FLOOD RAGING IN THE EAST

Pennsylvania, West Virginia and
Ohio Deluged by Overflow of
the Ohio River.

MANY LIVES ARE ENDANGERED

Bridges Swept Away and Property
Damages Millions of Dollars—
The Poor Fight for Fuel.

Pittsburg, Jan. 21.—The worst flood
in the history of western Pennsylvania
since the establishment of the
weather bureau at this point is ex-
pected here Friday night. Never be-
fore have existing conditions and the
outlook been so serious as now. Ex-
perienced rivermen and people who
for years have watched the river and
weather conditions, tonight did not
hesitate to state that a stage of 35
feet would be reached, which is 1.7
feet higher than the flood of 1884.

From nearly every section of Wash-
ington county reports received tonight
indicate that considerable damage
has been done by high water. Buffalo
creek, in the southwestern section of
the county, is on the rampage. At
Taylortown an immense ice gorge has
formed and there is every probability
that a portion of the town will be in-
undated before morning. Between
undated before morning. One man
lost his life near Waynesburg this
evening. Charters creek is over-
flowing between Washington and
Bridgeville, and part of Canonsburg
is under water. At Morgantown sup-
ports of Charters the Valley railroad
bridge were washed away this even-
ing and trains are unable to get
through. All passengers are being
transferred.

Shortly after midnight Turtle creek
overflowed its banks between the
boroughs of Turtle creek and Wilmer-
ding and water covered tracks of the
United traction line to the depot at
Towson. The cellars of 50 houses were
beginning to fill with water shortly
before 1 o'clock.

At this hour several feet of water
is rushing over the ice in the Alle-
gheny river, practically all the way
from New Kensington to Verona. If
the volume of water continues to in-
crease Twelve Mile and Fourteen
Mile islands will be covered and
Springdale, Cheswick and Sylvan will
be under water by daybreak.

A Girl Drowned.
Fremont, O., Jan. 21.—The lower
portions of Fremont are under water,
the result of the freshet in the San-
dusky river and the forming of an
ice gorge below the city. Many
houses are surrounded by water and
the occupants are moving out. The
Wheeling & Lake Erie tracks are sub-
merged. At Green Springs, Lottie
Perin, a school girl, was drowned
while crossing a creek.

Wheeling, W. Va., Jan. 24.—The
crest of the flood swell was reached
this afternoon when the stage was 44
feet 2 inches. Fully one-third of the
homes in the city were wholly or par-
tially inundated, and a sharp fall in
temperature, with the resultant for-
mation of ice, accompanied by the
shutting off of natural gas in the
flood district, has caused a great deal
of suffering.

Nearly all mills and factories are
on the river front and are flooded
and the damage to them will be the
most severe. In many instances the
resumption of work will be delayed
for days or weeks, and hundreds of
men will be temporarily out of em-
ployment.

The weather remains cold and many
churches and halls have been thrown
open for the accommodation of those
who are suffering. The freight and
passenger traffic of the railroads
along the river is still tied up. None
of the depots can be reached. The
traction lines are all tied up and tele-
phone communication with a number
of the suburban towns is cut off. In
Benwood there is not a single block
that is high and dry, and 5,000 peo-
ple are living in second stories or on
the hillside, while the suffering is in-
tense. In Bellairs Bridgeport and
Martin's Ferry, on the Ohio side, the
situation is not so bad, as the ground
is higher. Industrial activity is pa-
ralyzed in all towns, however.

No loss of life or serious accident,
incident to the flood, has been re-
ported.

Poor Fight for Fuel.
Pittsburg, Jan. 24.—The flood of
yesterday has in great measure pas-
sed this point, but portions of Pitts-
burg and Allegheny are still sub-
merged. The biting cold weather
that has prevailed increased the dis-
tress that exists in the flood section.
In Allegheny the fuel supply is very
scarce and the distribution of coal
among poorer sufferers brought about
riotous conditions. When the fuel

was dispensed on the street, men,
women and children fought for its
possession, requiring a strong guard
of police to restore order. Desola-
tion remains in all parts of both cit-
ies, from which the water receded
today. Wreckage and ice floats strewn
the streets. Many districts are unfit
to walk through. Huge timbers, por-
tions of doors, stairways, barrels, box-
es, cans and other debris washed up
on the streets by the flood have rested
where the water left them.

Street car service has been resumed
between the two cities but is oper-
ating under difficulties in some of
the lower lying portions of the roads.

Navigation Re-Opened.
Cincinnati, Jan. 24.—With the ar-
rival here of the steamer Courier last
night, navigation was opened in a
part of the Ohio river after a com-
plete suspension of almost two
months. During the time seven large
packets and a dozen smaller ones and
hundreds of coal barges have been
anchored here. Two small packets
were wrecked by the breaking of ice
gorges, and the number of barges lost
will never be known. The total di-
rect loss is placed at \$200,000. The
indirect loss is much greater. It is
stated that the loss of one of the
large packets, by being tied up, is \$1-
000 per day. The river is open for
navigation now only between Louis-
ville and Maysville, Ky., so that none
of the through packets up river for
Pittsburg or down river for Missis-
sippi points are yet able to run on ac-
count of the ice, while freezing weath-
er again prevails through the Ohio
valley, the river is now too high to
be again closed up.

Rescued by Life Savers.
Toledo, Ohio, Jan. 24.—Another
gorge formed early this morning in
Maumee bay and at ten o'clock to-
night the water had reached a point
higher by several inches than it was
at any time yesterday. The artificial
gas plant has been shut down, but
there is enough gas on hand in the
tanks to keep the city supplied until
morning.

At 7 o'clock tonight it was one de-
gree below zero and was getting col-
der very fast.

This morning four men imprisoned
on the terminal bridge draw and
three men on the draw of the Wheel-
ing and Lake Erie bridge were res-
cued by the crew from the Marble-
head life saving station. A rope was
shot over the bridge by a cannon and
the men slid to safety in the breeches
buoy.

Domestic Troubles.
It is exceptional to find a family
where there are no domestic troubles
occasionally, but these can be lessened
by having Dr. King's New Life
Pills around. Much trouble they save
by their great work in stomach and
liver troubles. They not only relieve
you, but cure. 25c at Delzell Drug
Co.

FERGUS CORPORATION.

**Fergus County Ranchmen's Co-Oper-
ative Association Formed.**
Helena, Jan. 21.—The Fergus Coun-
ty Ranchmen's Co-Operative Protec-
tive association has made application
to Secretary of State George M. Hays
for license to begin business with its
headquarters at Glengary, a town on
the Montana railroad. It will engage
in the buying and selling of land, the
erection and operation of mills and
manufactures of various kinds, and
construction and maintenance of tele-
phone lines, the erection and opera-
tion of creameries and cheese factor-
ies and a general mercantile business.
The capital stock of the association
is \$1,000 with shares at \$1 each.

Wonderful Nerve.
Is displayed by a man enduring the
pains of accidental cuts, wounds,
bruises, burns, scalds, sore feet or stiff
joints. But there's no need for it.
Bucklen's Arnica Salve will kill the
pain and cure the trouble. It's the
best salve on earth for piles, too. 25c
at Delzell Drug Co.

GETS NEW TRIAL.

**The Supreme Court Gives De Wolfe
Another Chance.**

Helena, Jan. 23.—In an opinion pre-
pared by Commissioner Calloway, the
supreme court today granted the ap-
peal in the case of the state of Mon-
tana against Percy De Wolfe from
Cascade county. De Wolfe was charged
with the larceny of 36 head of hor-
ses and upon conviction was senten-
ced to the penitentiary, where he
has been for some time.

The supreme court finds error in the
court below and remands the case
for a new trial. On the matter of the
case, employed by the state board of
stock commissioners, the court says:
"The right of Mr. Downing to ap-
pear was a question of law for the
court and was a matter with which
the jury had nothing to do. There
was no evidence before them that he
was employed by the board of stock
commissioners; his statement was to
the court and before the jury was im-
paneled. This instruction, therefore,
is not based upon any evidence in the
case, but it is objectionable from any
point of view. The jury were told
that it is the duty of the board of
stock commissioners to employ coun-
sel to assist the prosecution of any

person guilty of any offense against
the laws of the state in feloniously
branding or stealing any stock. In
effect the instruction told the jury
that the gentlemen comprising the
board of stock commissioners had sat-
isfied themselves that the defendant
was guilty of the crime charged in
the information, and had therefore
employed counsel to assist in the
prosecution."

NOTICE OF FORFEITURE—Kendall.
Mont. County of Fergus, January
18, 1904.

To Frank Sage, Peter Leary and O.
L. Arnold, their heirs, administrators,
assigns or legal representatives.

You are hereby notified that I, the
undersigned, your co-owner, has ex-
pended \$100 in labor and improve-
ments upon the McGinty quartz lode
mining claim in the North Moccasin
mining district (unorganized), county
of Fergus, state of Montana, and re-
corded in the office of the clerk and
recorder of Fergus county in book 8
of Lode Records at page 65, as will
appear by a certificate filed January
2nd, 1904, in the office of the clerk
and recorder of said county. In order
to hold said premises under the pro-
visions of section 2324, Revised Stat-
utes of the United States, being the
amount required to hold the same
for the year ending December 31,
1903, and if within ninety days after
this notice by publication you fail or
refuse to contribute your portion of
such expenditures, as a co-owner,
amounting to \$75, \$25 for each of you,
your interest in the said claim will
become the property of the subscrib-
er under said section 2324 Revised
Statutes.

**MINERAL APPLICATION No. 99.—
U. S. Land Office, Lewistown, Mont.,
Dec. 19, 1903.**

Notice is hereby given that Julian
L. Stuart, whose postoffice address is
Lewistown, Montana, has this day
filed an application for patent on be-
half of himself and Willard A. Long,
Robert S. Hamilton and George Ware-
ham, his co-owners, under the mining
laws of the United States, for 1493.7
linear feet of the Stand Pat Lode min-
ing claim, being 493.7 feet to 20 de-
grees 35 minutes e, and 1000 feet to 20
degrees 35 minutes w, measured along
the course of the vein from the point
of discovery, situated in North Moccasin
mining district (unorganized), county
of Fergus, state of Montana, and
designated on the official plat and
in the field notes on file in this office
as Mineral Survey Nos. 7015, 7016,
7017 and 7018, respectively, in sec 36, tp
18 n, r 17 e, and sec 31, tp 18 n, r 18 e,
of the Principal Meridian in Mont-
ana. Said Mineral Survey No. 7017
being particularly described as fol-
lows:

Beginning at cor. No. 1 from which
the quarter sec cor. between sec 36,
tp 18 n, r 17 e, and sec 31, tp 18 n, r
18 e, bears 56 degrees 06 minutes e
596.9 feet to cor. No. 2; thence 57
degrees 41 minutes w 1374.2 feet to
cor. No. 3; thence 35 degrees 55 minutes
e 596.9 feet to cor. No. 4; thence 57
degrees 41 minutes w 1374.2 feet to
cor. No. 5; thence 35 degrees 55 minutes
