

### NIGHT DISPATCHES.

Gov. Hendricks Notified of His Nomination.

His Response to the Notification Committee.

Concern Manifested About Texas Fever.

The Cholera Epidemic in Southern France.

### Notifying Hendricks.

SARATOGA, July 30.—Gov. Hendricks at the Grand Union Hotel. The committee had a private consultation at 11:30 a. m. in the parlor of the hotel. A committee consisting of Villas, of Wisconsin; Waller, of Connecticut; Hooker, of Massachusetts; and Stockton, of New Jersey, was appointed a committee to confer with Hendricks and ascertain how and when the most feasible hour to make the formal notification. The committee would be ready at 10 o'clock and the ceremonies would take place in the large parlor at that time. Waller introduced a resolution extending thanks to W. J. Villas chairman, and minutes for the English and intelligent manner they performed their duties.

### Disseas Cattle.

CHICAGO, July 30.—Gov. Hamilton arrived at Chicago from Springfield today. State veterinarian Patton called upon him to talk about the disease discovered at the stock yards and supposed to be Texas fever. The veterinarian told the governor that information had been received that another case of cattle suffering with the fever was on the way to Chicago this morning. While en route last night the men in charge heard of the killing yesterday by the board of health department. The men were ordered to kill the cattle at way stations but the citizens objected. The cattle were then carried on and left at Jacksonville where they are now. The conference between Dr. Patton and the governor lasted an hour. The veterinarian received instructions to proceed to Jacksonville and investigate the disease. He was also ordered to conduct a minute and technical investigation at the stock yards. The governor said he would immediately institute a rigid quarantine. As long as the infected cattle are killed within twelve hours after their arrival down the health commissioner thinks there is no danger of the disease spreading. It would be worse if the cattle were shipped off to fatten, the possibility then is the disease would spread. The infected cattle were brought to Chicago instead of being shipped along upon the prairie or in small villages. It is here suspected the animals can be killed and carted to the stock yards. The Kansas City and Chicago have such facilities for disposing of sick cattle without danger. There is no occasion whatever, the commissioner states, for the public at large to feel alarmed.

### Union Stock Yards, July 30.

No further developments regarding the Texas fever. The diseased cattle have been slaughtered and condemned. No fresh arrivals. Two uninfected lots have been sold to local butchers subject to rigid inspection. No other cattle in the yards have been affected in the least. Sick cattle it is asserted do not communicate the disease known as Texas fever. It is believed to come from "through Texans" which are never affected themselves, as the disease was brought here by improved cattle and not by stock direct from Texas. No further trouble is expected. Other cattle are concerned in apprehension.

### A Fatal Explosion.

CINCINNATI, July 30.—A fatal explosion occurred at a house on 21 Oregon street this morning. A young son of the proprietor, who was unexploded rocket that had fallen from the Highland house during the exhibition of fireworks last night. He had tried to open it but failing to do so his mother seized a hatchet and cut it several blows. A terrific explosion followed. Mrs. Upmeyer was fatally injured and Ida Upmeyer, aged six severely hurt, and Philip Hill was slightly injured. The deadly missile weighed a six pound rocket. The vicinity of the explosion was fearfully wrecked.

### Spanish Deceit.

MADRID, July 30.—A decree concerning Cuban export taxes was gazetted yesterday. It taxes at 60 per cent of the present export taxes on all classes of sugar. It permits the reduced tax to be paid one half in Cuban bank notes, however, with the view to breaking up the hoard of specie in the island. French refused to accede to the request. Patenote, French minister to China, and the vicerey of Nankin, are still continuing negotiations at Shanghai.

### Cholera Notes.

PARIS, July 30.—Twelve deaths from cholera at Marseilles last night and today. The force of the epidemic in these two cities continues to decline. Three hundred fugitives returned home in the past two days.

ROME, July 30.—At a fire at the hospital of San Giacomo, two unoccupied wards prepared for cholera patients were destroyed. A case of cholera occurred near Lucca.

MARSEILLES, July 30.—The sale of melons is prohibited. Cholera is gaining in area what it has lost in intensity. It has made its appearance in several villages previously exempt. Owing to popular prejudices it is positively dangerous for doctors to walk alone in the suburbs at night. One instance is reported of a doctor who while visiting a woman seized with cholera was assaulted by her son, who drew a revolver and compelled him to leave the house. Several other doctors were also assaulted.

### A Remarkable Vagary.

DETROIT, July 30.—Three families of some sort of relationship living together in Mount Moore, Genesee county, have for some time been possessed with the belief that they are bewitched. Dr. D. L. Fuller, of Chicago, called to visit a sick woman in the family and was met at the door by a woman named Mrs. Lomiston who suddenly stabbed him in the breast, inflicting an ugly wound. The vagaries of the bewitched families are said to be remarkable.

### Congressman Culbertson.

WASHINGTON, July 30.—Congressman Culbertson is in a critical condition. The only cause assigned for Culbertson's ailment is a nervous depression, resulting from a little too free use of stimulants during the hot weather.

### Yellow Fever.

WASHINGTON, July 30.—The Surgeon General of the Marine Hospital Service having received information that yellow fever is spreading rapidly in Sonora, Mexico, he has instructed Inspector Nagales of New York to use extra vigilance to prevent its introduction in the United States.

### MISCELLANEOUS.

NEW YORK, July 30.—Dempey departed for Jacksonville this morning at 21 o'clock.

COLUMBUS, July 30.—Joseph H. Cuthwaite on the eleventh ballot was nominated by the Democratic Convention for Congress to succeed Geo. L. Converse.

LINCOLN, Neb., July 30.—The outbreak of disease among cattle at Maxwell does not excite alarm. It is regarded as purely local due to bad water or too much crowding. The commission appointed by Governor Morrill, has not reported yet. It may be heard from to-day.

FARMINGTON, Me., July 30.—August 19th is fixed as the day for the grand celebration of the birthday of the Republican party at Strang, Blaine, Hannibal Hamlin, Governor Morrill, and Congressmen Bowtell and Dingley, ex-Gov. Long and other distinguished guests will be present.

### The Chinese Have a Big Wake.

Day before yesterday a Chinaman died in Butte. This would not have attracted any attention but for the fact that this particular Chinaman had made money here and was an officer of high rank in the Chinese secret society, which the Chinese all say is "a safe and profitable business." His friends determined that the soul of this Chinaman should have a good time as long as his money should last. It does not seem that he had any relatives in America—at any rate there was no appearance at his funeral. It was a wake and the Chinese who cared whether the man was living or not seemed to the Americans who had gathered around that the Chinese were rather pleased that they had an opportunity to attend a funeral. It was a wake and the Chinese who cared whether the man was living or not seemed to the Americans who had gathered around that the Chinese were rather pleased that they had an opportunity to attend a funeral.

### Montana Stock Growers in Session in Helena.

The convention of Montana Stock Growers was called to order at 10 o'clock Monday morning by Col. William B. Hundley, who was chosen temporary chairman. Temporary officers were chosen, and committees on credentials, on permanent organization and to prepare a constitution and by-laws for the permanent organization. By a unanimous vote the temporary officers of the convention were made the permanent officers of the same. The convention then took a recess until the afternoon. At the afternoon session attention was called to the fact that there had been more cattle stealing during the past year than there had been during all the five years preceding, and that in view of the importance of the cattle growing interests of Montana the territorial government should afford these in the work more protection than it had done.

### Postponement of the Races.

The races which have been extensively advertised to come off at the Butte course, to commence the 20th of next month, have been indefinitely postponed. Among the reasons assigned for the postponement is the unavailability of the horses from the various sections of the country. The promoters of the races stand in order to accommodate visitors and to erect the necessary stable room for the large number of horses which was expected at the meeting. The promoters of the races stand in order to accommodate visitors and to erect the necessary stable room for the large number of horses which was expected at the meeting.

### Montana Soldiers With the Greely Arctic Expedition.

It was known that some of the soldiers detailed to go out on the Greely expedition were from Montana. It may be of interest to many of the MINER'S readers to know who these men were and what became of them. The following clipping from an exchange will give the names of the Montana men who went on the Greely expedition to the Arctic region, viz: Second Lieutenant Kieselguhr, Eleventh Infantry; Sergeant David H. Brainerd, Company K, Sergeant David Linn, Company C, Corporal Nicholas Taylor, Company H, Private Julius F. Edwards, Company L, and Private William A. Ellis, Company C, Second Cavalry. Of these only Sergeant Brainerd and Private Edwards were returned, the others having died of starvation. Kieselguhr died under the tent at the Miles City. His final fate was afterwards stationed at Custer. His wife died, leaving four children. He was a brother-in-law of Seth Bullock of Deadwood, who has adopted one of the children.

### A Banquet.

Immediately after the first evening's rendition of "Uncle Tom's Cabin" by the Boston company, the entire colored portion of the company on the invitation of Mr. James Still, chief of cuisine of the Parlor restaurant, repaired to the above named place, where they were banqueted in royal style. The evening was spent in a very pleasant manner, and at the conclusion of the affair, which was an impromptu one, the party retired impressed with the idea that Mr. Still is a right royal host and knows how to set 'em up in style.

### AMALGAM.

As Found in Our Clean-Up of the Territorial Exchange.

A mountain lion attacked the cattle of Ben Mason at Powderville last Sunday and killed five calves and a cow. Mr. Mason was away at the time, but his wife took arms against the beast, which she followed for some distance, but was driven away.

At Spokane Falls there is trouble about Chinese cheap labor on the city water works. The contractor can get Chinese labor at \$1.50 per day and white labor at \$2.00. The white men threaten to run the Chinamen off if the contractor employs them.

Hilton, the police officer in Salt Lake City, who was arrested for beating a prisoner over the head with a baton, had a preliminary examination lately and was bound over in the sum of \$1,000 to await the action of the grand jury.

A great lawsuit has been in progress in Eureka, Nevada, for several weeks between the Alton Mining Co. and the Richmond Mining Co. The Alton sued the Richmond for \$500,000 for copyrighting the name of the Alton. The Alton obtained a judgment for \$15,000.

### THE PACIFIC EXPRESS COMPANY'S "Old Hoss" Sale!

To whom it may concern:  
The goods remaining on hand as per list below will be sold at public auction at Butte, Montana, August 25th, 1884, unless the same are called for and charges paid before said day.  
P. O. GEORGE, Assistant Supt. Butte, Montana.

### Local News.

Independent: The Butte Baseball club was down at the Fall grounds on Sunday, leaving it to the Helena, somebody (who had probably been on the Butte Friday and wanted to get even), went through their clothes at the Compositum, and got away with about \$60 in money and goods. The club is now in a state of dejection. There is no clue to the identity of the thief.

Gden Pilot: "A little happenstance that occurred on the east side of Main street, between Fourth and Fifth, just last noon today, gave rise to some comment and amusement to those who saw the occurrence. It demonstrated the fact of the existence of a 'man of observation.' It was only a woman, who in a fit of absent-mindedness, forgot herself and kissed prospective Mrs. No. 4.

### Centennial Hotel.

The handsome home of Messrs. Hamilton & Hays, on the corner of Main and Park streets, is well under way. The masons are now on the second story. Through the politeness of Mr. J. S. Roberts, the contractor, the following information was received. It is to be a two-story house with iron front and iron cape over the windows. There is to be a balcony on two sides of the house. The basement extends under the entire house—it is fourteen feet in the clear, well lighted and ventilated. On the first floor are two large stone rooms, separated by a brick partition. These rooms are fifteen feet high. The second floor will consist of a hall, running the length of the building, and eight rooms for offices, arranged in suites. Such is the demand for business rooms and offices that applications for all the different rooms in the house were made before the foundation was completed.
