Field Marshal von Hindenburg: Our troops advancing on both sides of the Riga-Takum railway, captured Russian positions and reached the Raganen-Kemmeren-Jaunneen line, west of Schlok.

West and southwest of Dvinsk strong Russian attacks were repulsed. The battle between Bionton and Ilsen lakes is continuing at certain points. Attempts of the Russians to advance north of Lake Dvinsk failed.

Near Orsk, a Russian aeroplane was forced to land. The pilot and observer were taken prisoner.

Army of General von Lindegen: The situation is generally the same.

Army of General Bothmer: Our troops were attacked near Sienkowiec, and are still fighting there.

Western theater of war: In the Champagne the French began a counter-attack at Tahure during the afternoon and were repulsed. The hill of Tahure which was taken by storm by our troops on October 20 remained firmly in our hands.

A French biplane was brought down south of Tahure on October 20 by Lieutenant Bockels, who thereby got his sixth enemy aeroplane out of battle. Several aerial battles took place in the neighborhood of Belfort, with good results for the Germans.

### BULGARS CONTINUE IN PURSUIT OF SERBIANS

Berlin, Nov. 1 (via wireless to Tuckerton, N. J.)—The Bulgarian headquarters report of October 20, as made public today by the Overseas News Agency, says:

The Bulgarian troops, continuing their pursuit of the enemy, have taken Biala Palanka on the railway between Piro and Nish.

In the Macedonian war theater the situation is unchanged.

Private reports from Saloniki say there have been terrible riots in Monastir, where the Macedonian population rose against the Serbian authorities. In the other Serbo-Macedonian towns the Macedonian bands are masters of the situation.

### GERMAN ATTACKS ON FRENCH ARE REPULSED

Paris, Nov. 1 (11 p. m.)—The following official communication was issued by the war office tonight:

In Belgium, in the sector of Louvain-la-Neuve, a very spirited bombardment by the enemy was accompanied by obvious preparations for attacks which the immediate intervention of our artillery prevented from being carried out.

In Champagne, Bouleuse, on the whole front between hill 132 and Tahure, as well as to the south of the village, the Germans bombarded our positions. They managed their trenches and set up machine guns. The heaviest fire of our batteries and machine guns stopped this attempt of this kind at an attack.

The Belgian communication reports slight activity of the enemy artillery. Freyzon, Nord-south and Poperinghe have been bombarded.

Army of the east: No news of importance occurred in the day of

### THERE IS A VAST ARMY

of men and women who really never know what it is to enjoy sound, vibrant health—who would be surprised to suddenly gain that exhilarating vitality that robust health brings.

Literally thousands without any particular sickness live in "general debility," as the doctors call it—have headaches, are tired and indifferent. To all such people we say with unmistakable earnestness—"Take Scott's Emulsion after meals for one month and allow its rare oil-food to enrich and enliven your blood, quicken your circulation, stimulate nutrition, and aid nature to develop that real red-blooded life that means activity, enjoyment, success."

Scott's Emulsion is not a drug, but a pleasant food-tonic—free from alcohol. One bottle may help you.

Scott & Bowser, Bloomfield, N. J.

## PROSECUTION IS CHARGED WITH UNFAIR METHODS

### Defendants' Attorneys Claim Attempts Are Being Made to Intimidate Witnesses in Matthew A. Schmidt's Trial.

BY MORNING JOURNAL SPECIAL LEADER WIRE  
Los Angeles, Calif., Nov. 1.—Charles that the prosecution was attempting to intimidate and threaten witnesses for the defense in the trial of Matthew A. Schmidt, charged with murder in connection with the dynamiting of the Times newspaper building October 1, 1910, were made today by the counsel for the defense.

The defense asked the court to forbid the district attorney and the grand jury making any further investigation of the case or questioning any witnesses or prospective witnesses during the progress of the trial.

Judge White declined to issue any order on the showing made, but said he would consider it further if affidavits were filed along the lines of statements made by the attorneys for the defense. Nathan C. Cochran, chief counsel for the defense, said he would have affidavits prepared and would present it to the court Wednesday.

The charges made by the defense brought sharp rebuffs from Thomas Lee Woodruff, district attorney, and his assistants, who intimated that further indictments for murder, growing out of the Times disaster might be made.

"I have told the district attorney that he has evidence enough to indict for murder people now in this court," declared James W. Noel, of Indianapolis, special prosecutor. "It is an attempt to get these persons out of the way by walking the streets of Los Angeles unhindered."

There are others implicated in this case who have not been indicted and it is the district attorney's sworn duty to continue the investigation," said A. H. Vanort, deputy district attorney.

Tomorrow being a holiday, court was adjourned until Wednesday. There are now seven and two temporary jurors in the box.

## Summary of War News of Yesterday

Krivoventza, Serbia's chief arsenal, has been captured by the Germans while the Austrians have taken the town of Biala Palanka, midway between Piro and Nish.

The fall of Biala Palanka is regarded as another step toward the capture of Nish. King Peter's war capital and the key to the railway to Constantinople and Saloniki.

The Germans in the Champagne region of France heavily bombarded the French positions along the front between hill 132 and Tahure, sending preparatory to another attack, but Paris asserts that the barrier fire of the French guns broke up the attack.

The Germans have again started an attack with the object of capturing Piro, and attacking from two sides, are declared to have gained additional ground. The Russians have taken the offensive in the region of Dvinsk, and Berlin says their efforts broke down with heavy casualties.

According to Berlin, more than forty thousand prisoners and one hundred guns of various calibers were taken on the Russian and Serbian fronts in October.

### GOVERNOR OF KANSAS AGAINST PREPAREDNESS

Topeka, Kan., Nov. 1.—A plea against militarism in the United States was voiced in an address before tonight by Arthur Capper, governor of Kansas. Governor Capper asserted that "in this wild hysteria for preparedness the west is keeping its head, but the nation as a whole has lost its balance for the moment."

War preparedness will cause the South American republics to be turned into armed camps, he said, which will result in a coalition against the United States. The United States, which will be acting as a confederator, such as we are now seeing as a result of this policy in Europe.

"I hope the people of Kansas will vigorously oppose the attempt of the eastern jugglers, the battalions of the United States, to stampede this country into a military program that prepares not for home defense, but for carrying war across the seas," Governor Capper said.

Governor Capper pointed out that the money needed to support the increased armament "have yet mentioned for the yearly expenditure in the future is \$450,000,000, a sum equal to the entire savings for a year of all the people in fifteen states of the union."

Governor Capper charged that certain interests are promoting "war hysteria" for selfish reasons. "We want," he said, "a preparedness which will give us reasonable assurance that this country shall not be wantonly attacked and that our own preparedness that will lead us to destruction."

### FRENCH STUDENT LIFE ONLY MODIFIED BY WAR

(Associated Press Correspondence.)  
Paris, Oct. 20.—The student life of France goes on unintermittedly, though somewhat modified by war. The mobilization drew more upon professors than pupils last year. This year's reopening of the schools shows heavier drafts have been made upon the students of colleges and universities. In the primary schools and kindergartens the absence, though less than the average, exceeds that of last year; the increase is made up largely of refugees that did not attend school last year.

At the Louis-le-Grand lyceum, the oldest in Paris, there are 100 students against an average of 1,100 a year. More than 150 of last year's pupils at this lyceum are in the army. Only 25 per cent of the usual number of students are registered at the Fine Arts school and other sections of the university have suffered equally the medical school even more, most of the professors being in the sanitary service.

In the art schools the tendency to modernism has not been shaken but it has been cleared of frills and ornamentation. The artist student is taught to take nature and improve upon what ordinary mortals see of it, but in such rational form that any one can readily distinguish forms and features.

## ASQUITH'S FATE DEPENDS UPON EXPLANATIONS

### Public Waits Premier's Speech; English Recruiting Progressing Satisfactorily; Khaki Is Defense Against Insult.

(SPECIAL DISPATCH TO MORNING JOURNAL)  
London, Nov. 1 (6:30 p. m.)—There has been a notable decrease in the political discussions and the attacks on the government in the past few days. Equally noticeable has been the growth of optimism regarding the success of Lord Derby's recruiting scheme.

Premier Asquith's speech in the house of commons tomorrow, unless expectations are disappointed, will be one of the most important events relating to Great Britain's conduct of the war. Some of the newspapers go so far as to say that the premier's political future depends on how he regards himself at this eventful moment.

### People Want Facts.

The principal matters which the country has been discussing and on which forecasts for a revolution of the government's policy have been put forth by the press and by numerous members, including some of the premier's friends, are the general Italian position, the government's policy regarding help for Serbia, the attitude of Greece and Rumania; conscription; the censorship; reduction in the size of the cabinet and the appointment of a general staff to have supreme direction of military operations. These subjects are being discussed before the house and will be dealt with.

The house of lords of late has been the arena for a free discussion of the events and policies of war than the house of commons.

Two prominent liberal papers, the Daily Chronicle and the Daily News, predict the formation of a new general staff, which probably will be a small body. The same papers say that an amendment of an "inner war committee" of the cabinet with greater powers than the war committee has exercised, may be made.

The Earl of Derby's proposal that the munitions workers and men properly suit for military service and results of the training list shall wear khaki uniforms appears to be popular and there is a probability that millions of British men will soon appear thus decorated. The position of able bodied young men in Great Britain without a uniform is an uncomfortable one these days. Young women offer them while feasters; people in the front care make sarcastic remarks, and recruiting bands yell at them in the streets.

The distinguishing mark of the khaki band will show the public that they are doing their duty or are willing to do it and rebuffs them of those humiliating attitudes.

### Arizona Freak Law Declared Null and Void

Supreme Court Hands Down Opinion Which Kills Act Which Discriminated Against Employment of Alien Labor.

(Washington, Nov. 1.—Upon the complaint of a cook in a Barber, A. L. E. restaurant, the supreme court today announced an unconstitutional Arizona act which forbids an alien law about a year ago by the vote of the people, under the initiative process of legislation. The statute required employers of more than five persons to employ not less than 85 per cent qualified citizens or citizens, Mike Hatch, an Austrian cook, upon being notified he would be discharged because of the law, appealed to the courts and when he won the state took the case to the highest tribunal.

The supreme court, through Justice Hughes, with Justice McReynolds alone dissenting, held that Hatch's constitutional rights as an alien to the equal protection of the law as guaranteed by the Fourteenth amendment to the constitution, were violated by the law and hence declared it null and void. The court announced that as a result of its decision it was not necessary to consider rights under treaties presented by the case.

Because of the similarity of the enactment to anti-Japanese legislation the case has attracted widespread attention ever since it was instituted in the federal court of Arizona, which held the law unconstitutional. It was presented to the court along with the New York alien labor law, forbidding employment of aliens on public works. The court today, however, expressly distinguished cases of private enterprises from those arising from the expenditures of public money.

## FILES PROTEST OVER SEIZURE OF STEAMSHIP

President of American Trans-Atlantic Company Grieved by Action of British Man of War.

(New York, Nov. 1.—A protest against the seizure of the American steamer Hocking by a British man of war which carried her, with a prize crew aboard, into Halifax Sunday, was lodged today with Secretary of State Lansing by Richard Warner, president of the American Trans-Atlantic Steamship company, the Hocking's owners.

"We had considerable difficulty in obtaining American registry," E. T. Chamberlain, United States commissioner of navigation, was suspicious of me, apparently because my name is German. The application was turned down by Mr. Chamberlain because, he said, he feared there was a German interest in this company.

Secretary of Commerce Redfield upheld Mr. Chamberlain. Finally, Secretary Lansing notified the department of commerce, after a long investigation, that there was no reason why registry could not be granted, and accordingly the Hocking was admitted to American registry on August 10.

"I know of no person whatever why the Hocking should have been seized. All officers of the company and all shareholders of whom there are fifteen, are native Americans, I myself, was born in Milwaukee, was engaged in the beet sugar interest in Wisconsin and later was in business as a structural steel contractor in Chicago."

### American Cruiser at Coronation.

Tokio, Nov. 1.—American interest in the coronation festivities now being held has been heightened by the announcement that Americans would be prominent in the celebration through the presence of the cruiser Saratoga, flagship of the Asiatic fleet, which has been ordered to represent the United States.

### W. B. Slaughter Surrenders.

Fort Worth, Tex., Nov. 1.—W. B. Slaughter, formerly president of the closed Metropolitan National bank at Pueblo, Colo., surrendered here today on a charge of embezzlement and was taken to Dallas immediately to await trial.

## Why careful mothers use Resinol Soap

There are three excellent reasons why Resinol Soap appeals so strongly to the mother who wishes to protect her baby's delicate skin from the eruptions and irritations which soften make life miserable for little folk: It gives a free, creamy and unusually cleansing lather, in either hard or soft water. Its ingredients are pure and utterly wholesome, with no trace of free alkali—that harsh, drying chemical which many soap-makers find too difficult and expensive to remove. And best of all, it contains the soothing, healing Resinol medication that physicians have prescribed for years, in Resinol Ointment, for skin affections—just enough of it to keep the skin soft and cool, and to make baby's bath an insurance against skin-troubles.

If the skin already is in bad condition, with patches of rash, chafing or eczema, a little Resinol Ointment should at first be used to help the Resinol Soap restore the natural health. Resinol Soap is sold by all druggists and dealers in toilet goods. For trial size cake, write to Dept. 15-9, Resinol, Baltimore, Md.

## KING GEORGE IS ABLE TO RETURN TO ROYAL PALACE

(London, Nov. 1 (8:20 p. m.)—King George, who was injured last week by being thrown from his horse while reviewing troops in the field, returned to London this evening.

The king arrived at Buckingham Palace at 7:30 o'clock. Although much fatigued by the journey his condition was officially reported as satisfactory. The king reached Victoria station by special train. Great precautions were taken to insure privacy, the greater part of the station being closed. The public exit was also closed but the elaborate nature of the maneuvers deflected their purpose, as they attracted crowds which lined approaches to a considerable distance and loudly cheered when the king's motor car appeared, followed by several others containing members of his suite.

### BULGARS INDIGNANT OVER MISTREATMENT

(BY MORNING JOURNAL SPECIAL LEADER WIRE)  
Berlin, Nov. 1 (by wireless to Bayville, N. Y.)—The Overseas News Agency today gave out the following: "In Sofia there is general indignation over the news from England that Bulgarians have been deported to the colonies and from Russia, where they have been exposed to the cruelties of mobs. Several Bulgarians have been tortured and their food and their properties confiscated."

## PROPERTY OF MADERO FAMILY CONFISCATED

(El Paso, Tex., Nov. 1.—The Madero family property in the Carranza-controlled territory, amounting to many millions, has been confiscated, according to reports from San Antonio, Tex. It was said that Albert Blaine, general manager of the Madero estates, has been given twenty-four hours to leave Torreon, and assisting him was a British subject, he refused, appealing to the British consulate at Washington.

The Madero family property includes extensive ranches at San Pedro de las Colonias, Parras and other points in Coahuila and includes a smelter at Torreon, Durango. Confiscation is said to have been based upon the report of the Madero family, given to General Villa. Other reports state that the Carranza officials are restoring to rightful owners, property confiscated by Villa and confiscating property of those who are alleged to have assisted Villa.

With the exception of Julio Madero, a former colonel of General Obregon's staff, the Madero family is reported barred from Mexico.

How to Prevent Croup. It may be a surprise to you to learn that in many cases croup can be prevented. Mrs. H. M. Johns, Rida, Ohio, relates her experience as follows: "My little boy is subject to croup. During the last winter I sent a bottle of Chamberlain's Cough Remedy in the house, and when he began having that croupy cough I would give him one or two doses of it and it would break the attack. I like it better for children than any other cough medicine because children take it willingly, and it is safe and reliable." Obtainable everywhere.
