

FOLSOM, N. M., FLOOD

CLOUDBURST STRUCK TOWN AWFUL RESULT,

Over 20 People Killed and More Than 100 Injured—Thirty-Foot Wall of Water Rushed Down the Narrow Canyon on the Town—Large Hailstones Add to Misery of Sufferers.

East Las Vegas, N. M., Aug. 31.—As darkness fell on Folsom, N. M., to night it marked the end of a day of intense suffering due to the terrific hailstorm that has raged with deadly effect for 12 hours and the beginning of a night of terror unequalled in the history of this part of the country.

Huddled together on the hillsides, without food or shelter, and many of them with scant clothing, the hundreds of residents of Folsom who were driven from their homes by the recent cloudburst spent the sleepless night in anguish. Many of them having lost their homes and personal belongings in the flood, separated from their friends and relatives, and then attacked later by hailstones as large as mothballs, the refugees are in a frame of mind bordering on insanity. Some of the refugees have been without food for 48 hours and there is no telling how much longer they must go hungry.

The hailstones have done great damage in the farming sections. It is even reported that some of them killed sheep. Following the cloudburst so closely, the storm completed the work of destruction, and tonight hundreds of acres of farm lands are inundated, creeks are overflowing and thousands of head of cattle have already been drowned.

Food and clothing are ready to be rushed to the suffering people on the hillsides as soon as there is any possible chance of rescuers reaching them without losing their lives in the rushing waters.

The horror of the Folsom flood grows with each telegram from the south. The stories of the survivors are beginning to drift in. The magnitude of the disaster is just beginning to make itself known.

The work of recovering the bodies goes forward under the greatest difficulties. There were many strangers in the town on the night of the disaster who did not know which way to turn when the flood swept through the narrow streets, and there is no means of telling how many of these were carried away by the 30-foot wall of water which rushed down the narrow canyon.

The town of Folsom is built in a narrow canyon—a death trap if ever there was one. All Thursday afternoon the rain fell in torrents and the downfall continued after night settled down on the doomed town. No such rainfall had ever been known in the section, but the residents of Folsom went to bed as usual unconscious of the great wall of water which was gathering above the town.

Over 20 persons are reported to have lost their lives.

Open Alberta Lands Monday.
Winnipeg, Man., Sept. 1.—In the provinces of Alberta and Saskatchewan there was a great rush for land Monday. All the Doukhobor land on which these foreigners refused to perform homestead duties, thousands of acres in extent, was thrown open to settlement, besides which the new preemption law passed at the last session of parliament went into effect. This gives the privilege to all settlers to enter for a second homestead. Baricades have been erected around the land office to prevent a rush. Already many applicants are standing in line.

Killed Daughter-in-Law.
A report from Fort Dodge, Iowa, says that J. M. Brown, aged 70 years, of Manson, Saturday battered out the brains of his beautiful daughter-in-law with an Indian club. The tragedy was the culmination of a series of bitter quarrels, extending over a long period. The old man and his wife had been making their home with their son, George G. Brown, a wealthy man. The latter is a consumptive and is in Colorado for his health.

The young wife was a beautiful girl but could never get along with the old folks. A year ago she kicked the old lady downstairs and the latter is still in bed as a result. Saturday morning the father and daughter-in-law renewed the old quarrel. After the crime Brown walked down the street and said:

"It is the best deed I ever did in my life and I don't regret it. They can do what they like with me now."

Atlantic City Closed.
Atlantic City, N. J., Aug. 31.—But four times in 50 years has Atlantic City been so tightly closed and the liquor laws so closely observed as Sunday. Even the best known and most favored patrons of hostelry and cafes noted for their wide-open methods could not secure their coveted liquor.

JAPS SHORT OF MONEY.

Have Postponed Their Exposition to 1917.

The government's financial policy, decided upon by the cabinet, involves the curtailment of expenditures by \$100,000,000, of which 30 per cent will be taken from the army budget and 10 per cent from that of the navy.

The postponement of the exposition, Premier Kaysura says, is not purely due to financial reasons, but is owing to the fact that the work of preparation has been insufficient and it will be quite impossible to make a creditable exposition within three years on an appropriation of five millions.

Therefore, as the necessary appropriation would be inconsistent with the economical plans of the cabinet for the next five years, it is wiser for the government to admit that fact than to fall in making a complete success of the exposition which it has been decided will be held in 1917, the anniversary of the accession of the emperor.

In this manner Japan admits her financial stringency, but insists on the utmost economy and depends on foreign countries accepting the situation as an act of wise economy on the part of the nation.

NEW ORLEANS FIRE

FIREMEN AT ANNUAL PICNIC WHEN BLAZE STARTED.

Three Blocks Destroyed With Loss Reaching \$1,500,000—Fire Was Spectacular—Two Liquor Warehouses Among Buildings Destroyed—Barrel After Barrel Exploded.

New Orleans, Aug. 31.—Fire that broke out in the center of the commercial district Sunday afternoon swept over portions of three blocks, destroying a large number of wholesale houses, manufacturing plants and stores. Originating at Beilville and Chartres streets, the flames worked their way north as far as Conti street and west to Royal street, with a loss of between \$1,000,000 and \$2,000,000 before the flames were finally subdued.

At the time the alarm was turned in, shortly before 3 o'clock, the New Orleans firemen were in the midst of their annual picnic at a suburban park and the engines and patrols responded with a mere handful of men. It was fully an hour before the department was in a position to make anything like a successful fight against the fire, and even then the handicap against it was added to by an inadequate supply of water.

The fire was one of the most spectacular that has occurred in New Orleans during recent years.

Two warehouses filled with wines and liquors were among the buildings destroyed. Barrels of whiskey and brandy exploded with thunderous roars which could be heard for blocks and which shook the walls of adjoining buildings and endangered the lives of firemen engaged in fighting the flames. It was not until several hours had elapsed that the fire was gotten under control, and even then it continued to burn well into the night.
