CLOTHES HELP MAKE THE MAN.

It is gratifying to note that in the future when a prisoner is discharged from the State penitentiary he is to be clothed in a tailor-made suit, a suit made to fit and all wool. When a prisoner who has paid the penalty of his crime is sent out into the world a free man it is but just that he have a better chance to begin life anew. In the past it has been customary to give a man a cheap suit, of such uniformity that it always answered the purpose of marking him—just out of prison. Even every officer in the rural districts could tell the man had just been released. Many a man has paid the penalty and has started out in the world again, and in applying for a position or job of work, has been pointed out as a criminal just from the penitentiary, by the look of his clothes, and as a last resort, goes to following his old traits in order that he might not go hungry. If he is sent out clothed in a nice fitting, well-made suit he is not looked upon with suspicion and does not meet with the discouragements above cited. And not only this, but the clothing will cost the state less. Contracts can be made to get the cloth at so much per yard and it will be made up in prison, thereby creating a saving of quite an amount.

Mrs. Carrie Chapman-Catt, of New York City, will speak in Denison, on Nov. 14, in behalf of the equal suffragists. This lady comes highly recommended and no doubt will present a very good argument for the cause.

We have received a very neat and attractive pamphlet advertising the Nixon Air-Tight Ink Well. The manufacturer of this little article is Mr. E. J. Nixon, a former resident of Denison, and he is meeting with good success.

In October we encountered November weather and in November we encounter October weather. The Sioux City Journal says "If the agricultural department at Washington isn't careful the yellow newspapers of the country will be after it in full cry."

Does advertising pay? The following answers the question in its entirety. An Oklahoma girl recently advertised for a husband and got one. The advertisement and her wedding outfit cost her \$11. Within a few months the husband died, leaving her \$5000. It pays to advertise.

W. A. McHenry after depositing his vote took the Colorado Special for Chicago, where he goes to attend the annual meeting of the American Aberdeen-Angus Association. Mr. McHenry's prominence in breeding fine cattle has kept him in an official position for many years and Crawford county has become headquarters for the finest bred cattle in America.

The Misses Richards and Downs, of Arion, gave a party Saturday evening to which about fifty persons were invited. The main feature of the evening was the speeches on scenes at the exposition. Mr. Chas. Booth, of Dow City, carried off the prize, a beautiful souvenir spoon. The party broke up early Sunday morning all declaring that they had had a "rattlin'" good time.

On Monday, Mr. E. O. Thiem shipped by express two very fine chickens to Montrose, Penn. Mr. Thiem has a wide reputation as a breeder of fine chickens and has only recently sent two to England for which he received \$105.00. He has many friends in this county and Orkin Bros. were very fortunate in getting him as salesman. To be a salesman is to be a man who can not only sell goods, but can hold the trade.

As an advertising medium the REVIEW is unexcelled, as in each issue we reach more readers than any other paper in Crawford county. Our advertisers appreciate this fact as our columns show. We are much gratified in the manner in which our subscription list continues to grow. We receive each day, either by mail or in person, some new name to be added to our list of subscribers. We appreciate this very much and shall continue as in the past, to try and give "all the news of all the people" in a clean readable manner.

Great interest is being taken in the school exhibit which will take place at the opera house on Friday and Saturday, November 11 and 12. The different committees are working hard perfecting arrangements. As mentioned in a previous issue the exhibit as given this fall will be the best one yet held, and every one should help to make it so by taking an interest and by being present the two evenings. One of the special features will be an exhibit of china decoration given by Mrs. S. G. Wright, of Omaha, who will arrive in Denison on Wednesday afternoon. This exhibit will alone be worth the price of admission.

CHANGE IN TIME CARD.

There have been a few changes made in the C. & N. W. time table which the traveling public should make note of. No. 7, the train going west, which has been leaving Denison at 4:10 a. m., is taken off altogether; also No. 12 going east at 11:35 has been abandoned. The only trains going east stopping at Denison are 8:51 a. m., 2:16 p. m., 8:13 p. m. and 9:05 p. m. Trains going west and stopping are at 7 a. m., 1:25 p. m. and 9:23 p. m. Nos. 17 and 18, or the 7 o'clock and the 8:13 do not run Sunday.

PLEASANTLY SURPRISED.
On last Friday evening about twenty young people met and gave Miss Grace Baer a surprise party in honor of her birthday. Miss Baer is a very popular young lady and an invitation to meet her was readily accepted. During the evening different games were played, progressive dominoes being a feature. Refreshments were served later, after which the guests departed wishing Miss Baer many more happy birthdays.

SHIPPERS MUST PAY.
A decision was handed down by the United States court at New York on Saturday to the effect that the shipper must pay the revenue tax on all shipments of express packages. The case was brought by the Merchant's Association of New York against the Adams Express Co. The points made by the express company were three, as follows:

1. That the express company could exact a reasonable charge for its services, and consequently, if the war revenue act imposed upon it the duty of paying the stamp tax, it might lawfully add to the reasonable rates heretofore demanded and received by it the additional cost thus created.

2. That, even if the act in terms imposed the tax upon the express company, the latter might lawfully require its reimbursement as a condition of accepting goods for transportation.

3. That the act did not impose the tax upon the express companies or its business, but merely upon the transaction of shipment, and in terms provided that it might be paid by either party to the transaction.

A drive up the Boyer Valley on Sunday last disclosed the fact that there is a vast amount of dirt being moved along the line recently surveyed by the Northwestern people. Commencing just across the road from Harvey Cook's the grade begins and runs about straight north. At Mr. Gillett's place the tract will run through his land quite close to the road, thus damaging him very little. There is some grading done as far up as what is known the Potevin place. The line only crosses the Boyer once between Denison and Deloit. There are three gangs of graders at work, Mr. McAhren grading through the Lefeldt land. All the right of way has been purchased with the exception of the land belonging to Chas. Voss—the old Carroll place. Another contractor started from Sioux City Monday with twenty-five teams and will work on the north end of the line. With favorable weather the company expects to have the road in running order by January 1899.

EMPEROR DOOMED.
Has Bright's Disease and Famous Physicians Have Given Him Up.—Thousands of Cases are Cured!

Buffalo, Nov. 7. Late dispatches from Peking, China, bring information to the effect that the Emperor is dying of Bright's disease. He is now under the care of a famous French physician, who says that the Emperor's complaint is "an incurable kidney disease."

The famous French physician is mistaken. There is no incurable kidney disease. In this city, where the only remedy that can positively cure Bright's disease and other kidney diseases, is prepared, and where numerous cures have been effected by its use, the statement of the famous French physician reads strangely enough.

Dodd's Kidney Pills cured thousands of cases of kidney disease that have been pronounced "incurable" by doctors. They have never scored a failure.

R. J. Baxter, engineer on the Western New York & Pennsylvania Railroad, had Bright's disease. He was reduced to a mere skeleton, and was given up by the doctors. He says: "At that time I had prepared to die." Today he is a well and powerful man, and is running an engine. To a reporter of a Buffalo newspaper Mr. Baxter said: "A friend, also an engineer on the road, told my folks of a sure cure, Dodd's Kidney Pills. I determined to make one final effort to regain health and strength. I bought a supply of Dodd's Kidney Pills and began using them. In a few days my condition began to improve. Two months from the day I began using Dodd's Kidney Pills I surprised the W. N. Y. & P. R. R. Co. by applying for work."

There is nothing more mysterious than the common place and there is nothing more difficult to understand than that the men and things we see about us every day are great and grand and wonderful to other eyes. The very fact that Gov. Shaw has always been an unassuming, quiet, friendly man, made it the more difficult for his home people to realize his true worth when he was a candidate a year ago. To most people a governor is an unknown and unknowable quantity. They rather expect him to be made of different flesh and blood than is the common mortal. The candidate last year was just "Shaw" and Shaw was an every day event in Denison. It was true that he had been a good citizen, and a helpful friend to nearly every one in the community. It was true that he was recognized as a great lawyer and a deep thinker, but he was just "Shaw." We have not a doubt but that the boy who has been brought up alongside of Niagara, is just as quick to turn his back upon that greatest of nature wonders and walk five miles to see a circus parade, as is the boy who has seen naught but the cornfields of Crawford. In fact the only surprise which Niagara might cause the native would arise from the fact that every town did not have such a commonplace thing as Niagara in its back yard.

Through the eyes of other people we have seen Governor Shaw during the past year. We have heard his words quoted throughout the nation, at first we were simply astonished, we had heard Shaw saying just such good things a hundred times before, but we soon saw that what Shaw said was worth quoting, we saw that his acts were the acts of a great man, and the community gradually awakened to the marvel that had grown in its midst. This is the reason for the ovation which greeted Gov. Shaw in his home county last Monday. This is the reason why Charter Oak closed its stores, why the farmers of Hohenzollern left their cornfields to attend his meeting, and why our opera house could not hold the people who welcomed him to Denison. Gov. Shaw's history is not yet complete. Remember this, and put no straw in the way of the brilliant career which lies before him and for which he is so pre-eminently fit.
