SHAH IS ENTHRONED

PERSHA ACCEPTS HIS ROLE WITH- OUT DISAPPROVAL

It is Now Asserted That He is No Murderer

Teheran, May 4.—The enthronement of the new shah, Muzaffer Ed Din, at Tabriz on Saturday was accomplished with all its pomp and circumstance, and his majesty started soon afterwards for the city to attend the funeral of his father, whose body has been embalmed and will be interred at Room. The new shah has also been proclaimed by the chief priest by order of the grand vizier, who has guaranteed to maintain order pending the arrival of his majesty.

The new shah's elder brother, Muzaffer Mirza, governor of Isfahan, was one of the first to profess allegiance to the shah. No ground has been found for the charge that Muzaffer Mirza was in any way connected with the fatal conspiracy.

He sent a telegram of congratulation to the shah upon being notified that he is confirmed as governor of Isfahan. The grand vizier has also been confirmed, and with the exception of some disturbances upon the part of the troops at Shiraz, who asked for their arrears of pay, there has been no disorder and no rebellion.

ASSASSINATION OF THE SHAH

Full Confession Which Complicates Eight Others

Teheran, Persia, May 4.—It has been definitely ascertained that the assassin of the late shah of Persia, Nazer Eddin, is Mohi-ud-Din Reza, a fellow of the well-known agitator, Shirkah, who was arrested in 1891, after having been convicted of high treason. Reza was also imprisoned for treason, but subsequently liberated. After his release he continued to work for the government, was again imprisoned, and once more released, and was actually granted a pension by the shah. In spite of the amnesty granted to him, Reza was again arrested, and when warned he would again be arrested, he fled to the city of Isfahan, where he was hidden by a friend named Abdol-Aziz. Reza was finally captured by the police, and taken to the city of Isfahan, where he was held in custody. He has now confessed to the assassination of the shah, and has named eight other persons who were also involved in the crime.

The company and municipal authorities are preparing for the inauguration of a general strike tomorrow. REGARDING RIGHTS OF ASYLUM

State Department Further Defines Its Position

Washington, May 4.—The state department has taken an advance in the position relative to the limitation of right of asylum, as is exhibited in the correspondence between the United States and the United States Minister Tillman respecting the sheltering by the latter of an officer of the overthrown government of Ecuador last September. While an appeal from the decree of the minister, Secretary Olney took the ground that although asylum might be afforded in the case of a member of an overthrown government, the asylum was not to be granted until the empire of the law is restored, when the authority of state is re-established on an orderly footing, no displacement of power under the mistaken fiction of extra-territoriality can be countenanced on the part of representatives of this government. In this the members of congress are also in accord.

Ogden, Utah, May 4.—Four carloads of Chinese laborers passed through here today on their way to Havana. JACKSON CASE IS COMPLICATED

Evidence Claiming That Another Man Did the Work

Newport, Ky., May 4.—J. B. Locke, who owns the farm where the body of Pearl Bryan was found, testified today that he saw the marks of a carriage on the grass close beside the spot that led from the road to the gate where the body was found. George Dayton, a bartender, was placed on the stand, but was unable to answer any questions put to him. A motion picture of the prosecution had him identify a letter received from John Seward, of Somerset, Ky., a detective working in the interest of Scott Jackson. The picture showed Dayton's statement of matters to which Seward asked witness to testify when called at the trial. The court ruled the letter out.

Which Shows Right. The Message Will Be an Epigram from One of Dr. Depew's Afternoon Speeches

New York, May 4.—The miniature of Niagara, which was exhibited at the National Exhibition of Electric Appliances, is a model of the power plant at Niagara Falls. It shows the turbine, generator, and transformer, and is a perfect reproduction of the actual plant. The miniature is made of brass and is about 10 inches long and 6 inches high. It is a very interesting exhibit, and shows the complexity of the machinery involved in the production of electricity. The miniature is a perfect example of the skill and ingenuity of the engineers who designed and built the actual plant.
