

WOMAN WORKS 15 HOURS A DAY

Marvelous Story of Woman's Change from Weakness to Strength by Taking Druggist's Advice.

Peru, Ind.—"I suffered from a displacement with backache and dragging down pains so badly that at times I could not get on my feet and it did not seem as though I could stand it. I tried different medicines without any benefit and several doctors told me nothing but an operation would do me any good. My druggist told me of Lydia E. Pinkham's Vegetable Compound. I took it with the result that I am now well and strong. I get up in the morning at four o'clock, do my housework, then go to a factory and work all day, come home and get supper and feel good. I don't know how many of my friends I have told what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. ANNA METERIANO, 36 West 10th St., Peru, Ind.

Women who suffer from any such ailments should not fail to try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound.

Nice Time Was Had.
Tommy (age five)—Yesterday was such a holiday.
Jimmy—Gee, what did yer pa and ma give yuh?
Tommy—Ma gimme a bath and pa gimme a lickin'.

Don't Forget Cuticura Talcum.
When adding to your toilet requisites. An exquisitely scented face, skin, baby and dusting powder and perfume, rendering other perfumes superfluous. You may rely on it because one of the Cuticura Trio (Soap, Ointment and Talcum). 25c each everywhere.—Adv.

Agitation.
"I wish they'd quit saying prices will go down," said the thrifty woman. "It's well meant."
"No doubt. But every time the announcement is made it seems to scare people I deal with into making me file the sun shines."

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it. A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

May receive a sample bottle of Swamp-Root by Parels Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Adv.

Triumph Over Necessity.
Manhood begins when we have in any way made peace with Necessity; begins even when we have surrendered to Necessity, as the most part only do; but begin joyfully and hopefully only when we have reconciled ourselves to Necessity; and thus in reality triumphed over it, and felt that Necessity we are free.—Carlyle (Essays).

Science may be learned by rote; wisdom not.—Sterne.

Baby's Clothes
will be white as the driven snow when laundered if you use **Red Cross Ball Blue**
It never streaks or spots the clothes, nor does it injure the most delicate fabric.
All good grocers sell it; 5 cents package.

GOVERNOR STEWART NAMES COMMISSIONS

GRAIN GRADING, INSPECTION AND WAREHOUSE BOARDS ARE SELECTED

NEWS OF THE CAPITAL CITY

Montana Millers' Association Will Co-operate With State Utilities Commission in Putting New Regulations Into Effect

Helena.—Appointments of members for three new boards, grain grading inspection and warehouse commission, the new terminal elevator managers, and executive board of the state vocational school for girls, created by the Sixteenth legislative assembly, selection of members of a new board of health and reappointment of two members of the state board of education have been made by Governor S. V. Stewart.

Certain members of the terminal elevator board, the grain grading commission are made upon recommendations of farmers organizations and those of the new state board of health upon recommendation of the Montana Medical Association. The latter have the authority to appoint the secretary of the board.

These are the members of the grain grading, inspection and warehouse commission:

John M. Davis of Bole, Teton county; Thomas S. Hunt of Broadview, Yellowstone county; Thomas Connelly of Havre, Hill county. Each is for a term of two years.

Members of the board of managers of the terminal elevator at Great Falls: Earney Foster of Arrow Creek, term of one year, beginning April 1, 1919.

For the two year terms: W. H. McCormick of Kalispell and F. S. Putnam of Joliet.

For three year term, Adam Stimpert of Great Falls; Clark Bungartner of Fife.

Members of the executive board of the state vocational school for girls:

Mrs. L. O. Edmunds of Columbus, two years; J. E. Roche of Butte, three years; Dr. Olive Brazier Cordia of Helena, four years. All terms begin April 21 of this year.

Members of the state board of health:

Dr. E. M. Porter, Great Falls, one year; Dr. E. G. Balsam of Billings, two years; Dr. L. H. Fligman of Helena, three years; Dr. B. L. Pampel of Livingston, four years; Dr. Dan J. Donohue of Butte, five years.

Reappointed as members of the state board of education with terms of four years:

Ward H. Nye, Billings; Leo H. Faust of Libby. Terms begin February 1 of the present year.

State Will Sell 400,000 Acres.

Approximately 400,000 acres of state land will be offered for sale at public auction in 25 counties of Montana this season, decided the state land board at a meeting last week. The largest sales will be those in Valley, Blaine, Toole, Hill and Teton counties, that were scheduled for last fall and then cancelled because of the influenza epidemic. Applications for the purchase of about 200,000 acres of land in these five counties are on file. The first sale will be held early in May, probably in Toole county.

The matter of raising the salaries of the clerks in the land office was brought up at the meeting, but no action was taken.

Compensation Board Four Years Old.

A period of four years of operation of the state board of compensation closed March 31. Compensation paid out or pending aggregated \$2,250,000, the official report of the board shows. While 22,234 cases have been passed on during the four years, only one appeal has been taken and that is pending. The entire expense, says Chairman A. E. Spriggs, of the board, has been only \$98,351 in four years. This is said to be less than half the average expenses of administration of such work in America.

Millers Will Co-operate.

Representatives of Montana flour mills in attendance in Helena upon a meeting of the Montana Millers' association were urged by C. W. Sherwood, manager of the Royal Milling company of Great Falls, to co-operate with the state utility commission in putting into effect the new law that places flour mills under the control of the commission. He was of the opinion that the milling interests would be unwise to attempt to attack the constitutionality of the act and said that the interests of everybody would prosper more if a spirit of co-operation were shown.

Must Have New Plates.

Letters asking sheriffs of Montana to arrest automobilists whose machines have not 1919 license plates have been sent out by Secretary of State Stewart. He states that though there are not less than 60,000 cars in Montana, licenses so far this year have been applied for only 32,000. "There is no excuse now for cars not having license tags," said Secretary Stewart. "We have the supply on hand and licenses are placed in the mails inside of three days after the application and fee have been received."

\$2,500,000 TO BE SPENT ON HIGHWAYS OF MONTANA

United States Forestry Service Will Get Rid of \$1,000,000 of This Amount

Helena.—Within 60 days, it is expected by the state highway commission, federal projects and other projects arranged in co-operation with the state, will be under way, aggregating about a million and a half dollars in cost. The forestry service estimates it will do about one million dollars more.

Two sections of the law as to federal aid projects govern construction. Senator T. J. Walsh has been informed by the national forestry service at Washington that the government is to spend about \$718,000 in road improvement and construction within forest reserves and immediately outside, this year, the counties and state hooking up with these roads with an expenditure of about \$248,000. This work is done under section eight of the law, which provides for administration of the work by forestry service men. The plans, however, are submitted for approval to the state highway commission.

Senator Walsh, who has been making inquiries of the department for some time, is informed that among the projects in which the department is much interested is included the Swan river project. Considerable difficulty has been encountered by the forestry service in obtaining co-operation with the settlers, but hopes are entertained that it may be secured this year. However, the forestry service has arranged for the construction of the lake section of the project and the entire cost will be provided from the federal funds.

Senator Walsh asked about the Stillwater project and the department states that the matter will be taken up with the district forester at Missoula and efforts made at once to provide federal money for the project, providing the balance necessary is furnished by local people. The estimated cost of this project is \$479,261.

Nearly one million dollars of road work with federal aid is provided for in the joint data regarding the "Montana road plan" which is to be under forest service supervision as provided in section eight. It takes in 338 miles. This is exclusive of the \$1,500,000 of federal aid project work in co-operation with the state and counties and under the supervision of the highway commission, as provided for in section six, making a total, if all the projects are improved, about \$2,500,000 of road construction and highway improvement in Montana this year.

BIG SANDY WOMAN SLEEPS SOUNDLY FOR THREE WEEKS

Ailment Follows Attack of Influenza—Patient is Fed, but Eyes Are Unopened

Big Sandy.—For more than three weeks now Mrs. L. Stevenson of this city has apparently been in a sleep so sound that it has been impossible to rouse her. It is presumed she is a victim of the so-called "sleeping sickness," of which four cases have been reported in the United States recently, all being patients who previously had the influenza.

Mrs. Stevenson had the influenza late last fall when the epidemic was at its zenith, and seemed to recover her usual health for a time.

A few weeks ago she seemed suddenly to start a decline in health and became strangely weak, and within a few days was compelled to take to her bed and has since been under the care of physicians.

Nourishment is supplied the patient at regular intervals and although it seems impossible to get her to take the normal amount of food prescribed because of the sleeping condition, the patient is aroused in a measure, and although never opening her eyes, is fed by her attendants.

SHRINERS HIRE THREE BANDS FOR BIG PARADE

Memorial Day Exercises Will Be Held in Helena by Masons and War Veterans

Helena.—Algeria temple of Shriners of this city has employed the Livingston and Helena bands of 30 pieces each and is now negotiating with the Kilties band of Calgary, Canada, to come to this city on Memorial day, May 30, to take part in the memorial exercises of the local veterans' organizations and the Shriners' patriotic parade which will be held here on the evening of Memorial day, preceding its annual ceremonial session, which will take place that night.

The Shriners have also hired a local theater for the afternoon of Memorial day, to be placed at the disposal of the war veterans' organizations for their memorial services without cost.

INTERSCHOLASTIC TRACK MEET DATE IS SELECTED

Missoula.—May 7 to 13 has been announced as the date for the Sixteenth Montana interscholastic track meet by the interscholastic committee of the State university of Montana. Last year 65 schools were represented in the meet. This year, with the return of high schools to the pre-war basis and the return of many high school athletes from the service, the meet is expected to be bigger and better than ever before.

MONTANA NOTES

TREASURE STATE TALES TERSELY TOLD

Enrollment at the State university at Missoula has reached 422, according to announcement of university officials. It was stated that this number would probably reach 500 within a few days.

Three mines of the Anaconda Copper Mining company at Butte have been closed. Between 400 and 500 men are affected.

A distressing accident occurred at Avon a few days ago when the four-year-old son of Walter Kimmery was poisoned and died before medical aid could reach him. It was first supposed the boy had gotten hold of some poisoned candy, but further investigation showed that it was probably some of the poison that had been put in wheat for the extermination of the squirrels that the little one had got and eaten.

Damages in the sum of \$15,000 are demanded of E. B. Prosser in a suit begun by D. B. Kendrick, who was recently acquitted at Miles City of extortion in a case in which Prosser was the prosecuting witness.

If the county commissioners of Dawson heed a resolution adopted by the board of school trustees of Glendive, Dawson county taxpayers will vote on the question of issuing bonds in the sum of \$40,000, the proceeds to be used for the erection of a dormitory to be used by non-resident students attending the Glendive high school. The resolution asks the county commissioners to submit the question.

I. W. Choate of Bozeman, who has been an assistant attorney general for the past six months under Attorney General S. C. Ford, has been appointed code commissioner by the supreme court, at a salary of \$5,000 a year. The appointment was made under the provisions of the law passed by the Sixteenth assembly, providing for the codification of the session laws and the old 1907 code, and making an appropriation of \$25,000 for the work.

A granite shaft costing \$5,000, bearing the names of the Missoula county men who died in the world war, will be dedicated at Missoula on Mothers' day, May 11, by the Colonel Robert E. Macey chapter of the War Mothers of America.

After hearing the evidence in the case of some of Eureka's delinquent boys, Judge Thomson evidently decided that the best thing to do was to break up the gang. Consequently one of the boys was sent to Michigan, another to Washington and a third to Missouri to spend some time with relatives.

Montana's divorce record is worse than that of the nation at large," declared Bishop John P. Carroll, speaking upon "Divorce," at the cathedral in Helena recently. The bishop stated that so far as divorces are concerned, Montana, Oregon and Nevada are in a class by themselves and in proof of the assertion as regards Montana, declared that while the divorces in the nation are 12 to every 100,000 of population, that in Montana they number 323 to every 100,000 of population.

Frank Conley of Deer Lodge was chosen chairman of the state highway commission at a session of that body in Helena. He succeeds Oscar Rohm of Butte, resigned. It was announced that much preliminary work had been done and that the commission is prepared to begin actual road construction soon. Another meeting will be held on May 1.

While his wife is busy wiping engines for the Northern Pacific at the Helena yards, C. C. Parsons is taking it easy. This is the gist of a complaint made against Parsons who was arrested for vagrancy and pleaded not guilty and is held in the county jail in default of \$100 bail.

State Game Warden J. L. DeHart has gone to Georgetown, in Deer Lodge county, at which place a state fish hatchery is located, and will arrange for the starting out of the state fish car to distribute fry. At the Somers and Georgetown hatcheries there are more than four million fry to be distributed this year.

Bids for the sale of bonds in the sum of \$50,000 for the erection of an annex to the capitol at Helena to provide an office and laboratory for the state board of health will be opened by the state board of examiners May 5. The bonds bear five per cent interest, are secured by the state capitol land grant fund, run for 30 years and are redeemable any time after 15 years at the option of the state.

Insisting that under the provisions of the law enacted by the Sixteenth assembly a poorer quality of gasoline than ever is permissible in Montana, garage men and automobilists who have studied the provisions of the act, are contemplating asking the state board of examiners—which is vested by the act with the power to do so—to change the regulations.

Announcement has been made by the forestry service at Missoula that one million seedlings will be set out this spring on Montana and Idaho forests.

Genuine "Bayer Tablets of Aspirin"

Always marked with "Bayer Cross"

For Pain Headache Toothache Earache Rheumatism Lumbago

Colds Grippe Influenza Colds Stiff Neck Joint Pains

Aspirin is the trade mark of Bayer Manufacture of Monoceticacidester of Salicylicacid

The Substitute.
"Was that man who talks so much really overseas?"
"Not quite."
"What do you mean by that?"
"He is frequently half seas over."

CALLUS CORNS LIFT RIGHT OFF

Doesn't hurt to lift them off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off. When Freezone removes corns from the toes or calluses from the bottom of the feet, the skin beneath is left pink and healthy and never sore or tender.

Appropriate.
"A friend of mine who is a very busy girl has asked me to get her a hat. What kind would you get her?"
"If she is such a busy girl, I would get her a beaver."

BOSCHEE'S SYRUP

Why use ordinary cough remedies when Boschee's Syrup has been used so successfully for fifty-one years in all parts of the United States for coughs, bronchitis, colds settled in the throat, especially lung troubles? It gives the patient a good night's rest, free from coughing, with easy expectoration in the morning, gives nature a chance to soothe the inflamed parts, throw off the disease, helping the patient to regain his health. Made in America and sold for more than half a century.—Adv.

The Real Trouble.
The other day two cousins were on their way to the store to do some shopping. The little boy was complaining of not having any time to play.
Florence said: "You know, Edward, the days are very short."
"Oh," said Edward, "the days are not so short, but the errands are too long."

Golden Silence.
Willie—"Pa, what is the better part of wisdom?" Pa—"To know when you have said enough, my son."

Two Simple Questions.
The Rev. Igr. Phillips sat in his study one Sunday morning going over the heads for his forenoon sermon. Suddenly his five-year-old granddaughter entered with an air of importance. "Grand-daddy," she said, "I want to ask you sump'n."
"Honey," said the clergyman, "grand-daddy is very busy. Run away now and come back this afternoon."
"But it'll only take you a minute to tell me," persisted the little one.
"Well," he said, knowing from past experiences that she was not to be dissuaded from her purposes, "if it will take only a minute, go ahead. What is it you wish me to tell you?"
"I want," said the child, "to know about condensed milk and the Immaculate Conception."

Back to the Ranks.
At one of the officers' training schools a young candidate for shoulder bars had a company of new men out drilling. After calling some easy squad formations he suddenly yelled for a company unnumbered and in executing it threw the men out of formation. After vainly trying to straighten them out he finally shouted: "As you were ten minutes ago." And he wondered why he failed to get his commission.

When a dog barks at the moon all night it is a sure sign of insomnia on the part of the dog—and others.

Health Was Shattered

Mrs. Hayes Was Discouraged Until Doan's Made Her Well.

"I was in awful shape from kidney trouble," says Mrs. Frank Hayes, 42 Dover St., Boston, Mass. "When I got up out of a chair, I felt as though someone had stuck a knife into the small of my back and it fairly took my breath away."
"The kidney secretions passed often and only a little at a time. They were so scalding I would scream so I believe I could be heard a block away. They deposited brick-dust-like sediment and their odor was something awful. My complexion became sallow and I had large puffs under my eyes."
"I was troubled with spells of gasping for breath and had such dizzy attacks I often fell right over. Spots floated before my eyes and I got so nervous I couldn't stand any noise. I cried over nothing at all, became irritable and imagined all sorts of things. My health was shattered and I became discouraged."
"I continued to grow worse in spite of any treatment and came pretty near dying several times. After several months of this horror, I heard about Doan's Kidney Pills. I used a dozen boxes of Doan's and was cured. I was entirely well and have enjoyed good health ever since."

Grow Wheat in Western Canada

One Crop Often Pays for the Land

Western Canada offers the greatest advantages to home seekers. Large profits are assured. You can buy on easy payment terms.

Fertile Land at \$15 to \$30 per Acre

Land similar to that which through many years has averaged from 20 to 45 bushels of wheat to the acre. Hundreds of cases are on record where in Western Canada a single crop has paid the cost of land and production. The Government of the Dominion and Provinces of Manitoba, Saskatchewan and Alberta want the farmer to prosper, and extend every possible encouragement and help to Grain Growing and Stock Raising.

Though Western Canada offers land at such low figures, the high prices of grain, cattle, sheep and hogs will remain.

Loans for the purchase of stock may be had at low interest. There are good shipping facilities, best of markets, free schools, churches; splendid climate; low taxation (none on improvements). For particulars as to location of lands for sale, maps, illustrated literature, reduced railway rates, etc., apply to Dept. of Immigration, Ottawa, Can., or

W. E. BLAKE, Clifford Block, Grand Forks, N. Dak.; K. HADILLAND, Deann Block, Great Falls, Mont.; Canadian Government Agents
