Persons who bring their Coon, Muskrat, Opposum, Mink, Sable, and other Furs can feel assured that they will receive the highest cash price.

EDUCATIONAL COLUMN.

Edited and Conducted by J. F. LANGENBAUGH.

To the Teachers of Marshall County

It is a grave responsibility which rests upon you. To you are confided the watch-care for a time of a number of immortal beings.

1st. To yourself, for self-culture, so that you may teach by the influence of your character and example.

2d. To your pupils you are bound to furnish them with the means of acquiring knowledge, to contribute to the formation of their moral character.

3d. To the parents of your pupils, and to the community in which you live.

As is the teacher, so is the school. This has justly become almost a proverb.

At length however the pale faces be thought themselves of the universal language, and drew a map of America showing the situation of its parts and places on a map with a piece of coal.

The age of pictures compel us what the age of printing began. It rises upon it "like another morn risen on mid-noon."

On a solitary ride throughout the jungle and lava up the volcano of Kilauae, I came to a Kanaka "grass house" ten miles from all other dwellings.

On an Oriental tour from Dan to Barchsheba, I daily marveled at one of my Yankee fore-runners, who, though doubtless ignorant of all languages but two, namely English and profane, had left on every run "an epistle known and read of all men."

Take care then what manner of men and women you are when you enter into the discharge of these duties.

On an Oriental tour from Dan to Barchsheba, I daily marveled at one of my Yankee fore-runners, who, though doubtless ignorant of all languages but two, namely English and profane, had left on every run "an epistle known and read of all men."

As to this matter also, the Catholic is more than a match for the Puritan. He tells us that before Raphael painted, he who would behold the Madonna must go to Heaven—that after Raphael's time, one could see her by going to Rome; and that now, thanks to photography, a very few dimes enable all who will, to set up as their household god, a not unworthy presentation of "our tainted nature's only boast."

No wonder then that poet sings: "Be mine to praise that rare mechanic skill, Which stamps repeats and multiplies at will, And cheaply propagates to distant climes, The fairest products of the noblest mind."

A NEW DEPARTURE. The Burlington & Missouri River Railroad Company are in nothing behind the age; in matters pictorial they are before it.

They have obtained views of all that chiefly interests a traveler who surveys the Missouri slope, both in Iowa and Nebraska—the valleys of the Platte and the three Blues,—villages like Red Oak, Ashland, Crete, cities like Plattsmouth and Lincoln, with characteristic specimens of the agricultural country through the South Platte region, rolling prairies bottom land and

of kindness. Forgiveness of injuries is the first and natural application of the christian rule. Charitableness is a far higher, more comprehensive, and more difficult duty; because it requires a loveliness of spirit entirely at variance with the pride which almost universally belongs to the human heart.

Submission to the authority of Law, of Truth; of reverence for God and obedience to his laws, I will not enter upon at this time, but will give it in my next. Teachers; thus you see part of your duty. Examine yourselves, and remove from your character what will have a pernicious or a doubtful effect on your pupils, and cultivate in the highest degree possible, the noblest of your faculties and sentiments.

On the 13th day of May, 1803, Lewis and Clark, heading the first party of whites who ever crossed the continent in our latitude, held a council with the Cho-punnish Indians, far up the Columbia river.

At length however the pale faces be thought themselves of the universal language, and drew a map of America showing the situation of its parts and places on a map with a piece of coal.

As to this matter also, the Catholic is more than a match for the Puritan. He tells us that before Raphael painted, he who would behold the Madonna must go to Heaven—that after Raphael's time, one could see her by going to Rome; and that now, thanks to photography, a very few dimes enable all who will, to set up as their household god, a not unworthy presentation of "our tainted nature's only boast."

No wonder then that poet sings: "Be mine to praise that rare mechanic skill, Which stamps repeats and multiplies at will, And cheaply propagates to distant climes, The fairest products of the noblest mind."

A NEW DEPARTURE. The Burlington & Missouri River Railroad Company are in nothing behind the age; in matters pictorial they are before it.

They have obtained views of all that chiefly interests a traveler who surveys the Missouri slope, both in Iowa and Nebraska—the valleys of the Platte and the three Blues,—villages like Red Oak, Ashland, Crete, cities like Plattsmouth and Lincoln, with characteristic specimens of the agricultural country through the South Platte region, rolling prairies bottom land and

timber-skirted streams, where three thousand buyers of railroad land, and more than ten times as many homesteaders and pre-emptors have lately flocked, and founded new homes. Some of these views illustrate, that is, bring into *lustrate* the letter press of the B. & M. railroad hand circulars, "six hundred thousand more" of which have just been issued from Burlington and Lincoln.

From thus showing his land, Land Commissioner G. S. Harris, will find letters from land hunters so multiplying that he will need more clerks than ever in his offices in each of those cities. "The eye alleceth the heart."

Brother Millikan, when you want a good market for your "sassa," send it to Bunker Hill.—B. H. News.

Guess that's so—our spunky little contemporary at Bunker is a judge of the article and knows how to use it. If we can spare the time this winter we intend to visit that timbered country, and have a bear hunt.

People are rather careless of their property at Bunker Hill. Lewis Snodderly found a silver watch, and Dr. Meek found a pocket book containing a small amount of money—both advertised in the News last week.

A pint of hazelnuts made the entire force at the Plymouth REPUBLICAN office happy; and thus fulfils the prophecy that "man wants little here below," &c.—Manchester Republican.

Slightly mistaken—the Plymouth REPUBLICAN never had a pint of hazelnuts, or to our knowledge. If you want to get off a little joke at our expense, go in; but PLEASE don't bring it down to so sharp a point.

James Stephens, an old and respected citizen of this country, fell dead in the public square in this place, last Saturday afternoon about two o'clock. He was, up to the instant of his death, so far as is known, in usual health. And on Monday morning of this week, uncle Sammy Lauchlin, of this place, died just about as suddenly while in the act of washing for breakfast.—Columbia City Commercial.

From the South Bend Tribune. Rev. Thomas P. McCool.

This well known Minister of the Gospel died at his residence in Pokagon, Michigan, Friday October 3d, 1873, in the 86th year of his age. He was buried in the Cemetery near by his old homestead, on Sunday the 5th, and on the following Sabbath Rev. Mr. Burns preached an appropriate funeral discourse.

Mr. McCool was born near Winchester, Virginia, emigrated to Ohio at an early day; and in 1833, settled near Niles, Michigan, where he resided for twenty years, and raised a large family. His relation to the Church was that of local Elder, but for a number of years he traveled Circuits, both in Indiana and Michigan. He traveled South Bend Circuit with Rev. Boyd Phelps, in 1834. At that time the Circuit extended from Elkhart to Lake Michigan. He preached the Gospel for nearly fifty years. He was a laborious and useful minister, and had his education been equal to his natural talents, he would have ranked among our most talented ministers. His illness was protracted and for a long time his sufferings were severe, yet he was remarkably patient and enjoyed great peace of mind.

"Thus friend after friend departs" Yes, the Pioneers of the St. Joseph Valley are fast dropping off. One by one, they go to the better land. All honor to their memory. B.

St. Nicholas for November.

The first number of St. Nicholas has just been issued. Pictorially, it is one of the most beautiful magazines in the country, being enriched by designs from the pencils of Miss Hallack, Sol. Eytinge, Miss Ledyard, Sheppard, Stephens, Bolles, Beard and others.

The reading matter is varied and bright. There are thirty-three articles, some for the very little ones, some for the oldest of young people, and some for every age between. We find in its broad, well-printed pages, poems by William Cullen Bryant, Celia Thaxter, Lucy Larroun, and others. There is a capital human-fairy sketch by Rebecca Harding Davis. Don't forget to read a characteristically Arabian Nights article, and the first chapters of a serial story by Frank R. Stockton are given. A salutatory by the conductor, Mrs. Mary Mapes Dodge, is sure to reach the heart of every candid reader—and the hearts of their fathers and mothers as well. Among the stories we find a charmingly-told account of a fairy's visit to a bee hive, by Annie Moore; an exceedingly funny little story by Margaret Eyttinge, and lively tales by Paul Fort and J. S. Stacy. Lucretia P. Hale tells the adventures of a doll, Noah Brooks has a capital article for boys, called "By the Sea," and Olive Thorne talks about a certain "Old-fashioned" animal.

There are also interesting descriptions of zebras, passenger pigeons, the curious inhabitants of the Farallone Islands, and the Plute Indians, besides bright little "jingles" and a whole page in large type for little children with big eyes. We must not forget to mention an admirable feature a short story in German to the benefit of youngsters who are learning that language. A similar French-story is announced for the next number. Then "Jack-in-the-Pulpit," a curious fellow who is full of little bits of wit and wisdom, holds forth most entertainingly; and there are capital notices of juvenile books, intended for those who will read the books, and a puzzle department that will certainly sharpen the wits of the youngsters.

St. Nicholas is published by Scribner & Co., 645 Broadway New York, and is conducted by Mary Mapes Dodge. Price \$3 per year. We will club the Marshall County REPUBLICAN with St. Nicholas, for \$4 per year, cash in advance. A specimen copy can be seen at this office.

Bro. Boyd, and other brethren have gone to attend the District Conference, at Westville.

Pigeons—not "Owls and Bats, or Swallows," as says the Psalmist, frequent church buildings in Plymouth.

BAPTIST.—The Long Island Baptist Association, as a majority are in favor of Free Communion.

A Weekly Bible Class for Teachers was organized, at the Presbyterian Church during the late Institute.

Rev. J. J. Hines and family have moved to Plymouth, and reside in one of Dr. Sherman's houses, a few doors north of the Catholic Church.

John St. Clair, aged 105 years was struck by a railroad locomotive engine, one day last week, and instantly killed. He had voted for every President of the United States.

The Street Commissioner is again at work on Laporte street and the side-walks, and we expect safety in locomotion ere long. The walks had to come down from 2 to 3 feet.

The plan for the new school building is to say the least, extra in economy, and if carried out in building, must give great credit to the school Board, and be of incalculable value to the future interest of Plymouth.

The apple crop in LaPorte county is badly afflicted with worms this year. So much so that the farmers are making an unusual quantity of cider. They don't have to put raw beef in it to keep it from souring.

FIRE IN PERU, IND.—On Friday morning (7th) of this country, fell dead in the public square in this place, last Saturday afternoon about two o'clock. He was, up to the instant of his death, so far as is known, in usual health. And on Monday morning of this week, uncle Sammy Lauchlin, of this place, died just about as suddenly while in the act of washing for breakfast.—Columbia City Commercial.

The grading on Laporte street, being left in an unfinished condition at the corner opposite Mr. Buck's residence, made it almost impossible last Sunday, to church-goers. It was very easy to sit down, but not a pleasant place for ladies to sit. The descending scale was easier than ascending—made so by the ice and snow, and not a few were the falls.

Steps are being taken by several gentlemen for the organization of "Plymouth Wheel Company," of which we will be more fully advised the coming week. We have seen the Patent Wheel, and think it the best in the United States. The gentlemen who are moving in this manufactory means business, and we wish them success.

Col. I. Mattingly, editor of the Bourbon Mirror was in Plymouth last Wednesday, just returned from a trip through Kansas and Colorado. He was very favorably impressed with the appearance of Kansas; but was not so well pleased with Colorado. He appeared remarkably well and vigorous. The trip did him good.

A bright, shining silver half dollar coined by the United States in 1873, made its appearance in Plymouth last Saturday morning. Mr. Orr had it. We are credibly informed that other silver half dollars have been seen in Plymouth lately; but seeing is believing.

The Illinois State law fixing railroad passenger fare at 3 cents per mile has been declared unconstitutional, in a test case before Judge Wood, in the Kankakee Circuit Court, and the Supreme Court of the state sustained the decision. Judge Wood based his decision upon the ground that the determination of what is a reasonable fare, is a question to be decided by the courts, and not by the legislature.

EPISCOPAL.—Bishop Cummins, of Ky. who in common with the Dean of Canterbury, has been receiving almost daily Epistolary shots for communing with others than of the Episcopal Church, confessed in Dr. Hall's Church during the Alliance session, that to his shame he had not sat down at the table of the Lord, with his Presbyterian brethren, for twenty-six years. He said if heaven permitted, an equal amount of time should not elapse again, without this privilege enjoyed.

Thieves in LaPorte are becoming very troublesome: one of the tribe broke into the Methodist Episcopal church, on Wednesday night of last week, and stole the clock and bible belonging to the church, and a set of carpenter tools. There was probably more than one engaged in the stealing—one of them will work with the tools, and another start a new church somewhere—in Kingsbury probably—they heed one there.

We do not know that the cold and snowy weather, last week, was a special dispensation of Providence to prevent horse racing, but it is certain that the effect produced that result at Laporte. Fast horses and fast men were there; but the races were indefinitely postponed. Horse-racing was not the only kind of business it interfered with. Corn gathering and cider making were postponed for a time. Wood-piles were heavily drawn upon. Over-shoes and over-coats were in demand.
