pealed for assistance in getting information that would lead to his recovery. At this point the student sang "Where, Oh! Where is My Little Dog Gone." Then the "Dicky" songs were sung from the University song book and Dicky himself, the University mascot, was presented, in cap and gown, much to the amusement of those who had not before made the acquaintance of this little, fat dog.

Professor Asplund gave an instructive talk on an interesting subject, Friday morning. We do not usually have a fund of knowledge on ancient manuscripts, so the information given was new to many. In Rome, at one time the material for manuscripts was composed of skins, cloth, stones, etc. In classic times papyrus made from the pith of a reed, was used. The sheets were coated side by side until the entire roll would reach from 100 to 240 feet long, and would be put upon the library shelf as books are at present. They are unrolled from one side, and rolled again as read. A papyrus roll exists today in Paris which was written 2,500 years before the time of Christ. The constitution of Rome, written by Aristotle on papyrus was once found. The parchment was later used more in book form for pre-

paring the matter of the papyrus. Parchment was used for Christian works and papyrus for pagan literature. One of Prof. Asplund's former instructors has written a book on this subject, a copy of which may be found in our library.

## Some Sensible Advice

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

## Newbro's Herpicide

The Original Remedy that "Kills the Dandruff Germ."

### THE HUNTERS CAME TOO LATE!

Their Faithful Dog has pointed out the True Remedy to Prevent Baldness, but the Hunters came too late—Chronic Baldness is incurable.

**HERPICIDE A HAIR SAVER**  
Newbro's Herpicide saves the hair by destroying the germ or microbe that is now known to be the cause of dandruff, falling hair and baldness. In chronic baldness the hair follicles are completely atrophied, causing the scalp to shrink and shine. Little can be done in such cases except to save the remaining "fringe," and this is well worth saving, for it offers some protection against the cold.

The "Hair Grower" is a fallacy. It requires but a slight knowledge of Anatomy to know that the hair gets its life and strength from the hair-papilla at the bottom of the hair follicle, and the papilla in turn gets its nourishment direct from the blood; therefore nature is the only true hair grower. There are enemies of hair growth that cause hair loss and baldness. Invisible microbe growths enter the sebaceous glands, situated at the top of the hair follicles. (Dr. Sabouraud, of Paris, says the microbe usually enters the scalp in youth), where one colony after another is established, until finally, after months and sometimes years, there is dandruff, itching scalp and falling hair. The Sebum also solidifies, causing dry, crusty and brittle hair. Destroy this microbe growth with Newbro's Herpicide and protect the hair against re-infection, and it will grow as nature intended.

**SPEAKS WELL OF HERPICIDE.**  
It affords me great pleasure to speak a kind word for Herpicide. While I have only used it a short time, I have received very satisfactory results, and take pleasure in mentioning it to my friends.

MRS. MARSHALL RIDDICK, Carlsbad, N. M.

**SURE TO DO THE WORK.**  
Herpicide is the only thing for the scalp. It is sure to do the work, and is all you claim for it.—W. W. ATCHISON, Cerrillos, New Mexico.

## University Notes

Foot ball every Saturday. Keep up with the score and watch the "varsity win."

The college students gave a unique reception to students and faculty on Saturday night in the large hall. It partook of a weird ghostly nature, but came out all right.

Those who took part in Thursday's rhetorical were Misses Hart, Brainard, Neher, Jones, Imelda, Espinoza, and Margaret Kenyon, who gave the lively production, "A Watermelon Episode." Mr. Allen Keller made his first appearance in a well prepared oration, Tuesday's rhetorics Miss Fay, recited "Battery B." Mr. Lawrence Hiram told quite well the story of "Doc Stebbins" by Eugene Field, and Mr. Charles M. Horton recited James Whitcomb Riley's touching little poem "Schain" At All to Six." Mr. Hertz's interpretation of the old man in this selection was remarkably good. That the student body appreciated this number was attested by prolonged applause in the effort to secure an encore. Mr. Horton appeared again on the platform, but his response was simply, "Nothin' At All to Six."

Wednesday's college sing took on a new feature. It seemed to be dog day. Professor Hodgins announced that a bright young shepherd dog known as "Tim" followed somebody to town the day before and was lost, and he an-

ounced for assistance in getting information that would lead to his recovery. At this point the student sang "Where, Oh! Where is My Little Dog Gone." Then the "Dicky" songs were sung from the University song book and Dicky himself, the University mascot, was presented, in cap and gown, much to the amusement of those who had not before made the acquaintance of this little, fat dog.
