IT IS THE LAST LINK

The Chain of Evidence Against Durrant is Complete.

MRS. LEAKE INTERVIEWED

She Tells a Local Paper What She Saw and It is Taken as a Great Boost for the Prosecution—No Jury.

San Francisco, Aug. 16.—A local paper says the last link in the chain of evidence against Theodore Durrant has been discovered. A woman, who lives across the street from Emanuel church, has reported to the police that she saw Durrant and Blanche Lamont enter the church at 4:10 o'clock on April 3, the day of Miss Lamont's disappearance. The woman's name is Mrs. Leake and she lives at 124 Bartlett street. She is 50 years of age and has been a member of the church a number of years. She knew both Durrant and Miss Lamont intimately and therefore cannot be mistaken with regard to identity. She says she has remained silent since the discovery of the bodies of the two girls because she did not wish to undergo the annoyance of being a witness in the case and did not consent to divulge her information to the police until she became convinced it was a duty she owed the state.

On April 3 Mrs. Leake sat at a window of her residence nearly all afternoon looking for her daughter, whom she expected to arrive from San Mateo. At 4 o'clock she saw a couple coming up the street, one of whom she instantly recognized as Durrant, but at first she was puzzled over the identity of the girl. As the couple came nearer Mrs. Leake recognized the girl as Blanche Lamont. Miss Lamont wore a girl's short dress and carried a package of school books. The dress and school books were afterward found secreted in the church. When the couple reached the church gate they stopped for a moment. Durrant opened the gate and they passed through. Mrs. Leake from her point of observation was watching them and when the girl stepped through the gateway she said to herself: "What an imprudent thing for her to do."

Mrs. Leake knew nothing detrimental to Durrant. She had always considered him "such an exemplary young man," but notwithstanding that fact, she thought it exceedingly imprudent for a girl to go into a church with him alone. She feared some one might have seen them and might make unpleasant remarks. She imagined they had some errand in church and expected that in a few minutes they would come out. She watched carefully, but the gate did not open.

There is only one entrance to Emanuel church during the week and that is by the side gate and rear door. Mrs. Leake knew the young people would have to pass through the gate and she waited to see them on the street again before she left the window. She waited a long time but her household duties finally called her to another part of her flat and she was obliged to give up the vigil. Mrs. Leake's testimony completes the chain of evidence against Durrant.

Three school girls saw Durrant and Blanche Lamont riding on a Powell street car at 3:30 o'clock on the afternoon of the day that Miss Lamont disappeared. Attorney Martin Quinlan saw a couple a few blocks from the church a few minutes before 4 o'clock. Now comes Mrs. Leake who says she saw Durrant enter the church a few minutes later.

Mrs. Leake's standing in the church of which she has long been a member is excellent, and her testimony is considered unimpeachable. The attorneys for the defense were somewhat disturbed in court to-day over the publication of Mrs. Leake's narrative. The prisoner also showed signs of uneasiness for the first time since his arrest. The defendant's attorneys declined to discuss Mrs. Leake's story, but admit its seriousness.

Out of 120 veniremen summoned in court to-day all but 22 were excused by the court on various pretexts. None of the remainder were accepted as jurors, and court adjourned until Monday.

THOUSANDS KILLED.

Many Were Drowned—Fearsful Wind and Rain Storm in J. pan.

San Francisco, Aug. 16.—Advises have been received from the orient to the effect that Japan was visited by a terrible storm on the 24th and 25th of July. These hurricanes swept across Klusha, passed along the shores of the island, crossed over the central districts to the main island and emerged into the Pacific ocean. Its track was everywhere marked by great loss of life and destruction of property, and as the catastrophe was followed by a heavy rain storm, inundations added their devastating effects to the havoc wrought by the wind. It is calculated that a thousand people were killed or drowned.

BOTH SHOT.

Several Reports Heard and Two Men Found Full of Bullet Holes.

Portland, Ore., Aug. 16.—At noon to-day the report of several shots in rapid succession were heard to issue from the office of Dr. H. R. Holmes in the Dekum building, Third and Washington streets. The tenants of the building rushed in and found the prostrate bodies of Dr. Holmes and Dr. Robert K. Aushland, each of whom was holding a smoking pistol in his hand. There were no other persons in the room. Aushland had a hole in his body and one in his head, another in his breast and another in his right wrist. Holmes was wounded in two places, one ball having entered the arm and the other in the body just below the left nipple. Aushland's wounds will undoubtedly result fatally, while the

physicians think Holmes will recover. It is not known just what was the cause of the shooting, but it is thought it was due to a criticism of Holmes on Aushland's method of treating a patient in the Portland hospital and that Aushland called at Holmes' office to make him retract.

CONDITION OF TRADE.

Breakfast's Report.

New York, Aug. 16.—Bradstreet's tomorrow will say: Summer quietness is more conspicuous than a week ago, though less so in industrial than in commercial lines. The increase in output and demand for iron and steel still continues. Gross and net railroad earnings returns for the first half of the present year show very satisfactory aggregate sales over last year's. Jobbers in more important staple lines at Chicago, St. Louis, Kansas City, Omaha, Milwaukee and Minneapolis also report an improved demand. The outlook at all these points is for an active fall business. Kansas City dealers do not regard an early advance in prices of live stock probable. At Omaha country merchants are said to be buying more freely than in former years. At San Francisco leading commercial lines are quieter. Hog packing is about to begin on the coast with an outlook of only a moderate crop. The wheat crop prospect in California is rather less favorable. Washington crops are good. Tacoma reports easier collections; lumber shipments are about equal to those in preceding months, and the receipt of \$300,000 tons of freight has been reported from the Orient. Throughout the southern states the general trade remains as quiet and in some instances quieter than a week ago.

"THAT IS THE MAN"

DRAMATIC DEATH-BED SCENE OF CLARA NEWMAN.

She Is One of the Army of Girls Who Loved Tom Will—Her Betrayer Under Arrest.

New York, Aug. 16.—Poor Clara Newman! Her unhappy life ended in her mother's home in Third avenue, and another was added to the already long list of victims of man's selfish passions. Clara was a blue-eyed, light-haired girl and she worked at the glove counter of an up-town store. She died from effects of medicine taken indelicately. The girl's condition was made known to the police in time for them to summon a coroner before her death and on the strength of her ante-mortem statement James Murray was arrested.

He was taken before her an hour before she died, and she protesting that it was an injustice to make her talk, identified the prisoner. After the ante-mortem statement had been made the coroner said: "Look at that man and tell me whether he is the man you have referred to as James Murray." The girl hesitated, sobbed and said that he was the man. At this moment the unfortunate's half brother, Emil Scheck, sprang forward and, shaking his clenched fist in Murray's face, shouted: "You wretch! Do you see what you have done?"

A detective pushed the young man aside and prevented the continuation of a scene in the girl's death chamber. Murray was held in \$5,000 bonds.

THEY WANT MR. HILL.

Colonel Cough Says It's the N. P. Bondholders Who Are Joking the Deal.

St. Paul, Aug. 16.—Col. W. P. Clough, vice president of the Great Northern, returned from the East to-day, he admitted, in reply to a question from a reporter, that his trip was in connection with the Northern Pacific deal. "The Northern Pacific is trying to get Mr. Hill, and not Mr. Hill the Northern Pacific," said the colonel. "The Northern Pacific stockholders have put the road into bankruptcy and the bondholders are trying to put it on its feet again. They have decided that Mr. Hill is the man to do this, and have made certain overtures to Hill."

"Are you at liberty to state what these overtures are?" he was asked. "No, I am not," was the reply. "All I can say is that they have reached an agreement with Mr. Hill and both sides are satisfied."

"Then you think that Mr. Hill will have entire charge of the road?" "I certainly do."

"How soon will the change be made?" "That I cannot say now. Nothing is yet in a state to be published, and it seems to me that what I have told you is all that the public can ask to know at present."

"Have any arrangements been made for transferring the property to Mr. Hill or putting it under his management?" "That is a subject on which I am not at liberty to speak," was the reply.

"You are not willing to state in what manner Mr. Hill will obtain control of the road?" "No, I am not."

Another Will Contest.

Reno, Nev., Aug. 16.—What appeared to be the opening gun in the contest for the late Senator Foley's estate appeared to-day in the form of a petition filed with the county clerk by the counsel for Vernon Harrison Hardley, the illegitimate child of the late senator and Mrs. Alice P. Hardley. The paper sets forth that Senator Foley had acknowledged the parentage of the child in writing before a notary public, and that one-half of the entire estate be made over to the child.

HEADING FOR HOME

The Boys at Old Fort Ellis Ready to March Out.

IT WAS A GRAND MEETING

Reading of the Several Orders—Much Praise Bestowed Upon Colonel Wallace—Kessler Flag—B. & M. Band Applauded.

Special Dispatch to the Standard. Bozeman, Aug. 16.—General routine work occupied the time of the Montana National Guard at Fort Ellis to-day. Governor Rickards, commander-in-chief, being present most of the day. Camp Lloyd breaks up at 3 o'clock in the morning, when special trains will be in readiness to take the soldiers to stations nearest their homes on the Northern Pacific and other Montana lines, and the grandest encampment the Montana militia ever had will be over.

The orders read at dress parade to-night were: "State of Montana, Adjutant General's Office: General Order No. 8: 'Colonel Kessler will issue the necessary instructions for breaking of camp on Aug. 17, 1895. Quartermaster's department will furnish necessary transportation. Lieutenant Zadort, regimental quartermaster, will after breaking of camp, take a complete inventory of all public property. Company commanders will leave all beds, sacks and other camp property including dishes, and the regimental quartermaster will take all such property on his return and account for same and generally all public property of whatever description belonging to the camp. After an accurate inventory of store they will be carefully packed and placed in charge of J. B. Christian, custodian, for safe keeping. All accounts against the National Guard will be rendered in person or by mail to the proper officers, but verified and at once forwarded to the adjutant general for action by the military board."

"The commander-in-chief, for himself and officers and members of the guard, takes with pleasure this opportunity of expressing his appreciation of the valuable services rendered the state by Lieutenant Wallace of the regular army. The task imposed upon him has been fraught with many discouragements, but the result of his service is apparent in the greatly improved morale and soldierly bearing of the troops under his instruction. Courteous and considerate to all officers and men alike, he carries with him the esteem and affection of the National Guard of Montana."

"To the colonel commanding and officers and men under him the commander-in-chief can express but words of commendation. The onerous duties of camp life are about to be concluded at Camp Lloyd, and to those who have attended and performed their several duties, many of them at personal sacrifice, under his instruction in due camps of instruction in this our formative period, are of necessity rude and imperfect, but I trust the lessons learned and the associations formed will in the first instance result in a vast benefit to the guard in the future, and in the organization of which we all feel proud. To the officers of the general staff, I desire to say no commendation is needed, each has contributed his share toward success and comfort of the present encampment and have reason to feel proud of the duties of their station. By command of J. E. Rickards, governor and commander-in-chief, first sergeant National Guard of Montana."

Camp Lloyd, Aug. 16, General Order No. 8. Believing that a spirit of competition leads to improvement in a command and with a view of stimulating interest in the progress of the regiment as a whole as well as in each company, the colonel commanding, as a mark of his interest in the welfare of the regiment, offers to that command the finest appearance, whose discipline, conduct and performance of duty is best, a flag of suitable size, bearing the coat of arms of the state of Montana, to be known as the Kessler flag. This flag will be awarded by a board appointed by the colonel of the First regiment, and its decision will be made the day preceding the breaking of camp following the encampment. The officer commanding the company to whose custody is awarded the Kessler flag will be responsible for its good care and safe keeping and it will be brought into the following encampment, there to be competed for by companies of the First regiment. If said regiment be disbanded the flag will revert to the possession of the donor. By order of Colonel Kessler.

General Order No. 9.—After orders regarding route and command of each company upon homeward journey closed with colonel commanding congratulating officers and men upon their uniform good conduct and discipline maintained during the present encampment and in light of the cooperation of the cavalry, U. S. A., he extends thanks for the courteous and efficient manner in which he has discharged his duties as instructor. By order of Colonel Kessler.

London, Aug. 16.—A meeting of the members of parliament favorable to currency reform was held in the house of commons to-day. Sir William Houldsworth, member from the northwest division of Manchester, conservative, who was a delegate from Great Britain to the Brussels monetary conference, presided. It was resolved to form a parliamentary committee, its members being pledged to promote an international conference for considering what measures can be taken to remove or mitigate the evils resulting from the fluctuations growing out of the divergence in the relative value of gold and silver.

The Omaha Problem.

Lincoln, Neb., Aug. 16.—The papers in the case to test the legality of the new fire and police board at Omaha were lodged with the clerk of the state supreme court to-day. Both sides were well represented by counsel. The attorney-general represents the board. The defense of the old board is on two grounds; first, unconstitutionality, and that the attorney-general and the third member of the new board had no authority to appoint, without the cooperation of the governor. It is also held that the act is in conflict with the state constitution, and Section 1 of the 14th amendment to the constitution of the United States.

London Bimetallists.

London, Aug. 16.—A public meeting was held to-day to hear an address on the silver question. Sir William Houldsworth, H. R. Grenfell and Hon. Alexander Delmar spoke in favor of bimetallism. Resolutions were adopted urging upon the government the necessity of joining other powers in an international agreement to settle the currency question.

He Was the Murderer.

Toronto, Ont., Aug. 16.—The inquest on the body of Nellie Pitzel was concluded to-night. The jury rendered a verdict of wilful murder against Holmes.

AN "OBJECT LESSON"

Secretary Morton's Idea of Treating With His Employes.

PAID THEM OFF IN SILVER

Pay Day at the Agricultural Department and the Bags of White Coin the Boys Carried Home—Some Kicks.

Washington, Aug. 16.—Secretary Morton of the department of agriculture gave what he regards as an "object lesson" to the employes of his department yesterday. He heard arguments by many of his subordinates in favor of silver. Yesterday being the semi-monthly pay-day, he ordered the paymaster of the department to pay out \$10,000 in silver coin, this money weighing 60 pounds. The silver coin was paid to all the employes about the grounds of the agricultural department, to messengers and well known silverites in various positions in the department. Unless Mr. Morton receives a petition to the contrary, it is said that silver will be paid out again and again to the men who are known to be favorable to it.

Advance in Wages.

Cleveland, O., Aug. 16.—An advance in wages ranging from 5 to 10 per cent, has been granted the wire drawers at the Cleveland rolling mills.

IN A DENSE FOREST

FUNERAL IN SPOOKDOOM AND THE BLACK-ROBED WOMEN.

A Little Coln Home at the Head of the Procession at Midway—It Stood His Hair on End.

Shreve, Ohio, Aug. 16.—William Johnson of this place has been wearing weights on the end of his hair for the past few days. Those of his friends who enjoy his confidence know the reason. He saw a sight down on the border of Ashland avenue which brought his hair up on end and it refused to lie down without assistance.

According to William's story he was driving through a dense wood at midnight, when his attention was attracted to weird sounds of music and mourning. Johnson does not believe in spooks or anything of that kind. Hitching his horse at the side of the road he started in the direction from which the sounds came. The full moon was shining and its light penetrated the wood faintly. He ascended an elevation and found himself at the edge of a little valley that seemed to be partly cleared.

Down the center of the valley moved a strange procession. A long line of young women marched, two abreast, dressed in black and each carrying a tiny torch in one hand and a phosphorescent cane in the other. They marched slowly, canting weirdly and moving their arms in peculiar and rhythmic gesticulations. Near the head of the procession four women robed in white carried a little coffin. Johnson stepped forward unconsciously, and fell over a dead branch that lay in his path. Instantly the procession stopped. It did not vanish in the regular manner of spooks. Every woman raised her cane and pointed it at the intruder. Two of the marchers started towards him and he ran for the road for dear life. Johnson jumped into the buggy and drove rapidly away just as one of the figures reached the road. She waved her cane angrily at him. For an instant the wood was lit as if by lightning. Intense darkness followed and when he turned his head to look for her the woman was gone. Johnson cannot explain the affair, and he has revised his opinion of spooks.

To Study Finance.

London, Aug. 16.—A meeting of the members of parliament favorable to currency reform was held in the house of commons to-day. Sir William Houldsworth, member from the northwest division of Manchester, conservative, who was a delegate from Great Britain to the Brussels monetary conference, presided. It was resolved to form a parliamentary committee, its members being pledged to promote an international conference for considering what measures can be taken to remove or mitigate the evils resulting from the fluctuations growing out of the divergence in the relative value of gold and silver.

Livingston's Tournament.

The Plan Meets With General Favor by All Who Are Interested. Special Dispatch to the Standard. Livingston, Mont., Aug. 16.—A largely attended and enthusiastic meeting of business men was held at the court house this evening to take action with regard to the state band bicycle and base ball tournament to be held in this city the second week in September. Permanent organization of the tournament association was effected by the election of J. H. Zimmerman, manager; J. F. Harner, secretary, and J. E. S. Windelhurst, treasurer. A finance committee of five was appointed as follows: John Harvey, E. H. Talcott, J. D. Finn, Maurice Rotah and J. F. Mercer. The committee on programme was appointed as follows: Band, J. H. Zimmerman; bicycle, F. A. Thompson; base ball, J. F. Mercer. Considerable interest has already been awakened in the forthcoming event in the various cities of the state and letters of inquiry concerning the tournament are coming in from all directions. The Butte & Boston band at Butte wrote to-day about the proposed event, and from the tone of the letter it is evident that that organization is quite enthusiastic over the forthcoming event.

From all over the state comes word

of encouragement. Enough money has already been subscribed to insure the distribution of \$5,000 in purses. A special rate of one and one-fifth fare for the round trip will be made by all railroads and the tournament is an assured fact. It is sure to attract an immense crowd and promises to eclipse anything of the kind ever undertaken in the Northwest.

Boy Killed and Several Injured.

Aurora, Ill., Aug. 16.—The Chicago & Northwestern passenger, leaving Aurora at 4:30 this afternoon, bound for Chicago, ran through an open switch a mile north of this city and collided with some freight cars on a siding. The passengers were thrown about the cars, but none received serious injury. Ten boys were standing on one of the freight cars. One of these was killed and five badly hurt. The car was loaded with sulphuric acid, which spilled, burning all the boys more or less. Thomas Rush, aged 15, was burned to death by acid and steam. Charles Chivers will die.

Died of Yellow Fever.

New York, Aug. 16.—Durt Hyde who was transferred from Hoffman to Swinburne Island, suffering from yellow fever, died this afternoon. He arrived from Havana by the Ward line steamer Seneca and was unable to produce a certificate of acclimation from Medical Inspector Burgess at Havana.

HE GOT THE GOODS

BUT IT TOOK HIM 20 YEARS TO RUN THE ERRAND.

Charlie Wright Returns to His Parents After That Interval With the Article and a Family.

Wilmington, S. D., Aug. 16.—Charles B. Wright, son of Lambert Wright, who was sent on an errand by his stepmother 20 years ago, and who had not been heard of from that day, returned last night with the article he had been sent to get together with a wife and four children. When the boy went away the Wright family was living at Fox Lake, Wis. Charles was ordered by his stepmother to go to the store. The boy was displeased, and instead of doing the errand, left town. A few years later Mr. and Mrs. Wright removed to this place, where they own a large farm. In the meantime the boy had gone to Monticello, Minn., where he, in the course of time, married and raised a family. A few days ago he learned that his father was living here, and came on a visit. Before going to the house he went to the store and purchased the article he was sent for 20 years ago and, armed with this, and followed by his family, marched in on the old people.

AS GOOD AS DEAD.

Determined Men Will Pay Off a Debt in the Usual Way.

Lexington, Ky., Aug. 16.—There never were such scenes in this place as were witnessed to-night. Last Wednesday Mrs. Mary Hudson, the white wife of a prominent farmer, was outraged three miles from this city by a negro. The woman's screams attracted the men from the fields. They found Mrs. Hudson unconscious and the negro had fled. The country was scourged by hundreds of armed men and bloodhounds and that night Henry Mitchell Smith was caught. He has been held in jail here ever since. To-night Mrs. Hudson positively identified Smith. This caused great excitement and a strong guard was placed around the jail. This did not prevent a large crowd from assembling at the jail. The crowd is orderly but determined. Nothing will probably be done until next morning when the crowd comes in from Payne station, where Mrs. Hudson lives. About 150 armed men are getting ready there for the march on the jail in this city. There are many armed men here determined to prevent a lynching if they possibly can, but the visitors can get help here as well as resistance. After midnight the crowd still remains near the jail and the neighbors are known to be coming.

For a Place of Refuge.

Washington, Aug. 16.—Acting Secretary of Navy McAdoo received a cable this morning from Admiral Kirkland commanding the European squadron announcing that the cruiser Maribhead had sailed from Greece for the coast of Syria. It is probable that the Maribhead will make only a short stay at Gibraltar, whence she will proceed to Syria, where her commander will be expected to cooperate with Minister Terzi in the investigation of the outrages on the American mission of Tarsus and Marsovan. The Maribhead will afford a place of refuge also for such of the Americans as desire a place of safety.

Fatal Explosion.

Dubois, Pa., Aug. 16.—A dispatch from Clearfield says that eight men were killed and 19 seriously hurt to-night by the premature explosion of a blast near Mehahey, on the Pittsburgh & Eastern railway. The telegraph offices in the vicinity are all closed and no further details can be had to-night.

A Boy Convicted of Murder.

Grand Haven, Mich., Aug. 16.—A verdict of guilty of murder in the first degree was returned against George Chesbro, the 17-year-old youth who killed his grandmother, Mrs. Mary Pierce. There was much surprise at the verdict as it was expected to be manslaughter.

Naional Republican Committee.

Washington, Aug. 16.—Senator Carter of Montana, chairman of the national republican committee, who is in the city, says that a call for a meeting of the national republican committee will be issued early in October, and that the meeting will take place in this city in November.
