\$2 Per Year

LOCAL FLOUR MILL TO HOLD ANNUAL MEETING JULY 26TH

The Broadus Co-operative Milling Co., held a meeting of the directors on last Saturday afternoon, and after talking over matters connected with the mill it was decided to postpone the meeting until July 26th at the time of the big picnic.

This mill is a local proposition and while the flour it manufactures is of the very highest class, yet it offers its products at a very reasonable figure. They have no freight to pay and so can sell at a clear margin. It behooves every resident of Powder River County to call for "Pride of Powder River" flour when you place your next order and

hereafter use nothing but the home product. This mill is a great blessing for the people of this community for were it not for the fact that it is here you might be paying a big price for the flour you use in your household.

We desire to call attention of the housewives to the fact that this local flour can't be beat and by buying the flour made here you are helping your community, yourselves and keeping this product within reach of your pocketbooks. Use nothing but "Pride of Powder River" and assist towards keeping the local mill running to full capacity throughout the entire year.

MORE PAIN FELL

While some of our residents have been thinking that Powder River County was the spot that God forgot when it came to the needed moisture during the summer months, yet we have been getting a regular rain storm at stated intervals which has added to the cause of producing a fair crop this fall. Thursday again opened up with a good soaker and from present indications Powder River County will be about the only place in eastern Montana that can boast of

a fair crop at the coming harvest. All in all, we can still see three squares and a place to sleep throughout the coming long winter months, and one can hardly ask for much more.

TWO AT A TIME

Born to Mr. and Mrs. E. S. Kiser of Coalwood on Thursday morning a pair of twin boys. Both the mother and the little fellows are doing as well as can be expected and E. S. is wearing a great, big smile.

BROADUS PEBBLES OF INTEREST TO ALL

J. C. Anderson and son were down from the Otter creek country Wednesday.

J. F. Blenkner, deputy sheriff was a business visitor to Miles City one day this week.

Our opinion would be that the county jail more resembled a distillery than a prison.

Sherman Farr left on Wednesday evening for Miles City where he will visit for a few days.

Frank Daly recently discharged from Camp Lewis was the guest of his sister, Mrs. Ray Bartholomew last week.

A colored man blew in from Miles City Wednesday, being the first one seen since Broadus started and almost created a sensation.

Mrs. Chas. Lewis and Mrs. Ira Goodman are spending the week in Sheridan, Wyoming, the guests of Mr. Lewis' relatives.

Mr. Leslie, cashier of the Peoples Bank of Moorcroft, Wyoming, was a business visitor in our city the latter part of last week.

T. W. Craig arrived in Broadus Monday and will locate permanently. Mr. Craig is a U. S. Commissioner and will also handle insurance.

A. J. Haley piloted Billy Roife back to the old farmstead on Cache Creek first of the week. Billy has resigned his position with the Miles City Milling Co.

This week we are handicapped in getting out the paper as our man left for Miles City just as we were getting a start on the paper, but we expect the Mrs. here in a few days and then things will hum around the Examiner plant.

A great many Broadus people took in the "doings" at Miles City and Belfouche on the Fourth. Reports state that both places put on an excellent show and well worth the money. On the Fourth next year Broadus will surpass them all and don't you forget it.

When our advertising man dropped into the Broadus Mercantile Co., and asked for an Ad. he received the following reply, "Yes, advertise for a wife for me." Sure, we replied, what brand, lean, fat, or medium?" "Hold on, don't put that in". But here it is girls.

Mr. and Mrs. Burkey, Mrs. Bert Straiton, Mr. and Mrs. A. J. Haley and Mr. and Mrs. A. W. Heidel were in attendance at the Farm Bureau picnic at Coalwood. It was intended to form an organization so that a Community Hall could be built but rain interfered immediately after the speaking.

Earl Whimpey of Sayle, Montana, was kicked in the eye by a horse on last Sunday. Just how serious his condition was we were unable to learn at this writing, but we understood that he was being taken into this city to consult the doctor.

George McCoy expects to get his restaurant in operation in a week or ten days.

Geo. Anderegg of Sheridan was in the city on Monday attending to business matters.

County Attorney Burkey returned last Monday from Miles City where he went on business.

Notice the new Ads. in this issue and then patronize home industry and buy your goods from the home merchants.

J. L. Wilson, who resides four miles south of town has installed a new pumping plant on his ranch for irrigation purposes.

Mr. Abbott, special agent of the Hartford Insurance Co., was in town the latter part of last week and made a fire plat of the town.

Frank T. Kelsey, of Moorhead, Montana, was a business visitor in the city on Monday of this week, leaving for his home the same evening.

The A. N. Hotchkiss family returned to their home at Moorhead last week from Los Angeles, Calif., where they have spent the past three years.

The Commissioner proceedings for the June meeting appear in full in this issue of the Examiner. Hereafter the "doings" of the County "Lads" will appear regularly in this paper.

We learn that owing to the drought around Gillette, Wyoming, the large storage reservoir built jointly by the city and the Burlington railway, is getting very low and unless they have rain in the next few days the city will be practically without water for either domestic or fire protection. Already the citizens are contemplating shipping in water for domestic purposes by means of tank cars. The people of Broadus are very thankful for the over-abundance of good water.

That New Disease.
One of our eminent medical authorities announces a brand new fatal disease, which he calls angina of effort, brought on by overwork, and we suppose the government employees will soon be organizing a movement for 120-day vacations, including sick leave, instead of 60-day ones, so as to lessen the risk somewhat.—Ohio State Journal.

Much Wasted Money.
The economic importance of paleontology has been repeatedly shown in this country. In the earlier exploitation of anthracite coal thousands of dollars were fruitlessly expended in New York in search of coal beds until the New York geologists showed that the beds in that state could contain no coal. The fossils in the New York rocks exploited are of Devonian age, whereas the fossils of the Pennsylvania anthracite coal beds belong to the Carboniferous, a much later period. This discovery at once stopped a useless expenditure of money.

Dream Life.
I called aloud in the forest, and the shout came back. Then I searched long, to find who answered me—but the sound had no source. I followed the will-o'-the-wisp through swamps at evening. It led me hither and yon, but I came nowhere. It was only the ghost of a light. I saw an apple hanging in the depths of a pool. I stooped to pick it, and layed my hands in the water. The apple had no form. This is dream life.—The Atlantic.

TO SELL \$25,000,000 OF THRIFT AND WAR SAVINGS STAMPS

The inauguration of a campaign to sell at least \$25,000,000 worth of Thrift and War Savings Stamps to people of the Ninth Federal Reserve District between now and January 1st, 1920, was announced by Theodore Wold, Governor of the Ninth District Federal Reserve Bank.

Last year the people of this district bought \$53,000,000 worth of stamps. So far in 1919, the sales have amounted to only \$2,528,000. This is considered a very poor showing in view of the fact that the Government needs the money and is depending upon a very much larger sum from this source of revenue. With the

Liberty Loans out of the way, those in charge of the War Savings work believe that sales can be rapidly increased and are working out plans for a comprehensive campaign to bring about this result.

In order to properly conduct the business of the Government the Treasury Department will need to borrow considerable sums of money for some time to come. Every cent realized from the sale of Thrift and War Savings Stamps decreases the amount that it will be necessary to get from the sale of Certificates of Indebtedness and in other ways.

GIRL BADLY BURNED

Verna, the 16 year old daughter of Mr. and Mrs. A. L. McLees was severely burned last Monday morning when she threw coal oil into a hot range in order to hasten the fire. The oil took fire and blew up saturating her clothes and also burned the house to the ground. At the present writing the doctor states that she is doing as well as can be expected under the circumstances. The many friends of the family trust that she will recover.

The Examiner added about a hundred new names to its subscription lists this week and anyone who does not take the paper can get in right with the editor by subscribing for this Great Family Journal without delay.

ONE MORE VOTER

Born to Mr. and Mrs. John Quasnick on Thursday morning of this week a bouncing baby boy. The doctor reports both the Mrs. and the new voter as doing nicely.
