He refers to what he regards were the benefits derived from the act of 1890, and says that it requires but a glance at the conditions under which the treaties of commercial reciprocity were negotiated to reveal how much was gained by this country, and how little was given in return.

Under three years of reciprocity, it is stated, our trade with Cuba reached the highest point ever touched, showing an increase of \$5,000,000 in exports and \$14,000,000 in imports.
