

FOR SHEEP PAID OUT IN PAST WEEK

OLD TIME COLORADO EDITOR HAS BEEN WATCHING MARKETS

W. R. McCrea, of Cripple Creek, Colo., who has been in Albuquerque for the past several days, left last night for his home in the great Colorado gold camp. Mr. McCrea has been in Colorado for many years past and was editor and proprietor of the first paper in the Cripple Creek district, which he established in that camp in 1898. He has made considerable money in mining, owned a large amount of good property and did well leasing.

"Colorado is a great state, but the coming country is New Mexico and Arizona," said Mr. McCrea at the station last evening before leaving. "I believe that New Mexico will be joined as a state to the Arizona at the next session of congress. Oklahoma and Indian territory are going to be made a state. According to my way of thinking New Mexico and Arizona will also get statehood and congress will be of its yearly squabble over this question."

The making of the two territories into one big state will bring untold prosperity. Mining and other industries will flourish and the territory will come out and settle. The resources of New Mexico and Arizona are as great or greater than Colorado, and with stock and the proper class of citizens, these will be developed.

"I think I will dispose of my property in Colorado and come down here and locate. One of your big industries, which is at present in a flourishing condition, is the sheep, goat and cattle business. I have met men from all sections of the country, particularly Colorado, and I think I am safe in saying that over half a million dollars has changed hands in this section in the past week for sheep and lambs. I like New Mexico. During the past year I have been all over the country and I have not seen a place of its size that will compare with Albuquerque."

Mr. McCrea hopes to be located in Albuquerque within the next three months, and will move his family here to take up a permanent residence.

50,000 Head Shipped Today.

Sylvester Bros. of Monte Vista, Colo., will ship 50,000 head of sheep and lambs to Colorado today, for winter feeding. The Sylvester Bros. own immense ranches in the vicinity of Monte Vista, in the San Luis valley in Colorado and will feed the sheep during the winter on alfalfa and peas. There are a great many buyers in the market at the present time and large shipments are being made daily to all points. Yesterday the cars were brought in eighty empty double-deck cars and these will all be loaded in the next twenty-four hours.

Bold Robbery in Prescott.

One of the boldest burglaries committed in this city for some time was reported to the police force Tuesday evening about midnight, says the Prescott Journal-Miner. A window in the rear of one of the rooms in the Union saloon block on Granite street was raised, the room entered, and a small savings bank, containing about \$37 in silver, belonging to a Miss Hicklin, was taken by the thieves.

About one hour later Officer Chas. Erwin arrested Albert Monroe at the Depot house and a few minutes later took John Smith into custody in front of the Bashford Burmister Co.'s store on Gurley street, charging both of them with the crime. He lodged Monroe in the county jail and Smith in the city jail. Both admitted their guilt to the officer.

AFTER STEEL RAIL MEN.

Santa Fe Management Investigating Quality of Material Furnished.

Chicago, Nov. 17.—The Santa Fe management is said to be making a rigid investigation to ascertain whether the recent wreck of the California limited was caused by a steel rail which was not standard in quality, as called for by the specifications furnished the makers.

The frequent wrecks which have occurred through the breaking of rails has led to the charge in several quarters that some carelessness in endangering the life and limb of the traveling public by furnishing the railroads with an inferior rail. The Santa Fe wreck occurred on a new piece of track which had recently been laid with heavy rails supposed to be proof against any strain that a modern railroad train could bring to bear.

Other railroads recently have experienced similar wrecks, and there is now a general hue and cry against the steel manufacturers, who, it is stated, never before were so crowded with orders. This unprecedented demand for steel rails is said to have caused some carelessness in the manufacturing process, which sometimes results in a rail below specifications and consequently unsafe.

No Secrets To Hide

WILLARD MAY HAVE WOOL SCOURING PLANT SOON

\$40,000 HAS BEEN SPENT ON IMPROVEMENTS SINCE JULY

Col. William M. Berger, who left last night for Willard, Torrance county, informed the Journal yesterday that over \$40,000 has already been spent on building and other improvements at that place since last July and that it is one of the coming towns of the territory. The latest announcement is that negotiations are now in progress looking to the erection of a complete wool scouring plant at Willard, to cost about \$30,000. Willard is the center of a big sheep raising country in the territory immediately tributary to the new town is one of the best wool producing sections of New Mexico. Col. Berger says that the wool scouring mill will undoubtedly be built, and intimated after some persuasion that other substantial industries will be located there in the not far distant future.

PEGOS VALLEY MEN MAKE FORTUNES IN APPLES

JUDGE TILLATSON CLEARS FORTY-FOUR PLUNKS A TREE

Mr. Boyd Williams, one of the well known and progressive citizens of Lower Penasco, was in Artesia recently, and from him the Artesia Advocate gets some concise figures on the yield of some of the famous apple orchards on the Penasco, between Artesia and the Sacramento mountains. The figures are exact and absolutely reliable, remarkable as they may seem to people who know nothing of irrigated orchards.

Judge T. C. Tillatson has an orchard ranging from four to twelve years old and it paid him in market apples this season the sum of \$44 net, per tree. This was the average of the entire orchard at two cents per pound for the fruit, delivered at Alamo, sixty miles away. This is counting only picked apples and no windfalls are counted. His four-year-old Ben Davis trees average 440 pounds of apples, while in other countries trees bear little or nothing until six years old.

B. Cleve, the well known merchant at Elk, has 161 apple trees on one and a half acres. The proceeds of his sale of apples was \$1,800 for the one and one-half acre, or \$1,200 per acre. Besides this, there are now 10,000 pounds of windfalls on the ground. These are as good apples as the ones sold, but were blown from the trees and never put on delivery.

LEIGH'S RIVAL HELPED TO INDICT HIM

Attorney expects to save client's neck by appeal to supreme court.

Leroy Anderson, of Prescott, attorney for C. C. Leigh, under sentence of death on the scaffold at Kingman, December 8, has been in Phoenix in the furtherance of a project for the saving of his client's neck. He has had two documents before Governor Kibbey regarding the transaction of either one or both of them. One was an application for a stay of proceedings, says the Phoenix Republican. No action was taken on either.

After his presentation of the case the governor told him that in any event it would not be proper for him to interfere in any way until after he had exhausted every legal resource in behalf of his client. So far there has been no appeal to the supreme court, or other remedy asked for and the governor feels that it would not be right for him to consider the matter at this time, either favorably or otherwise. The transaction of the case resulted in the conviction of Leigh was received at the governor's office several days ago.

The crime for which Leigh was convicted was the murder of Jennie Batters at Acme on September 3. She was a notorious character and had lived in northern Arizona for many years, longer at Jerome than elsewhere, and at one time or another had lived with Leigh. Their relations were of that nature at Acme and the murder resulted from a quarrel incited by the jealousy of Leigh over the interest the woman was taking in another man.

Mr. Anderson says that he will no longer pursue his request for action by the governor at this time but will proceed to the perfection of an appeal of the case to the supreme court. He says he is better able to do this now than he has been before as he recently learned that one of the members of the grand jury which indicted Leigh and who was very much interested in securing his conviction, was the man over whom Leigh and the woman quarreled.

Costilla Case Compromised.

The case of the Protective association of the town of Costilla versus the United States Freehold Land and Irrigation company, which has been on trial in the First judicial district court for the past three weeks, came to an abrupt end yesterday afternoon at 4 o'clock, when the attorneys for both sides got together in Santa Fe, and by making mutual concessions in a written agreement caused the case to be decided by agreement, instead of continuing with the expensive hearing of witnesses and letting the case be tried on its merits.

May Retain Land.

It is understood that by the agreement the settlers now in possession of the land in and around Costilla will be allowed to retain a certain amount of land for a certain length of time.
