A little girl, the daughter of Mr. and Mrs. Andrew Buzlett, climbed up in the seat of Frank Moshner's ice wagon Saturday afternoon while the driver was delivering some ice on upper Fifth avenue. Child-like the little one commenced to cluck at the horses and finally got the big and spirited team started down the avenue. They kept going faster and soon finding that there was nothing to restrain them broke into a furious run. It was a sight calculated to give the strongest-hearted a scare to see the big team tearing down the street and the little child, now frightened into screaming at the top of her voice, bouncing around in the seat. Several men tried to stop the horses but did not even check them. When the wagon went over a crossing below the new M. E. church the child was thrown back out of the seat onto the ice. A moment later another crossing was struck and the little one was pitched out of the wagon. After lying on the ground for a second she got up and walked away, apparently little if any the worse for the fall. That she escaped serious and possibly fatal injury was almost miraculous. The team was stopped lower down the avenue and but little damage was done.
