

**DYSPEPSIA OF WOMEN.**

Mrs. E. B. Bradshaw, of Guthrie, Okla., cured of a severe case by Lydia E. Pinkham's Vegetable Compound.

A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary medical treatment. While the symptoms seem to be similar to those of ordinary indigestion, yet the medicine universally prescribed do not seem to restore the patient's normal condition.

Mrs. Pinkham claims that there is a kind of dyspepsia that is caused by derangement of the female organism, and which, while it causes disturbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomachic, but has peculiar uterine-tonic effects as well.

Thousands of testimonial letters prove beyond question that nothing will relieve this distressing condition so surely as Lydia E. Pinkham's Vegetable Compound. It always works in harmony with the female system.

Mrs. Pinkham advises sick women free. Address Lynn, Mass.

**TRAGEDY AT DAVENPORT**

**OFFICERS OF LAW END CHARLES HILL'S MURDEROUS IDEA.**

He Had Twice Shot Joseph Hoy, a Bartender in Wonder Saloon—Was About to Shoot Again When He Was Shot—He Had Lined Up the Loungers in Saloon Along the Wall.

Davenport, Wash., Jan. 29.—Shots from the pistols of Marshal Jack O'Farrell and Deputy Marshal Epperly cut short the murderous career of Charles Hill in the Wonder saloon just at the moment that Hill was about to fire a third bullet into the body of Joseph Hoy, then prostrate. One bullet passed through the right lung of Hill, while the other struck him in the forehead, almost between the eyes. He died half an hour later.

Before the officers arrived Hill had terrorized the occupants of the saloon, telling them he was there to kill William Sullivan, the proprietor. He had twice shot Hoy, who was off duty, and Hoy was prostrate on the floor when the officers arrived.

Hill who is of a sandy complexion, tall, and about 40 years of age, came to town today from the farm of Charles Turner, south of Davenport. He had been drinking, it is said, when he entered the Wonder saloon, where Hoy, who is a cousin of the proprietor, William Sullivan, was on duty. Sullivan was there at the time and was a participant in an altercation which arose later, Hill being one of the aggressors. Hill finally left the saloon, after saying he would get a gun and kill Sullivan. He procured a weapon, but it was taken from him by his friends. He was still full of fight, however, and procured another gun, this time from the Vendome, and this weapon also was taken from him. A third time he went after a "shooting iron" and was successful in avoiding those he knew would try to deprive him of it.

It was dark when he entered the Wonder saloon, bent, as he said to the occupants, upon an errand of destruction. He had come to kill Sullivan, he said. According to the stories of the same bystanders, "he wanted to see some man die," "to watch him bleed to death," and talked in that strain for some time.

Once inside the saloon, he found Sullivan missing. Sullivan, it appears, was attending lodge. Hill compelled the saloon loungers, seven or eight in number, to line up against the wall. He was determined that none should go outside to give the alarm. Among those in the saloon was Joseph Hoy, day bartender.

It has not yet been divulged what impelled Hill to begin shooting at Hoy, but he soon turned loose his ammunition at the cousin of the man he had sworn to kill. Twice he wounded Hoy, once through the cheek, once through the shoulder. Hoy will recover. While the shooting was going on the bystanders, lined up against the wall, were helpless, they say, to aid Hoy, who by this time had fallen to the floor.

Hill was standing over his prostrate victim, about in the center of the saloon, with his back to the front door, when the door opened and Marshal Jack O'Farrell and Deputy Marshal Albert Epperly made their appearance. Hill turned quickly, weapon in hand, to see who was approaching. As he turned the officers leveled their weapons and pulled triggers. Hill was mortally wounded by the two bullets, one of which lodged in his right lung, the other entering the forehead, almost between the eyes. He lived about a half hour.

Hill was known as "Swede Charlie." It is not known whence he came or whether he had a wife or other relatives.

**TERMS OF THE CANAL TREATY.**

Cash Payment of Ten Million Dollars to Colombia. Washington.—The treaty between the United States and the government of Colombia which was recently signed by Secretary Hay and Dr. Herran as the representative of the two countries, has been transmitted to the senate and by the senate referred to the committee on foreign relations.

By the terms of the treaty the United States agrees to make a cash payment of \$10,000,000 in gold to the Colombian government and after the expiration of nine years to pay a rental of \$250,000 per year. The lease of the strip of land to be used for the canal and for canal purposes is practically made perpetual, the provision on this point being that the first lease shall be for one hundred years and renewable thereafter at the pleasure of the United States.

The strip is to be 10 kilometers, or six miles, in width and over this territory the United States is given police and sanitary jurisdiction, although it is explicitly specified that Colombia does not surrender sovereignty over it. The United States is to have the privilege of free importation of vessels and material to be used in the construction of the canal. It also is given the right to improve, use and protect harbors at both the Atlantic and Pacific ends of the canal. The grant is exclusive to the United States and no taxes or rentals are to be charged in addition to the gross sums of \$10,000,000 cash and a quarter of a million dollars annually. The committee on foreign relations will meet tomorrow to consider the treaty.

**CAUGHT BY THE GRIP.**

**RELEASED BY PE-RU-NA.**

Congressman Geo. H. White's Case. A Noted Sculptress Cured.

The world of medicine recognizes Grip as epidemic Catarrh.—Medical Talk.

La grippe is epidemic catarrh. It spares no class or nationality. The cultured and the ignorant, the aristocrat and the pauper, the masses and the classes, are alike subject to la grippe. None are exempt—all are liable.

Have you the grip? Or, rather, has the grip got you? Grip is well named. The original French term, la grippe, has been shortened by the busy American to read "grip." Without intending to do so a new word has been coined that exactly describes the case. As if some hideous giant with awful grip had clutched us in its fatal clasp. Men,

women, children, whole towns and cities are caught in the baneful grip of a terrible monster.

**Peruna for Grip.** Mrs. Theophile Schmitt, wife of the Ex-Secretary of the German consulate, writes the following letter from 3417 Wabash avenue, Chicago, Ill.:

"I suffered this winter with a severe attack of la grippe. After using three bottles of Peruna I found the grip had disappeared."—Mrs. T. Schmitt.

Mrs. Celeste Covell writes from 219 N. avenue, Aurora, Ill.:

"Only those who have suffered with

la grippe and been cured can appreciate how grateful I feel that such a splendid medicine as Peruna has been placed at the door of every suffering person."—Mrs. C. Covell.

**Noted Sculptress Cured of Grip.** Mrs. M. C. Cooper, of the Royal Academy of Arts, of London, England, now residing in Washington, D. C., is one of the greatest living sculptors and painters of the world. She says:

"I take pleasure in recommending Peruna for catarrh and la grippe. I have suffered for months, and after the use of one bottle of Peruna I am entirely well."—Mrs. M. C. Cooper.

D. L. Wallace, a charter member of the International Barbers' Union, writes from 15 Western avenue, Minneapolis, Minn.:

"Following a severe attack of la grippe I seemed to be affected badly all over.

"One of my customers who was greatly helped by Peruna advised me to try it, and I procured a bottle the same day. Now my head is clear, my nerves are steady, I enjoy food and rest well. Peruna has been worth a dollar a dose to me."—D. L. Wallace.

Lieutenant Clarice Hunt, of the Salt Lake City barracks of the Salvation Army, writes from Ogden, Utah:

"Two months ago I was suffering with so severe a cold that I could hardly speak.

"Our captain advised me to try Peruna and procured a bottle for me, and truly it worked wonders. Within two weeks I was entirely well."—Clarice Hunt.

**Congressman White's Letter.** Tarboro, N. C.

Gentlemen:—I am more than satisfied with Peruna and find it to be an excellent remedy for the Grip and catarrh. I have used it in my family and they all join me in recommending it as an excellent remedy."—George H. White, Member of Congress.

Mrs. T. W. Collins, treasurer Independent Order Good Templars, of Everett, Wash., writes:

"After having a severe attack of la grippe I continued in a feeble condition even after the doctors called me cured. My blood seemed poisoned. Peruna cured me."—Mrs. T. W. Collins.

If you do not derive prompt and satisfactory results from the use of Peruna write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

**Bowen Looks for Peace.**

Washington, Jan. 25.—Minister Bowen has given out the following statement: "I have good reason to believe that the pending controversy between the allied powers and Venezuela will be settled soon and satisfactorily."

Mr. Bowen said he was able to make this positive statement after a number of conferences held during the day and evening with the representatives of the allied powers. He expressed his gratification over the prospects of a speedy settlement of the difficulty. He had nothing to say, however, as to whether the assurances he has received include an immediate raising of the blockade.

**An Extra Size.**

"Are your safe deposit boxes extra large?" inquired the prospective patron. "They are the full regulation size," replied the smiling attendant. The stranger frowned. "I'm afraid that won't do," he said. "I want one big enough to hold a hod of coal."—Cleveland Plaindealer.

**\$100 REWARD \$100.**

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

**Sleeping Volcanoes**

A thin, vapory smoke, lazily ascending from its crater may be the only visible sign of life in the sleeping volcano, but within is a raging sea of fire, molten rock and sulphurous gases. Those who make their homes in the peaceful valleys below know the danger and, though frequently warned by the rumblings and quakings, these signs of impending eruption go unheeded.

They are living in fancied security when the giant awakes with deafening roars and they are lost beneath a downpour of heated rock and scalding ashes.

Thousands of blood poison sufferers are living upon a sleeping volcano and are taking desperate chances, for under the Mercury and Potash treatment the external symptoms of the disease disappear, and the deluded victim is happy in the belief of a complete cure, but the fires of contagion have only been smothered in the system, and as soon as these minerals are left off will blaze up again. Occasional sores break out in the mouth, a red rash appears on the body, and these warning symptoms, if not heeded, are soon followed by fearful eruptions, sores, copper colored spots, swollen glands, loss of hair and other sickening symptoms.

Mercury and Potash not only fail to cure blood poison, but cause Mercurial Rheumatism, necrosis of the bones, offensive ulcers and inflammation of the Stomach and Bowels.

The use of S. S. S. is never followed by any bad results. It cures without the slightest injury to the system. We offer \$1,000.00 for proof that it contains a mineral of any description. S. S. S. is an antidote for contagious blood poison, and the only radical and permanent cure known. It destroys every atom of the virus and purifies and strengthens the blood and builds up the general health.

We will mail free our special book on Contagious Blood Poison, which gives all the symptoms of the disease with full directions for home treatment. Medical advice is furnished by our physicians without charge.

**Bowling Green, Ky., March 24, 1909.**

Gentlemen: For over four years I suffered greatly from a severe case of contagious blood poison. I went to Hot Springs, staying there four months at a big expense. I then consulted physicians, who prescribed Mercury. Nothing did me any good, in fact, the treatment proved more harmful than beneficial. I mentioned my case to a friend, who told me that S. S. S. had certainly cured him. I at once commenced its use, and in six months could find no trace of the disease whatever. This was about two years ago. I continued S. S. S. for some time to make sure of a permanent cure, and I can truthfully say I am entirely well. D. M. SANDERS.
