NEGROES GIVEN A TRIAL

A Wierd Scene Made by the Impromptu Court. IN THE GLARE OF TORCHES Two Hundred Citizens Constitute the Jury—Very Moderate and Cool in Their Action—Report That the Negroes Were Acquitted.

Hazlehurst, Miss., Dec. 12.—In an open field, without a house in sight, on high hillsides, with a crowd of eager men waiting to avenge the terrible murder that took place in Lawrence county, in case a conviction was reached by the impromptu court; the scene lighted by flaming pine knot torches held aloft in the hands of the waiting mob, the three negroes, Giles Perry, Will Powell and Tom Whalen, were standing trial for their lives last night at Hazlehurst, Miss.

According to reports received at this place from a messenger who arrived from the scene at 1 o'clock this afternoon the quickly constituted court did not arrive at a conclusion last night. The very latest reports received here to-night from Georgetown state that the mob, at 4 o'clock, found Will Powell guilty and started for the scene of the killing to hang him.

The negroes were arrested with Lewis, who was lynched Friday, at the time of the original crime, but were released on their promising to appear next morning as witnesses. They did not put in an appearance when the trial was ready to begin and search was made for them by the mob. The search was successful, and the negroes, when caught, were brought back to the house about a mile and a half from the Smith house, where the horrible butchery took place, and that Lewis was with them all night, at least he was there when they went to sleep and was there when they awoke the next morning. There are about 200 men in the mob, constituting a committee of the whole for the trial.

Reliable reports received to-day from a messenger who was at the scene of the trouble say that the mob is very moderate in its action and has cooled considerably. The negroes, though badly scared, maintain their denial of any complicity in the crime. A telephone message from Hon. Walter Catchings of Georgetown states that two other negroes have been arrested on suspicion.

Declared Not Guilty.

Wesson, Miss., Dec. 12.—The three negroes arrested in the Montello neighborhood in conjunction with Charley Lewis, the negro lynched for the quintuple butchery of the Smith family, were, after a long trial, declared not guilty, but were given until Monday to leave the county.

A NARROW ESCAPE.

Steamer Alice Blanchard Nearly Wrecked on Humboldt Bar—Sea smashed in the Cabin. Eureka, Cal., Dec. 12.—Humboldt bar has been very rough during the past few days, a heavy southwest swell making it dangerous to attempt to cross the morning the steamer Alice Blanchard, Captain Warner, had a narrow escape from being wrecked. While crossing in the wake of the steamer Pomona she shipped a big sea, which smashed in the cabin, flooding the dining room and berths and causing consternation on board. Repairs are being made to-day and the vessels will be ready to sail this (tomorrow) morning. Several other schooners and five steamers bar bound waiting for the breakers to quiet down before they can get to sea. The Alice Blanchard had been outside since Friday night, when Captain Warner grew weary of waiting for smooth water.

BOARDS OF TRADE.

Various Measures Will Be Considered at the National Convention. Washington, Dec. 12.—The national board of trade which numbers among its members the principal boards of trade and kindred commercial bodies of the country will meet here to-morrow to organize for its regular session, which opens Tuesday. A number of important matters will be brought up for consideration. The Chicago board of trade will advocate a law to govern the sale and manufacture of mixed flour, a measure somewhat similar in some respects to that governing the sale of oleomargarine and filled cheese. The Boston chamber of commerce, it is understood, will advocate a new pooling bill, while the work of the monetary committee probably will receive endorsement.

A CRITICAL CONDITION.

Rev. Dr. Day Leaves the Royal Hospital in Liverpool for America. Philadelphia, Dec. 12.—Cable messages received here are to the effect that Rev. Dr. Day, D. D., one of the best known missionaries of the Lutheran synod of the United States left the Royal hospital at Liverpool yesterday in a very critical condition, and sailed for New York in care of his wife. Dr. Day has been at Mulhensburg, Liberia, for 23 years, and has achieved a marked success in his missionary work there. Stricken with African fever, he was obliged to go to England last October, but growing no better he is returning to America with the hope of reaching here and laying the result of his medical efforts to rest. His condition is such, however, that death may come during the voyage.

CABINET OFFICIALS.

Arrangements Have Been Made to Attend the Funeral of Mrs. McKinley. Washington, Dec. 12.—All the members of the cabinet whose official duties will permit their leaving Washington at this time, will start for Canton to-morrow evening to attend the funeral of Mrs. McKinley. The party will include Secretaries Alger, Bliss, Wilson and Sherman, Attorney General McKenna and Secretary Sherman. If the latter is

WAR ON CIVIL SERVICE

A Bold Attempt to Cripple the Present Law. WILL BE HOTLY DEBATED

The Bill to Prohibit Pelagic Sealing Will Come Up for Discussion This Week—Congress Will Adjourn Saturday.

Washington, Dec. 12.—If the present program be carried out congress will adjourn for the holidays next Saturday. The week in the house promises to be made memorable by formal inauguration of the war against the civil service law. The legislative, executive and judicial appropriation bill, which will be taken up on Tuesday, contains the regular appropriations for the civil service commission, and whether or not all the members who favor the repeal or modification of the law unite to strike down the provision for its maintenance as the quickest and most direct method of crippling its operations, undoubtedly some will advocate this course and the whole civil service question will be dragged into the arena of debate. How long the debate will last it is impossible to predict, but as this is the only item in the bill which will attract much of a contest, Chairman Cannon hopes and believes the bill can be passed before Saturday. This latter day, under an order made on Thursday, has been set aside for paying tribute to the memory of the late Representative Cook of Illinois.

Mr. Hitt of the foreign affairs committee will to-morrow again seek to secure the passage of the bill to prohibit pelagic sealing by citizens of the United States. There is some very strong opposition to the passage of this measure in its present form and the whole question of the Bering seal and its occupancy of the Bering sea is being re-opened. Mr. Hopkins of Illinois and other members favor a limitation on the period of the operation of the act, if it is to be passed. It is also being proposed to restrict similarly her citizens our citizens may not be placed at a disadvantage. Others, like Mr. Johnson of Maryland, are in favor of the establishment of the seal herds in the near future, and are not disposed to favor any legislation looking to their preservation.

LABOR CONVENTION.

Nearly All of the Delegates Have Arrived—They Are Expected to Endorse Postal Savings Banks.

Nashville, Dec. 12.—Nearly all the delegates to the convention of the American Federation of Labor have arrived. The attendance is not expected to be exceedingly large, but there will be a full representation. The examination of credentials of delegates was very nearly completed to-day and the report will be ready when the convention meets. All the members of the executive committee have arrived. The Federation will meet in the hall of the house of representatives to-morrow morning at 10 o'clock promptly.

The first order of business will be the address of welcome by the American Union of the Nashville Typographical union. The response will be made by President Gompers and the business of hearing reports will be taken up first, and after it is disposed of the president's report, the treasurer's and the secretary's will be read. Most of the delegates attended a meeting this afternoon of the Trades and Labor council and brief reports were made by several.

M. Henri Al Cardozo of Paris, who is in the country investigating the steel making industry for the French government, is attending the convention. It is expected definite action will be taken in reference to the institution of postal savings banks by the general government. Ed Hirsch, delegate of the International Typographical union, and Audrey J. Carey of Massachusetts and Millard Lloyd, delegate from the Illinois Federation, will push this matter and obtain, if possible, the indorsement of the Federation.

A COMPROMISE.

England and Germany Reach an Agreement on the China Grab. London, Dec. 12.—The Berlin correspondent of the Daily Mail says he hears that Great Britain agrees not to object to Germany's occupation of Kiaochow in return for Germany's promise not to interfere in the Egyptian question.

According to a dispatch from Shanghai to the same paper, the Germans are extending the area of occupation at Kiaochow and now control 400 miles square. They have arranged a German mission and a German consulate in the city. The Tsung-tsi Yamen, says the dispatch, has appointed a prince to negotiate a settlement with the Germans.

SHE WAS BADLY DAMAGED

SCHOONER HAS HER MASTS CARRIED AWAY IN A STORM. Ran Into a Hurricane—Shipped All the Water She Could Hold—Her Cargo Kept Her From Sinking.

Port Townsend, Wash., Dec. 12.—The American four-masted schooner William F. Witzmann, Captain Olsen, was towed into the harbor here this morning in a badly dilapidated condition. The schooner left the sound Nov. 30 with lumber from June to San Francisco, and on the 1st of December she was wrecked off Cape Flattery, on Dec. 1, she encountered heavy weather. On the night of the 6th, and when off the mouth of the Columbia river, a violent gale increased to a hurricane and during the entire night the schooner, without cessation, breaking off and carrying away the main and mizzenmasts, leaving only the mast and stump, to rest in the gulf. The schooner was so badly damaged that she was unable to hold her lumber cargo as all that prevented her from sinking.

HE GETS THROUGH.

Dr. W. G. Eggleston Severs His Editorial Connection With the Independent. Helena, Dec. 12.—Dr. W. G. Eggleston's editorial connection with the Helena Independent, which commenced in June of last year, will cease with to-morrow's issue of the paper. He will be succeeded temporarily by G. W. Sikes, for several years telegraph editor. It is not known whether arrangements have been made for an editor to permanently succeed Dr. Eggleston, although rumors to that effect have been current several weeks. Dr. Eggleston will leave to-morrow night for Virginia, where he will spend several weeks visiting relatives. After a vacation he probably will return to Chicago, where he filled an editorial position before coming to Montana.

SOOTS ON THE SHIP.

Geneva, N. Y., Dec. 12.—Professor William Brooks of the Smith observatory reports the observation of a great group of sun spots approaching the center of the sun's disk. The group is visible to the naked eye through a smoked glass, and may be well defined with small telescopes. Measurements made by Professor Brooks show that this vast solar disturbance is 10,000 miles in length.

It is also being proposed to restrict similarly her citizens our citizens may not be placed at a disadvantage. Others, like Mr. Johnson of Maryland, are in favor of the establishment of the seal herds in the near future, and are not disposed to favor any legislation looking to their preservation.

THE NATIONAL UNIVERSITY.

A Bill for Its Establishment Will Be Again Introduced in Congress.

Washington, Dec. 12.—The bill to establish the National University of the United States will again be introduced in both houses of congress to-morrow.

The bill, in general terms, provides for an institution of the highest possible type, for the graduates of the credited colleges and universities only, with special reference to the work of original research and investigation in all important fields of inquiry. The government is vested in the national regents and university council. The board of regents embrace the president of the United States, the chief justice of the supreme court of the United States, the commissioner of education, the president of the National Academy of Sciences, the president of the National Education association, the president of the university and nine other citizens, to be appointed by the president, and with the advice and consent of the senate, no two of them to be from the same party.

INDIAN AFFAIRS.

A Bill for the Complete Reorganization of the Indian Territory. Washington, Dec. 12.—The indications are that this congress will pass a general bill for the entire rehabilitation of Indian territory. The measure, as now planned, is to make it embrace everything that has been sought to be done in the past by the Dawes Indian commission, which is still negotiating with the five civilized tribes, but which will be superseded by the Dawes act, covering existing conditions. The bill will cover the questions of citizenship, allotments of lands, disposition of townships, mineral lands, full jurisdiction of the United States courts over the present reservations and other matters bearing on the extinguishment of tribal organization. The first steps in the matter have been taken by the Indian affairs committee of both the senate and house.

It is understood that in a few days there will be a joint session of the subcommittee of the senate and house at which all these matters will be some general and significant steps taken in the way of settling the problems by congressional enactment in view of the large amount of work necessary to be done, however, it is not probable that any bill can be passed which will toward the end of the session.

PLANS FOR THE FUNERAL

The Arrangements for Mother McKinley's Obsequies. LAST TRIBUTE OF RESPECT

The Funeral Will Be Held Tuesday Afternoon in the Church She Attended for so Many Years—Interment at West Lawn.

Canton, Dec. 12.—Mrs. Nancy Allison McKinley, the aged mother of the president, died shortly after 2 o'clock this morning. Almost two weeks had elapsed since the stroke of paralysis, which was at once pronounced fatal, and the wonderful vitality which many believed at bay so long had deluded the friends and relatives into the belief that the aged woman might perhaps recover, despite the verdict of her physician. But unmistakable signs of approaching dissolution were seen early yesterday morning, and at nightfall it was evident that death must come before morning. The demise of Mrs. McKinley was painful. All night long the members of the family were watching and waiting for the time of dissolution. From 11 o'clock until the time of the death, the McKinley house was quiet and shrouded in a stillness that was suggestive of the mournful scenes within the walls. No response could be obtained by messengers or reporters who called on Mrs. McKinley at her bedside. At midnight the attendants discovered what was thought to be certain signs of dissolution. The fact was communicated to the inmates of the household and all had gone to their rooms, but were not retired for the night. Around the deathbed when the final scene was enacted, were President McKinley, his wife, Abner McKinley, Mrs. Duncan and Miss Helen McKinley, children of the aged woman. The aged sister was there, Mrs. Abigail Osborne, the only one of the Allison family now living. Mrs. Bowman of Loraine, Miss Grace and Mabel McKinley, James McKinley, Miss Duncan and Jack Duncan, grandchildren, were all in the sad party that witnessed the last scene in the gentle life. The president and his wife remained at the bedside for an hour, but by 4 o'clock every member of the family had retired.

MINISTRY RESIGNS.

A New Haytian Cabinet Will Be Formed Satisfactorily to All. Port au Prince, Dec. 12.—The entire ministry has resigned. As yet the deposition of its successor has not been definitely settled, but several well-known names are mentioned as being in command of the confidence of Haytiens and foreigners alike.

This morning, while attending mass at Notre Dame, President Sam M. Lescault, who has been in command of the city on horseback, accompanied by his staff officers, but without much of a military display. The city has now resumed its normal aspect.

HE MURDERED HIS WIVES

ZANOLI SUSPECTED OF KILLING FOUR FOR INSURANCE MONEY. He Had Selected Another When He Was Arrested—He Protests His Innocence of the Charge.

New York, Dec. 12.—Charles Zanoli, who is suspected of having killed four of his wives and three other persons for the purpose of collecting insurance money on their lives, is still a prisoner at police headquarters. He continues his protestations of innocence, but his captors say Zanoli expresses himself as being more than ready to help the detectives toward the solution of all doubtful questions, and Chief Detective McCuskey acknowledges that the prisoner had offered his assistance in clearing some of the details of the investigation which have cost much time and trouble.

Zanoli has a smattering knowledge of medical things, which he gained in his apprenticeship for the trade of barber in Germany. He is able to put in the operation known as "cupping" and is familiar with the blister raised after the cupping process. It is possible, Chief McCuskey thinks, that he may be possessed of the same general knowledge of deadly drugs.

The police are now satisfied that Zanoli did not make away with the child, Lena Werner, daughter of one of the prisoner's dead wives. The girl is now in Germany with her relatives. The body of Jennie Schlessinger, the fourth wife, will be exhumed to-morrow.

WILL NOT INTERFERE.

There Is Little Hope for William Carr, the Missouri Child Murderer. Jefferson City, Mo., Dec. 12.—Governor Stephens to-day, in replying to Rev. Lee Ewing of Liberty, Mo., who presents a humbly signed petition asking a postponement of the execution of William Carr, the child murderer, said he could not interfere unless a stay of execution was asked by the trial judge and prosecuting attorney. He thought it best, said Rev. Ewing to a reporter, to inform Carr that there is no hope for him; that he had best prepare to meet his God on Dec. 17. Preparations for the execution are proceeding. It is not believed that the court officials will intervene.

HE IS NOW A DEMOCRAT.

Denver, Dec. 12.—Judge Morton S. Bailey, populist candidate for governor, who was defeated by Alva Adams in 1886, has announced his purpose to act in the future with the democratic party. He says that he surrenders none of his principles, but as the fight is now between free coinage and free trade, he has decided to support the party which has the better claim to his support.
