### A BIG LAND DEAL.

Sioux City Journal: The deal whereby Gov. L. M. Shaw comes into possession of the Skinner ranch was closed up just at midnight Friday. The governor comes into possession of 2,000 acres of land, among the best on the Missouri river bottom, and pays therefor \$53,000 cash. The deal was negotiated by G. W. Morrow between the governor and the owners of the property, E. W. Skinner, Dwight Skinner and W. D. Turner. J. A. Pritchard, of Smithland, is in Sioux City and he tells how the sale came about. Last summer when Gov. Shaw was traveling about the state speaking in the interests of the republican party, he happened to ride past the Skinner ranch on a Milwaukee train. Messrs. Pritchard and Morrow were riding with him, and they pointed it out to him with pride.

"I have \$50,000 to put into just such land as that," responded the governor. Since that time Mr. Morrow has followed up the deal, and now he has closed it, and Gov. Shaw comes into possession of the land. It is reported that Gov. Shaw has some other persons interested with him in the property and that they will put in a large stock ranch.

Mr. Chas. Tabor, of Denison, Mr. J. G. Shumaker, of Charter Oak, and another party are interested in this purchase with Gov. Shaw.

#### Feathers for Fashion.

Manufacturers of artificial birds buy directly from the farmers and make up their stock with no particular regard for the accurate representation of a species. Just at present the birds in fashion for mourning hats are small black parrots, and there are no such birds in nature. A fashion is in vogue to match the costume in the plumage of the bird trimmings, and manufacturers use their best art to supply the demand. Sooner or later this fashion will be the means of establishing regular farms for the production of feathers for millinery purposes.

#### WHAT SHALL WE DO.

A serious and dangerous disease prevails in this country, dangerous because so deceptive. It comes on so slowly yet surely that it is often firmly seated before we are aware of it.

The name of this disease which may be divided into three distinct stages is, First, kidney trouble, indicated by pain in the back, rheumatism, lumbago, frequent desire to urinate, often with a burning sensation, the flow of urine being copious or scant with strong odor.

If allowed to advance, this reaches the second stage, or bladder trouble, with heavy pain in the abdomen low down between the navel and the water passage, increasing desire to urinate, with scalding sensation in passing, small quantities being passed with difficulty, sometimes necessary to draw it with instruments. If uric acid or gravel has formed, it will prove dangerous if neglected.

The third stage is Bright's disease. There is comfort in knowing that Dr. Kilmer, the great kidney and bladder specialist, has discovered a Remedy famous for its marvelous cures of the most distressing cases and known as Dr. Kilmer's Swamp-Root.

It is sold by all druggists. As a proof of the wonderful virtues of this great discovery, Swamp-Root, a sample bottle and a book of valuable information will be sent absolutely free by mail on application to Dr. Kilmer & Co., Binghamton, N. Y. When writing kindly mention that you saw this liberal offer in the Denison Review.
