A WELL SET TABLE.
NICELY FURNISHED ROOMS.

NO BAR OR SALOON ABOUT THE PREMISES.

TELEGRAMS!

UNITED STATES.

WASHINGTON, Aug. 18.—Secretary Sherman, who leaves for Ohio to-morrow, being questioned concerning the future financial operations of the Treasury replied: "Treasury operations will probably hereafter have no material effect on the money market. Probably before the first of October nearly all called bonds outstanding amounting to about forty-seven million, will be presented for payment and will be paid for through the clearing house of New York. As much of this money will go to different parts of the country elsewhere than New York, the payment may cause some movement of currency from that city, but it will naturally soon come back again. After refunding operations are closed out Treasury payments will be equal to our receipts and no more, except a small balance of fractional currency fund which Congress required to be paid out, which will be probable amount of gold imported in payment for breadstuffs, etc. I do not think the movement of gold to this country will be very large. It is evident our exports will be greatly in excess of our imports mainly of breadstuffs, meats and cotton, but the excess will be paid for largely by American securities held abroad. I wish they would all come back. Still some gold will come and our domestic production of gold will stay here. This will give the banks an excellent opportunity to provide themselves with coin reserve instead of United States notes of which this reserve now consists. U. S. notes will all be wanted in active use to handle larger crops and largest business we have ever had." Interviewer said: "How about the price of silver? Has it advanced?" "Yes, the price of silver is advancing somewhat. There is better demand for silver for China and therefore the price is higher in San Francisco than in New York."

CINCINNATI, Aug. 18.—G. H. Bussing & Co., bankers, who were recently reported robbed of five thousand dollars, to-day made an assignment to Judge Patrick Mallon. Liabilities estimated at one hundred thousand dollars. Assets believed to be sufficient to cover indebtedness. It is now reported that the loss by robbery amounted to ten thousand seven hundred dollars.

MEMPHIS, Aug. 18.—Eight new cases were reported to noon to-day; six white and two colored. Five deaths have occurred.

VICTORIA, August 18.—The Herald says: Ex-President Davis has not said, as the Panama Star reported that he will not accept if elected to the United States Senate. Mr. Davis' position may complicate the Senatorial race very much.

BUFFALO, August 18.—The Courier says, the Democracy will be united in the approaching canvass. They do not intend to merely nominate candidates for State officers, they mean to elect them.

The Buffalo Express says: It looks as though Robinson's goose is to be quietly cooked by a sort of simmering down process, while the pious and loving brethren are getting ready to go to church or to Tilden.

The Tribune's Washington special says: Mutterings of the Virginia campaign are already heard in Washington. General Mahone and his party of repudiators have succeeded in rendering the Conservative party in twain, carrying part of the State Committee with them. Shrewd observers say the Republicans stand a fair chance for success. Gen. Disendorf, of New York, a leading Virginia political agitator, who is thoroughly familiar with the political affairs in his State, says the Mahone faction of the Conservative party is using every effort to induce Republicans to vote with them to upset the debt compromise agreed upon between the State Legislature and the creditors of the State. As a simple matter of right and honesty, he says, the Republicans of Virginia do not look with favor upon the compromise, because it cheats the creditors out of part of their dues, but knowing that the settlement already agreed upon is the most favorable one that can be obtained, the Republicans will almost unanimously vote with the more honest element of the Conservative party and preserve the agreement.

ST. LOUIS, August 18.—A number of new or amended laws affecting St. Louis, passed by the Legislature last winter, went into effect to-day. Those of chief interest apply to gamblers, lottery men and prostitutes. The lottery law makes it a punishable offense for a lottery company to advertise, or for a newspaper to publish the advertisements of lotteries. The law against gambling makes the act of gambling or going into gambling houses a misdemeanor punishable in not over one thousand dollars. The same penalties apply to prostitutes. The execution of these laws is in the hands of the police officials, and the police commissioners say they are a going to make a desperate onslaught on gamblers and lottery men. They intend to stop all street walking, close all assignation houses in respectable neighborhoods, and restrict prostitution in every possible manner.

HARRISBURG, August 18.—The partially decomposed remains of a body, supposed to be that of Samuel E. Albright, who killed Mr. K. Miller at Montgomery's Ferry, Perrin County, August 7th, were found in a cave near the scene of the murder. It is supposed that after committing the murder Albright killed himself.

WASHINGTON, August 18.—It is ascertained at the State Department that the despatch of Consul Mosby at Hong Kong relating to Chinese emigration, published in to-day's papers, was acted upon immediately upon its receipt. The Department directed him to comply with its former instructions, which required all fees for emigration collected to be accounted for and deposited in the Treasury, and that the examination which he was authorized to make should be complete and thorough. At the same time a consular officer of long experience in consular service despatched to Hong Kong and other ports to make a complete investigation of the whole subject of Chinese emigration, in its relation to consular service as well as of other matters on which information is desired. Reports on these subjects are expected at an early day. All allusion to Seaward is an error, as he was never a Consul at Hong Kong.

NEW YORK, August 19.—The Tribune's Salt Lake correspondent, an old resident of Salt Lake, says that at no time since the coming of Johnson's army to Utah, more than twenty years ago, have the leaders of the Mormons felt that they had so much cause of apprehension as now. The city is in a state

of unusual excitement, and Gentiles and Mormons, who in ordinary times look upon one another with suspicion and distrust, are now indulging in threats against each other, and the community seems to be drifting into a state of feeling which, to say the least, is not assuring, and causes much apprehension among the conservative men of both classes. The Tribune thinks there is a possibility of a riot or street fight, but no more serious trouble.

NEW YORK, August 19.—A special from Plymouth, England, says: Lieut. Carey is expected to arrive here to-day. He will be met by a committee presenting the following addresses: "We, the undersigned, men of Plymouth, in welcoming you back to your native country, desire to express entire confidence in your valor as a British officer and honor as a gentleman and sincere sympathy in the trying circumstances in which you were placed." An address signed by one thousand names obtained within a day or two stated that after the court martial's sentence of death had been set aside the Duke of Cambridge urged the Queen to dismiss Carey, but she declined and has been resolute in his favor.

A recent Liverpool paper has the following on the movements of Henry M. Stanley whose arrival in Africa was recently noticed: He has steamed direct to the Congo intending opening that river to commerce from the west coast. A steamer laden with goods has been dispatched from Antwerp within the last month under the patronage of the King of the Belgians. This steamer will remain at the Congo till Stanley's arrival and has on board two or three steam barges, etc. Stanley intends to ascend the Congo carrying these sections piecemeal and going as far as Alla falls.

A letter from Dr. Miner, Mrs. Stewart's physician, after denying the report that she has been deceived into the belief that her husband's body was recovered asserts that the aims of the story showed before the public by the thieves' counsel was undoubtedly to call her attention to the fact that the body was still in the hands of the thieves; a fact she has known all along. The thieves and their counsel have played their last card but the game is not finished yet and the final issue can neither be hurried nor delayed by such transparent devices.

EUREKA, Nev., Aug. 19.—The coal war has broken out afresh. The Sheriff's posse attacked a coal ranch at Fish Creek between Sunday and dark last evening; many shots were fired, and five men, Italians, were killed and six badly wounded. Several prisoners were taken. None of the Sheriff's posse received scarcely a scratch in the fight. This causes many people to believe that the coal burners were not armed, but on the other hand the messenger reports that the Italians fired the first shot. The exact truth can not be ascertained until the return of the Coroner. The Sheriff's party numbered nine men, and the messenger asserts they were confronted by 100 Italians all well armed. General Sabin, commanding the division, had only yesterday issued an order relieving the military companies from active duty. On learning this morning of the Fish Creek fight he promulgated another order mustering them all in again.

NEW YORK, Aug. 19.—Hendricks informed a San reporter yesterday that he had not altered his mind since he wrote the letter refusing to take the second place again on the Democratic ticket. He said one condition of success next year was a candidate for President whose record it is not necessary to discuss or explain away. "With such a candidate, for whom there is no need to apologise, we will win, and no otherwise." The Republican Indians are almost solid for him. There isn't much in the Sherman boom in the West.

The Tribune Washington special says that Congressman Morrison, of Illinois, who arrived here yesterday, said that "The fraud issue will be made more prominent in the canvass next winter than at the last session, and that it will undoubtedly constitute the leading question in the Presidential canvass; though this would not involve the necessity of putting forward Tilden as the Democratic candidate."

NEW YORK, August 19.—Ex-Governor Warmouth at Long Branch stated to a reporter that he didn't think the Republicans could count on a single Southern electoral vote in eighty. The Democrats prefer Bayard, but they want a candidate sure to carry New York, New Jersey, Connecticut, and Indiana, California, and possibly Ohio, and they favored Grant to this. Tilden has never been their choice, and since '76 his course has been a disappointment to them.

The Times' Washington special says: A Republican member of Congress has arrived here after an extended trip through the Western States, and says the sentiment of the masses is unquestionably favorable to the nomination of Grant. This gentleman took special pains to ascertain the public sentiment on this question, and improved every opportunity to converse with those with whom he was thrown in contact. He is satisfied that the people are for Grant as first choice, and the next is Blaine. In Indiana, Illinois, Michigan, Nebraska, Colorado, Nevada, and California the people express their decided preference for Grant, while in Iowa and Kansas Blaine seems to be the favorite. Minnesota people talk of Senator Windom.

By the fall of a rotten bridge across the Housatonic a wagon and six occupants went into the river. Sonnet Benjamin, aged 22, killed; Aggie Bondell and Fannie Millard seriously injured, and the remainder slightly hurt.

NEW YORK, August 19.—Letter boxes are placed in the Post Office elevators and at other prominent places in that building, bearing the following inscription: "Contributions received in this box for the orphans of the yellow fever sufferers at Memphis, Tennessee."

BOSTON, August 19.—Aulonio Arito, a Greek, and Nicoli Infantium, a Sicilian, have been arrested as the murderers of Jos. T. Fry. The stolen property is reported recovered.

Considerable damage was done by a storm last night along the New England coast. The yawning head of South Boston was badly used. A Fortial several yachts and schooners were sunk. Other towns along the coast report a long list of disasters to local crafts and property.

Crowds of people, some barefooted, are trying to identify their property. The Ocean View House and other hotels at Beaufort are badly damaged, and many private houses are ruined. There is not a wharf left in Beaufort, and only two or three of her hundreds of sail boats are fit to sail. Morehead City also suffered terribly.

The storm at Morehead City, N. C., was the most violent which ever visited that place. At six a. m. it blew a hurricane from

the S. E. At seven it hauled around to the S. W., a change which saved Beaufort and Morehead from entire destruction. The Atlantic House the largest hotel in that part of the country is entirely demolished, not a vestige being left. There were 150 guests in it. There was not a particle of clothing saved by any of them. The people did not begin to leave until the waves began literally breaking the hotel to pieces. Then there was a stampede. The young men saved all the ladies and children at the danger of their own lives. All baggage, furniture, etc. went to destruction. John Hughes, son of May Hughes, of Newbern, lost his life in the wreck of the Atlantic House. Front street of Beaufort is strewn with lumber, trunks, goods, etc.

DETROIT, Aug. 19.—The loss by the fire which destroyed the Waldron block at Hillside, last night, will reach about fifty
