rate of \$25.00, one way only; stopovers allowed. Call on any agent of the Santa Fe. H. S. LUTZ, Agent, Albuquerque, N. M.

THE GLOBE STORE
WEST RAILROAD AVENUE
BETWEEN
SECOND AND THIRD STREETS

THIRTEEN SALE

Is proving an eye-opener to many people who have depended upon so-called "special" sales to get reasonable prices—and then did not get them; price and quality never seem to fit. The goods offered at *The GLOBE STORE* "13" SALE are regularly carried in stock, and are sold at regular prices; but to convince Albuquerque buyers that *GLOBE STORE* price and quality are always right, for a limited number of days, we are giving every thirteenth purchase to the thirteenth purchaser absolutely free. Nothing in our large stock is reserved—every article, no matter what the price, is included in this offer—

Dress Goods, Knit Goods, Hosiery, Underwear, Lingerie, Household Linens, Comforts, Blankets

Gentlemen's Furnishings
Ready-to-Wear Trousers
Hats, Caps & Gloves
Diamond Brand
Prize Winning
...Shoes...
