—E. L. Sullenger wants the people to know that he is still in the Livery business. It wouldn't be necessary to tell you if you would come to town and also watch the business he does, but he wishes this solely for the benefit of his friends in the country. During the Fair he will keep old corn to feed on and will give special attention to all horses left with him. His only aim is to make an honest living, and he does honest feeding and work. He especially invites his old friends to give him a call while attending the Fair and when in town at any and all times.

This being the case, we must go about it in a business way and get the best work where we can get it the cheapest. —Belts are all the rage now. You can get them, handsome and cheap, at Anderson's Bazaar.

—The HERALD corps returns thanks to the Ohio County Fair Company for complimentary.

—If you want fine clothing go to Z. A. Rosenberg and get him to make them for you. No fit no take.

—Orgillous Newcomb has the best tobacco we have heard of this season. Much of it measures forty-two inches from stalk to tip and twenty inches in width. Send in your items if you can beat this.

—We see and read of many ingenious contrivances for the mild persuasion of a balky horse, but for a talky liver, nothing like Portaline, or Tabler's Vegetable Liver Powder was ever prepared. It is without a rival and can be bought in sample bottles for 25 cents, or regular package for 50 cents. For sale by Thomas & Kimbley.

—Mr. W. W. Smith, of Calhoun called on us Monday. He is one of McLean's mule dealers and is moving right along. He had nine mules with him this week and three more at home. Eight more were driven to Warren county last week, making twenty-five animals he has handled in two weeks. The last drove was for Nicoll & Eubank of Warren county.

—The log men of Evansville have entered into an agreement not to receive any logs above Spottsville locks on Green river. They have also arranged a tariff of prices, which, with the stipulations of the agreement are very unjust to the log men, if the matter has been fairly represented to us. The prices range from 90 cents to \$1.35 for poplar, but for logs to reach the latter figure the raft must average thirty inches, and it is optional with the mill men whether they pay it or not. We have no remedy to suggest except it be to let the timber stand in the woods. This would probably bring the men to their senses and cause them to do the fair thing.

—While in South Carrollton last week we called at J. B. Brown's Marble Works and took a look through the working departments of the establishment, and we were surprised to see such a vast amount of work being done in his line of business, such a great variety of headstones and fine monuments of the most beautiful and artistic styles, all so handsomely and tastefully finished by his skilled and experienced cutters, sculptors, engravers, carvers and polishers. We asked the prices of some of his beautiful Italian Marble Monuments and were surprised to find them so remarkably cheap, and we asked him how it was that he could sell at such reduced prices. He said: "I buy my marble by the car-load at the quarries in Vermont, and my Italian marble from first hands in sea coast cities, hence by paying cash I get a good discount and reduced rates in freights by getting it by the car-load and propose to let my patrons have the benefit of these advantages." We feel satisfied from his prices that he is doing that most assuredly.

—Last Saturday evening a difficulty occurred at Rosine between Frank Smith and Sulphur Springs, and Ike Smith and another man of Rosine. The trouble came up in this way, one of the men owed Smith some money and told him to go with him to Ragland's store and he would pay it. They went to the store but it was closed. Smith suggested that as it was only fifty cents he might have that amount about his clothes. Response was made by calling Smith a liar and attacking him at the same time with a knife. One cut was made across the abdomen, one on the breast, the right arm nearly severed from the body and a fearful cut made in the back under the shoulder blade. This last was the most serious as the physicians think the lung was cut nearly in two. At last account he was breathing through the wound and suffering terribly with no hopes of recovery. The man who did the cutting got away in the excitement and has not since been heard of. Frank Smith is the same who was shot by Hayercraft at the fair at this place a year ago.

FOUND!

M. D. Little Rock, Arkansas: "I willingly bear testimony to the excellent food tonic effect of Colden's Liquid Beef Tonic. I regard it as a mild, un-irritating and easily digested tonic, well adapted to cases of chlorosis, nervousness, and vascular debility, consequent upon the climacteric period of women." (Remember the name, Colden's—take no other.) Of druggists generally.
