THE CAMPAIGN.

The campaign is nearing the end and what a campaign it has been. Within the memory of the oldest inhabitants no person has seen democracy so demoralized, so much in need of fixed principles as now. Starting out with 16 to 1 as their battle cry they soon discovered its unattractiveness and pushed it from them in contempt and no up-to-date fusionist was so poor as to do it reverence. Then in a loud voice they cried out against expansion until they found that the average American citizen believed in reaping the fruits of our victories. It was then they again flew off at another tangent and discussed that horrible conspiracy known as the Walker or McLeary bill, and as it was their last hope they have in connection therewith misrepresented in a manner that would have made Ananias green with envy had that prize liar been around. They have in their speeches and publications garbled the bill and Mr. H. H. Hanna's report thereon and then claimed that over two hundred republican congressmen were pledged to its support. Every statement made has been false. Not a congressman, republican or democrat, is pledged to support it unless the silver men who reported it to the house consider themselves so bound from the fact that they made this report. These facts were known to the democratic candidates and speakers, but for the want of a truthful issue they have fabricated one and on the principle that a falsehood well stretched is as good as the truth they have hung tenaciously to the last straw in a manner worthy of a better cause. Think of the condition in the Ninth district, where upon an effete issue, or one woven from misrepresentations, a man soured by political disappointments, narrowed by events which he could not control, asks the people to condemn one of the best administrations this country has ever known, to appease his spleen nature. How is it in the Tenth, where the people are asked to displace a man of national fame and give his place to one not versed beyond village economies. So throughout the state and nation the people are asked to give up a superior article for an intangible nothingness, and for this reason every voter should be at the polls to place the stamp of disfavor on so gross a presumption.

WAKE UP REPUBLICANS.

We cannot impress too strongly upon the republicans the necessity of getting out the entire republican vote. The election on next Tuesday is a battle for the continuance of prosperity which came in with the republican party when that party took control of the government. Every voter of intelligence knows by actual experience that the success of the republican party means good times, and that of the democratic-populist would mean bad times. Every republican knows this to be true. If each one will get out on election day and work hard for the success of his ticket the state will go republican by the largest majority in its history. It is a known fact that the congressional and state elections succeeding the presidential elections two years ago always show a decrease in the popular vote, and that the largest percentage of this decrease comes from the victorious party of the two years preceding. Now the democrats realize this and to a great extent are relying on it for success. Surely republicans will not be so careless as to defeat their ticket by staying away from the polls. It is this danger that confronts the republican party and nothing else. Iowa today was never a stronger republican state. We have not heard of a single republican deserting the ranks for any other party, while the newspapers had not space enough to devote to those of our democratic friends seeking the truth. Republicans, wake up and defend with your ballots all that was won in 1896, defend the executive who conducted so well the war with Spain, elect men who are in every way in harmony with the present government.

A WORD TO FARMERS.

The farmers of Crawford County will have an opportunity on next Tuesday to place in office one of their own number, a man who is in every way identified with the farmers, a man who is at present conducting a farm and who is doing his own farm work. Mr. W. E. Fishel. This gentleman has lived continuously on the farm he now occupies for eleven years. He is a practical farmer, has made farming a study and has been successful. He is not only an agriculturalist but is an expert in the keeping of books, an excellent penman and would conduct the affairs of the office he seeks in a manner highly satisfactory to all. By electing Mr. Fishel to the office of county clerk would be placing a gentleman for that responsible position who is in every way capable of filling it.

Be sure that you vote and remind your neighbor of his duty.

The man who is indifferent to his right of suffrage is not a good citizen and does not deserve the protection of the law.

The speeches made by the democratic orators have so close a resemblance that the inference is fair that some one person wrote them all.

The apathy in this campaign is undoubtedly a result of opposites. A party cannot fight well without opponents to fight with.

Died of Lockjaw.

York, Pa., Oct. 31.—Corporal William Mugridge, a member of the Second regiment, West Virginia volunteers, died at the city hospital Sunday night. Death was caused by lockjaw. Corporal Mugridge was admitted to the hospital on the 15th of October. The remains were forwarded to the parents' of the deceased at New Haven, W. Va.

Assigned to Stations.

Washington, Oct. 31.—Orders have been issued by the war department, assigning stations for the light batteries which are to arrive from Puerto Rico. C and F, Third artillery, and D, Fifth artillery, will go to Fort Riley, Kan., and R, Fourth artillery, to Fort Sheridan, Ill.

Death Won the Race.

Cincinnati, Oct. 31.—Harry Moran, a member of Al G. Field's minstrels, arrived from Knoxville en route to his home in Akron, O. He was hastening to his parents on account of sickness, but could proceed no further Sunday and died here at the hospital.

The Casualties of Our Recent War.

From the first our war with Spain was a series of rapid surprises, with everything favoring this country. Now that hostilities have terminated, it is possible to consider what is probably the most surprising feature of the whole struggle—the American losses in killed and wounded. Beginning with the first attempt to land troops in Cuba, and ending with the surrender of Manila, it is found that the navy had one officer and eighteen men killed and three officers and forty men wounded, and the army, twenty-three officers and 231 men killed and eighty-seven officers and 1316 men wounded, a total of twenty-four officers and 249 men killed, and ninety officers and 1356 men wounded. It may be said that almost all of the American casualties occurred in the three days' operations before Santiago de Cuba. Spanish casualties are unknown, yet we may assert that many single battles in our civil war were fought with greater losses in killed and wounded than the entire casualties on both sides in our war against Spain.

France Wants Our Coal.

Coal has reached an enormous price in France this summer because of the labor troubles in England. At retail it sells for 45 to 50 francs (\$8.68 to \$9.65) a ton, and people don't know where their winter supply is coming from. This news comes from our consul at La Rochelle, who reports that American coal would be acceptable there.

INDIANS ARE UNGRATEFUL

Agent in Charge of Lemhi Agency in Idaho Sends in Discouraging Report.

GIVEN TO GAMBLING AND HORSE RACING

The Government, It Is Declared, Has Humored Them Too Much—Influence of the So-Called "Medicine Man" Operates to the Disadvantage of the Tribe.

Washington, Oct. 31.—The majority of the annual reports of the Indian agents to the commissioner of Indian affairs are of an encouraging nature, and indicate a progress generally along civilized lines. Some of the reports, however, are not so gratifying and make some surprising statements. Unusual in an annual report is the following arrangement in the report of E. M. Yearian, in charge of the Lemhi agency in Idaho:

"These Indians, as a tribe, are honest and peaceable and kindly disposed, but are about as degraded and ungrateful a set as one finds. They have been humored, and, like spoiled children, want things their way, and their condition, mode of living and barbaric practices would indicate that undue concessions have been made on the part of agents. While some will avail themselves of the opportunity of earning their living by civilized pursuits, others lead a lazy, vagabond life.

"They are addicted to gambling, horse-racing and dancing, and the influence of the so-called 'medicine man' operates to the disadvantage of the tribe."

Agent Wisdom, of the Union agency, Indian territory, in charge of the five civilized tribes, makes a strong plea for the non-citizen insane persons residing in the agency. He says the "Kee-Too-Wahs," the full-blooded society which led the opposition to the Cherokees treating with the Dawes commission, are reconsidering their action, and that an agreement with the Cherokees at an early date may be possible. The agreement between the Creek and Dawes commissions, he adds, doubtless will be ratified by the Creek nation. Agent Fuller, of the Blackfeet agency, Montana, referring to the opening of the ceded portion under the mineral land laws, last April, says prospecting has been practically fruitless, and predicts the abandonment of the so-called mineral strip before the 1st of November.

J. R. Jewell, in charge of the New York agency, in his report alleges after careful investigation that the funds of the Seneca nation are almost wholly absorbed by the officers of the nation, and that they are in collusion with white men for such purpose.
