THE NEW YORK LIFE DID BIG BUSINESS IN THIS STATE LAST YEAR
Elsewhere in the Morning Journal of this issue is the annual statement of the New York Life Insurance company.
The patrons of this company residing in the state of New Mexico, numbering over 3,000 and carrying insurance in the sum of \$7,755,560.00 will naturally be very much interested in and pleased with the statement of the company's financial condition as of December 31st last.
The showing made is a wonderful achievement of a life company, both as a whole and also in this state.
The New Mexico business of last year amounted to the magnificent sum of \$1,558,999.00 on a paid for basis, all written and placed on the lives of people within the state. This is the largest amount the company has ever paid for in one year in this state, reports Agency Organizer P. D. McLaurin of this city.
Naturally Mr. McLaurin and his loyal and able associates are very proud of their achievement and hope to surpass it in 1919. No doubt all policy-holders of the company will be glad to see the good work go on. Since this is a strictly mutual company, owned by its policyholders, the mutual interests of all justify the effort of each to "make it grow" and the agency expected to measure up in full to its opportunity and obligation.

CULBERSON HERE FOR OPENING OF COWMEN'S MEET

President of Association Says Storms of Last Few Days May Cut Attendance As Roads in Places Are Bad.

Victor Culberson, president of the New Mexico Cattle and Horse Growers' association, accompanied by his wife, arrived in Albuquerque yesterday to attend the annual convention of the association which opens at the Crystal theater tomorrow. There will be committee meetings at the Chamber of Commerce beginning at 10 o'clock this forenoon, but the convention proper will not open until Tuesday.

It is likely that the storm of the last few days will reduce the attendance at the meeting somewhat, especially from communities which are located at a considerable distance from the railroad. Mr. Culberson said last night that one delegation which started from Reserve, western Socorro county, had been compelled to give up the idea of making the trip on account of the roads being impassable, while on account of the heavy snow in San Miguel and Mora counties many stockmen, who had planned to attend, would probably not be able to reach Albuquerque. Other parts of the state have no doubt been visited by the storm and except stockmen who live near railroads it is quite likely that they will be compelled to remain at home, as it is impossible for automobiles to get through in many places.

However, the storm cloud had a silver lining. The attendance at the convention may be reduced somewhat, but the rain and snow insures an early and bountiful supply of grass and full water holes.
"The prospects for feed are brighter than they have been for years," said Mr. Culberson last night.
The storm, Mr. Culberson said, was quite general, as it extended as far south as Silver City and westward into Arizona. It also seems to have covered northern New Mexico and southern Colorado.
No further effort will be made by the stockmen, according to Mr. Culberson, to have the grazing fees on national forests abated, or even reduced. The government has shown very emphatically that no change will be made, and the cattlemen seem disposed to abide by the decision of the federal authorities.
W. R. Morley of Datil, another prominent cattlemen and member of the New Mexico Cattle and Horse Growers' association, arrived last night to attend the convention.

BIG APARTMENT HOUSE WILL BE BUILT SHORTLY

Plans Drawn for \$100,000 Building Which Will Stand at Northwest Corner of Central and Broadway.

The Albuquerque Investment company, of which W. C. Oestreich is president, will build a large apartment house in the highlands, at the northwest corner of East Central avenue and Broadway. The cost will be from \$100,000 upward Oestreich said yesterday, depending upon the size of the building that the company decides upon.
The company has had plans drawn for a four-story building, but may not build more than three stories this year. The three-story building would have seventy-nine apartments, all but seven having sleeping porches. Their size would range from one to four rooms and all would have baths. The four-story building would have 105 apartments.

It was planned to start work as quickly as possible, Mr. Oestreich said, but he did not believe it would be possible for the company to begin before May 1. Once the work has been started the building will be rushed to completion to aid in relieving the demand for dwellings which has caused the Chamber of Commerce to advocate the building.
The building will occupy a ground space of 142 by 142 feet and will be built of brick.
A perspective drawing of the building, made by E. H. Norris, architect, has been placed in one of O. A. Mattson & Co.'s store windows.

OWN-YOUR-OWN-HOME CAMPAIGN IS PLANNED BY LABOR DEPARTMENT

Complete plans, adaptable to any city in the United States, for an effective "Own Your Own Home" campaign, have been formulated by the department of labor and the literature is ready to be distributed through the division of public works and construction development of the department. Twenty cities already are getting under way with their plans for home building and home owning.

To supervise the formulation of these plans, Paul C. Murphy of Portland, Ore., for two years working on "Own Your Own Home" work, was called to Washington in consultation with department of labor officials and several of the leading authorities on building in the United States. Mr. Murphy has drafted the campaign manual, now available for such cities and individuals as are interested in promoting home owning.
The "Own Your Own Home" bureau in the division of public works and construction development will serve as an advisory bureau to the management of these local campaigns, where requested, and will extend the fullest cooperation to every city in the country which undertakes a campaign.

The campaign plan contemplates a general committee made up of civic and industrial leaders, with someone whose standing in the community justifies his selection, as the chief executive official.
In the department of labor's plan of campaign the women, churches and labor organization play an important part. The entire campaign is pitched on a civic betterment plane rather than on a purely commercial basis and the appeal is more on the line of what each business group can put "in," rather than what it can get "out" of the movement. It is a one hundred per cent Greater City movement, having in mind only the incalculable permanent benefits to the community and the immediate helpfulness to the nation during the transition from war mobilization to peace production.

Men even object to serving on juries, and put up such preposterous stories to escape such service that one is almost forced to the conclusion that "all men are liars," the speaker said.
"The boys who went overseas learned something about service," said the speaker. "They learned that every man has a duty to perform toward some other man. They learned what the Americans have not learned as a people."
Mr. Hanna scored the tax dodgers who fail to list all of their property for assessment purposes or, after it is listed, refuse to pay the amount of taxes due, seeking relief in the courts or through other avenues, hoping to obtain a reduction, which they are often successful in doing.

JOHN BLAKE, ONCE ROAD TAX COLLECTOR, DEAD

John Blake, who had lived here for the last seven years and who at one time was county road tax collector, died Sunday morning. Late in life he was in the hog raising business.
Mr. Blake was born in Ireland 54 years ago. No relatives live in the United States, and his closest relative of recent years was a sister who died a short time ago in Ireland.
The body will lie in state all day today at Strong Brothers' chapel and the funeral services will be held at 8 o'clock Tuesday morning at the Immaculate Conception church. Father A. M. Mandatari, S. J., saying mass. Burial will be in Calvary cemetery. Martin Tierney, B. Ruppe, O. N. Marron, John Callahan, John Heaven and D. P. McDonald will be pallbearers.
