GREEN TOWNSHIP.

The Sabbath schools of the township are progressing.

The corn crop generally promises a good yield.

Some of our citizens are attending the Normal school at Plymouth.

Sickness in this locality is quite prevalent but of a mild nature.

Your humble servant being in a state of ill health, accounts for the brevity of his items this week.

Farmers generally, economize in the way of raking their stubbles, by which from one to two bushels of wheat may be saved per acre.

There seems to be some malady prevailing among the horses in this section, of which a number have fallen its victims.

Mr. Clancey, who has been traveling through this and some of our neighboring states, teaching the science of elocution, has returned, and is stopping at D. R. Allen's, for a few days, whence he shall repair to Winamac to assist Mr. L. Marshman, in the Normal school at that place.

It is said the brick that is being manufactured here, will be of an excellent quality.

Huckleberry picking is about over and the amount is less than one-fourth the usual crop, and inferior in quality.

Many persons visited the "stamping ground" of the huckleberry marsh for other purposes than gathering berries, or improving their finances or morals.

A trace of Indian blood-tradition courses in the veins of one of our old physicians, but the Dr. don't care two cents whether it is so or not or whether it be noticeable in his person or character.

We have but one undertaker and cabinet ware establishment—that of Vincent & Son, but with their enlarged building and a full line of goods it is sufficient to meet the demands of this town and vicinity.

Some of our Walkerton men showed their indignation against vice, and their love of virtue and good morals, last Sunday night, by peacefully egging some easy virtue girls whose conduct has become particularly offensive to the better part of this community.

The dry house of Martindale & Corwin is two stories high above the basement. There is a hollow shaft four feet square extending from the basement ten feet above the roof.

The fruit to be dried is placed on shelves of fine netting, in this shaft and so arranged that they can be elevated or lowered by turning a crank. The drying is produced by hot air passed through the shaft, from the basement. Not the least smoke enters the shaft, and the fruit dried is very fine.

About all the talk is the rail road strike, who are reported and expected through here to-day (Tuesday) and the agent here looks blue accordingly.

New wheat ranges in price from \$1.15 to \$1.20 here according to quality. The millers say that the new wheat is a very fine quality.

Last Friday John Blossingham and Westly Vinedge were driving a well at Mr. Jacob Perkey's, one mile west of here, when the maul being used by Blossingham flew off of the handle striking Vinedge in the side of the head, cutting a gash four inches long, severely injuring him.
