After a few days he was seen taking care of four young chicks.

We received a copy of the Anamosa Prison Press, a new publication published at the Anamosa prison. The first page is printed in red and blue and contains a likeness of Warden Wm. A. Hunter. It is a beauty from a typographical standpoint and is well edited. It contains the latest war news, the new arrivals, obituaries, and an article on "Prisons and Management." We wish the publication success.

The meeting of the officers and directors of the old settlers' association held Saturday afternoon was not very well attended on account of unfavorable weather. About ten members were present and the meeting was called to order by Col. Wright, first vice-president in absence of the president, Mr. Huckstep. As a quorum was not in attendance, the meeting adjourned, after setting next Saturday, August 12, as the day for the next meeting. All officers and directors of the association should attend the meeting next Saturday, and help make the old settlers' picnic a success.

The depot is the scene of more or less excitement every evening. Every train carries a few hoboes into town who attempt to stop with us. An instance of this nature was particularly noticeable one evening last week, when one of the fraternity came in on a local train. The conductor, who was in duty bound to rid his train of all non-paying passengers, requested the gentleman in question to get off his train. Our patrolman wanted him to stay on, and told him in words unprintable that his presence was not desired. In the round-up the conductor and patrolman came to words and the third gentleman became an interested spectator. The star on the vest of the special policeman however did the work, and the conductor who carried the "weary" in, carried him out.

We would like to call the attention of the authorities to the condition of the sidewalk on Washington street between Broadway and Tremont. The railing is nearly all down, the planks are loose, and the sidewalk in general is in a neglected condition. It should be repaired immediately.

Mr. Cruthers, the Royal Highlander's agent who is now organizing a society at Charter Oak, was over Saturday, accompanied by the Charter Oak members for the purpose of having a group picture taken. The Denison lodge will hold a meeting tonight.

Supt. P. B. Holst, of Boone, will lecture in the Presbyterian church Wednesday night beginning at 8 o'clock. Mr. Holst is a pleasing speaker and his subject, "Herbartian Educational Theories," will be on a line that is not only interesting but profitable to all—teachers, pupils and patrons; as he will discuss the aims and objects to be desired in an education.

The circus is in town to-day, and was the means of drawing quite a fair sized crowd. The parade which took place at one o'clock was similar to all small circuses, nothing very attractive, but all that was advertised. We go to press too early to give an account of the performance which was very well attended. As usual, the street corners were occupied by cane men, wooden babies, etc., to catch all stray nickels.

Monday evening our citizens were treated to a free entertainment, by a man from Colfax assisted by his two small boys, and a bear and mule-footed pig. The two latter performers did their parts exceedingly well, but the music by the father was—well perhaps you all heard it. With proper training and more polish the children would soon become very good performers. For some unexplainable reason these traveling entertainers of this nature always sing the most vulgar songs and say the most disgusting things which has a tendency to lower them in the estimation of the public in general. Why they can't give a nice, clean entertainment which everyone would enjoy is beyond comprehension.

Regular services next Sabbath morning.

Artificial Cream.

*A cooking teacher tells of a manufactured cream that is worth knowing about in emergencies, when the real article is not to be had. It is made from the whites of two eggs, beaten stiff, with a tablespoonful of sugar and a teaspoonful of cornstarch. Half a cup of cold milk is added by degrees and all beaten together very stiff. A cup of milk is heated over the fire, with a small butter ball melted in it. This is allowed to come just to the boiling point, when it is removed to a cooler part of the stove and the beaten egg mixture added. When it has all thickened very slightly to about the consistency of thick cream, it is taken off and strained and cooled. This may be used as cream for serving with fresh or preserved fruits, but it is needless to add it will not whip.—New York Post.

Literature on a Ferryboat.

During the last seven days the following novels were read on a Hoboken ferryboat by shopgirls on their way to work: "Poor but Beautiful," "All For Love of a Fair Face," "When His Love Grew Cold," "Mrs. Hathaway's Revenge," "The Story of a Blighted Love," "Risen, or Back as From the Dead."—New York Commercial Advertiser.
