

CITY AND COUNTY.

The first case of small pox was discharged yesterday.

The funeral of Mrs. James C. Oton will take place to-day at 2:30 o'clock.

On Monday the Alice company shipped four bars of refined bullion valued at \$5,000.

The Forest was yesterday morning postponed until Thursday in the Police Court.

One of the Omaha Board of Trade is speaking of going down in a certain mine, said he "went down in a barrel."

George Phillips was fined \$5 and costs in the Police Court this morning, for assault.

Terrible to state, Daniel Sullivan, the miner who was so badly injured about the face in the Anacostia mine a few days since, has lost his sight.

We are pleased to note that the little son of George Pischon is improving. He was taken sick on Saturday last of brain fever, but is now believed to be out of danger.

Arthur, the 4-year old son of Duncan Gillis, is slowly improving. On Sunday last he was speaking but yesterday some better.

Another amateur walking match announced for the 19th.

Persons to enter from Butte and Walkerville entrance for \$10, to be paid to Dr. E. Gleason on or before the 14th inst.

We understand subscriptions are pouring in to the citizens committee.

It is proper in this connection to state that the committee, desiring it necessary, are receiving \$20 from all lot-owners which front on Main street and \$10 from all others, and not \$5 and \$10 as was stated.

PERSONAL.

Mr. L. D. Phillips of Hall Columbia is in the city.

Mr. M. L. Johnson, Omaha, arrived on last evening's train.

Mr. Geo. S. McGrew, of St. Louis, has been in the city several days.

Mr. T. W. Armstrong of St. Louis, is among the recent arrivals in this city.

Dr. W. B. Wright was some better yesterday though he is still quite sick.

Mrs. J. M. Merrill will leave this morning for a visit to friends in New Chicago and Phillipsburg.

Judge C. E. Irvine was out at the Warm Springs yesterday and reports the thermometer 98 in the shade.

Mr. Alex. Leggett, of St. Louis, a brother of R. D. and J. A. Leggett, of Butte, arrived in the city Monday evening.

Mr. C. M. Tuck, of the firm of Laysen & Tuck, leaves this morning for a trip east.

Mr. Fred Renner, the genial and able representative of the Omaha Republican, took in the sights surrounding Butte yesterday.

Mr. Renner is an accomplished writer and he will no doubt give us his impressions of Butte and her people in that excellent journal.

The MINER acknowledges a pleasant call from Mr. Low Johnson, the very able and gentlemanly manager of the Jubilee Stagers.

Mr. Johnson is in the city in high state of perfection to which he has brought his superior troupe.

We brought for him and his company a cordial reception throughout the Territory.

Resolution of Thanks.

The following was handed in last Monday evening too late for publication and explains itself:

At a meeting of the Omaha Board of Trade, held in the parlors of the St. Nicholas hotel, Butte, last evening, the following resolutions of thanks were adopted:

WHEREAS, The Mayor and city council of the city of Butte, Montana, having kindly extended to this delegation from the Board of Trade of Omaha, Nebraska, a cordial welcome to the city, and rendered our visit most interesting and instructive, by furnishing conveyance and escorting us to the leading mines and mills, as well as to the prominent business houses, thus enabling us to make the acquaintance of the merchants of this city.

Resolved, That the thanks of the Board of Trade, of Omaha, be and is hereby tendered to the said Mayor and council of Butte for their kind attentions.

Resolved, That thanks are hereby extended to the proprietors of the St. Nicholas and Continental hotels for liberal donations made in hotel bills.

H. G. CLARK, President.

JOHN EVANS, Secretary.

The Jubilee Stagers.

Renshaw Hall was packed to repletion last evening to listen to those world-renowned singers.

The troupe is composed of nine persons (colored) three ladies and six gentlemen whose every movement upon the stage indicates careful training and a strict adherence to all its proprieties.

Their voices are rich, musical and of rare compass, and their songs by turns were full of pathos or humor.

Their concert last evening embraced a fine variety of musical songs so dear to the hearts of the colored children of the South, and were rendered in that faultless manner that only accomplished years of study and thorough discipline.

Their audience was highly pleased and frequently testified their delight by rounds of applause.

The troupe presents an entire change of programme to-night. Do not fail to hear them.

TITTHING.

The citizens' adjourned meeting at Renshaw's Hall on Sunday evening was very generally attended.

The meeting was called to order by Patrick Talent Esq., and Mr. W. H. Archer was elected secretary.

This was an adjourned meeting from Saturday night, of which a full report appeared in Sunday's MINER.

The committee appointed on Saturday evening for that purpose, consisting of P. Talent, H. Jacobs, J. Ross Clark, John Van Brocklin and Robert M. Renshaw, submitted the following report:

WHEREAS, There have been suits commenced in the District Court of the United States for Montana Territory for Silver Bow county for the purpose of depriving almost the entire population of the city of Butte of the ownership and possession of property thereon.

WHEREAS, It is in almost every case, has a ten years of honest labor, accompanied with the usual privations and hardships of pioneer life, and has been the result of the sweat and blood of the laborer.

WHEREAS, We believe those suits have not even a shadow of right or title and the property whatever; therefore be it

Resolved, That it is the desire of all persons herein assembled to unite and make the defense of these suits a common cause, and that we ask for each lot owner a contribution of \$10 in aid of this cause.

Resolved, That for the purpose of defending said suits it is our opinion a committee of five persons be appointed to investigate the same.

Resolved, That in order to enable the said committee to do the things required of them in the above resolution, each defendant is required to pay said committee, on or before the 15th day of August, A. D. 1922, the sum of five dollars for each lot he owns within the city limits and ten dollars for each lot outside of the city limits, north of Helena street, the title to which is involved in either of said suits.

Resolved, That we believe in the old adage, "It is better to have strength, and therefore hope no person will ever offer to compromise with the plaintiffs in said suits, and we will have no legal right whatsoever to anything claimed by them, and desire that the motto of each defendant shall be, "Millions for defense, but not a cent for blackmail."

All of which is respectfully submitted.

PATRICK TALENT, HENRY JACOBS, J. ROSS CLARK, JOHN VAN BROCKLIN, R. M. RENSHAW.

Mr. Archer said he was opposed to the adoption of the resolutions. He acquired his property by honest toil and would not give one cent to defray a legal bill.

Resolved, That we believe in the old adage, "It is better to have strength, and therefore hope no person will ever offer to compromise with the plaintiffs in said suits, and we will have no legal right whatsoever to anything claimed by them, and desire that the motto of each defendant shall be, "Millions for defense, but not a cent for blackmail."

All of which is respectfully submitted.

RAILROAD NOTES.

The Montana Iron Horse on the Rampage.

The Northern Pacific tracklayers are doubtless spiking down the iron in Billings to-day.

Russell Gage and other railroad magnates will inspect the entire line of the Northern Pacific this month.

F. Jay Haynes, official photographer of the Northern Pacific railroad, is in the National Park taking views.

From the present indications the Canadian Pacific railroad will be the first road to afford Boston a near rail route to the States.

The officers of the Canadian Pacific expect to have their road to a point at the head of Cypress mountains, twenty-five miles from Fort Walsh, during the present year.

This will make Boston only one hundred and seventy-five miles from the terminus of that road.

A wheat elevator with capacity for storing 100,000 bushels is to be erected in New Tacoma by the Northern Pacific.

Here's the Rapids, the western terminus of the Northern Pacific is 510 miles east of Portland.

The bridge over the Yellowstone at Billings, under the charge of Engineer Chiles is progressing rapidly.

It will have two abutments and three piers, and will be built in the Howe Truss principle.

Passengers going east take train at Ponsey's Hill in the morning, arrive at Fortye in the evening, where they remain over night.

From there they take through train for St. Paul—time 48 hours. A Pullman sleeper, running through to St. Paul is attached at Miles.

The Utah & Northern is the best paying; all the Union Pacific branches.

SILVER BOW DEMOCRACY.

Meeting of the Central Committee Yesterday.

Pursuant to call by the Chairman the Democratic Central Committee of Silver Bow county met yesterday in this city.

On motion it was ordered that the following call be made to the Democracy of this county:

Democratic Voters of Silver Bow County:

You are requested to assemble in your respective precincts on Saturday, the 25th day of August, 1922, at 2 o'clock p. m. until 8 p. m. for the purpose of selecting delegates to the county convention to be held in Butte, on Friday the first day of September, 1922, and that you meet at the following places:

Butte, 26; Basin, 1; Walkerville, 10; Catehings' Wood Camp, 1; Centerville, 4; Centennial Brewery, 2; Red Mountain, 2; Fred Scherer, 2; Vernechose, 1; Meaderville, 2; Newton's Saw Mill, 1; Silver Bow, 2; Silver Bow Junction, 4; German Gulch, 1; Becker, 1; Divide, 2; Stuart, 2; McCarty's Ranch, 1; American Bar, 1; Butcher town, 1; Yankee Doodle, 1; Brown's Gulch, 1; Black tail, 1; U. & N. Depot, 2; Newwood, 1; Burlington Mine, 1; McLeod, 4; French Gulch, 1; Geary's Ranch, 1; Largey, 1; McCull's, 1; Hall Columbia, 1.

We call upon each and every Democrat in the county who values Democratic principles and government, to attend these meetings and see to it that the county convention is composed of delegates who will reflect the sentiments of their constituents.

Democracy demands of her children that every one lend a helping hand in building up the institutions of constitutional liberty.

JOHN H. CURTIS, W. A. CLARK, Secretary, Chairman.

GIANT POWDER.

Evans Lewis Blown Up in the Star West Mine.

Yesterday morning about 9 o'clock a serious accident happened at the Star West mine in that a miner named Evans Lewis, while attempting to force his way a stick of giant powder into a hole in the stopes between the 300 and 200 levels, exploded, and he was severely injured.

Blown up on the right side of his face, and bent to the left side of his neck, but not so badly. The flying rock cut a severe gash on his right hand. The left eye is thought to be injured, though the right one was not hurt. The suffering man was at once removed to the hospital.

Miners' Union Pio Nio.

As elsewhere announced in this paper there will be a grand picnic at Poplar Grove on Sunday, August 13th, under the auspices of the Miners' Union.

A real pleasant time is anticipated, as there will be a match game between the base ball clubs of Walkerville and Butte.

Also target shooting, sack racing, foot racing, jumping, and shooting for nuts. And in the evening there will be a dance. Music for the occasion will be furnished by Duseau's orchestra and the Alice Silver Crot band. Tickets have been placed at \$1.

Stockholders' Meeting.

The second annual meeting of the stockholders of the Silver Bow Water company will be held at the Montana Stock Exchange rooms, over Donald, Clark & Larabee's bank, on Monday, August 21st, for the purpose of electing a board of trustees for the ensuing year and transacting other important business.

The meeting will be held at 8 p. m. H. A. D'ACHEL, Sec'y.

Theater Comique.

Another appreciative audience greeted Manager Ritchie's splendid troupe of performers at the Theater Comique last night.

The attractive bill was presented in faultless style and elicited continual and uproarious applause. Bobby Gaynor, the inimitable, appears to-morrow night. A splendid programme for to-night.

Philipsburg Items.

The following items were obtained from a gentleman who arrived in the city yesterday:

General prospecting work is being advanced on the Hope, and the shaft is down about 400 feet. The ore is estimated to be 20 tons per day.

The latest summer mantles are of fine lace, over Canton crepe or thin silk of the same gray color.

Eurobrody that resembles lace and is sewed on plainly with scolloped edges turned up, is the popular trimming this season.

Designs of catkins and reeds made of black silk braid for trimming panels of cloth dresses are similar to those used for decorating table scarfs and other draperies.

Parisian establishments have never sold so much velvet as they do at present. Habits, basque waists, and e-lans are in black and colored velvet.

The newest French sleeve is wide and straight, much hooped at the armhole, without being gathered into a band edged with a lace ruffle.

French dressmakers are using a new style, called the "sweep" neck. It is black and covered with small black bronze or steel sequins attached to a ring, and they rustle and sparkle with the wearer's every movement.

A novelty for brightening up a simple dress is of lace combining a collar, fichu and pannes in one garment. Rows of velvet ribbon matching the dress in color fasten the front, forming a large loop bow on the back of the pannes.

A novel bonnet is made entirely of bagles of iridescent colors laid in lattice pattern; this forms the bonnet, and is trimmed with a wreath of leaves on the brim and strings of two shades of green satin ribbon.

A lady writing from Washington, says: "Easy standards of toilet propriety prevail here. The women wear white house dresses on the streets, or even the unstylish but serviceable combination of white muscues with black skirts, if they choose."

Ficelle or fax lace is successfully used as a trimming for neckties, dresses and bonnets. It forms the corsage drapery, vest, and cuffs of black satin costumes, and appears in lengthwise rows down the front, or as side panels, or a straight border on tailors.

A very becoming costume for a young lady is of plain-colored French cashmere. The dust skirt has the new fashionable neck ruche at the edge, made of the same stuff, and lined with marine blue. The long redingote of the same is buttoned down the front with white buttons, and lined with cord and frays down the opening at the back.

The "panier de fraises" hat is new; it is made of strips of India rubber, plaited to imitate the wicker-work of the usual basket hat, in which form it is packed. It is worn on the head, is trimmed at the edge with ribbon, and ornamented with bunches of currants, cherries, black grapes and strawberries.

Children's dresses are of strong gingham and twine lace. An embroidery is more durable than all other kinds of lace. A suit for a little boy may be of white flannel. The dress crosses over in front and forms two large revers.

Trimmings for baby dresses are of strong gingham and twine lace. An embroidery is more durable than all other kinds of lace. A suit for a little boy may be of white flannel. The dress crosses over in front and forms two large revers.
