The World's Great Cough Medicine. Dr. King's New Discoverer for Consumption will cure a cough in one half the time necessary to cure it with any other medicine, and it does not get by drying it up, but by removing the causes, reducing the irritation and healing the affected parts. For all cases of hoarseness, suppression or loss of voice, any severe chronic or lingering cough, bronchitis, or affection of the throat and lungs, it will be found to far surpass all medicines that have ever before been offered to the public. It has wrought a complete change in the cough medicines. It is entirely different from all others. Is perfectly harmless to the smallest child. Trial bottle free. Regular size \$1.00. For Sale by G. BLAIR & Co., Plymouth Ind.

Mrs. Sarah Wise, residing two miles and a half south of Newport, is the owner of a calf that can get away with forty or fifty chickens in a very short space of time. It will turn over its ears and swallow little chickens as fast as it can rake them into its mouth with its tongue.—Newport Hoosier State.

That calf is not a circumstance to Sam. McKelvey's pet fox. The little rascal can take in more young chickens, ducks, etc., by the watch, than any other animal living. He has the blessings of all the housewives in the square whose young fowls are likely to roam into McKelvey's dooryard. The situation is particularly satisfying to the fox and his owner.

The Warsaw band which had proposed to give a concert at Plymouth Tuesday evening, stopped over a few hours but gave no concert, and there is no visible unhappiness in our midst on that account.

Now is the time when the old rent goes to sleep in the day-time and flies play hop-stick-and-jump around and in and out of his mouth, and hold "conventions" on his nose.

In Plymouth the Fire Department was at the head of the celebration. A parade was had on the principal streets of the city, presenting a very handsome appearance. The heavy rain which fell at about eleven o'clock put a stop to all proceedings until the afternoon, when a large number of people assembled in the Court House yard. An address was delivered by J. J. Faude and the "Declaration" was read by Dr. J. M. Confer.

In the evening a display of fireworks was commenced from the top of the iron bridge. This was engineered by A. Reeve, L. Tanner, and Wm. Kilger. Fire was communicated to the "fixes" which were piled up in the rear of the operators, and there was a scene not down in the hills. A dozen large sized rockets went down the river in whizzing procession. The engineers went down convenient posts to the ground. A party on the post office roof, under command of Col. Hess, went through the windows in genuine stampede; the spectators on the street made a rush for cover, and the small boys yelled with delight. There was a blaze of glory for three minutes and the show was over.

In Bremen the Fire Department celebrated; the department of Bourbon joining in the parade. There was an oration by G. H. Chaney, plenty of music, etc., after which there were numerous games engaged in. There was about 3,000 persons in attendance and the occasion was highly enjoyable. A full account of which "Daniel" will in all probability give to THE REPUBLICAN next week.

The concert and festival of the Plymouth Band, which was given at the Opera House on Monday evening was well attended, and a success in every particular. The idea of mixing a musical performance with a festival is a good one and in this case proved a great success.

A family by the name of Platt has had a little unpopularity which has gone into the courts. There are two sides to the story. Mrs. Platt tells that her husband and his brother joined in a general chastigation upon herself.

The man says that he began a discussion with her dear brother-in-law by belaboring him with clubs, and that he "shook her up a little" by way of reply. The facts are as obscure as a doctor's testimony before a jury; but justice Kelly thought he saw through them and fined the brother-in-law \$20. The case has been appealed to the circuit court, and from a variety of testimony a smattering of the truth may finally be reached.

The mal practice case was closed on Saturday afternoon and the jury returned a verdict for the defendant at six o'clock Sunday afternoon. A motion for a new trial was made by the plaintiff. A singular feature of this case is, that although three weeks were consumed in the hearing of the testimony, witnesses, it is alleged, now turn up who will testify that a gallon of blood was lost as the line of the surgical operation, and that the ligaments controlling the motion of the humerus were cut through. Senator Reeve, who conducted the case for the plaintiff, claims that he was engaged as associate counsel, and that he knew nothing of the merits of the case, except as it was developed in the examination of witnesses, and that the existence of such important testimony, as that referred to, was not made known to him until the trial was closed. It is not likely that a new trial will be granted.

Miss Kittie Beals's music class held a picnic at the Fair grounds on Saturday. Everything that could be done was done to make the class enjoy the occasion, and each one present certainly did enjoy it to the fullest extent. Not the least pleasant feature of the occasion was the presentation of a ring as prize to the scholar who had practiced the greatest number of hours in the quarter. The prize was awarded to a little daughter of her father Frank, who had practiced more hours than any other member of the class. Mr. Beals, in presenting the ring on behalf of his daughter very truly remarked that practice was the only way to secure musical perfection, and that the ring was given as a prize to stimulate each member of the class to the greatest exertion. At the end of the next quarter a prize will be given, for similar reasons. Miss Beals is to be congratulated on her success as a teacher of music, which is but the natural result of the most careful and painstaking effort.

Doc Borton makes the prettiest shot on the croquet ground of any body in town.

Col. Hess was wielding the mallet on Thayer's lawn when he missed a ball not two feet. He was on the verge of profanity when the parrot called out, "a bad shot."

George R. Chaney delivered the oration at the Bremen celebration on yesterday.

A. P. Cosgrove, and Master Bram Williams, of the Warsaw Indianian, made THE REPUBLICAN office a call yesterday.

Remember that THE REPUBLICAN office is amply prepared to do all kinds of plain and fancy job work as cheap and as satisfactory as it can be obtained any where in the West or East.

Senator Reeve spread the eagle at Valparaiso yesterday. The people came many miles to hear him.

Master Frank Brooke is canvassing the city selling an article that has been long needed. The "Fire Fly Night Lamp." They are neat in their construction, and need but a single trial to satisfy the most credulous, and they are just what they want.

Doc Reynolds roared that the sea contained 60,000,000,000 tons of salt, and his mind wandered off to the place where they sold nice cool lager. Almost any other man's body would have wandered in the same direction.

On last Thursday at precisely 1:12 minutes past eleven o'clock Arthur Underwood, foreman of the Democrat office was seen laughing. He mildly denies this soft impeachment, but he has reliable witnesses to the important event, and propose to stick to this assertion or die in the attempt!

Mr. John Maxey of the Penn-Sylvania passed through this city, Tuesday on his way to Michigan.

Miss P. Wolf, who has been visiting for some weeks in Illinois has returned home.

Dr. F. M. Burket was elected first Vice President of the State Dental Association, which met in Fort Wayne last week.

The Democrat prints a thrilling story of an adventure in which our fellow citizen, David Zeher, recently returned from the far West, plays a prominent part. The story says that Zeher aided in killing five robbers, for which he received \$50.

We do not know who gave the story circulation but there are many "fishy" points in it as told to us, and we must be pardoned for putting in so many "grains of allowance" that what is left of it is not worth printing.

A tramp was fired out of THE REPUBLICAN office one day last week, and in two minutes was given the grand bounce from the Democrat office; whereupon that paper remarks that it has been discovered that drunken tramp printers may be used for the game of "battledore."

The tramp in question was heard to remark as he reposed on the soft side of a paving stone that "zer printers in sixers town are mighty high-toned."

The closing exercises of St. Michael's Academy took place on last Thursday evening in the Academy Chapel; there being a very large attendance. The exercises were largely musical and were very creditable.

We may mention as very fine the tabernacle "Living Quaker" and that of "Faith Hope and Charity." The exercises were closed by remarks from J. S. Bender, who congratulated the founders and managers of the institution on the success which the evening's exercises plainly marked. Mr. Bender spoke in fitting terms of the importance of such an institution and expressed good will for its success and prosperity, while the expression was heartily concurred in by the audience. A festival was held in the Academy at the close of the performance. We take pleasure in presenting a statement of the standing of pupils as reported from the records of the institution. At the close of the annual examination on Wednesday evening, June 27th, after addressing a few words of advice to the pupils Rev. Father Zurwelen awarded the class honors as follows: Senior department first honors awarded to Miss Philonine Wolford, whose per cent of examination was 93.7; second to Miss M. Sullivan, per cent 90.5; third to Miss Adda Gill, per cent 86.9; fourth to Miss Emeline Wirrick, per cent 85.2. Mr. G. I. Reed, editor of the Republican, has been elected school trustee of Peru and president of the board—a very fitting selection, as Mr. Reed is a well tried educator, having served several hundred years before he became an editor.

John Chandler, of this city, visited his farm in the east end of the county on last Friday, and while looking over the place discovered a large flock of buzzards congregating in a pasture field. On walking to the field his astonished eyes beheld a remarkable sight. There lay, in a state of offensive putrefaction, at least one thousand fish from six to ten inches in length, together with myriads of tadpoles. The size of the fish and the immense numbers of tadpoles led to the belief that they had by some means, most probably a water spout, been carried from some pond, marsh or bayou. Such phenomena are not at all rare in physical history, but we have never known of such one in this country before.—Kokomo Dispatch.

The tramp overturned all the smoky stacks in Bremen, and smashed up the hook and ladder wagon.

A delicate complexion is best compared to a blooming rose; but when the countenance is disfigured with Biotches and Pimples, like weeds in a rose-bed the sufferer should proper heads. Dr. Bull's Blood Mixture, which quickly and effectually eradicates such unsightly evidences of impure blood.

Think For Yourself

Thousands lead miserable lives suffering from dyspepsia, a disordered stomach and liver, producing biliousness, headache, nervousness, weakness, irregular appetite, low spirits, raising food after eating, and often ending in fatal attacks of fever. They know they are sick, yet get little sympathy. The unflinching remedy, which is yearly restoring thousands, is Da Costa's Radical Cure. Sold by L. Tanager Plymouth.

A 250 bottle will convince you of its merits. Don't delay an other hour after reading this, but go and get a bottle, and your relief is as certain as your life. Will you do it, or will you continue to suffer? Think for yourself!

There is no medicine that has accomplished so much as Shiloh's Consumption Cure. He has established the fact that Consumption can be cured, while for Coughs, Asthma, Bronchitis, and other chronic, whooping Cough, and all lung diseases it has no equal. No medicine has ever sold on such favorable terms. If it was unreliable it would be the greatest folly to guarantee it. It costs nothing to try it as it can be returned, if it does not give satisfaction after using two-thirds of a bottle. Call at my store and get a sample bottle for 10 cents or a regular size for 50 cents or \$1.00. If your Lungs are sore or Chest or back lame use Shiloh's Belladonna Plaster which seldom fails to give relief. Sold by L. Tanager, Plymouth Ind., and elsewhere by dealers generally.
