Charles Meredith, the metallurgist of New Year, is preparing to develop the old Bamboo Chair claim in the Judith mountains. Considerable work was done on the property in former years, but it was abandoned. Recently Mr. Meredith has been looking over the ground and doing a little prospecting, and the result is very encouraging. Mr. Meredith believes that he can make a mine of it if he can succeed in interesting capital in the enterprise.

H. P. Imislund and E. R. Judd have formed a partnership, and will shortly occupy the ground floor of the Imislund building, on Main street, now nearing completion. They engage in the grocery brokerage business, and will act as representatives for some large manufacturing establishments. Mr. Imislund has been a prominent business man in the Grass Range section for years, and located in Lewistown a few months ago. Mr. Judd is a well known young business man of this city, and has been engaged in the commission business here.

The deal for the purchase of the Barnes-King by a group of men prominent in the Amalgamated, but acting for themselves in this transaction, is said to be about closed up, although some details are yet to be disposed of, and so far as known no transfer of the property has yet been made. Clarence Barnes, of Boise, and W. B. Deveraux Jr., of Glenwood Springs, Colorado, both of whom are interested in the property, with E. W. King, the president of the company, and some other gentlemen, are now in Kendall on matters connected with the deal. There has been considerable speculation as to the price to be paid for the mine, and it is understood that the figure agreed upon is about \$1,200,000, which is the par value of the stock.

A Matter of Associations.  
Solitude is a matter of taste. It has been the subject of much discussion. Volumes have been written in praise or condemnation of it. But perhaps the real value of solitude has never been the subject of much discussion. pressed as by the girl who was asked if she liked being alone.  
"That depends," she answered sweetly, "on whom I am alone with."—Boston Transcript.

From the Helena Record.  
G'mornin! Mister Toole, have you had your Japanese wash your window?  
There is a chance for Mr. Walsh to become suddenly patriotic by sending his Chinese help to the Panama canal zone.  
Speaking of labor conditions in Montana, the Record would like to know whether Mr. Walsh works his Chinaman eight of sixteen hours a day.

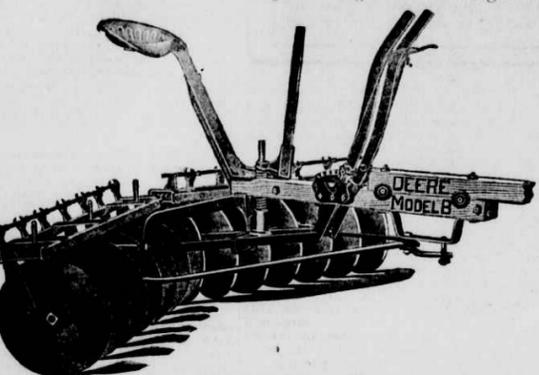

What makes the grass grow? Mr. Walsh's Chinaman and Mr. Toole's Japanese applying the hose.  
Speaking of debates, why not have Governor Toole and Mr. Walsh discuss the relative merits of Japanese and Chinese labor as studied by themselves.
