S. will be invoked to abate all such unauthorized possession and to remove the same, and to remove all such intruders from the said Indian lands. In testimony whereof I have hereunto set my hand and caused the seal of the U. S. to be hereunto affixed.

Arrest of Fenian Agitators. PARIS, March 13.—An immense sensation was caused by the stand which the authorities have taken toward Fenian agitators. In addition to the arrest of James Stephens, Eugene Davis and John Morrissey, yesterday, the police this morning arrested a journalist named M. Leroy, and another Fenian whose name is not learned. Mr. Stephens was also arrested, but subsequently released. All persons now under arrest will be expelled from the country to-day. Warrants for expulsion of other Fenian leaders have been issued. Further arrests are expected.

Washington News Budget. WASHINGTON, March 13.—The first decided action of Secretary Manning in regard to the changes in the under treasury department, was announced this morning. It consisted of a reduction of the force in the special agents division, whereby it is expected a saving of \$40,000 annually will be effected. The services of 40 persons in various parts of the country have been dispensed with, and notices to that effect mailed them to-day. The list includes six special agents, twenty-six special inspectors, customs and ten employes whose names are borne on a so-called "frivolous roll."

The England-Russia Agreement. LONDON, March 13.—Members of the House of Commons heard Gladstone's announcement of agreement between England and Russia with an almost general sense of relief, the agreement affording reason for hope that war would yet be averted by diplomatic means. It is believed Sir Peter Lumsden has the Afghan war sufficiently under control to prevent a collision between Afghan and Russian outposts pending a pacific settlement of the frontier dispute. Some prominent conservatives, however, point out that the agreement will prevent Russia from massing troops on the border of debatable territory, and they object to Russians being allowed to retain even temporarily on territory claimed belonging to Afghanistan.

Russia and England Confronting.

PARIS, March 13.—Baron Mohnenbeim, Russian Ambassador, has been interviewed in regard to the present Anglo-Russian situation. He expressed the opinion that Emperor William would exert his influence to avert war, and also endeavor to induce England to make some concession. He said that the idea of Russia withdrawing her troops from the positions at present occupied. Such action would reflect dishonor upon Russian arms. In case England should not withdraw, he was certain, in his opinion, Russia would not do so. He thought it extremely unlikely England would declare war, as she has her hands full already. Eggers, Russian Prime Minister, is animated by a desire for peace. The influence of the war party in Russia is diminished since the death of General Skobeleff.

England Preparing for War. LONDON, March 13.—The war department is making preparations with a view to the possible occurrence of serious trouble in Afghanistan. Orders have been issued for arsenals at Bombay and Bengal to prepare all kinds of ammunition. Details for two army corps have already been completed. Each corps will consist of 150,000 men, and 11,800 horses. The admiralty is making arrangements to have a fleet of transports in readiness.

Gov. Marmaduke's Proclamation to the Railroad Strikers. ST. LOUIS, March 12.—Gov. Marmaduke issued a proclamation late last night warning strikers and all persons associated with them from interfering with the movement of freight cars and the identification of other persons who may be willing or desire to work is unlawful and calling upon county and municipal officers to promptly enforce the laws which have been enacted. He also ordered that no strike should be maintained in any way engaged or concerned in interfering with free traffic of railroads, or in the intimidation of their employees, and that no person should be allowed to enter or go to any other place.

Final Arrangements Perfected. LONDON, March 13.—The arrangement between England and Russia, announced by Gladstone yesterday, was concluded to-day. It resulted in the decision of the cabinet not to insist upon the withdrawal of Russian troops from the Indian Territory, but to accept the joint commission. Baron de Staal yesterday sent a denial to Granville and De Giers of the report that troops were being sent to Afghanistan. He also protested against preparations for war, which it is reported are now being made in England, and the demonstrations upon the Indian frontier which are intended to lessen the chances of an amicable settlement. Consequently upon the agreement, Baron de Staal to-day informed Granville he was ready to sign the Egyptian convention.

Miscellaneous Arguments in the House of Commons. LONDON, March 13.—In the House of Commons this afternoon Gladstone announced an agreement arrived at between Russia and England by the terms of which the Russian troops in Afghanistan would advance any further on either side of the frontier. Sir Stafford Northcote asked whether this agreement was a permanent one, or temporary, and Gladstone replied that the agreement was without any specified limit. The best description he could give was that the agreement was to last as long as the peace negotiations (laughter). This agreement provides against the rupture of friendly relations between the two governments in the event of a collision between the two countries, and outposts, which might possibly occur while instructions are being conveyed to the opposing commanders.

The Oklahoma Boomers. WASHINGTON, March 13.—In answer to a telegram from the Secretary of War, relating to the condition of the territory in Oklahoma, General Hatch to-day telegraphed from Caldwell, Kansas, that no trespassers were now in the Indian Territory. About twenty trespassers were captured in Kansas near the Territory border. They were threatening to go over the line but were taken no steps of that kind. The general said, and will drive out any invaders who may attempt to settle on the lands. At a meeting of the Cabinet, yesterday, the Oklahoma question was considered at length. Victoria Prohibits the Further Immigration of Chinese. VICTORIA, B. C., March 13.—On the arrival of the steamer George E. from Seattle to-day, twenty Chinese passengers were not allowed to land and will have to return to Puget Sound to-day. The police are acting under orders from the Federal Government, and Dominion Customs officers are powerless. The specialist was one who received a letter from S. P. Atkins of cancer, and by whom he was recently recommended to the Grant family. He says he was called to General Grant's residence by a letter from a member of the family. The letter introduced him to Dr. Douglas, who referred the bearer to Dr. Barker. The specialist says he received a letter from S. P. Atkins, and was refused permission to try remedies upon the patient until the same had first been examined by the physicians in charge of the case. This the specialist refused to permit, and was therefore not allowed to see the patient. He maintains that if he could cure General Grant he could prolong his life.

Fears of Inimicable Arrangement.

LONDON, March 14.—The news still fears for the result of the negotiations between England and Russia is of a doubtful and peaceful solution. A Russian official military paper announces Kouna and Assouza Poland will be formed into first class fortresses, both being situated on the Russian frontier and will control two important railways. Lebauchere writes if England and Russia cannot agree in their frontier difficulties they ought to ask American arbitration.

Bismarck on the Steamship Subsidy Bill. BERLIN, March 13.—During the debate in the Reichstag to-day on the Steamship Subsidy Bill, Bismarck said, "I have not the least intention of subsidizing lines to the east, which would be useful to Germany, and if the House should reject Grant for one of the reasons mentioned, the Government will not thankfully accept the remainder as an installment. Replying to Rentele's objections to colonizing ventures, Bismarck declared that there was no prospect of the Government putting up a thriving mining industry at Angra Pequina and obtaining a supply of cotton from German provinces and Cameron and New Guinea colonies. He said that the negotiations with England regarding Cameron's territory are making gratifying progress. In concluding his speech Bismarck said, "God's blessing rest upon the policy of Germany for twenty years and as Germans had withstood the foe in 1870 as a nation of brothers, the spirit of brotherhood and confessed dissent must not now be allowed to mar the newly founded empire. These words were received with great cheering in all parts of the house."

The County Treasurer Alleged to be Behind Over \$30,000. HELENA, March 14, 1885. Great uneasiness prevails in this city tonight on account of the disclosure of some facts concerning certain outgoing officials. The County Commissioners of Lewis and Clarke have been in constant session for two or three days engaged principally in examining the accounts of W. K. Roberts, County Treasurer, Alexander H. Beattie, Clerk of the district court, and John W. Eddy, who was appointed to examine the books and records of the late Probate Judge, F. T. On March 13th the board of commissioners made the following order: 'Ordered, the ex-treasurer of this county having shown his accounts to the commissioners for settlement it appeared to them by the books and vouchers that the sum of \$38,712.91 was due said county over and above what has been paid into the present treasurer. It is ordered that the clerk spread the same on the books and that the auditor be notified and demand from his bondsman the above amount.' (Signed) FRANCIS POPE, Chairman.

It is a surprise to all, as no one understood higher than Mr. Roberts in the estimation of the people for honesty and fidelity. We hope the matter may still be satisfactorily explained.

The War Cloud. LONDON, March 14.—The terms of the arrangement with Russia are denounced by the conservative press. They admit the arrangement is a virtual surrender to Russia of the frontier demanded. Preparations for war, however, continue on a most active scale. An enormous transport fleet is collecting in the Thames at Portsmouth and Plymouth. The size of the fleet far exceeds any possible needs of the Sudan campaign. The work of the usual war has already been hurriedly enlarged by the erection of temporary structures, and the workmen at the arsenal are on double time. The British government has again changed camp and has fixed at Zurbat on the Persian side of the Herby road. Sir Peter's present position is in the rear of the Russian and advanced outposts. As Russia claims these outposts are inside the boundary line claimed by Russia, Sir Peter's position is made the subject of official representation to the British government. Baron DeStaal, the Czar's Ambassador in England, has asked the British government to make a formal protest against the Russian in undisputed Afghan territory. The request was refused, and Sir Peter instructed to keep his present position and maintain the status quo.
