

The Story of the Book Agent.

A Philadelphia book agent implored James Watson, a rich and close New York man, living out at Elizabeth, still he bought a book—the "Early Christian Martyrs." Mr. Watson didn't want the book, but he bought it to get rid of the agent; then taking it under his arm, he started for the train which took him to his New York office.

ABOUT THE STOMACH.

We dare say three-fourths of the diseases that prevail in the human family are directly or indirectly induced by some derangement of the stomach. The most serious ailments have their origin there. With dyspepsia the food passes indigested through the lacteal vessels and many particles of deleterious matter are carried into the blood and gain lodgment in the lungs and other great centers of vitality. Hence dyspepsia favors the occurrence of consumption in persons at all disposed to it. It is also the primary cause of scrofula and other diseases of the blood and skin.

THE GREAT NERVE CONQUEROR

It quiets and composes the patient—not by the introduction of opiates and drastic cathartics, but by the restoration of activity to the stomach and nervous system, whereby the brain is relieved of morbid fancies, which are created by the causes above referred to.
