

MURDERED HER BABY

Mrs. Geo. Treischman, Formerly of Billings Commits a Horrible Crime.

ATTEMPTED THE LIVES

Of Her Other Three Children. But They Made Their Escape. She Is Insane.

Word was received here yesterday to the effect that an awful tragedy had been enacted at Mammoth Hot Springs, in the Yellowstone park, Saturday afternoon, in which Mrs. Geo. Treischman took the life of her youngest child, a boy about five years old, and then made an attempt to murder her three other children. It will be remembered that about two months ago Mrs. Treischman attempted to take her own life in the barn adjacent to her home in this city and would have succeeded had she not been discovered directly after cutting her throat with a butcher-knife. As soon as she was able the authorities removed her to Warm Springs, she having been adjudged insane. A couple of weeks later her husband removed the family to the park, where he had a position as mechanic. As soon as they were settled Mrs. Treischman, who had apparently improved, was released and removed to Mammoth Hot Springs with the family.

Just after 5 o'clock Saturday afternoon, without a moment's warning, Mrs. Treischman seized her youngest child and, in the presence of the three other children, cut his throat, almost severing the head from the body. She then made a determined effort to murder the other children, but after a prolonged and desperate struggle they escaped from the house with slight injuries. She rushed after them down the walk leading from the Treischman cottage, but soon returned and when found was seated in the center of the room, apparently satisfied with her work.

The United States district attorney at Cheyenne was notified of the affair and will probably have the woman examined as to her sanity at once. Since attempting to take her life at Billings, Mrs. Treischman has been cheerful and apparently in her right mind. It seems she was subject to fits of insanity and it is believed that she was in this condition when she murdered her child Saturday afternoon.

COMMITTS SUICIDE.

An Insane Man Jumps Off Corridor in County Jail.

C. R. Dwyer committed suicide in the county jail Saturday at about 3 o'clock by jumping from the top corridor cells to the floor, a distance of fourteen feet, striking on his head. His skull was fractured and he died almost instantly. Dwyer was taken in custody in the forenoon by Sheriff Hubbard, as he was thought to be either insane or crazy drunk. He claimed that some persons were after him, intending to kill him, and that he had run all the way from the railroad bridge across the Yellowstone to escape from them. He was not locked up in a cell, being given liberty to roam throughout the corridors. In the afternoon, while Jailer Harding had the other prisoners, with the exception of Murderer Brooks, out mowing the jail lawn, Dwyer went to the upper corridor, climbed to the top of the cells on the railing and then jumped to the floor below. The insane deed was witnessed by Brooks, who called to Jailer Harding, who, in turn, came in. He found Dwyer breathing, apparently all right, and being under the impression that the man had only jumped from a small chest in the corridor, he returned to the yard. When it commenced to rain he brought his prisoners into the jail and then noticed that Dwyer was still lying on the floor. Investigation proved that the man was dead. The coroner was called and an inquest held, resulting in finding the above facts.

Dwyer had only been here a few days, coming from Miles City. He was a piano player in disreputable houses and had come to Billings to follow that work. The remains were taken in charge and buried yesterday in the potter's field.

FORMERLY LIVED IN BILLINGS.

A Brother of Our W. B. George is Booming Oklahoma Real Estate.

The Daily Oklahoman of Oklahoma City, Okla., has the following to say of Clifton George, a brother of W. B. George, who resided in Billings about five years ago:

Mr. Clifton George was elected corresponding secretary of the club to succeed Mr. E. E. Brown, resigned. Mr. George is secretary and manager of the Oklahoma City Building and Loan association, and is one of the best known young business men of the city. He was born in Platte county, Mo., on a farm, and was educated at William Jewell college, where he was graduated an A. B. and later studied law and was admitted to the bar. He then moved to Billings, Montana, where he practiced law three years, when he returned to Missouri and accepted a position as cashier of the Latrop bank. He held this position five years and resigned to come to this city in September last. Mr. George was the originator of the building and loan company here and has been an active factor in business circles since he came. He is young, a good financier and will prove a valuable acquisition to the city club.

THE PRESIDENT'S VISIT.

He Will Come West to the National Park. Itinerary Not Yet Arranged.

A special to the Anaconda Standard from its Washington correspondent is authority for the following assurance: Senator Carter this week finally secured the president's promise to visit the Yellowstone National park, accompanied by Mrs. McKinley, this summer. The exact time of the visit is not yet known, nor is the itinerary arranged. The president starts on the western outing early in July, and first visits Minneapolis. It is supposed that he will go direct to Montana from Minneapolis, but this is a detail which seems to be unsettled. This is the third time since his inauguration that the president has decided to visit the park, but on both of the previous occasions he was compelled to alter his plans. Mrs. McKinley has long been desirous of visiting America's great wonderland, and it is largely to please her and benefit her health that the present trip is undertaken. It is yet too early to say who will be of the president's party, but it is known that he will be accompanied by several gentlemen prominent in his administration, and their ladies.

FORMER BILLINGS LADY DEAD.

Miss Mary Catherine Mooney Dies in Chicago.

The Chicago Times-Herald of June 1 publishes the following, which refers to a lady who was principal of the Billings schools in 1890-91. Miss Mooney had many friends here and the news of her death will be much regretted:

Miss Mary Katherine Mooney, eldest daughter of William R. Mooney, 286 Forty-second street, died at her father's home at 2 o'clock yesterday morning, after a lingering illness. Miss Mooney was the eldest of a large family of children, to whom she had been a devoted sister, as she was a devoted daughter, during all the years of her life. For a number of years she was a successful teacher in the public schools of Iowa, and later was principal of the public schools in Billings, Mont., but after the death of her mother, five years ago, she gave up her profession and devoted herself to the care and interest of her family. Miss Mooney leaves a father, sisters and brothers and a large circle of loving friends to mourn her loss. Interment will be at Oakwoods Monday morning. Funeral private.

Mr. and Mrs. Story of Ohio are in Montana to spend the summer. They have two sons here, Messrs. Walter D. and Chas. Story of Park City.

The grounds around the home of Mr. and Mrs. Wm. Mitchell are particularly beautiful this year. The shade trees, flowers, shrubs and fruit trees bear evidence to years of faithful care. They are among the first to secure such pleasing results in tree culture. This year they have added largely to their already good supply.

Trees in the Park City park were carefully watered last year and in consequence took on more growth than ever before in one year.

MURRAY GETS IT.

The Hunter's Hot Springs Property Finally Goes to the Butte Banker.

A deal was consummated in Livingston Friday by which James A. Murray of Butte will acquire all the interests of C. E. Mendenhall and wife to the lands, buildings and hot springs at the famous Hunter's Hot Springs resort. The deed of conveyance is placed in escrow until July, when possession of the property will pass to Mr. Murray, and Mr. and Mrs. Mendenhall will remove to their ranch on the opposite side of the Yellowstone. This will increase the capacity of the hotel, which will remain under the popular management of C. W. Savage. Messrs. Murray and Savage will also make other improvements at the springs in the way of summer pavilions for dancing and other diversions, and the necessary money will be expended to put the road in good condition between Livingston and that resort for vehicles and bicycles for the accommodation of the citizens of that place.

CAVALRY ORDERED OUT

To Prevent a Conflict Between Cheyenne Indians and White People.

Secretary Alger has directed the commanding general of the department of the Dakotas to order a troop of the First cavalry to proceed to the Tongue River agency and prevent a conflict between the Northern Cheyenne Indians and the white settlers residing in the vicinity. It is thought hostilities can be averted. Indian agent Clifford has called attention to the fact that there are many whites on the reservation, not all being bona fide settlers. If the former can be bought out and the squatters later ejected a great cause of friction between the Indians and the whites will be eradicated.

LATE NEWS IN BRIEF.

At a meeting of nine of the fourteen congressmen in the Illinois delegation, held in Chicago Friday, it was decided, after a four hours' discussion, to withdraw Mr. Hopkins' name and support Colonel Henderson of Iowa for the speakership of the house of representatives.

The interior department will soon issue rules and regulations for the government of the Mount Ranier National park in Washington, which was recently created by congress. No appropriation was made for the pay of guardians of the park and it is considered probable it will be necessary to place a troop of cavalry there as in the case of the Yellowstone park.

Marion Clark, the 21-months-old child kidnapped from her parents, Mr. and Mrs. Arthur Clark of New York City, on May 21, was discovered two miles south of Sloatsburg, a village about eight miles south of Garnersville, N. Y., Thursday afternoon. She was found at the farm house of Charles Youmans and was in the custody of Mrs. Jenne Wilson, who took the baby at the place during the early part of last week.

Diplomatic relations with Spain, broke off on April 21, 1898, were formally resumed Saturday, when President McKinley greeted the Duc D'Aros, the newly accredited minister to the United States, in the blue parlor of the White house. Simultaneously in Madrid, if the programme arranged

was carried out, Bellamy Storer, the United States minister to Spain, was being presented to Christina, the queen regent, during the legal minority of his Catholic majesty, Alphonse XIII.

In a speech from the throne at the cortes in Madrid Friday it was announced that the Mariano, Caroline and Palao islands were ceded to Germany by the late cabinet. Germany, it is announced, pays 27,000,000 pesetas for the Caroline, Palao and Mariano islands. Spain retains three coaling stations, one in each group, and Germany undertakes to defend these stations in case of war. Germany, in addition, grants Spain the most favored nation treatment in Germany and in the colonial islands.

Judge George K. Nash has been chosen by the republicans of Ohio as their candidate for governor. Nash is a leading attorney of Columbus, 45 years of age, and a widower. He has been prosecuting attorney of Franklin county, attorney general of the state, member of the supreme court, and during four campaigns chairman of the state committee. The platform adopted by the convention adheres to the principles declared by the St. Louis platform; endorses the great administration of McKinley; criticizes the principles and policy of the last democratic national administration, and mentions the restoration of prosperity and confidence and extensive growth of trade and commerce since the inauguration of McKinley. The magnificent achievements of the army and navy reorganized and the recent modifications in the civil service rules are commended, as is also the state legislature for passing the anti-trust law.

At 4 o'clock Friday morning Union Pacific mail and express train No. 1 was held up one and one-half miles west of Wilcox station in Wyoming by six masked men, evidently professional, who blew open the safe of the express car and carried away all the contents. The mail was not touched, presumably on account of the fact that four armed mail clerks were in charge. The mail and express runs as the first section of No. 1 overland limited. The second section follows five minutes behind. A bridge two miles from the scene of the robbery was fired to prevent the second section from coming up during the operations. A bridge in front of the train was dynamited. The trainmen were all covered with rifles and the robbers took their time. The value of the plunder is unknown, but it is represented as light. The sheriffs of Albany and Carbon counties with posse and the United States marshals are after the bandits, who are supposed to be members of the notorious "Hole in the Wall" gang, which has terrorized the state for years.

He Can Learn Something to His Advantage in Billings.

Matt Driscoll of the Cottage Inn is in possession of information that will be of advantage to one Hank Osborne, whose present whereabouts is unknown. He was then a single man and is now about 45 or 50 years of age. Nothing is known as to where his former home was or of his relatives. Information concerning him should be addressed to Mr. Driscoll or this newspaper.
