A FAMOUS RESORT BURNED.

Harry Hill's Old Place on Flushing Bay Destroyed. BROOKLYN, Oct. 30.—Late last night the pavilion known as Harry Hill's, on Flushing bay, was entirely destroyed by fire. The place was a well known resort of sportsmen. The building was a frame one, and the fire that started in the kitchen made rapid headway, leaving James McLaughlin, the lessee of the premises, but little time in which to escape with his family. No assistance could be rendered by the Flushing fire department, and the contents of the structure were entirely destroyed, entailing a loss of nearly \$15,000. The amount of insurance is not known. Harry Hill's, in days gone by, was one of the most popular places on the Long Island shore for chowder parties. Many prize fights have taken place in the main reception room, and it was there that Jack Dempsey made the real fight of his life against Jack Boylan. Two years ago Harry Hill gave the place up, and James McLaughlin, the present lessee, took hold of it. Dobb's Will Have Her. CHICAGO, Oct. 30.—The Inter Ocean's Terre Haute special asserts that Sunol is to be one of Dobb's string next season. He will have Sunol, Axtell, Nancy Hawks, McBar, McDoel and De marche. He intends to trot Sunol next season, having, it is alleged, secured Bonner's permission. Main-Sullivan. NEW ORLEANS, Oct. 30.—President Noel of the Olympic club has telegraphed Sullivan's agents in New York offering \$25,000 for the Slavin-Sullivan contest for March; also, a solid gold pitcher emblematic of the world's supremacy. THREE THOUSAND KILLED. Additional News of the Terrible Earthquake in Japan. LONDON, Oct. 30.—Dispatches received from Biogo, Japan, say the earthquake of Wednesday last destroyed the towns of Nagasaki, Gujo, and Osaka. All public buildings and most of the smaller structures were thrown down. A fire at Nagasaki completed the work of destruction. It is estimated that the total number of persons who lost their lives by the disaster will exceed 3,000. Many vessels are reported wrecked in the vicinity of Biogo, and during the seismic disturbances the waters of the lakes in the surrounding country was violently agitated. A few portions of the Nippon islands escaped the earthquake and Kobe suffered comparatively little damage. The number of Europeans killed was small. Various roads are blockaded by immense heaps of debris. Traffic on the different railroads is suspended, and all telegraph lines are entirely prostrated. Full details cannot be learned for several days to come. To Protect His Sister. SING SING, Oct. 30.—George A. Brandreth yesterday attached the property of his sister, Mrs. H. C. Symonds, for \$45,000. Mrs. Symonds is living on her farm at Los Gatos, Cal. Brandreth's attorney and the seizure was made to protect his sister's interest. She has been speculating in real estate and other things and has fallen into the hands of sharks, who were trying to fleece her. Shot by His Wife. NEW YORK, Oct. 30.—James R. Walden, aged 20, was fatally shot to-night by his wife Annie. Domestic troubles. Shaken By an Earthquake. ATHENS, Oct. 30.—This city was shaken by a severe earthquake early this morning, but not much damage done.

CRUSHED AND BRUISED.

Hundreds of People Injured by the Collapse of a Reviewing Stand. BALTIMORE, Oct. 30.—During a democratic parade this afternoon a portion of the reviewing stand, corner of East and Madison streets, on which were seated about 20 people, collapsed. Among the party was Senator Gorman, Frank Brown, candidate for governor; Congressman Compton and a number of ladies. As the head of the parade approached the stand, everybody pressed forward to join in the cheers for Senator Gorman, when suddenly the whole front of the platform gave way and the mass of people were precipitated into the street. The police at once went to work to extricate those who were under the timbers. It was found all of them were painfully injured but none seriously. Senator Gorman had his knees hurt, Mr. Compton's ankle was badly twisted and Robert McLane and several of the ladies painfully cut and bruised.

GIVEN THEIR LIBERTY.

Miners Tear Down a Stockade and Release 140 Convicts. KNOXVILLE, Tenn., Oct. 31.—Great excitement was created about midnight by the receipt of a report that 150 convicts were released at Briceville to-night and the immense stockade burned; that there was a battle between the guards and miners. All sorts of rumors were current until 2 o'clock this (Saturday) morning, when a gentleman came in with definite news. Three thousand miners surrounded the stockade, and the guards gave up the convicts who were furnished citizens clothes and the stockade was burned. The miners were surrounding the Cambria stockade when he left. All are armed with Winchesters. No one killed. One hundred and forty convicts are already released. Nothing further obtainable to-night.

To Improve the Army.

WASHINGTON, Oct. 30.—Adjutant General Keaton, in his annual report speaking of the system of examinations, for promotions, says the initiatory examinations have disclosed a gratifying degree of proficiency in regard to routine duties. All incapacitated have been retired, except seven, whose cases are pending. Recommendation for increased pay of non-commissioned officers is urgently renewed, and it is recommended that honorable service of not less than 10 years in the army shall constitute a claim on the war department for the appointment to certain civil positions. The actual number of commissions from organized commands of the army, is 62 per cent of the total mean strength. The moral tone and material interests of the army have been improved by the cadet system. The adjutant general makes many recommendations, among them that bounty be given to men on discharge after 10 and 15 years of faithful service.

An Excellent Plan.

CHARLESTON, W. Va., Oct. 30.—Articles of incorporation of the New York & Brazil Steamship company were filed to-day in the office of secretary of state. The company is composed of New York and Brazilian capitalists, and has an authorized capital of \$3,000,000. It is stated as soon as bonds can be placed and steamships bought or built, a line of steamers, supplemented by a number of sailing vessels, will begin making regular trips between New York and other Atlantic ports and Brazil. The president is Judge Dittenhofer; the vice president is ex-Postmaster General James; treasurer, John N. Hayward; directors, Messrs. Dittenhofer, James Hayward, Frank S. Gray, Rufus R. Wilson, Wylie J. Rouse and Meyer Hillman. Assurance of sufficient financial backing to float the enterprise, it is said, has been received from Brazil.

International Bi-metalism.

BERLIN, Oct. 30.—Jesse Seligman, the well known New York banker, has been in the city recently, furnished with credentials from the United States for the purpose of making inquiries among foreign financiers in regard to the possibility of arriving at some international agreement in the interests of bi-metalism. It is stated President Harrison and Secretary Foster are greatly interested in the negotiations. Seligman, upon leaving Berlin, seemed to have the highest hopes that matters as far as Germany is concerned are progressing toward an international conference on the subject.

Murdered His Sweetheart.

NEW YORK, Oct. 30.—Minnie Ronheimer, a 16-year-old German girl, was murdered to-night by William Miller, a young man who has been with the family for years, and looked on as Minnie's accepted suitor. He had not been caught at a late hour to-night. From the signs of the awful struggle in the room, it is evident that he tried to criminally assault Minnie, and that she resisted, until driven to madness, he took her life.

Will Accept His Resignation.

BOSTON, Oct. 30.—An Ottawa, Ont., dispatch says: Premier Abbott has informed Secretary of State Chaplain that he would accept the latter's resignation rather than yield to his demands. Abbott sent for Colonel Gamet, ex-speaker of the commons, and offered him the position in the cabinet now held by Chaplain, which Gamet declined until he could confer with his friend, the secretary of state.

By an English Tramp.

NORFOLK, Va., Oct. 31.—At an early hour this morning the United States Steamer Fern had a collision with the English iron steamer Igo, off Thimble lights. The Fern was badly damaged, but no one hurt.

Murdered a Priest.

BOSTON, Oct. 30.—The body of Father Hubertus has been found in a cell of the Cistercian monastery, near Montelinar. Murderers rifled the safe and escaped.

Landed in the Mountains.

BIRMINGHAM, Ala., Oct. 30.—The balloon bridal party came down safely last night in the mountains, 17 miles northwest of here.

The Crisis Over.

OTTAWA, Oct. 30.—The cabinet crisis is over. Chaplain will retain the secretaryship of state.

Six Lives Lost.

LONDON, Oct. 30.—The steamer Stella was wrecked at Batoum. Six persons drowned.

THE RAILROADS DID IT.

Saratoga Chosen as the Meeting Place of the National Educational Association. Special to the Standard. HELENA, Oct. 30.—The Independent has a special from New York saying that the National Educational association will meet at Saratoga in 1892 instead of Helena. The special says this result was brought about by the vote of J. M. Greenwood of Kansas City, one of the committee who visited Helena. He was not at the meeting, but sent his vote by letter for Saratoga. This made the vote stand 3 to 2 in favor of Saratoga in the executive committee. The members voting with him were: President Cook and Trustee Calkins of New York. The votes for Helena were by Stephenson of Kansas, who was present, and Garrett of Tennessee, voting by letter. Colonel Boodwater, William Muth, J. H. Lawrence and A. W. Lyman represented Helena. Saratoga and Seattle also had delegations. The special attributes Helena's defeat to the influence of eastern railroads against any western points.

Over the Red Boot and Shoe Store, No. 36 North Main Street, Butte, Between Park and Broadway.

CATARH, throat, lung and all blood diseases, which are speedily and permanently cured by my new system of "inhalation" of concentrated medicated vapors. As catarrh is the forerunner of deafness and consumption, each should be promptly attended to before it is too late. Causes of nervous debility, arising from youthful indiscretion, excesses in mature years and other causes producing nervousness, such as self-abuse, seminal weakness, night losses, sexual debility, loss of sexual power, blood disorders and imbalances, aversion to society, melancholy, indigestion, constipation, blotches, impurities to marriage, etc., leading to softening of the brain and insanity—all curable cases warranted to cure in a very short time. Recent cases in a few days. Charges low, especially to the poor. No matter what you have taken or who has failed to cure you. Do not trust your case to any specialist who has not made a personal examination of your human system, otherwise you will be disappointed by failure of treatment, if it does not make you worse. DR. SCHULTZ warrants a cure of every case he undertakes. His wonderful new remedy is the only certain and permanent cure in such diseases. It restores vitality and blood diseases cured without the use of mercury, and vital power restored by his new remedy. FEMALE WEAKNESS—symptoms of which are pains in the back and pains with burning sensation on the top of the head, with mucous discharge and a general feeling of languor, nervousness and depression, speedily cured by Dr. Schultz's new remedy.
