TELEGRAMS! UNITED STATES.

WASHINGTON, October 22.—The National Bank circulation increased during October three million dollars. The Treasury Department purchased 482,000 ounces of silver to be delivered at the mints in San Francisco and Philadelphia. Hon. Stanley Mathews will deliver the oration before the Society of the Cumberland. In the Supreme Court case of Tennessee vs. Jas. M. Davis the argument was continued by Attorney-General Devens for defendant and concluded by James G. Field for plaintiff. In continuing the argument in behalf of the defendant the Attorney-General maintained that both the Judiciary Act of '79 and subsequent legislation now under consideration providing for the removal of certain cases from State to Federal courts, are valid and constitutional; that the right of the State to vindicate and preserve its peace is subject to the grave rights of the United States to preserve and vindicate their power; that the act complained of was done by defendant in the performance of his official duty to the United States, and that this fact constituted the Federal ingredient which gives jurisdiction to Federal Courts. The right of the United States to protect its officer and to hear accusations against him is indispensable to the enforcement of Federal laws. The gravity of the charge can make no difference to the right. No statutory process will authorize removal of an indictment for assault as in the case of Jenkins. To-morrow the Court will take up the case of Maryland election judges which involves the constitutionality of Federal election laws. ALBANY, Oct. 22.—At the session of the Episcopal Church Congress the subject of positive Christian education was discussed. The general sentiment expressed was against the introduction of religious training in public schools. BALTIMORE, Oct. 22.—The Democrats today elected their mayor by nearly 6,000 majority. MEMPHIS, Oct. 22.—Three cases of fever were reported this afternoon. The Chamber of Commerce, New York, sends \$2,000. CHICAGO, October 22.—A concerted effort seems to have been made last night to rob the members of the Strackos Opera troupe while the opera was in progress at McVickers' theatre. Diamonds and other valuable jewelry, said to be worth a thousand dollars, were taken from the room of Miss Teresa Singer, at the Grand Pacific hotel. Rooms of other members of the company at the Commercial hotel were entered and a considerable amount of valuables secured. No trace of the thieves yet. The police have been keeping the matter quiet. MILWAUKEE, Oct. 22.—The Sentinel of tomorrow morning will contain an account of horrible atrocities in the Milwaukee House of Correction. This institution is under the direction of the court as is the State Prison. An intelligent convict, just released, whose character for veracity is vouched for by prominent persons, states he has been an inmate for two years. All that time he was not allowed to write to friends or counsel. His family supposed him dead. He says the bread furnished convicts, for which the county pays six dollars a barrel, is damaged cow feed and cannot be baked, and the meal is putrid. During his confinement embryo calves, dogs and glandered horses were furnished as meat, and he brings the bones which are in the possession of the editor of the Sentinel. The details of the feed are horrible beyond expression as are the brutalities of the keepers. He says men were beaten and put into a black hole, which is as filthy as a dog kennel, five feet four inches by five. A man can not lie at length in it. There is no ventilation. The floor is covered with verdure. Men were placed there for twenty days and two died. There is a chair factory connected with the institution and it is charged that police were in collusion with the superintendent to kidnap men to work at chairs. The whole story is the most startling and revolting one published in this country. It is claimed the charges can all be verified. PITTSBURG, Oct. 22.—A freight wreck near North Bridgewater, on the Pittsburg & Lake Erie railroad last evening, resulted in the instant death of N. C. Lemmon, brakeman, and severe injury to H. L. Know, engineer, and G. Fulton, fireman. The accident was caused by a cow on the track throwing the engine and train over the embankment. Another freight wreck on the Connelville road, two miles east of Connelville, at 4 o'clock this morning resulted in the instant death of Chester Linn, who, with three other supposed, clamps, were stealing a ride. Other parties escaped with slight bruises. None of the train men were hurt. The accident resulted from a broken rail or axle. CINCINNATI, October 23.—A special from Grayson, Kentucky, relates that two hundred men rode into the mountains of Elliott county, Monday night, surrounded the jail, overpowered the jailer, and took two prisoners, John W. Kardall and Wm. McMillan, to a tree near by and hanged them. The men hanged were known to belong to a gang of outlaws. BRIDGEPORT, Conn., Oct. 23.—Mary E. Lounsbury has been indicted for the murder of her husband, Rev. Dexter L. Lounsbury, at Stratford, Sept. 24th. PHILADELPHIA, October 23.—The Public Stock Exchange of Wm. H. Hatfield & Co. and Metrick, Price & Co. has failed. Isaac Jackson, a sailor on the ship Sea King, has been found guilty of the murder of Chas. D. Brooks, mate, at sea on the night of Aug. 15th. Several other seamen, charged with complicity in the murder, will receive separate trials. The sentence is deferred. NEW YORK, Oct. 23.—The Consul General of Spain states that subscriptions will soon be taken in the principal cities of the United States for relief of the sufferers by the floods in Spain. Two thousand human bodies were recovered in the deluged districts. BETHANY, W. Va., Oct. 23.—Bethany College was partially destroyed by fire this morning. The building is valued at \$150,000. The fire broke out in the north wing of the building at 3 o'clock this morning and owing to scarcity of water and ineffective means of putting out the fire the wing was totally destroyed, the blackened walls only being left standing. The wing contained the three society halls of the college and the college library. The only property saved was five fine oil paintings presented to the Society by Mr. Keene Richards, of Kentucky, which were valued at \$10,000. Some of them were considerably damaged. The Societies lose all their property including their libraries, not a book escaping the flames. The wing was valued at \$20,000, on which there was an insurance of \$25,000. The fire is supposed to be the work of an incendiary. OGDEN, Utah, Oct. 23.—A man arrived from Park City, Utah, last evening, and reported that the Utah Utes and Snakes were on the war path with about 300 warriors. The settlers on Ashley Park were collecting their goods and building a fort. This evening a man arrived from Green River station, on the Union Pacific railroad, and reported that the Utah Utes had killed some settlers on Ashley Park, and that they are coming towards Brown's Hole on Green river. WASHINGTON, Oct. 23.—In view of the proposition made by Wm. Blake to Courtney and Hanlon to row on the Potomac, the boat club this morning telegraphed Blake extending to Courtney and Hanlon the hospitality of the club and the use of the boat-houses, and guaranteeing an enthusiastic reception. Hanlon and Courtney have been telegraphed also by the club. WASHINGTON, Oct. 23.—Secretary Schurz today received the following telegram from the Governor of Colorado: "Denver, Oct. 22. Information from South-Western Colorado satisfies me that most of Ouray's warriors were in the Thornburgh fight. To surrender the criminals, Ouray must surrender his tribe, which he is powerless to do. They adhere to him for protection only, and will not submit to punishment. Neither will they surrender the White River Utes, who are bound to them by the closest ties, and are no more guilty than themselves. They whipped Thornburgh's command, and now Merritt retires. It cannot be disguised that the fighting men of the tribes are hostile, and flushed with victory, and that they are savages. They take no prisoners except women. Their trophies are not banners but scalps. If the policy of military inactivity continues our frontier settlements are liable to become scenes of massacre. Unless the troops move against the Indians the Indians will move against the settlers. Must three hundred miles of border settlement be subject to this peril? The general government is doing nothing to defend our settlements. The State cannot defend all this border except by attacking the enemy. In behalf of our people, I represent this danger to you, and urge that the government recognize that a war with barbarians now exists which involves the lives of numerous exposed settlements. It can be terminated only by the most vigorous and uninterrupted warfare. Signed FREDERICK W. PITKIN, Governor."

en's acts to be performed by the States, such as the organization and discipline of a certain portion of militia." WASHINGTON, October 23.—The Supreme Court question of the right of the United States courts to punish offenders against the United States election laws during a vote for Congressmen was before that Court today, the case being that of Augustus F. Clarke, of Cincinnati, who was indicted in the United States Court in 1878 for failing to perform the duties of a judge, which position he then held, and was sentenced one year to the penitentiary. The case was fully argued by Judge Headley for the appellant and Attorney-General Devens for the government. BUFFALO, Oct. 23.—Charles E. Schuyler, who a short time since became notorious by the abduction of the daughter of General Townsend, plead guilty to the charge to-day and was sentenced to the Auburn prison for seven years. WASHINGTON, Oct. 24.—A special says that General Hill, of Georgia, passed through here yesterday. He seemed very much annoyed at the dismal prospects of the Democracy. He visited New York in the hopes he would be able to reconcile the discordant elements of the Democracy, and his signal failure has discouraged and embittered him. He is represented as having expressed himself in very uncomplimentary language about the Kelley faction. He regards the loss of New York as a foregone conclusion. The Herald of to-day says: "Conkling has excellent reasons to be gratified by voluntary appearance of Ervarts in Cooper Union as an advocate of Mr. Cornell and incidentally of the renomination of President Hayes' predecessor as the Republican candidate for the third term. The announcements volunteered by Blaine and Sherman that they will follow Ervarts must also be gratifying to him. The Senator's return to his Congressional labors at the beginning of the long session seems likely to be attended with all the accompaniments of Roman triumph. The Utica Herald says: "The language of Justice Field's dissenting opinion in the Pacific railroad case, reads very much as though that gentleman thought the catastrophe to Thurman and the impending catastrophe to Tilden in New York had made an opening for himself in the matter of the next Democratic nomination for the Presidency, which it behooved him to push for. The purpose of his denunciation of centralization is so obvious that its effect will be absolutely nothing except possibly in the way of starting a 'boom' for himself." The increase in membership on the Produce Exchange has been very large within the last three months, and there seems to be a stronger feeling in favor of a new and larger exchange building. The Board of Managers approved of twenty three new members yesterday. CLEVELAND, Oct. 24.—Yesterday afternoon a heavy gale commenced blowing from the northwest, and the temperature fell rapidly. During the night the gale reached the proportions of a tornado. In some parts of the city several chimneys and smoke stacks were leveled, and in one place a man was picked up and carried forty feet by the wind without serious injury. SAN FRANCISCO, Oct. 24.—A Tucson special to the Star from Silver City, New Mexico, to-day says no depredations have been committed by the Indians since the fifteenth. The reports are that Victoria's band has divided one party going in the direction of Florida Mountains, the other for Burro Mountains. Capt. Boyer has issued warning to all settlers on the upper Gila to be on the alert as there is danger ahead. Major Morrow is in hot pursuit of Victoria with three hundred soldiers. The citizens of Silver City have organized, and fifty men, well equipped, are ready to move at any moment. MEADVILLE, Pa., Oct. 24.—Twelve inches of snow have fallen since one this morning. Corry, Titusville, and Oil City report light snows. SAN FRANCISCO, Oct. 24.—The Authors' Carnival opened at the Pavilion last night, and was a pronounced success as regards the general arrangement and character of the representations and the financial result. There was a very large attendance of spectators, probably 7,000. The various booths with their occupants presented a succession of striking pictures, and the grand tableaux on the stage erected across the northern end of the pavilion, was excellent in detail and magnificent in general effect. Last evening General Grant dined with Senator Booth, at Sacramento. About fifty distinguished gentlemen from various portions of the State were present, including Governor Irwin and prominent politicians of all parties. NEW YORK, Oct. 24.—A Salisbury, North Carolina, special says that a grand re-union of Carolina soldiers of both armies, was held there to-day. 10,000 people were present; the town was gaily decorated with flags. Governor Thomas J. Jarvis, in a speech said he had been a soldier, and urged Carolinians to earn the same devotion to the flag of our country that had borne to the other flag which had been furled forever. Senator Vance urged the realization of the full significance of the meetings. He said the work of restoring peace, union and harmony to our country. Daniel G. Fowler said the people of the North and South must be friends. No nation of equal numbers could have resisted the North as long as did the South, and no nation but the North could ever have conquered the South. Major Halleck, of Michigan, said he was glad his first public effort was on such an occasion. He had fought for the Union, and now would rebuke any demagogue who sought praise by reviving the passions of the war. NEW YORK, Oct. 24.—A still, cold, offshore gale prevails on the Atlantic coast to-day. Snow squalls along the Hudson river, while the Catskill mountains are covered with six inches of snow. Snow, and still snowing, is the report from parts of New England and Canada. WASHINGTON, Oct. 24.—The Treasury Department has transferred an additional ten million dollars in gold to the assay office in New York to facilitate foreign exchange. The San Francisco mint is coining small gold pieces to supply the demand. The Philadelphia mint is at work principally on silver dollars. It is expected the Treasury will be able to purchase sufficient silver for delivery at San Francisco to enable that mint to relieve the Philadelphia mint of dollar coinage. The latter mint will then work on small gold pieces. SAN FRANCISCO, Oct. 24.—A Sutter dispatch says the north lateral branch of the Sutter Tunnel has passed through the hard andesite in which it has hitherto been run, and has cut into a vein of porphyry. YAKTOK, D. T., Oct. 24.—Information from the Indian country is that Last Friday fifty lodges of the Minneconjou Sioux, under Bart Face, left the Cheyenne Agency and started out on the war path. The only depredations thus far reported is a professed raid on a Black Hills Wagon train. Two companies of the 11th Infantry are in pursuit. ST. LOUIS, Oct. 24.—A grand exposition of machinery, products, grain, etc., will be held at Chicago or Cincinnati next June, in connection with the Millers' Association. A grand exhibition is expected. The arrested counterfeiters were held in \$5,000 bail each, before the United States Commissioner, this afternoon.

MEMPHIS, Oct. 24.—Two cases and two deaths reported this afternoon. A general return of absentees is expected Sunday and thereafter. NEW YORK, Oct. 24.—The Herald's special from Cairo says the Governor of Alexandria yesterday delivered to Lieut.-Commander Goringe, of the U. S. Navy, by order of the Khedive of Egypt, the obelisk known as Cleopatra's Needle. The work of removal began yesterday afternoon. The English manufacturers have supplied as stipulated the money for transporting the obelisk and Goringe hopes to get it on board ship at an early day. It will reach America within a month after leaving Egypt. PHILADELPHIA, Oct. 24.—Wool is very firm and the market quiet. Oregon fine 25a 35c, medium, 25a35c; coarse, 27a30c; California fine, 29a35c; medium, 30a32c; coarse, 26a30c; New Mexico and Colorado fine, 20a30c; medium, 22a25c; coarse, 19a22c; pulled extra merino, 36a40c; super, 37a40c; lambs super, 37a40c. MEMPHIS, Oct. 24.—The following telegram was sent this morning: "Hon. A. S. Marks, Governor, Nashville, Tennessee: The epidemic is declared ended. This day. The camps will be broken up Monday morning. I thank you excellently in behalf of the people of Memphis for the material assistance rendered and for further aid promised if necessary. Have sufficient funds to carry us through. Will not be compelled to draw on you for any. Signed D. E. PORTER, President of Tax Dist."

SAN FRANCISCO, Oct. 25.—General Grant last night attended a banquet given in his honor by the Society of California Pioneers. A number of distinguished guests were present, including Senator Sharon and ex-Senator Coteman. In response to a toast by W. F. Coleman, President of the Society, General Grant responded as follows: "California Pioneers—When your worthy President began and mentioned 'Ohio,' I didn't know whether he was addressing his remarks to me or the Senator from Nevada, who has commanded almost everything on the coast, who lives in California, votes in Nevada and carries the State in his pocket. I have already to-day thanked you for your hall and others at another society to which many of our beloved Mexican War Veterans, and I again thank you for the distinguished honor which you have paid me." The company broke up at a late hour. At the Recreation Grounds to-day the Chicago defeated the Mutuals eleven to one. WASHINGTON, Oct. 24.—At the Cabinet meeting to-day General Sherman and Assistant Secretary Hawley represented the War and Treasury Departments respectively. The meeting was devoted principally to the discussion of the Ute Indian troubles. Secretary Schurz and General Sherman gave all information in the position of their Departments. The discussion turned upon what steps should be taken towards the Indians and it was decided that for the present only precautionary measures should be adopted. General Sherman reported that the troops concentrated in southeastern Colorado under command of General McKenney, will be in readiness to move upon the Indians immediately in the event of the failure of the mission of special Agent Adams. It was agreed on all hands that preparations to meet this possible contingency should be continued, although no aggressive movement will be ordered while awaiting Adams' return. Secretary Thompson submitted some dispatches received at his Department from naval officers at Sitka and Samoan Islands. Their tenor indicated the advisability of establishing a civil government for Alaska and that measures should be taken to secure the rights obtained by our treaty with Samoan for the possession of the harbor of Pago Pago as a mid-Pacific naval station. MEMPHIS, Oct. 25.—The following is the official announcement of the Board of Health declaring the epidemic ended: Owing to the fall in the temperature within the past three days, there having been two good frosts with a prospect of a continuation of cool weather, the Board of Health hereby declare the epidemic of 1879 at end, and announce there is but little danger to be apprehended from yellow fever by absentees of other persons coming into the city provided the instructions published September 28th have been complied with in regard to ventilation of houses, bedding, clothing, etc. I take this occasion to advise people on their return to avoid infected places. There are a few cases of yellow fever yet in the city, and a few cases may yet develop, but by ordinary prudence there is no danger of the disease now spreading from that source. By order of the Board of Health. J. CHANDLER, M. D., Sec'y. ST. LOUIS, Oct. 25.—The body found yesterday on the Lake Shore & Michigan railroad near Miller's Station is identified from descriptions of it in the dispatches by Wm. E. Burr as the remains of his brother, George Burr, who ascended with Prof. Wm. in the balloon Path-Finder three weeks ago to-morrow. Mr. Burr has telegraphed to have the body properly cared for and friends left this morning for Miller's Station to bring it home. PETERSBURG, Va., Oct. 25.—The first ice and heaviest frost of the season hereabouts was at four this morning. It is feared great damage has been done to the tobacco crops. The weather is very cold. NEW YORK, Oct. 25.—The steamer Dora from Bremen, brings \$22,500 dollars in specie. PARIS, Oct. 25.—Baron Ring, the French representative in Roumelia, has been attacked and robbed by brigands in Macedonia. Gambetta has returned. An evening paper states that Gambetta is opposed to the re-opening of the amnesty question, and that he disdains the responsibility for the utterance of the *Republique Francaise*; but whether Gambetta opposes or supports amnesty, the Chamber will certainly reject it. The ministry will not need to make it a Cabinet question, but have strengthened themselves and have reassured the moderate men by the recent prosecutions. It seems also quite settled that the clause of Jules Ferry's education bill will not be made a Cabinet question. Thus the Cabinet will not fall on two questions which menaced it, though if it lives through the coming session of Chambers, France will certainly show itself a country of surprises. GENEVA, Oct. 25.—It is confidently expected that the workmen from the two extremities of St. Gothard Tunnel will meet midway in the mountain before New Year's day. MOSCOW, Oct. 25.—The Chief of Police has agreed with the military authorities to organize a system of the military night patrols to co-operate with the police in preventing disturbances. It is said Valyev, Minister of Domains, will be appointed Minister of Foreign Affairs before the end of the year in place of Gortschakoff who will, however, continue Chancellor. LONDON, Oct. 25.—Adolphus Rosenberg, editor of the *Town Talk*, for libeling Mrs. Cornwallis West, and others pleaded guilty of publishing the libels but not guilty of knowing them to be false. The jury returned a verdict of guilty of publishing libels knowing them to be false. Sentence deferred. BUREAU, Oct. 24.—The Senate passed the bill for the relief of the Jews by a large majority.
