CROWD BRAVES BAD WEATHER TO SEE OLYMPIC GAMES

LONDONERS TURN OUT FIRST TIME OF SEASON

Queen of England From Royal Box Cheers Danish Athletes; British Take Majority of the Events.

London, July 18.—If every day on which the Olympic games are held were only Saturday there would be some chance of their proving a success from the point of view of attendance. Londoners showed today that given the opportunity, they will always support the games, whatever the conditions are, although every person who joined the Stadium this afternoon might have made the excuse that it was too wet to go anywhere.

The weather, however, was no respector of persons. Cloudy and dull all morning, during the progress of the archery and fencing contests, but

towards noon the sky cleared and it looked as though the afternoon would be fine. Instead, it was one of the worst days experienced in the week and there have been bad ones. The rain came down in torrents with few intervals, and the officials repeatedly had to stop the sports going on in the arena. The cyclists and runners were the only ones who ignored the weathering they had received, even the fancy divers being forced to call a halt in their contest half an hour, as the judges were unable to do their work properly. So far as the Americans are concerned, the day passed off without any unpleasant incidents such as that connected with the tug of war yesterday, while the Canadians had one of their grievances rectified, the officials of the cyclists' union at the last moment allowing Young, one of the Canadian riders, to start in the 100 kilometer race for which they declared yesterday that he did not qualify. It proved beyond dispute that this disqualification was the result of a mistake by an official who placed the Canadian one lap behind where he belonged.

France's protest, also in the cycling event, was added to by another today, as the winner of the 2,000 meter event, Schibler, claimed a foul, but the protest was not allowed.

In the matter of scoring, the United Kingdom completely outclassed the other countries, her athletes adding seven wins to their already good scores. These included the archery contests, the 2,200 meter steeple chase, the 200 meter breast stroke, the 100 kilometer cycling, the tug of war and the five mile race.

The only two other events decided, the discus throwing Greek style, and the fancy diving went to America and Germany, respectively, but America accomplished two things today, of which her supporters are extremely proud. In the first place, Martin J. Sheridan, of the first American athletic club, broke all previous records with the discus, at this style of throwing, making a distance of 128 feet, 8 inches, with M. P. Herr, of the same club, was second, also with a record breaking throw of 122 feet, 5 1/2 inches. The other accomplishment of which all the athletes are talking was the success of J. L. Ebbell, of the New York Athletic club, in getting the place in the 2,200 meter steeple chase. America never had any chance of scoring in this contest, particularly since Ebbell had run three of

the hardest races during the week. He was the only American who competed with the Englishmen in the distance race, and each race he had to fight against odds, being handicapped on one occasion by having several Englishmen pitted against him. Further he had suffered greatly with an injured foot. Just a little more stamina and a little more luck and Ebbell would have captured some of the distance events for America.

As it was, he ran a splendid, plucky race. There were four of the United Kingdom team, Russell Robertson, Brodway and Sewell, in this event, in addition to Ebbell and Galbraith, the last named representing Canada. The Englishmen took turns in trying to clear down the two others and succeeded in doing so with Galbraith, but Ebbell held on despite a nasty fall at the jump in the first lap and managed to annex third place with it. During this race, the first of the 200-meter breast stroke swim was pulled off and the United Kingdom triumphed, taking both first and second places. The third went to Germany.

Then the stars and stripes went to the masthead proclaiming the victory of the Americans in the discus throw. The flag got a rousing cheer, and when Sheridan H. Herr, walked out into the arena they were given an ovation by the American contingent, who were again present in large numbers.

In the preliminary heats of the fancy diving Germany took first and second places. All of the other finals went to the United Kingdom, Jones being the trick in the 500 meter cycling event, with France in both second and third places.

In the tug of war, the three police teams of the London, Liverpool and Metropolitan forces, respectively, gathered in the gold, silver and bronze medals. Bartlett added the 100-kilometer cycle race to his country's score and Vought closed a most successful day for the United Kingdom by taking the five mile race in 10 minutes. In the five mile event, Vought and

Owen, of the United Kingdom, Svandenberg of Sweden, and Hefcock, of South Africa, made up a little section of their own and went off to the front leaving the others, among whom was the American, Behlman, strung all along the track Vought, when they came to the last lap, ran away from the others. He crossed the tape some yards ahead of his team mate, Owen, with Svandenberg about the same distance behind the second man.

After a good deal of urging by the Americans, the Athletic association tonight allowed M. P. Halpin, manager of the American team, to see the drawings of the hurdles and sprints which are to be run off Monday. Except that drawings for heats in the 200-meter race, Melvin Sheppard, of the Irish-American Athletic club, and J. P. Halstead, of the New York Athletic club are drawn against one another, and J. Bromberg, Irish-American Athletic club, and H. P. Rames, Chicago Athletic association, are against each other in another heat, the results are not unfavorable to the Americans. But the American team suffered a severe loss today when W. C. Robbins, of Cambridge, Mass., had to start home on account of his father's death. He was one of the best hurdlers and had improved wonderfully in training since his arrival in England.
