SIGNS OF THE TIMES

Both Bradstreet and Dun Are Very Cautious and Conservative.

SOME GOOD INDICATIONS

Business is Falling Off in Volume at Several Points, but This May Be Due to the Time of Year.

New York, Nov. 1.—Bradstreet's tomorrow will say the volume of general business has been small, due in part to the drought in the West and Northwest. The commercial demand has been mainly for staples, but with a falling off in volume. Extremes are found in Cincinnati, where business has been dull, and at Kansas City, where it is up to the average at this time with heavy mail orders. Distributing centers of the Northwest from Chicago to Omaha, and Duluth to Sioux Falls, report a reaction in demand, which is likely to await the arrival of winter weather.

The larger eastern business centers feel the effect of a falling off of the demand at the West. At San Francisco improvement in prices is shown in a few lines, notably wheat. At Seattle the volume of business last month was larger than in September. Trade at Tacoma is quiet, but imports during October were valued at nearly \$500,000. Portland advices are that large shipments are being made to China, Mexico and California, while sales at the East are heavier and prices higher. Exports of wheat (four included) as compared from both coasts and Montreal aggregate 2,743,000 bushels this week, against 2,658,000 last week, 2,944,000 bushels in week one year ago, 2,860,000 bushels two years ago, and 3,714,000 bushels in like week three years ago.

Business failures throughout the United States number 299 this week, and show a considerable increase over last week as well as the like week a year ago, when the totals were respectively 259 and 253, this week's gains being very generally distributed.

Dun's Report.

New York, Nov. 1.—R. G. Dun & Co.'s Weekly Review of Trade to-morrow will say: The rapid recovery in cotton and the rise in sterling exchange to the point at which the last exports of gold were made, have not increased confidence. There is a little better feeling, retail distribution is fairly encouraging and the closing of many works is less significant at this season than it might be at another. It is a time of waiting and the uncertainty may naturally continue for some weeks. The heavy wheat and corn movement will help the railroads but the earnings thus far reported for October, though 53 per cent. larger than last year, the third week showing more gain than the others, are 5.4 per cent. smaller than in 1892. A larger demand for manufactured products has held the price of cotton goods and even advanced some prints in spite of last week's decline in cotton. The mills are said to be carrying only moderate stocks. More activity in iron and steel products, though Bessemer and Grey Forge sheets and castings are lower and the average on quotations given to-day is 2.5 per cent. lower than at the highest point, and there's also a shading of quotations to secure good business.

The nail combination reduced its November output to one-third its usual quantity, and if maintained this year, has been only about half that required for renewals, which shows an enormous increase in the use of steel for building and other purposes. Minor metals are a shade weaker and American tin plate makers are talking a good deal of better business by selling at 10c below prices for foreign plates.

The Week's Clearings.

BETTING IS LIGHT.

Money Goes Slow on the Big Prize Fight.

The sporting fraternity of Anaconda is very weary of the Corbett-Fitzsimmons war of words. Last night the money was talking for Corbett only, though there was a small amount of Fitzsimmons' money, which was taking up the odds 6 to 5 and 10 to 8 which the Corbett men were offering.

The California man has hosts of friends in this city whose money is ready for play whenever any of the other kind comes along. There are many, however, who feel like the old man from the old sod last night:

"Be gosh! I don't like Corbett. He couldn't lick John L. Sullivan to-day if John was to kape sober a year. Naw, me bye, I'll not bet a bean on Corbett, and ye can bet your life I won't put a cent on Fitz. Bechun you an me they's none of 'em too good."

VERY VICIOUS VAGRANTS.

They Are Sent to Deer Lodge for Graduated Terms.

A quartet of vicious vags was arraigned before Judge Fitzgerald yesterday morning. They pleaded not guilty, but the evidence was all against them, even their own words. When arrested all of them were more or less intoxicated and had been frightening women and children in the east end of town. John Burke, one of them, had a wooden leg. He was very ugly and drunk in the Missouri house, where he applied for something to eat. When re-

fused he deliberately drove his bare fist through the window. His hand was terribly torn by the jagged edges of the glass. He went down for 30 days; John Williams for 60 days and Alex Dougherty for 90 days. The latter was particularly cute, and made a talk to the judge that was almost taunting in character. He got the limit for his fun. The gang is one that was chased out of Butte and came to Anaconda looking for trouble. They got it—all of them.

BANK ROBBERS IN COURT.

Testimony to Be Heard and Probably Sentence Pronounced.

Mayor Thornton and Frank O'Brien, as witnesses for the state, William Furay and J. B. Losee as witnesses for the defendants, will go to Deer Lodge to-day to testify in the case of the State of Montana vs. Arthur Firpo and W. H. Darling, the bank robbers. The men pleaded guilty, but Judge Brantly desired to make inquiry as to the crime and the prisoners desired to offer witnesses as to their previous good character before sentence should be passed upon them.

A BURNING PAPER.

Called Out the Fire Department and a Host of People.

The wind was blowing a gale when the fire alarm rang out yesterday afternoon. The excitement was intense, everyone fearing a conflagration, but the alarm proved to be needless, though had the old newspaper in a blaze not been discovered, a block of buildings would have been in ashes to-day. The blaze was begun by children in the alleyway back of MacCallum & Cloutier's store. A bucket of water extinguished it.

AN ESCAPED LUNATIC.

He Is Red Headed and a Very Bad Man.

Assistant Chief O'Brien received a message last evening from Mitchell and Mussighood notifying him of the escape of a lunatic, John Packard by name. The man is red-headed and has a stubby beard. He was an inmate of the penitentiary. His height is 5 feet 8 inches.

Medical and Surgical Progress.

In no vocation has there been a more rapid advance than in medicine, during the last half century, and it is significant that the major part of this advance has been due, not to the observation and experience of the routine practitioner, but to the researches of scientific men who have been sneered at as theorists and who have brought to bear on their professional work the results of scholastic training entirely foreign to the scope of instruction in medical schools a generation ago. What, for example, could seem farther removed from the domain of practical surgery than the investigation of little moving plants that are found in decomposing animal and vegetable matter? Yet the study of the habits of growth of these microscopic weeds, of the soils on which they thrive, and the poisons which prevent their development, has revolutionized surgery, and has almost banished from the operating room the fear of suppuration, of gangrene, of erysipelas, and other forms of blood-poisoning. The recognition of the role of vegetable germs in the production of these untoward results of surgical interference, and the development of antiseptic methods of surgery, have rendered it possible to operate on the brain, spinal cord, stomach, intestine, and other abdominal and pelvic viscera, and even the heart. Fourteen years ago the best medical and surgical skill of the country could not save the lamented Garfield from death by blood poisoning. To-day the most unpretending surgeon, treating the poorest laborer, would be severely condemned, if not actually accounted guilty of malpractice, if he used the same methods. Thousands of women who would have been doomed to chronic invalidism a generation ago are now restored to health by operations attended by an average mortality of about 2 per cent.; the same operations undertaken without antiseptic precautions would result in the death of nine-tenths of the victims. Thanks to the enforcement of rules of health, based on the same study of bacteriology, we no longer witness the devastation of such epidemics as were common even ten years ago, while for the first time in medical history cholera has been checked in its onward march to the West.—A. L. Benedict, in November Lippincott's.

Church Notices.

Rev. C. A. Bateman, D. D. of the Baptist church, will preach at the M. E. church Sunday, at 11 a. m. Subject, "Good News." At 7:30 p. m. by Rev. E. C. Avis; subject, "Record." Good music by Mrs. Welch, Miss English, chorus choir and male quartet. All other services held as usual. Free seats. Everybody made welcome.

Only Two Kimball's Left.

Out of the thirty pianos and organs offered for sale a little over one week ago at the sacrifice sale now drawing to a close at 123 East Park avenue, we have just two new "Kimball's" pianos left for sale to-day.

One is our largest and most popular, in quarter sawed English oak. The other is a medium size, and one of our handsomest, on which the regular retail price was \$475. Will sell now for a little over one-half this amount.

We also have two or three second-hand pianos that we can't afford to ship back. Will sell them at almost your own price. If you have any earthly use for a piano come and see me to-day. Bring a first payment and you and I will do business. Terms—\$10 monthly payments. W. C. Orton, Gen. agent, 123 East Park avenue.

Gold! Gold! Gold!

At present there is more of this precious metal in South Africa than anywhere else. For all necessary information as to how to reach the gold fields of the Dark Continent, the cost of transportation, etc., apply to E. V. Mase, general agent Union Pacific system, Butte, Montana. All correspondence will receive prompt attention, and the Union Pacific being a direct line to New York, is prepared to book passengers to all parts of the old world at lowest possible rates.

A trip from Montana to the East can be made a pleasure in stead of a burden by traveling a route rich in resources, and lined with prosperous cities.

Time and service via the Union Pacific system are unsurpassed; only two changes from Butte to New York city, and all the vexatious delays at desolate junction points. All trains are lighted with gas and fitted with modern appliances.
