

Social and Business Life on the Huntley Project

PATRONS ASKED TO BOOST FAIR

Huntley Farmers' Club Issues an Appeal to Patrons of the Schools.

TRAINING IS VALUABLE

Opportunity of Child to Learn Use of Tools and in Doing Work in Farm and Garden.—Will Arouse Its Ambition.

Our foremost educators recognize the fact that the school studies of our children should be supplemented by work which trains the hand, the eye and the heart. Work which trains the judgment and skill, which arouses the ambition and creates an interest outside of school rooms and books. This is accomplished by giving the child an opportunity to learn the use of tools in the working of wood and iron, or the cultivation of a plot of ground in his own way, from planting to harvesting; also practice of the household arts. When this work is made a part of the school work, it assumes an entirely different meaning in the eyes of the pupil, than if made a part of his daily home duties.

Such work tends to broaden the life of the child, and gives him a knowledge of the practical things of life and fits him for citizenship and success. It has been found where this scheme of education has been inaugurated, that scholarship has been greatly improved.

The committee on education of the Huntley Project Farmers' club has planned to hold a school fair this fall and has submitted the plan to the pupils of the Huntley project schools, and has enlisted their interest in the work, and the response has been all that could be expected.

In order to make the First Annual School fair on the Huntley project a complete success, the interest and support of the school patrons, parents and friends of education is necessary and we solicit their help and sympathy.

County Superintendent of Schools Mrs. Morse, is heartily in accord with this movement and helped greatly in formulating it.

COMMITTEE ON EDUCATION, Huntley Project Farmers' Club.

Whooping Cough.
"In February our daughter had the whooping cough. Mr. Lane, of Hartland, recommended Chamberlain's Cough Remedy and said it gave his customers the best of satisfaction. We found it as he said, and can recommend it to anyone having children troubled with whooping cough," says Mrs. A. Goss, of Durand, Mich. For sale by all druggists.

Notice to Huntley Project Farmers

Please be prompt in sending in your replies to the crop statistics circular recently sent out by the reclamation service in order that the totals for the entire project may be obtained. These reports are of value in many respects. They will not only help in determining the productivity of our soils, but will serve to show the great variety of crops grown upon the project. Considerable information may also be obtained concerning the adaptability of our soils to the growing of certain varieties of farm or garden crops, or the production of pure bred farm or garden seeds. These reports, together with others to be collected later, will also serve as a basis for determining the efficiency of water on a variety of soils.

STOVES STORED.
We will get, store, black and reset your stove for \$3.00. D. Blanchard, Mutual, 1085; Bell, 381.

ROOSEVELT'S VIEW ON COUNTRY LIFE RELIGIOUS SIDE OF THE PROJECT

Message of a Thinker to the Workers Upon the Farms of the Country.

BETTER FARM LIVING HAS REGULAR SERVICES

Object of Farm Commission on Country Life Was Not to Help Farmer Raise Better Crops.—Organization for Mutual Advantage.

"The object of the commission on country life, is not to help the farmer raise better crops, but to call his attention to the opportunities for better business and better living upon the farm.

Those engaged in all other industrial and commercial callings have found it necessary under modern economic conditions to organize themselves for mutual advantage and for the protection of their own particular interests. The farmers of every progressive European country have realized this essential want and have found in the co-operative system exactly the form of business combination they need.

For just this reason the introduction of effective agricultural co-operation throughout the United States is of the first importance. Where farmers are organized co-operatively they not only avail themselves much more readily of business opportunities and improved methods, but it is found that the organizations which bring them together in the work of their lives are used also for social and intellectual advancement. The co-operative plan is the best plan of organization wherever the men have the right spirit to carry it out. Under this plan any business undertaking is managed by a committee. Every man has one vote and only one vote, and every one gets profits according to what he sells or buys or supplies. It develops individual responsibility and has a moral as well as a financial value over any other plan."

Huntley Personals.

J. C. Blanchard, statistician of the reclamation service of Washington, D. C., accompanied by Walter Lubkin, official photographer, spent Wednesday on the project securing views and data to be used by Mr. Blanchard at the Seattle exposition, where the reclamation service will conduct a lecture course descriptive of the various reclamation projects throughout the west. It is proposed to use in connection with the lectures views from each project showing the progress made since construction was commenced. This will doubtless aid materially in bringing before the people the wonderful development and opportunities of our great western country.

Edward H. Sackett was in Huntley Wednesday, taking the civil service examination.

E. F. Smith of the Worden district, was transacting business in town Wednesday. Mr. Smith reports a very favorable outlook for an exceptional cropping season in his vicinity.

Paul Sherman, who has been spending the past week at Huntley, looking over the project, returned to his home in Minnesota Saturday, after having filed on a unit near Newton. Mr. Sherman will return in the fall fully prepared to take hold of his new venture, bringing with him a full equipment of teams and implements.

M. E. Edson of Minneapolis, was in Huntley Saturday looking for a location. Mr. Edson has been growing seeds and bulbs for the L. L. May company.

Mrs. Ed Fessenden, wife of Canal Rider Fessenden, who has been quite seriously ill, is reported much improved.

The Rev. Billig left Monday for Missoula for a short visit among friends.

F. M. Newell, director of the United States reclamation service, accompanied by Supervising Engineer Savage, spent Sunday going over the project.

I. W. McConnell, supervising engineer of the United States reclamation service, in charge of the central division, with headquarters at Denver, Col., was inspecting the Huntley system the first of the week.

William Mustard of Pompeys Pillar, was in town Monday purchasing work stock for his farm.

Lee G. Hem of Selma, Ia., has been looking over the project the past few days with a view of locating. He has decided to locate near Worden.

Messrs. J. W. Bellison and Charles Wharton have been canvassing the project recently in the interest of the Billings nursery.

Dr. Graham was in Billings Monday, transacting business.

Quite a number of Huntley people were in Billings Wednesday evening to witness the performance of "The Merry Widow."

A social dance will be given by the Young People's club at Day's hall, in Huntley, tonight, Friday.

Dr. C. H. Bailey of Detroit is in town. Dr. Bailey is touring the west in search of a location, and is very much pleased with the Yellowstone valley.

A. P. Smith of Billings was in town Tuesday.

U. M. Goodshall, A. Wendling and T. N. Stevens of Parkasia, Pennsylvania, are looking over the project with a view to locating.

It is intended for those who appreciate quality, for those gentlemen who enjoy a thoroughly matured, rich Old Kentucky liquor—J. W. HARPER whiskey. Sold by the Exchange Saloon.

Church Interests Are Live and Growing Feature of Promising New Country.

HAS REGULAR SERVICES

Two Efficient Church Workers Are Caring for Spiritual Side of the People of the Project.—Energetic Summer Campaign Is Planned.

The Huntley project's church interests are a live and growing feature of this highly promising new country. Huntley, Osborn and Ballantine each have church organizations, and now enjoy preaching services regularly on Sunday and have very encouraging Sunday schools. These communities have also very enthusiastic Ladies' Aid societies.

At Huntley and at Ballantine services are held in the morning at 11 o'clock and in the evening at 8 o'clock; Osborn and Riverside have services in the afternoon.

At a joint meeting of church officers, held at Osborn Sunday last, at which Supt. G. J. Powell of the Montana Missionary society, was present, arrangements were made for a definite summer campaign. Beginning Sunday, May 30, the Rev. Mr. Billig will preach at Ballantine in the morning, at Osborn in the afternoon and at Huntley in the evening. The Rev. Mr. Gault of Chicago, will preach in the morning at Huntley, Riverside in the afternoon and at Ballantine in the evening. In this way, manned by two efficient workers, who will spend much of their time among the people on the project, the religious interests of the communities will be well cared for.

Announcements on this page of The Gazette will be regularly made regarding services and plans.

News From Anita.

The rain of last week did very little harm to the progress of the farmers, as they are all very busy again on their land.

Logan Everett of Iowa, spent last week with his parents, Mr. and Mrs. H. B. Everett.

The Anita school has closed a very successful year. Mrs. Smith, who has been teaching at the Anita school the past season, has left for her home in Stanwood, Wash.

Despite the inclement weather of last Thursday, the ladies of Anita very pleasantly surprised Mrs. D. C. Richards, the occasion being her birthday. Delicious refreshments were served during the afternoon.

Miss Della M. Majorowitz of Buffalo, Wyo., has been appointed to teach the Anita school for the coming year.

Miss Avis Yeates of Columbus, Mont., spent the week end with Mr. and Mrs. D. C. Richards.

The reclamation service has placed an engineer in this vicinity, who is assisting the farmers in properly locating their ditches, preparatory to a very successful irrigating season.

The settlers of the Anita district wish to extend to the irrigation farmer and his associates, through these columns, a vote of thanks and appreciation for the assistance they have rendered us this spring. The prospects for a bountiful crop in this section are very good. Mr. Marsh has proven himself to be well versed along the lines of irrigation, and his close attention to each and every farmer's interest is greatly appreciated.

Ballantine Briefs.

J. A. Griffith of What Cheer, Iowa, is visiting his daughter, Mrs. Alcorn. Mr. Griffith has taken a claim one and a half miles north of Ballantine.

The Royal Highlanders' lodge will give a dance in their hall next week.

A very interesting program was given by the pupils of the school Thursday afternoon. Professor Tucker and Miss Bryson are well pleased with the progress made by their pupils during the year.

Miss Phyllis Trask, Miss Lydia Roberts and Miss Hazel DeGroat took the examinations for eighth grade pupils and are now ready for high school.

Mrs. Wm. Helm of Nebraska, is visiting her father, Levi Brooks, who is very ill.

Mr. and Mrs. Heber leave next week for a visit to their old home in Seattle, Wash.

M. F. Trash has returned from a business trip to Broadview.

Three carloads of building material have arrived for the new depot and work will soon commence.

The Ladies' Aid society was entertained Wednesday by Mrs. Edgar Hobbs and Miss Dorothy Dodds.

Mrs. Sara Morse was down to hear the closing exercises of the school.

Mr. Marsh, the government agricultural expert, addressed a large and enthusiastic audience at the school house last Tuesday night. The ladies showed quite as much interest as the men in the various subjects discussed.

Mr. and Mrs. Frank Lyng report the arrival of a baby girl, born Friday, May 21.
