## EFFICIENT HOUSEKEEPING

By LAURA A. KIRKMAN.

### SERVING SWEETBREADS FOR DINNER.

Sweetbreads make an ideal meat dish on the dinner table at this season of the year. The following menus are worth trying:

**Fried Sweetbreads**  
Baked Potatoes  
Asparagus  
Coffee  
Sago Pudding

**Fried Sweetbreads:** Put 2 pounds of sweetbreads in cold water as soon as you receive them from the butcher. Wash them well, removing the pipes and membranes. The matching them in boiling salted water to cover, for 20 minutes, adding 1 tablespoon of lemon juice to this water. Remove from fire, drain, quickly into cold water, and drain again and roll them in fine bread crumbs, in raw egg, then in bread crumbs again. Fry them in butter and serve hot.

**Sago Pudding** (contributed by A. S.): "Heat 1 pint of sweet milk with 1-2 tablespoons of sago (keep stirring constantly, as the sago is apt to lump); add sugar to taste (about 2 tablespoons) and simmer until the sago is clear. Then beat the yolk of 1 egg until light, adding to it about 1 tablespoon of cold water, and stir this quickly into the hot sago mixture. Beat the egg-white stiff, adding to it 2 tablespoons of sugar, and fold this into the pudding after

you have removed it from the fire. Also stir in 1 teaspoon of vanilla."  
Creamed Sweetbreads  
Boiled Potatoes, Peas  
Coffee  
Apple Fritters  
Cremeed Sweetbreads: Prepare the sweetbreads as just described above, and when boiled for 20 minutes cut them in small pieces and turn them into small individual casserole, or ramekins, with a cream sauce made by heating 1-2 pints of milk to the boiling point and thickening it with 2 tablespoons of flour mixed to a paste with a very little cold water; add a lump of butter the size of an egg and salt to season well. The sweetbreads should be barely covered by this cream sauce, and buttered bread crumbs are then sprinkled on top of each little dish. Bake in a hot oven for 25 minutes and serve at once.

**Apple Fritters:** Warm 1 cup of sweet milk and add to it the yolks of 2 eggs, well beaten, 2 teaspoons of granulated sugar, a pinch of salt, 2 cups of flour with which 2 teaspoons of baking powder have been sifted, and the 2 egg-whites, beaten stiff. Last, add 1 cupful of thin slices of sour apples. Drop this batter by spoonfuls into deep, hot fat. When a golden brown, lift out the fritters and drain. Serve them with maple syrup. (Half this amount is enough to serve a small family.)

## Social Calendar

Ideal Bridge club will meet with Mrs. Grace White, 221 North Fifth street, at 2:30 p. m.  
Ensemble Bridge club will meet with Mrs. Earl Porterfield, 611 West Lead avenue at 2:30 p. m.  
Monday Bridge club will meet with Mrs. B. F. Copp, 121 1-2 South Seventh street, at 2:30 p. m.  
Department heads of Woman's club will meet at 2 p. m.  
American legion auxiliary will meet with Mrs. Belle Nye at 7:30 p. m.  
Y. W. C. A. board of directors will meet at 7:30 p. m.

## WASH FROCK FOR COMING SUMMER

BY ELOISE.  
One dress manufacturer is going to win favor with many a woman this season because he has selected colored materials for his frocks which he guarantees will not fade. Neither the sun nor the wash will hurt the color he says. This frock pictured is one of many styles he is making. It is a simple model made in two tones, white and a color. This is possible, of course, because the color will not run.  
Hebrides, a linen type fabric, is the material used. It is made in a slip-over style and fastens on one shoulder. The blouse is white and the skirt and trimmings may be either pink, orchid, blue, green, or yellow. A low waistline, a narrow belt and pockets complete the dress which is suitable for many occasions in warm weather.

## GRILL OVENETTE IDEAL FOR HOME AND EMERGENCY

Apartment cooking is coming to be an important phase of house-keeping, for thousands of women with "office hours" have wearied of boarding house or restaurant cooking, and are keeping house with such emergency equipment as is available, making use, perhaps of a small closet or a corner of the room behind a screen as a kitchenette.

For this kind of homemaking, there is nothing so useful as the larger sized electric grill, which is furnished with a compact ovenette in which many satisfying meals may be cooked. Coffee and hot biscuits, muffins or other quick bread may be achieved in this little imitation range, and the following recipes are especially prepared for baking in the grill ovenette. It is better when possible to have installed in the baseboard or wall a convenience outlet for attaching the grill; although if this is not available it may be attached to a lamp socket.

- Emergency Biscuits.**  
2 cups flour,  
4 level teaspoonfuls of baking powder,  
1 teaspoon salt,  
2 tablespoons lard or other fat,  
1 cupful sweet milk.  
Mix and sift dry ingredients together. (There may be obtained at most 10-cent stores a tiny sifter holding a cup of flour). Cut the cold fat into pieces the size of peas or fork. Add milk until a soft dough is obtained. Drop from the tip of a spoon into greased gem pans, and bake in ovenette over grill, using high heat.
- One-Egg Muffins.**  
2 cups flour,  
4 level teaspoonfuls of baking powder,  
1/2 teaspoon salt,  
1 egg,  
2 tablespoons sugar,  
2 tablespoons melted fat,  
1 cupful milk.  
Mix and sift dry ingredients; add milk, well beaten egg, melted fat. Bake in ovenette with high heat about 15 minutes.

## DENVER'S ELECTRICAL HOME SAVES USER 84 DAYS LABOR A YEAR

Denver now has a model electric home, the forerunner of thousands of such convenient, cleanly, labor-saving dwellings. So keen was the interest in the model home, the Denver Electrical Co-operative League builder, was obliged to guard the place the past week to keep hundreds from swarming into it before the formal opening date—Monday.

Hundreds of people are now viewing the home daily, all of whom are deeply impressed with the numerous time- and labor-saving devices and appliances which range from an electric cigar lighter to an electrical toaster. Not only will the electrical industry benefit immediately through the sale of appliances to those who witness their application in the model home, but many will incorporate some of the ideas, including more numerous convenience outlets, in future homes.

Following is a list of some of the appliances in use in the home with an estimate of the number of days per year each saves to the user:

Electric Clothes Washing Machine	19 1/2
Electric Vacuum Cleaner	19 1/2
Electric Dish-Washing Machine	13
Electric Ironing Machine	13
Electric Sewing Machine	3 1/2
Electric Toaster	3 1/2
Electric Percolator	3 1/2
Electric Fan	3 1/2
Total	84 1/2

## FLASHLIGHT IS MOST WIDELY USED OF ANY ELECTRIC APPLIANCE

It is estimated that there are more than ten million flashlights owned or in daily use in the United States—or, in other words, one person in every ten owns or uses an electric flashlight. More than five million flashlights are sold each year, and more than twenty-five million batteries are required annually to take care of the flashlights already in use.

"During the twenty years that have elapsed since the first flashlight was produced there have been more than 550 patents allowed covering flashlights, hand lamps, and combinations involving flashlights. Thousands of uses have been discovered, all within the three broad groups of utility, convenience and protection.

While the flashlight is a lighting agent which is used for any number of different purposes and under a great variety of conditions, it should never be forgotten that as a light to be used in an emergency it has no other illuminating competitor. There is a big field for emergency work. The flashlight will take its place with the fire extinguisher as standard emergency equipment on steamers, railroad trains, theaters, hotels and for all public buildings.

## WIFE OF CROWN PRINCE OF GREECE VERY ILL

Athens, May 14 (By the Associated Press).—Princess Elizabeth, wife of Crown Prince George of Greece, and daughter of the king and queen of Rumania, who has been ill for some time past, is in a very critical condition. She is suffering from a pleural abscess.

## STUNT AVIATOR KILLED.

Vernon, Tex., May 14.—Ed Lirbeck, a Dallas, stunt aviator, was killed today when a belt strap holding his body to a parachute broke. Lirbeck fell 2,000 feet.

## ELECTRICAL NOTES

As its newest model in cabinets for its electric sewing machine, the White Sewing Machine company, Cleveland, Ohio, is offering a three-drawer utility stand which, when opened, reveals the sewing machine ready for work. The stand may be had in walnut, golden oak or mahogany. The machine itself has the usual features of other "White" electric sewing machines, including knee control.

In 1913 the export of electrical goods amounted to \$28,545,000. In 1921 it had increased to \$38,652,000—roughly speaking, 250 per cent increase.

The ordinary electric toaster, the kind in use every morning at the breakfast table, has been put to novel use as part of the equipment of a prominent oculist at Columbus, O. At each of the fitting tables of this oculist's establishment is a toaster, which is used to heat the frames of tortoise shell glasses so that the glasses can be bent to the required position for proper fitting at the wearers' temples. The oculist says that he looked around for a long time to find a satisfactory heating arrangement until he hit upon the electric toaster.

In 1906 there was one telephone in the country for every 30 people. Today there is a telephone for every eight people.

For owners of swinging wringer washers, who do not have stationary tubs, there are now draining tubs and bench which, when not in use, fold up. Both may be put in a corner or out-of-the-way place when not in use. The bench is constructed of wood, firmly braced, with legs which fold into the frame when not in use. Rubber plugs fit in the drain of each tub. A permanent drain runs from the center of each tub to the center of the bench, where it connects with the removable drain.

There is at present only one electrical store for every 5,600 people in the country. Some day they will be just as common as grocers with which there is one for every 220 people.

## UNIQUE LIGHTS ARE FASHIONED FROM ANTIQUES

Among the metropolitan shops showing electrical novelties there is one which makes a specialty of creating lights of antiques, such as glass, china and porcelain vases and jars and silver and gold stand ornaments.

Patrons of this shop who have collected antiques and souvenirs from far places and have found no places for them in their homes heretofore except in the garret, are charmed to realize that such lovely and quaint ornaments may become most useful, fill particular places and shed their individual light upon things.

An artist in whose atelier has been created an East Indian atmosphere by decoration and furnishing had an ornament "probably cast in the period when room furnishing was made to look at," as the late O. Henry once gravely remarked. It was a sort of small tower or palanquin of filigree borne upon the shoulders of four silver elephants with ivory tusks. Its owner had it converted into a smoking stand, with electric lights placed beneath the ears of the elephants. A clear lighter was cleverly placed in one of the trunks.

Another light was made from a quaint souvenir of Japan. This was an old china basket of queer shape up the handle of which brilliantly enamelled Gesta girls crept and twined. The lights were placed in the basket, and a flower holder kept in the center so that the radiance filtered up from beneath the bright flowers which filled the basket.

A third clever light had been made from a Bohemian glass rose jar, for a boudoir light; and a pair of old vases sent to a New York bride by her New England grandmother were in the process of being made into night lamps for her suite.

## WOMAN MAY SIT IN U. S. CONGRESS BESIDE BROTHER

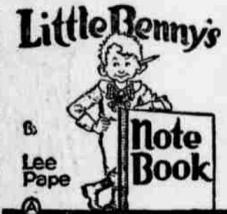

Miss Annie Webb Blanton and her brother, Congressman Thomas L. Blanton, (By Central Press.) Austin, Tex., May 14.—The next congress may see a brother and sister sitting beside each other in the house of representatives—Congressman Thomas L. Blanton, Albiene, representing the seventeenth district, and Miss Annie Webb Blanton, from the thirteenth district.

Miss Blanton is a candidate to fill the unexpired term of the late Lucian W. Parrish. Not only is she a candidate, but according to reports received from the district, she stands a good chance of being elected.

She is seeking election to congress on her record during two terms as state superintendent of education.

"Because Congressman Thomas

## Little Berrys Note Book

I went around to the store with ma today to carry some of the things, going more because I had to than because I thawt it would give me any pleasure, and on the way home we started to go past the front store and there was a lot of grate big oranges piled up, ma saying, G look at the oranges, if they was much bigger and not so red you mite think they was candelopes.

Wich ma stopped and looked at them, saying to the man, How much are the navel oranges?

3 cents apiece, sed the man.

Being a skinnie man with a fat mustash, and ma sed, Well I want 3, how much would they be sippose I took 3?

Well, I tell you, considering its you, I'll let you have 3 for 25, sed the man.

Thats fare enuff, sed ma, And the man put 3 in a bag, making another package to carry it me not minding it on account of wat was in it, and about 2 blocks fether I sed, G ma, holey smokes, 3 ates is 24.

Well wat about it, O you meen about the oranges, O my good-nims, I'll never trust a froot man agen, and he sed it so honestly too, dont you dare tell your father or he'll never get done teezing me about it, sed ma.

I wont tell him, ma, I'll jest be a secret between us 2, I sed, and ma sed, Thats a good boy, and I sed, Sure, I wouldnt think of telling him, ma, because I know how he would keep on laffing at you, hay ma, heers a good ice cream place, it will be a good chance to put down our packages a wile.

Well all rite, sed ma, And we went in and each had a ice cream soda, wich maybe wa wouident of if it hadent of bin for the 3 orindges.

L. Blanton is my brother I do not want to be elected, and for the same reason I do not want to be defeated," Miss Blanton said in her opening campaign speech.

"I am asking to be elected to congress because I have been an able state officer and an efficient state officer."

If elected to the unexpired term, Miss Blanton will be a candidate for the regular term.

If the first grocer you call on hasn't any left, try the next one. Don't let this opportunity slip by. It's all new stock and guaranteed to give perfect satisfaction or money refunded.

The time grows short. Act today!

## MRS. STILLMAN NOT TO MARRY M'CORMICK IS GUARDIAN'S CLAIM

(By The Associated Press.) Poughkeepsie, N. Y., May 14.—John E. Mack, guardian ad litem for Guy Stillman, today denied reports that Mrs. Anne U. Stillman would marry Fowler McCormick shortly after a decree is granted in the divorce action brought against her by her husband.

"The rumor is foolish on the face of it," said Mr. Mack, "for it is not Mrs. Stillman who is seeking the divorce. Moreover, she says she would not marry the best man living."

Regarding the theory that distrust for Fred Beauvais, the correspondent, actuated Mrs. Stillman's recent trip to Montreal for hearings there, Mr. Mack declared, "It is impossible to say anything one way or the other."

## CUT THIS OUT—IT IS WORTH MONEY.

Cut out this slip, enclose with 5c and mail it to Foley & Co., 2825 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound for coughs, colds and croup; Foley Kidney Pills for pains in sides and back; rheumatism, backache, kidney and bladder ailments; and Foley Cathartic Tablets a wholesome and thoroughly cleansing cathartic for constipation, biliousness, headaches, and sluggish bowels. Sold everywhere.

## Special To Women

The most economical, cleansing and germicidal of all antiseptics is **Paxtine**  
**A soluble Antiseptic Powder to be dissolved in Water as Needed.**

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ill it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At drugists, 50c. large box, or by mail, The Paxton Toilet Co., Boston, Mass.

**"Gold! Gold!"**

**BACK** in the '40's it took months for the thrilling news of California's gold strike to cross the continent. Today, a few hours after so important a discovery, the entire story would be known to newspaper readers throughout the country.

In the early days, news spread by word of mouth. Today, the telegraph and telephone speed the message into the newspaper office, it is rushed into type, the paper is printed and shortly the news becomes public property.

There are two kinds of news in the paper. One consists of the affairs of other people; their sayings, doing and what they're going to do; things that have happened, may happen and didn't happen.

The other kind of news is about **your affairs**. That's the part you'll find in the **advertisements**. There's a lot of valuable news there about things you want or will want; things that have to do with your own personal comfort, convenience and every-day efficiency.

Every advertisement carries a personal message to some one. Many advertisements carry messages of vital interest or value to you.

That's why you can't afford to miss the advertisements.

**READ THEM. THE ADVERTISEMENTS ARE DECIDEDLY VALUABLE TO YOU.**
