ST. PAUL HIDE & FUR CO. GREAT FALLS MONTANA

Cured His Rupture

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 702 F. Marcellus Avenue, Manassquan, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

NEGLECTING THAT

COLD OR COUGH?

Why, when Dr. King's New Discovery so promptly checks it

IT'S natural you don't want to be careless and let that old cold or cough drag on or that new attack develop seriously. Not when you can get such a proved successful remedy as Dr. King's New Discovery. Cold, cough, gripe, croup does not resist this standard reliever very long. Its quality is as high today as it always has been—and it's been growing steadily in popularity for more than fifty years. 60c and \$1.20 a bottle at all druggists.

Tardy Bowels, Inert Liver

They just won't let you put "pep" into your work or play. Sick headache comes from retaining waste matter and impurities in the body. Feel right for anything—make the liver lively, the bowels function regularly, with Dr. King's New Life Pills. Smoothly yet positively they produce results that cleanse the system and make the liver and bowels respond to the demands of a strong, healthy body. Still 25c—at all druggists. Try them tonight.

BELGRADE GRAIN GROWERS WANT ALL FARMERS MEETINGS HELD DURING CO-OPERATORS CONGRESS

To the Montana Grain Growers, Great Falls, Montana. Be it resolved by the BELGRADE local of the Montana Grain Growers that: It is unanimously agreed that you be and are hereby requested to postpone the annual stockholders' meeting of this corporation set for January 6th, 1920 at Great Falls, and hold it during the week of Co-operator's congress, for the reasons that it will be more convenient for the farmers and save the time and expense of repeated trips to attend all the meetings to be held in Great Falls. Committee: Willard Knadler, Belgrade. Archie M. Martin, Belgrade. W. DeHoog, Manhattan.

Editor, Montana Nonpartisan, Great Falls, Montana. Gentlemen: In support of the above resolution, which we want you to publish, permit me to add that it works a hardship on us farmers not only financially in making so many trips to Great Falls, but also that it is well nigh impossible to obtain the help for caring for our stuff at home during our repeated absence. Also, the various organizations such as the Grange, the Nonpartisan League, the Montana Grain Growers, the Farmers' Union, the American Society of Equity and its various activities labor under the fear that probably there will not be enough of the membership present to make a quorum to do business. In numerous instances, farmers are interested in more than one of these organizations and companies, often in three or even four of them. That we farmers must learn to attend to the business end of our organizations is sadly apparent. We all should bring our influence to bear with the particular organizations to which we belong to work to the end of holding these annual gatherings in one week, if possible, and perhaps shift them to various cities in the state, so that the immense educational feature may be assessable to a large number each succeeding year. The saving of repeated trips and fares is quite an item in the aggregate, and this year especially very few of us can afford to go to just one even. The holding of a joint congress will facilitate the matter of procuring speakers of wide renown and superlative ability and will automatically draw a large attendance, assuring all our activities a more democratic administration. Many farmers have already expressed themselves and requested that each consider himself obliged to get in touch with their particular organization and do it at once. Respectfully yours, W. De Hoog, Manhattan, Montana.

amounts to more money received by the farmer than all his taxes amount to...2nd, the Bank of North Dakota saves the farmers of the state more in interest every year than all the taxes paid by farmer and business men...3rd, the state hail insurance law in North Dakota saved the farmers more than all state taxes amount to...And in conclusion there has been a bigger increase in the taxes of farmers in Montana than in North Dakota...Watch the figures in this and later issues of the Montana Nonpartisan and you will see proof for this statement.

ANOTHER ATTORNEY DECLARES PHYSICAL EXAMINATION BUNK

The National Nonpartisan League, Montana Branch, Great Falls, Montana. Gentlemen: Your letter of November 25th relative to the Initiative Compensation Bill was received a few days ago and contents noted. I have again thoroughly examined the Initiative Compensation Bill for the sole purpose of ascertaining whether or not it contains a "Physical Examination Clause," and I will say without any reservations that it does not contain any "Physical Examination Clause," whatsoever. You may publish or do anything you desire with this letter, I am Very truly yours, H. A. T. Vaid, Attorney-at-law, Butte, Mont.

FURTHER PROOF THAT COPPER COMPANY IMPS HAVE LIED WILFULLY

December 4, 1919. Editor Montana Nonpartisan, Great Falls, Montana. Dear Sir: Answering inquiry as to whether or not the proposed Initiative Workman's Compensation Law now being urged by the Montana Labor League, requires Employers to hire employees only upon and after a physical examination, I desire to say. Have examined the proposed measure carefully and minutely. The law contains no such provision. Neither by express terms or by implication is there any hint of such a requirement. In this as in all other laws a physical examination might be necessary to determine the extent of the disability after the injury has occurred, but not otherwise. Very truly, James L. Wallace, Attorney-at-law, Missoula, Mont.

CRY OF "STOP THIEF" IS VERY OLD DODGE

The frantic yells of the lying press of Montana about North Dakota taxes is done for the sole purpose of distracting attention from taxes in Montana...The tax burden has been shifted to the farmers in this state, and instead of discussing the enormous increase of the farmers taxes here, and how the Old Gang in this state has tried to let the wealthy corporations get by without paying taxes on two-thirds of their property, the Gang press belches forth a full page of lies about North Dakota taxes, paid for by the Montana Loyalty League. A lot of people who with the most patriotic intentions donated money to this Brigand headed bandit organization which is seeking to protect a lot of the tax-dodging outlaws of Montana, will not relish the way their money was spent.

THREE THINGS MONTANA KEPT PRESS "FORGETS"

In howling about North Dakota taxes bear in mind there are three vital things the Montana Kept Press and Loyalty League never mention. 1st, that under League laws the farmers get paid for the dockage in grain which

GET SLOAN'S FOR YOUR PAIN RELIEF

Redeemed From Tobacco Habit

Free Book Tells How to Banish Craving in 48 to 72 Hours

It is safe to say that the average man who uses tobacco in any form has no idea of the amount of harm it is creating in his system. The number of ways it is slowly but surely undermining his health. If he did he would make every possible effort to get rid of the nerve-wrecking, health-destroying and expensive habit. The deadly drug Nicotine, which is the active principle of tobacco, is what makes it so dangerous. It is a clean, odorless, tasteless, colorless, chew of pipe or fine cut or pouch of snuff contains a certain quantity of this deadly drug. In time the system becomes fairly saturated with it. It is then that nature flashes out her warning signals. With one man it may be loss of appetite. With another it may be stomach trouble in the form of acidity of the stomach—a most disagreeable condition as it often leads to indigestion, constipation or other intestinal troubles. Other symptoms are indigestion, constipation, severe headache, nervousness, sleeplessness, irritability, lack of concentration, general debility, loss of will power, forgetfulness and other ailments which in time lead to inefficiency to a point where it is next to impossible for him to accomplish the work which formerly was easy. But the evil effects of tobacco do not stop at these minor ailments, depressing as they are. In thousands upon thousands of cases, hardening of the arteries, tuberculosis, catarrh and bronchial trouble are contributed to or seriously aggravated by tobacco. Almost every day you read of some prominent man's sudden death caused by heart failure. It would alarm any tobacco user if he only knew how many at their heart failure dies as the direct result of nicotine poisoning caused by using tobacco. Any doctor will tell you that "heart failure" is a very frequent disorder. When he en-

counters it utters this solemn warning: "You must quit tobacco. Your heart is getting in bad shape. It is a condition which can only grow worse so long as you keep on using tobacco. You are shortening your life and the only way you can expect to regain your normal health is to let tobacco alone." "Quit it?" Yes, but that is far easier said than done. Many a man, knowing that his health—yes, even his life itself—was at stake, has tried to quit tobacco only to find that his nervous system was too great. And this of the expense! Think of the hundreds of men and women who have tried to quit tobacco. How many every day? A 20c package of cigarettes a day amounts to \$7.00 a month, \$24.00 in 10 weeks. Three 10c cigars a day for the same period amounts to \$30.00. And many men smoke twice and three times that amount of tobacco. How many can really afford it? You can now easily get rid of the habit-destroying, expensive and utterly useless tobacco habit. A remarkable remedy called "Tobacco Redeemer" banishes all craving for tobacco in any form in 48 to 72 hours. It makes no difference how long you have used tobacco, how much you use or in what form you use it, you will find your tobacco hunger leaving you almost from the first dose. Results positively guaranteed. The Newell Pharmaceutical Company of St. Louis, Mo., have just issued a most interesting book on the effects of tobacco on the human system which they will send you free on request. It tells you about "Tobacco Redeemer" and how it absolutely banishes the tobacco habit and gives you a convincing proof that this wonderful remedy does all that is claimed for it. Write today for your free copy. Address Newell Pharmaceutical Co., Dept. 555, St. Louis, Mo.—Adv.
