

THE HERALD.

JNO. P. BARKETT, Editor. WEDNESDAY, OCT. 14, 1873.

In our editorial last week we stated that "A. O. H." signed to the threatening letter received by Captain Denson at Mellensy mines, meant or stood for "Ancient Order of Hibernians." We have learned from several who were formerly residents of the "Hibernian Hall," that the Ancient Order of Hibernians is nothing more nor less than a benevolent and mutual aid society, and an institution that has nothing to do with either intimidation, mobs, or any thing of the kind. We gladly make this correction, as we have no desire to place any form or organization in a false light, and should anything be published from the facts as we understood them at the time, wrong any one, our columns are open to correct the wrong.

Miner's Letter.

ALTON, OHIO, CO. Mo., October 1st, 1873.

Editor Herald: Having been a resident of Ohio county, Kentucky, the principal part of the time since the Spring of 1865, until May 1872, and being well aware that you have nothing from this part of the world to help fill the columns of your valuable paper I thought I would jot down a few items which may be of some interest to some of your friends or relations, it none to yourself.

We are enjoying a fine season of sun-dries and showers, and of eating some choice fruit.

Health is only tolerable good just now, as there are chills and fevers, and some cases of congestive fever and other sickness best known by the physicians. I had a few Missouri chills, which lacked but little of giving me the Kentucky fever as you might call it, which which had resulted in my returning to Ohio county again.

I deem it unnecessary for me to go into the details of incidents that happened on my journey from Kentucky, but will speak of one or two that occurred, which may cause some friends to think how we would have felt in that condition. First, while crossing the Cumberland river on an old flat boat with the wind against us, about 5000 pounds on board, and the water pouring into the bottom like "suds into a sink-hole."

Second, while traveling along, my little half sister was so unfortunate as to get a pin fast in her throat, which seemed to give her considerable pain.

I will now give you a brief history of the land of Oregon county in which I live. Land is very cheap, and some of it is of the best quality almost, while there is some that would scarcely rot flax, there is so much rock among it, any how, I don't believe it would grow flax to do much good.

Pine is the best building timber we have. Good water is tolerably scarce; stock water is plentiful and a good range; no end to it hardly.

Schools, tolerably good. Churches of different denominations common except Reformers. I haven't got acquainted with many of this stripe yet, nor Roman Catholics, either.

Society very good. We don't have no more barbecues, picnics or drunk men here as you have there, yet our county may be a remarkable one. It has furnished two convicts for the State prison since I have been here, one for stealing bacon, for which he has a term of three years to serve, and the other for raising an order a few dollars. More fortunate than the other, he has only two years and six months to serve.

Respectfully, LOUIS C. JONES.

Notes from Grayson County.

So little has been said of late pertaining to your neighboring county of Grayson, that I almost considered the already over-crowded columns of the Herald unfiled, without, at least, a passing notice of events that are daily occurring in our midst.

The agricultural interests of Grayson were never more satisfactory. Crops of all kinds are up to the most sanguine expectations, and the farming community rejoice. Wheat, according to the best authority, has averaged about eighteen bushels to the acre, while in some localities it has averaged twenty-five. Oats were fine, but not extra. Tobacco was never better, while cutting and housing is now the order of the day. A great many of our farmers are turning their attention to the culture of small grain, and the acreage contemplated for wheat this fall bids fair to be one hundred per cent more than formerly. Millet is grown with perfect success. The experiment dates back only a few years, but has fully demonstrated that Grayson county can produce this crop in perfection, equal to any county in the State. Mr. B. F. Crawford, of the Millwood district, raised thirty-five tons from about twelve acres of bottom land, some of the stalks measuring seven feet, with heads from seven and a half to eight and a half inches.

In the matter of improvements, Grayson, like her sister counties, has been at a stand. The hard times, just passed through, had given her a lull, but at the brightening up, her energy has again returned, and good substantial buildings are springing up on every land. The good crops and cheering signs gives an impetus to business of all kinds, and a pleasant smile irradiates the physiognomy of our merchants as they contemplate the anticipated piles of silver currency, which, ere long, will find its way into their money-drawers. The towns and villages along the twenty-five miles of railroad, that runs through Grayson, are almost all enjoying prosperity. Each field, the county seat, has improved more this summer and fall, than in five years preceding. The number of new dwelling and business houses erected so far has been eight, with several in prospect. Millwood is a good example, with the exception of some enterprising inhabitants having fenced up a good portion of the village for a tramping patch. Caneyville has improved considerably.

Beaver Dam Letter.

ROBINE, KY., Oct. 8.

Editor Herald: Robine has been extremely quiet the past week. The majority of our people have been in Hartford attending court. Farmers are done cutting tobacco in this part of the county. Misses Annie Cook and Inez Baltzell moved from our town to Beaver Dam on last Thursday to set up a millinery shop. Martin Craven, section foreman at this place, received a painful wound a few days ago, by accidentally striking a piece of glass in his lip. Martin is a good mechanic, and we are sorry to learn of his accident. Harry Bridges was in town Saturday, taking orders for the firm of Carson, Bowman & Co., Louisville. Harry is a jolly fellow and a good salesman. Rev. J. A. Humphrey will preach the funeral of H. C. Autry, at Robine, on the first Sunday in November.

Beaver Dam Letter.

BEAVER DAM, OCT. 8.

I have been afraid to write for some time, for dear "Buffy" would conclude I had done wrong and file another "bill of objection." Mr. Ben Gray and Miss Nettie Taylor were married at the residence of the bride's father September 26. May success attend them through life. Misses Annie Cook and Inez Baltzell have opened a millinery store at the residence of Judge Ed Cooper. They will do all kinds of work in dress-making, trimming hats, &c. Messrs. F. M. Joplin & Bro. are erecting a neat dwelling house for Mr. Jesse Poyner. Mr. John Poyner has been quite low for several days. Mr. Pamenis Hoeker has been very ill for some time. Tom Stevens has his new house about completed. While in Hartford yesterday, I noticed that Mr. L. J. Lyon had made several improvements in his front room. Mr. Lyon is the kind of a man that will succeed. Mr. A. H. Kahn has moved from here to Slaughterville, Ky. Some good dry goods merchant must come here. One store in that line is not enough for the place. Mr. I. P. Barnard has a large stock of goods in his line, on hand. I would suggest that all men who threshed wheat in this county this year, report the amount threshed to the editor of the Herald, so that we can see the number of bushels raised in the county. Messrs. Barnard and Stevens threshed ten thousand bushels. R. H. Stevens and W. H. Murrell have bought the county right for Dr. Hood's patent law. It is a good thing, and parties would do well to buy districts. Apply at Beaver Dam for information. HENRY. P. S.—Love to "Bettie." Tell him to send us his picture and go to—home. II.

Rockport Letter.

ROCKPORT, KY., Oct. 8.

Mr. Gus Bently has moved to Greenville. But few went to the circus at Hartford from here on the 5th. The colored people are building a church and school house here. Where is Bob? He has disappeared from this place. Miss Sue Taylor and Miss Elliot, of Taylortown, are here, visiting Mrs. Bettie Rice. Mrs. Anderson, of Cerullo, was here last week visiting her mother. Miss Shull and Miss Gertrude Houston, of Hartford, are here visiting Mrs. Tinsley. Mr. C. Duncan is a citizen of our town again, installed behind Young's counter. Mr. Young is engaged in building his store house. It turns out that it will be a wooden instead of a brick house, as stated in a former communication. Mr. T. W. Bentley is just now opening up a new stock of goods at his old stand. AN OLD WATCH. Mr. Henry Harrison, of Calhoun, Ky., was here yesterday, and showed me a watch which has been in the Harrison family for nearly three hundred years. It has been in the hands of six generations, is yet running and is a good time keeper. It has an open face case, is solid gold except the back which is covered with tortoise shell, set with gold pins. In the center is a beautiful engraving. It was made by Jerry Bromley, in London, England, in the year 1660, and is numbered 910, costing 60 guineas, (\$250). Mr. Harrison has been offered \$300 for the watch, but says he would not take \$500. TADORN.

Exposition Letter.

LEXINGTON, KY., Oct. 8, 1873.

Editor Herald: Were we ready for the rain, do you ask? Yes, for we needed it for some time, but the average of which will be larger than usual when we are done. It is thought that there will be a sequel following close upon the rain that we are also ready for, for we are about done cutting corn and tobacco. I mean the frost. The air has been smoldering of it for the past few days, hinting to us gently that we must think and dash the open cracks in the kitchen and get wood for one fireplace and coal for another. Then there are the potatoes to dig and put away, logs to fatten for meat, corn to gather, and after awhile will come tobacco stripping and many other things to do. Yes, and there are your socks and stockings and mittens to knit for all and young, jeans to make up for the "old man" and the boys, heavy trousers and petticoats, I mean aprons—no they never make them of linen; well, just linen dresses for the "women-folks." I guess that's all they need in that line. Then there are boots, shoes, hats, shawls and gloves, and many other things to buy from the store. It seems like a heavy task of work and a good deal of expense to prepare for winter, but it does not appear so, for it is only a repetition of our annual experience, and we have a much ability to work or to buy as we usually have. We have made very fair crops and can perhaps afford some luxuries. There are few who could not spare enough money, or sell something that would bring enough money, to take the Herald for six months or a year. I would recommend it not only as a luxury but also as a necessity. Quite a large bundle comes to this office every week, and it would be much larger if every body would correctly estimate its value. It is the county paper of our own county and one of the best in the State. Let us sustain it as something that we can not well afford to be without.

Miss Carrie Rose and her mother, of your city, visited relatives here during the past week. Ladies please don't make your visits so much like those of angels. Mr. L. C. Morton, one of our enterprising neighbors, is building a new dwelling house. When completed, it will be among the most desirable residences of our neighborhood. We played that game of base ball with the Central club last Saturday. We had a very interesting game, but got beat a little. I forget the exact score.

Beaver Dam Letter.

BEAVER DAM, OCT. 8.

Point Pleasant Letter.

POINT PLEASANT, KY., October 8, 1873.

Editor Herald: Believing a few items from this place would be of interest, I note the following. L. M. Patterson is closing out his large stock of dry goods by auction sales. He has been selling thus for three days, and yet the many articles sold can not be enough for the place. Patterson and Brother have begun the manufacture of tobacco at this place; and doubtless they would give you, Mr. Editor, a smoke for a puff. A. L. Patterson has a first class grocery here. If the writer may judge, there are some as beautiful young ladies in this town as any where in the State. Hence you see that though this be a small Point it is a Pleasant place. Dr. A. V. Tatum has an extensive practice in this section; but has been practicing tobacco plants of late, as the people are distressingly healthy. The school in charge of James Bishop makes promise of success. S. W. Tichenor has reorganized his singing class at the Baptist church. Sweet music from the "Crystal Gema" may now be heard, which adds a new feature to the Sabbath school here. But few tears of joy or sorrow have been shed by this people for a time over sickness or death. But a change may be expected when some of our bachelor friends sing: To bid the move to joys of life, That oft is lonely at the best, We soon must have for us a wife, Or wander to the distant West. Will not some of your young ladies join this choir, lest the departure of our friends be hasty and unexpected. Most of the farmers here their tobacco safely housed, and have begun sowing wheat. For fear it is wrong to reveal secrets, I will not tell you that Sanford Tichenor and other readers of the Herald will ably compete for the premiums you have offered on tobacco. MORE anon. LAWK.
