BISHOP C. F. SCAFEER, D. D., IN THE CITY

THE NOTED DIVINE AND HEAD OF THE A. M. E. CHURCH IN THE WEST, GUEST IN THE CITY

Bishop C. F. Scafeer arrived in the city yesterday on an inspection tour of church work in the west and for the especially purpose of formally dedicating the handsome edifice built through the untiring efforts of Rev. Jordan Ilen and named in honor of the learned divine.

The bishop is one of the most highly educated and polished of the race leaders in the country. Possessing a mind thoroughly trained in ecclesiastical work, it has been broadened and his fund of knowledge greatly increased by the extensive traveling which the scope of his great and useful work necessitates.

His lecture at the First Presbyterian church last evening upon the religious and economic development of Africa was a gem in thought and delivery and was enjoyed by everyone present.

The speaker told of the customs and habits and manners of the natives and others who live in the African cities he visited. It was mostly a statistical narrative of the conditions, and he went more particularly into the mercantile phase of the settlements. From an historical standpoint his narrative was most interesting. He said the future of Africa would be what education, civilization and a nobler conception of the teachings of Jesus Christ would make it. He was in favor of the American negroes taking hold of the government of Liberia and injecting into its commercial fabric the energy and business stamina which characterize the people of this country; he would make a stable government of it; revive it from the lethargy into which it has fallen; make a nation of it one of commercial importance to all of the world and then reach into the interior and bring them into the fold of commercial wise men and teach them the ways of the American, make them understand what it is to be civilized and finally instill into their moral fabric the great importance of and the manifold blessings derived from the teachings of Jesus Christ. This is his idea of missionary work among the uneducated, uncivilized natives of the interior of Africa. He would first establish a government upon which the negro colonists might stand while they build the structure upon which their untutored brethren shall be brought into the light of civilization and religion right in their native country.

Bishop Scafeer will preach tomorrow at the church services and every person who can possibly do so should hear him. He will be the guest of Rev. Allen at the parsonage for a few days. The colored people of the city feel highly honored at having such a distinguished personage in our midst, and will endeavor to the bishop by making his stay so pleasant that he will oftener visit us.

Mrs. E. D. Washington and son, of Salt Lake, spent last Sunday in the city.

Mr. J. T. Baker, the district superintendent of the Pullman company, Ogden, resigned his position and leaves next week for Buffalo, New York, where he takes a similar position. The change is a promotion of the hands of the company, as Buffalo

is a more important district. Mr. Baker is well liked by all of his employes, and there is not one but what rejoice in his success, but are sorry to see him leave. They are all wondering what next.

Every one should subscribe for the New Age and keep up with the times.

THE FAMOUS 24th REGIMENT OF INFANTRY

UNCLE SAM'S GREATEST FIGHTING REGIMENTAL MACHINE NOW IN MONTANA.

Helena, Montana, Special to the New Age.—About 500 colored soldiers of the great fighting 24th Infantry arrived in the state and are stationed at Helena and Havre. They have been doing faithful service in Uncle Sam's army for several years and as fast as possible they are being brought home and stationed at different forts for a rest. The 24th and 25th are renowned for their valor and unsurpassed record made during the Spanish-American war in Cuba, in the historic battle of San Juan hill. Many of them are citizens of this state, having served several enlistments at the different forts throughout the state. Many have been promoted for their faithful and daring services. The Negro as a soldier is considered to be the most daring and can undergo more hardship that comes to an army than any nationality upon the civilized globe.

TO THE BUSINESS MEN.

Advertisers in the New Age. The colored people will transact their business with you and extend to those their patronage who patronize their race paper.

BOISE, IDAHO.

Special to the New Age

One day in the beautiful little capital of the great state of Idaho convinced me that it was the place for industrious colored people to go to get a start quick. The whites welcome the right kind of colored people and give them every show to succeed in order to encourage them to come and establish themselves in the city.

There are only two or three families who have got homes there, but they are highly respected and doing well. The climate is delightful and the water is pure. These are the principle elements that makes life worth living, when accompanied by a little cash.

Mr. and Mrs. Duncan, who have been here for several months, go east on a vacation.

Mr. Jenkins, of San Francisco, California, spent a few days in the city last week, and leaves with a favorable impression of Boise.

Mr. Taylor, of Weiser, Idaho, is here working, he says wages are very good and he thinks by fall he will be able to pay for the place he has bought out from Weiser, then he can live at home. If more would follow Mr. Taylor's plan it would be better for us as a race.

Mr. John Pearson, of Pocatello, spent two days in the city last week.

Mr. E. D. Washington, of Salt Lake City, Utah, was among the visitors last week.

Mr. Lee Johnson of Salt Lake, is quite in love with the city and we hope in the near future to find Mr. Johnson numbered among our residents.
