

THEIR MINUTE BUSINESS

The Methodist Conference Has Another Busy Day.

THE SMELTERS VISITED

Interesting Reports and Discussions—How Sunday Will be Spent—New Arrivals and Conference Notes.

Yesterday was a busy day with the Methodist conference, every hour of the day, from 8:30 a. m. till the close of the evening service, being fully occupied.

The business sessions of yesterday were of unusual interest to outsiders, demonstrating, as they did, the perfect organization of the Methodist clergy, and the strong bond of sympathy and fellowship that exists in the conference.

The audiences that have attended the sessions of the conference must have been encouraging to the members of the conference. They have been larger than ever before attended similar services in this city.

The session of yesterday morning was largely devoted, following the half hour of religious services, to what is known to Methodist conferences as "minute business."

The first item under this head was the reports of some of the pastors who were present on the preceding day, viz.: William Hall of Augusta and J. W. Tait of Dillon.

The committee on conference relations reported in the case of Rev. Nutting, finding that he was fully justifiable in not going to the work to which he was assigned one year ago, and recommending that his character pass.

him another opportunity of entering the thick of the fight in the name of the Christ whom he has long and efficiently preached.

Samuel J. Hocking reported his work, as reported by the examining committee and his presiding elder, and he was appropriately advanced in his conference studies, as was also Allen Rodgers, who has been "on trial" for one year.

After some notices, conference adjourned to meet at 4 p. m., the earlier part of the afternoon being devoted to a visit to the great smelter.

During the afternoon an interesting meeting of ladies was held at the Presbyterian church, addressed by Mrs. H. V. Wheeler and Mrs. Bishop Walden.

At the 4 o'clock session the bishop, in a very genial manner, and on behalf of the preachers of his district, presented Rev. W. W. Van Orsdal with an elegant gold headed cane.

As an hour and a half of time was consumed in this business, it was decided to be a remarkably long minute.

The question, "Where shall the next conference be held?" was taken up, and Helena, Bozeman, Columbia Falls and Miles City were placed in nomination.

After a full and free representation by the various persons interested, Bozeman was selected, and the secretary was instructed to communicate the thanks of the conference to the friends in Helena, Columbia Falls and Miles City for their invitations.

The conference then adjourned to meet at 7:30 to hear the annual missionary sermon by Rev. W. B. Coombe.

Conference Notes. M. P. Sipple and family of Butte are attending the conference session.

Methodists, both pastors and people, seem to enjoy an annual conference session.

The good wife of Lieutenant Governor Rickards came over from Butte yesterday afternoon to enjoy conference Sunday.

It is reported that Rev. J. Wesley Hill of Ogden, Utah, is soon to be a member of the Montana conference.

Rev. E. C. Hughes and family arrived yesterday from Salmon Falls. They are entertained by J. H. Egbert.

It is said the reading of the appointments will furnish several surprises. Who can tell where the lightning will strike?

Bishop Walden meets the Idaho conference at Payette, Idaho, on the 11th inst., and feels it necessary to take his departure from Anaconda at noon on Monday.

It is a frequent remark upon the streets that the Methodist preachers, now so abundant in Anaconda, are the happiest set of men ever seen in the town.

Those who make the above remark do not mean to apply it to the elongated countenances of some members of the bishop's cabinet. It is rather melancholy work to attempt to fly in the face of public sentiment.

Three electric cars conveyed nearly 80 of the members of the conference to the depot yesterday afternoon, where, under the guidance of T. R. E. Berry, they inspected the Lower works. Two hours were spent in the works, after which the visitors returned to town, singing the good old Methodist hymns that delight every heart.

Conference Statistics. Through the courtesy of the statistical secretary we are enabled to furnish our readers with the following statistics in advance of their presentation to the conference:

Total membership, nearly 2,200. Number of churches, 48. Probable value, \$17,000.

Number of parsonages, 24. Value of parsonages, \$31,940. Sunday school scholars, 4,070. Collected for missions, \$1,945. Collected for church extension, \$467. Paid for ministerial support, \$86,061. Paid for benevolences, \$608.

It should be remembered in this connection that three charges in Idaho have been segregated from the conference and are not included in these totals.

To-Day's Exercises. The conference meeting to-day will be held as follows:

9:00 a. m.—Love feast at the M. E. church, conducted by George Comfort. 10:30 a. m.—Public service at Evans' hall; preaching by Bishop Walden.

2:30 p. m.—Sunday school at the M. E. church. Address by Lieutenant Governor Rickards and Rev. J. W. Bennett. 3:30 p. m.—Ordinations, to be followed by memorial service for R. M. Canfield. 8:00 p. m.—Preaching service at Evans' hall. Sermon by Rev. Gardner D. Holmes of Butte.

The public is cordially invited to all these services. Bishop Walden is one of the celebrated pulpit orators of the country and Anaconda should give him good audience.

At the Presbyterian church, Rev. W. Rollins, D. D., of Helena, will preach at the morning service, and Rev. O. H. Sproule of Billings, at the evening service.

Lacrosse at the Park. The ball will be faced for the lacrosse game at 2:30 o'clock this afternoon.

The Anaconda team will put up a much stronger game to-day than ever before and the Butte boys are said to be clever players.

The players and their positions in today's game will be as follows:

The Equities in the Case.

From the Livingston Herald. The question as to whether or not the secretary of the interior has a right to shut out people from carrying passengers through the park except the National Park Transportation company, should be tested in the courts.

We submit that the secretary has no such right. Any party who complies with all the reasonable rules and regulations for the preservation of the curiosities of the park, has a right to carry passengers through the park if it is allowed at all. The question should be tested.

The Devil of It.

From the New Haven Register. We must protest against addressing Uncle Jerry Rusk, the head of the weather department, in any such terms as the following, in the *Northwich Bulletin*:

AN OPEN LETTER. To Satan: Respected Sir— We've had enough. (Signed) EVERYBODY. We know that Uncle Jerry is a very tough character, but to call him the author of all evil is indeed unfair.

Beaverhead or Dixon.

From the Dillon Examiner. Beaverhead county democrats look upon Hon. W. W. Dixon as a strong candidate for governor. Should Mr. Dixon consent they promise to "whoop it up" for him in this part of the state.

Stamped out—Blood-poisons of every name and nature, by Dr. Pierce's Golden Medical Discovery.

It's a medicine that starts from the beginning. It restores every organ into healthy action, purifies and enriches the blood, and through it cleanses and renews the whole system.

All Blood, Skin, and Scalp Diseases, from a common blotch or eruption to the worst Scrofula, are cured by it. For Tetter, Salt-rheum, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Glands or Thick Neck, and Enlarged Glands, Tumors, and Swellings, it's an unequalled remedy.

Don't think it's like the sarsaparilla. They claim to be good for the blood in March, April, and May. "Golden Medical Discovery" works equally well at all seasons. And it not only claims to do good—it guarantees it. If it doesn't benefit or cure, in every case, you have your money back. You pay only for the good you get. Can you ask more?

ON AUGUST 7, 1883, London was shocked by a fearful crime. Other tragedies of a similar character followed in startling succession until the mysterious murderer known as Jack the Ripper had butchered ten women. It has been claimed that Deeming, the murderer recently executed in Australia, was identical with Jack the Ripper, but of this no proof has been forthcoming.

A WONDERFUL WHIRL.

This was the odd expression of a quaint old gentleman who dropped in to see us yesterday. The remark was occasioned by the confusion of goods owing to a heavy day's trade. In fact, since we advertised our whole stock of summer suits at \$15.00 we have had work to keep our stock straight for the next day.

For one week more this wonderful cut sale will be kept on, and at the end of that time we don't want any summer suits in stock. Don't expect to if the same success follows as in last week's sales. Look them over. All at

\$15.00.

"McCarthy's Mishaps" will be the attraction at the opera house this week. It is a rollicking farce comedy, with little or no plot, but brim full of captivating specialty work.

It is rumored that Harvey Mahan and Frank Stebbins thought for a short time Friday that they owned Grey Rooster, the running horse. The result of the race, however, convinced them of their error.

Rev. P. J. Lindberg, superintendent of the Methodist Swedish mission in Montana, and Rev. Carl Erickson of Butte will conduct religious service at the Christian church this evening.

People who use the city water for lawn sprinkling and irrigating should be careful to shut off their hydrants whenever a fire alarm is rung in. This is necessary that the pressure may not be reduced.

Our celestial neighbor, Mars, was observed Friday night through Julius Gertiser's telescope. Owing to the fact that Mars was nearer the earth than he has been for 15 years past and will be for 15 years to come, there were a great many people who were anxious to know what our mysterious neighbor would prove to be. After the Methodist conference service, Mrs. J. W. James took the opportunity to invite half a dozen ministers to the place of observation, and despite the limited magnifying power of the telescope the observations were most satisfactory.
