**A NATIONAL QUARANTINE.**

**Convention at Memphis to Devise Uniform Method of Fighting Yellow Fever.**

**ALL SECTIONS OF COUNTRY REPRESENTED**

**Work of the Convention Will Be to Outline a Law to Be Adopted by Congress Which Will Initiate an Active National Quarantine Against Disease.**

Memphis, Tenn., Nov. 17.—The national quarantine convention assembled here with 125 delegates present and others arriving with each incoming train. A majority of the delegates are from the southern states, more affected by the visitation of yellow fever, as they were asked to send a larger representation than the other sections. There are delegates from the north, west and east, however.

The subject with which the convention is to deal is one of many perplexities. It is how to provide an efficient quarantine to protect the states from invasions of infectious and contagious diseases.

**Object Stated.**

Chairman J. S. Menken, of the local committee, called the convention to order. Mr. Menken spoke briefly, as follows:

"We are here, gentlemen, to discuss and consider a question vitally affecting not only the material interests of our entire country, but the lives and happiness of many millions who are threatened with the annual visitation of disease which carries dismay and terror into every community where it penetrates.

"Not only are communities disturbed on such occasions, towns and cities temporarily depopulated, but the relations between people of the same community, as well as between the people of the states affected, unsettled and abnormal.

"Commercial and manufacturing enterprises are crippled, and the various industries that bring competence and content to the masses are brought to a standstill.

"No such conditions should exist as one town, city or state acting independently of the others—for what affects one part of our common country affects the whole.

**Work of the Convention.**

"This convention is made up of representatives from the north, south, east and west—all having one object in view, the initiation on a broad basis of an active national quarantine, controlled by the government of the United States. To formulate a plan of action, feasible, comprehensive and effectual, which can be quickly crystallized into law, is the work to be accomplished. While quarantine is the best known means of prevention at present, and the one which possesses more completely the confidence of the people, we all hope that science will soon disclose the true cause and discover a general remedy for this unwelcome exotic, rob it of its terrors and inspire the public with confidence and faith. Until that time arrives, however, our hope and trust must be in an effectual national quarantine."

Mayor J. J. Williams delivered an address of welcome. Gen. Luke E. Wright, of Tennessee, was named as permanent president, and P. A. Rush, of Senatobia, Miss., was elected secretary. Gen. Wright addressed the delegates, after which committees were appointed and a recess taken until the afternoon.

**TO FIGHT THE FEVER.**

**Government Preparing for an Active Campaign Against Yellow Jack.**

Washington, Nov. 17.—The yellow fever problem has been receiving earnest attention of late from the authorities here, particularly from the marine hospital service and the war department, owing to the important new relations established with Cuba and other fever localities to the south of us and also because of the recurrence of the disease within this country during the last summer. The purpose is to prepare during the coming winter months for such an efficient cordon of protection around the country that the chances of a reintroduction of the disease will be reduced to a minimum, while at the same time the points of infection in Cuba and elsewhere will be so improved by sanitation and guarded by quarantine that the main sources of danger will be removed. Already the marine hospital service has begun its work of establishing a cordon of quarantine around Cuba. A large floating disinfecting plant is in operation in Havana harbor, and a similar floating disinfecting plant is at Santiago, although not yet in operation.

Besides the quarantine to provide against the escape of diseases from the island the authorities are now considering plans for the internal sanitation of the island on an extensive scale.

**Wants Caffery Bill Passed.**

Concerning the recurrence of fever epidemics in this country, the marine hospital authorities hope that their hands will be strengthened by the Caffery bill, which provides for the establishment of a more effective federal control of local and border quarantine. It is said, however, that the lessons of the outbreak last summer give no ground for apprehension that the disease will be brought in yearly. The outbreak, it is held, was but a renewal of that of the year before, no new cases being introduced. The intervening winter was unusually mild, so that the germs were not entirely eradicated, furnishing the basis for the renewed outbreak during the hot months last summer. Surgeon General Wyman says, however, that the outbreak was marked by comparative mildness, the cases being much fewer than the year before, the attacks less severe, the fever points confined to two states, and the deaths much fewer than the year before.

**To Investigate Abandoning of Teresa.**

Washington, Nov. 17.—The secretary of the navy has ordered a court of inquiry to meet at the navy yard at Norfolk next Tuesday for the purpose of investigating the circumstances attending the abandonment of the Spanish cruiser Maria Teresa, with a view to determining the necessity and responsibility therefor.

**WON'T GO TO SPAIN.**

**Official Telegram Received at Berlin That Emperor Will Come Direct Home.**

Berlin, Nov. 17.—An official telegram received here from Valetta, Island of Malta, says the emperor and empress of Germany have sailed for Pola, at the northern end of the Adriatic sea, from which port they will travel overland direct for home.

It is explained that the emperor decided upon this course because the temperature of the Mediterranean has become considerably cooler and the danger to the health of the empress by a sudden change from a southern to a northern climate is thus lessened.

Valetta, Island of Malta, Nov. 17.—The German imperial yacht Hohenzollern sailed from here Thursday morning. The next port she will call at is not known, but it is believed it will be somewhere in Italy.

It is now known that when Emperor William passed the Island of Rhodes, where the khedive of Egypt is staying at present, the emperor telegraphed his regrets at being unable to visit Egypt, also thanking the khedive for the preparations made to receive his majesty.

**ALLOWED TO SEE PICQUART.**

**Believed Also That Order Will Be Shortly Issued for Return of Dreyfus.**

Paris, Nov. 17.—It was announced that M. Laborn, counsel for Col. Picquart, who is now confined in the military prison of the Cherche Midi, has received authorization to confer with his client.

In legal circles here the belief is expressed that the court of cassation will shortly order the return of Dreyfus to France from the prison on Devil's island, on the coast of French Guiana, on the ground that it is impossible to carry on the examination of the prisoner by cable, in view of the cost of such a proceeding, as well as in view of the necessary delay.

**SMASHED TO SPLINTERS.**

**Electric Car Runs Wild on Down Grade with Dismatrous Results.**

Tacoma, Wash., Nov. 17.—An electric street car on the Tacoma railway line was derailed five miles from the city on the Stellacom road by the controller refusing to shut off the current on a heavy down grade. The car was splashed to splinters by striking the side of a cut ten feet deep, through which it was traveling. Seven persons were aboard, and all received injuries, but Fay Roberts, motorman, is hurt the worst. He may lose a leg. He was pinned under the wreck an hour. United States Marshal Ide was aboard and suffered a slight cut and sprain.

**May Build New Water Works.**

Denver, Col., Nov. 17.—City Engineer Hunter has submitted a report to Mayor McMurray that a water plant, larger and better than that of the Denver Union Water company, can be built for \$5,700,000 and the mayor recommends the issuance of city bonds to the amount of \$6,000,000 for that purpose. The Denver Union Water company some months ago offered to sell its plant to the city for \$9,000,000. Engineer Hunter says it is worth less than \$4,000,000.

**Has Not Been Rejected.**

San Francisco, Nov. 17.—Irving M. Scott, of the Union iron works, denied the statement that the torpedo boat destroyer Farragut has been rejected by the government. He says that owing to a head wind and a high sea on her trial trip, she fell slightly below the required speed for a full hour's run. These adverse conditions, he says, will be taken into consideration and another trial of the vessel may be had.

**Decide on Seattle.**

St. Paul, Minn., Nov. 17.—What is known as the post-executive committee of the W. C. T. U., where various matters of business referred to the board by the convention are acted on, met in this city Thursday. Seattle was decided upon as the next place for holding the convention, the time to be about the middle of October, the exact date being fixed later.

**Must Not Trade in Interior.**

Yokohama, Nov. 17.—Advices received here from Seoul say that the Korean government has issued orders that foreigners are to be stopped from trading in the interior. It is stated on good authority that the firm of Beyer & Peacock have agreed to make a loan of 15,000,000 yen to two Japanese railroad companies.

**Murdered During a Quarrel.**

Neosho, Mo., Nov. 17.—At Southwest City, Scott Yergain shot and killed J. D. Edge, ex-prosecuting attorney of McDonald county. Edge and Joe Yergain had quarreled over the Prater estate and Scott interfered. Yergain brothers are hardware merchants and bankers.

**Fire at Portsmouth, O.**

Cincinnati, Nov. 17.—A Portsmouth (O.) special to the Times-Star says: Fire at two a. m. destroyed Dice's livery stable, Farmers' hotel, Frick's flouring mill and residence. The loss will probably reach \$75,000; partly insured.

**Prominent Physician Dead.**

San Jose, Cal., Nov. 14.—Dr. J. Underwood Hall, a prominent physician, is dead. He was 85 years of age and a native of Kentucky. During the war he had charge of the union hospital at Glasgow, in that state.

**Passed Cretan Waters.**

Canea, Island of Crete, Nov. 14.—The German imperial yacht Hohenzollern passed Cretan waters at four o'clock. The dispatch boat Herta entered Suda bay in order to fetch dispatches for Emperor William.

**SCALE BOOKS.**

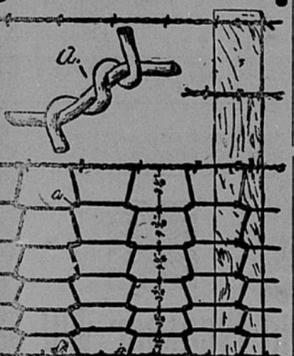

The Review office has a large supply of blank scale books for sale. These books contain one hundred and twenty-five pages and four tickets on a page, and are sold at the low rate of one dollar. Anyone needing scale books would do well to call.
