

SHE HAS FRIENDS.

Frivolous Attempt to Expel Ex-Queen Natalia from Servia.
BELGRADE, May 18.—The prefect of this city, charged by the regents with the duty of expelling the ex-queen Natalia from Servian territory, went to the latter's residence to-day and in spite of her earnest protests compelled her to enter a carriage which drove towards the quay on the Danube, where the royal yacht was moored. Students turned out in force and surrounded the carriage; detached the horses and dragged the vehicle back to the ex-queen's residence, cheering loudly as they passed through the streets. The prefect assisted by a force of gendarmes, tried in vain to regain possession of the ex-queen and several collisions took place between the gendarmes and the students. The regents are anxiously discussing the next step, as it is evident the ex-queen is not so friendless as some suppose. The citizens and merchants as well as the opposition party in Skuptchina, generally side with the ex-queen. Intense excitement prevails. Captain Natalia's residence is defended by the students. A conflict occurred late this afternoon, the troops firing upon the queen's supporters, killing two and wounding many.

STILL A MYSTERY.

No Trace of H. Jay Hanchette Yet Discovered.
CHICAGO, May 18.—The whereabouts of H. Jay Hanchette of Los Angeles is still unknown. One friend said Hanchette telephoned him on the 7th that he was going to Kansas City on the train and would go from there to Los Angeles. Inquiries are being made in railroad circles. A man who was one of the employes at the orange carnival says Hanchette told him May 6 he was going to leave the next day for Los Angeles via Yellowstone park.

Carpet Makers Dissatisfied.

PHILADELPHIA, May 18.—John and James Dobson, extensive carpet manufacturers of this city, imported a short time ago, a number of weavers from England to manufacture velvet. The importation caused great dissatisfaction among the old hands and to-day a large number struck. They claim the Dobsons violated the contract labor law, but the manufacturers claim the right to bring in men under the clause permitting it for starting a new industry.

SERIOUS FROSTS.

Heavy Damage to Fruit Crops in Different States.
DANSVILLE, May 18.—A real calamity befell the inhabitants of the Genesee valley Saturday night, in the destruction of an enormous prospective fruit crop by a blighting frost. Ice formed half an inch in thickness and it was the coldest snap of the season since 1858. George Stone of Stones Falls, who has a peach orchard of 40,000 trees, says the frost wiped out every vestige of fruit and there will not be a bushel of peaches on the whole place. The Dansville nursery industry received a blow financially that will run up into thousands. Hundreds of acres rendered worthless.
KALAMAZOO, Mich., May 18.—Frost last night did great damage to small fruits throughout the central and southern portions of the state.
HOLLAND, Mich., May 18.—Severe frosts the past three nights did great damage to strawberries, grapes and vegetables.

CROPS DESTROYED.

A Severe Hail Storm Creates Havoc in Texas.
NEW ORLEANS, May 18.—The Times-Democrat of Gainesville, Tex., special says: Many thousand dollars worth of crops were annihilated by the heavy hail storm last night, which fell to the depth of six to eight inches in a narrow belt of territory, crossing north Texas and the vicinity of Gainesville, where wheat, averaging 30 bushels per acre, was ready for the reaper. Not a head was left standing. The damage in the locality of Gainesville is at least \$100,000, while several other sections report damage nearly as great.

A number of hearings have already been assigned.

An Awo-Isleing Lie.

From the New York Tribune.
In all of the change of views now so prevalent among the clergy, most of it tending toward greater liberality in the idea as to future punishment, it is gratifying to see that no one has yet predicted any milder future state for the liar. The prospective portion of the liar is pretty definitely stated in Holy Writ, and we do not believe that there is anybody who wants to see it modified. There is no greater enemy of society than the liar. His bad deeds do not attract the attention nor the condemnation accorded to those of the burglar or of the highway robber, but they do a vastly greater amount of harm. How beautiful a thing is truth—and how rare! Usually the perverters of truth, whom we know as liars, are, at first, at least, thoughtless rather than vicious. In a sorry attempt to be humorous they forget the duty they owe to truth. The vice grows upon its hapless victims. From being, perhaps, good citizens, respected by all who know them, they gradually sink into common liars, undermining society and exerting a peculiarly hurtful influence upon the mind of youth. The liar should be legislated against the same as the lightning-rod agent.
While speaking on this painful subject it is our sad duty to announce the appearance of one of the most colossal lies of recent years. It comes from Nebraska and is a cold, plain lie without an extenuating circumstance. We repeat it only that we may denounce it and the man who tells it. His name is Thomas, and he is said to be an Alliance man with congressional aspirations. He would be a very dangerous man to have in congress. The story which he tells is this: He has a farm on the Missouri river bottom, near Elk Valley. A week ago the river began to rise and he saw that his land would all be submerged. He transferred his family and also his stock and movable property to higher ground. Here begins the lie, if, indeed, the farm, family and property are not fictitious. There was on his farm, so he says, exactly two miles of barbed-wire fence. It was five-wire fence and there were 32 bars to the rod, or a grand total of 102,400 bars. Yet this industrious liar and the other no less enterprising pretorator, the hired man, baited every one of these bars with a small bit of meat. They finished and escaped to the bluffs just as the water came up. For 26 hours the water remained five feet above the top of the fence. Then the river receded and the hardened and disreputable man Thomas went down and examined his fence. He found, so he has the assurance to say, a fish hanging from every barb except three, or 102,298 in all. There were pickers, bass, pike, suckers and many other varieties. They averaged ten pounds each in weight, giving him the astonishing total of 1,023,980 pounds of fresh fish. He discharged the hired man because he had not properly baited the three bars which failed to catch any fish.
