SHRINERS WILL TAX LOS ANGELES HOTELS

ONE HUNDRED THOUSAND INVITATIONS TO THE CONVENTION.

Los Angeles, Oct. 27.—It is not at all unlikely that hotel accommodations will be at a big premium in Los Angeles the first two weeks in May 1906, the occasion being the convention of the Shriners, which will be held here from May 7 to 14.

One hundred thousand invitations are being sent out, 30,000 now being in the mails. Acceptances are being received daily, which indicate that every state in the union and Canada will furnish a big representation. The Shriners of San Francisco have contracted for the entire Ankershain hotel. They will arrive in four special trains and will bring their own band. The St. Louis Shriners will have headquarters at the Angelus. The Moslem Temple of St. Louis is spending \$17,500 for new uniforms, which will be worn for the first time during the convention.

Salaam Temple of Newark, N. J., will be at the Hollenbeck, and the Arizona delegates also will be at that hotel. A representative from Pittsburgh will be here this week to make the necessary contracts for Syria Temple. Ramesses Temple of Toronto, Canada, will conduct a special train and the members are arranging to bring the famous Kitty band with them. The week will be a busy one for the Shriners. The Fiesta will be an additional feature, whose existence for the visitors, and with the various amusements and drills now being arranged for it is expected they will not have an idle moment from the time of their arrival until their departure.

GRIMSHAW SAYS TWO MILLIONS

MANAGER OF SANTA FE CENTRAL GIVES SOME ASTONISHING SHEEP FIGURES.

S. B. Grimshaw, general manager of the Santa Fe Central in an interview given in Santa Fe yesterday, makes the assertion that two million sheep will move out of New Mexico this year to feeders and the markets. He says the Santa Fe Central has already moved 24,000 sheep this fall and has provided facilities for moving 54,000 more before November 1st. He expects the road to handle 200,000 head of sheep in November. If the Santa Fe Central moves 200,000 head during the season he estimates that the total movement of lambs out of the territory will be fully 2,000,000.

Santa Clara Troublesome.
People in the valley north and south of Espanola are holding indignation meetings to protest against the action of the Santa Clara Indians in shutting off their access to the woods north of Santa Clara creek, where they are accustomed to gather their winter wood supply. The matter of the closing of certain roads will be taken before the department in Washington.

Will Await Action of Congress.
Washington, Oct. 27.—It is the understanding that the efforts at treaty making between the United States and China will await the action of congress in the matter of attending to the Chinese exclusion act, in accordance with the expected recommendation of President Roosevelt in his next annual message. So far there has been utter failure on the part of the two governments to get together on a treaty.

SECRETARY WILSON'S GOATS GO INTO WINTER QUARTERS

MALTESE GOATS NOT YET READY FOR AMERICAN CLIMATE

Milk to Be Tried on Washington Babies.

VIGOROUS OBJECTION TO IMPORTED ANIMALS

New York, Oct. 27.—Secretary Wilson's sixty-eight Maltese goats, specially imported to supply milk for babies and invalids, have completed their stay in quarantine at this port and received a clean bill of health. Although these goats are of a rare breed, which has been held responsible for the transmission of the microbe of Malta fever, they have been subjected to no special tests during their stay at quarantine.

There have been no microscopical or bacteriological examinations of blood, or pathological tests, such as high medical authorities have declared necessary. The goats have been subjected to the ordinary observation by government inspectors, which is given to healthy blooded stock from England and portions of the continent which are free from animal diseases.

Instead of taking special precautions to prevent the introduction of disease, the goats have been treated as particular pets of the secretary of agriculture at College, Md. and the others will be sent to the Storr's experimental station at Storrs, Conn. It is proposed to test their milk producing qualities not only as to quantity, but as to its value for infants and invalids. The nearness of the Maryland station to Washington will enable the tests of the milk to be made among families in the national capital. The milk of the Maltese goat is said to more nearly resemble mother's milk than any that is produced.

The plan of scattering them widely over the United States has apparently been abandoned for the present, as the bulk of the flock is to be wintered in heated quarters in Connecticut. The sixteen goats sent to Maryland will also be specially protected during severe storms and spells.

Mrs. Claude Eggleston, a bride of a few weeks, is confined to her bed and under the care of a physician as a result of her grief over the troubles of her husband, who was arrested last Sunday on a charge of assault with intent to kill Salvador Garcia in Bear Canyon. Eggleston was committed to jail to await the action of the grand jury Tuesday by Justice of the Peace Chavez, under \$1,000 bond. Since his commitment and up to yesterday his young wife has been doing everything in her power to get bond for her husband, but has failed. She has now given up the struggle and has broken down under the strain. Eggleston married the young woman only a few weeks ago, taking her from a family on South Fifth street, where she had a comfortable home.

During the pursuit several hand to hand conflicts occurred and nearly thirty Indians were made prisoners. In addition to the wounded, who were left on the field of battle. Near San Jose de Guaymas Sunday four cowboys from the Prado ranch were slaughtered by a band of nineteen savages.
