The Tom Thumb wedding which was scheduled to take place last Monday evening, October 20, was pulled off on time and old Tom and Miss Minnie Warren are now enjoying the blessings of matrimony. The affair was conducted by Mrs. Eunis Bell, who deserves great credit for the successful manner in which the wedding was carried out. The attendance was good, which rendered it a financial success.

Quite a large crowd attended the Silver Bow literary meeting at Shaffer's chapel last Thursday evening. Again the issues of the day were brought up for discussion. Mr. A. S. Webb was on hand in defence of the democratic ticket and made quite an interesting talk in behalf of the candidates on the Clark ticket.

A number of other speakers were in evidence and made things whoop up for awhile, but as usual, the Clark delegation made the other parties look like thirty cents.

The Afro-American Woman's club enjoyed an interesting meeting Tuesday afternoon. Mrs. John Tate entertained the club. Current topic was in discussion, including appointing a few officers: Mrs. J. Bullet, chairman of literature; Mrs. J. A. Scott, treasurer; Mrs. I. Hayes, financial secretary; Miss Lee Bell, journalist; Mrs. Sell Reeves, corresponding secretary. Mrs. Tate served chocolate and cake, and a few minutes of pleasure was enjoyed. Mrs. Tate presented each lady with a penut, with a saying of her own composition, which caused much merriment. There will be an interesting program rendered. Every one should endeavor to be present. While they will enjoy the program they will also show their appreciation of the good work done by Rev. Washington, since he has been in the city.

Mr. W. A. Wright returned last week. We are glad the coal strike seems to be settled, and the unrest manifested among the people of the country is like the calming of the sea after a mighty storm. This is the first time in history that the president was called upon to settle trouble between capital and labor. President Roosevelt's method receives congratulations, not only from different parts of this country, but from other countries as well, and we believe the appointment of the commissions has laid the foundation for all like trouble to be settled in the future by arbitration. While the findings of the commission will not be made known for several days, every one looks forward to it with great satisfaction.

very sociable and did everything in their power to make it pleasant for everyone, which was appreciated by the citizens of Helena. Tucker, supreme knocker; Chas. Ecton, first assistant supreme knocker; Samuel Copeland, second assistant supreme knocker; William Turner, supreme cashier; Joseph A. Marshall, chief bag holder; George Smith, chief hammer swinger, and John Nichols, and George Washington, grand bouncers. The men behind the gun, James C. Pinkston and James Young.

POLITICS! POLITICS! POLITICS!

Mr. C. F. Jones' political program, which took place at Bethel Baptist church last Tuesday, was well attended and many able speeches were made by candidates in behalf of the republican ticket. The most striking feature of the entertainment was the solo sang by Mrs. Charles P. Smith. She seemed to sing with unusual sweetness and was twice called back by the howling audience, to which she responded once. She was accompanied by Mrs. S. A. Smith on the organ.

Guarding our capital we start out in life with a definite amount of possible energy. We can spend it as we please, but even with the best intentions many people use up a large part of their capital in worry anxiety, or by fretting over non-essentials, trifles which have nothing whatever to do with their success. If we could only learn to control our thought force, and to expend it where it needed, instead of allowing it to ooze out, we look away in dribblets of unimportant matters. What marvels we would accomplish in an average life time. Just think how much real energy which might be turned into success. Capital has been wasted in useless expenditures and leakages. Some people spend half the power they generate in vain worry. Much of our possible success-energy is wasted through fear, which, in all its phases, is the greatest enemy of the human race. Fear of failure, fear that we shall come to want, fear of imaginary happenings, which have no foundation, in fact dread, criticism, forebodings about the future, fear of misfortunes that may come to our friends, ourselves or our business. How many promising lives have been wrecked by this gloomy phantom—fear.
