### BRING IN NEGRO MINERS.

Public Sentiment Opposed to the Action of the Operators.

PITTSBURG, Kan., June 23.—Seventy-four more colored coal miners and 12 women from the south arrived at Fleming yesterday and were put inside the company's stockade. Strikers attempted to prevent them from going inside, but the company agents were expecting a demonstration and hurried them inside before the strikers could get to them. Public sentiment condemns the company's bringing colored people here from the south, because at least half of them are not miners, but the scum of the colored population in the south. A general feeling of satisfaction prevails here over the amicable settlement made between the smaller operators and the executive board of the United Mine Workers' association. The executive board is now planning to begin the fight upon the big operators (the railroads) and it is believed that they will concede to the board's demands soon.

### Strikers Reject the Terms.

CLEVELAND, June 23.—The hope of a settlement of the street railway strike was shattered last night, when the strikers at a meeting rejected by a unanimous vote the proposition submitted by the company to the special committee of the city council, and to which the strikers' committee agreed yesterday afternoon. The proposition of the company states that it is ready and willing to take back into its employment such of its employees as its business demands, aggregating at the present time 80 per cent of such employees, excepting always those that have committed unlawful acts against the company.

### Accede to Demands of Strikers.

CHICAGO, June 23.—Sixty men employed by Swift & Co. yesterday joined the 400 men who quit the employ of the various stock yards firms. Thirty colored men who went to the yards expecting to be employed were driven away by the angry strikers. All of the packers with the exception of Swift & Co. met the demands of the strikers yesterday afternoon and the men went back to work. About 20 of Swift & Co.'s men are still out, but there is now no possibility of a general strike.

### Miners Fight the Smelters.

JOPLIN, Mo., June 23.—The fight is on in earnest between the Missouri and Kansas Zinc Miners' association and the zinc smelters. The board of directors of the miners' association has issued an address to the producers, urging them to shut down their plants for two weeks in order that former prices may be restored.

### Soldiers Are to Leave Pana.

PANA, Ill., June 23.—Major Cuban, in command of companies D and A, Fifth Illinois infantry, has received orders from Governor Tanner to send his men home Monday morning and to notify all citizens that upon the presentation of receipts the arms taken away from them by the military will be returned to them.

### REMLEY RAPS TRUSTS.

Attorney General of Iowa Talks to County Attorneys at Des Moines.

DES MOINES, June 22.—The first annual meeting of county attorneys of the state was held here yesterday. Attorney Remley made an address, which contained some startling expressions on the question of trusts. He said: "Socialism follows in the wake of the trusts. The French revolution was the logical sequence of concentration into the hands of the church and the nobles of the greater part of the land and wealth of combinations. I do not say that such a condition is near at hand in our country, but I firmly believe the pendulum is swinging in that direction. You can do your state no better service than by either demonstrating the non-existence of unlawful pools and trusts in the state or bringing the guilty parties to justice. For your own sake, for the sake of the people who trusted and honored you, you cannot shirk the responsibility if you wish to. You should, and you will, to the best of your ability, faithfully and patriotically, go after all trusts and combinations organized against the laws of the state and country."

### STORM AT FORT DODGE.

Buildings Demolished, Windows Broken and Crops Destroyed.

FORT DODGE, Ia., June 19.—One of the severest hail storms ever known in this portion of Iowa occurred here Saturday evening. The storm lasted for about 20 minutes and was accompanied in places by heavy winds. The hail stones were as large as walnuts and fell with terrific force. In Fort Dodge there is hardly a place of business or residence in which some window lights are not broken. Every skylight in the city is broken.

In the surrounding country the damage was even greater. The small grain is completely destroyed. The severest part of the storm occurred at Gowrie, where nearly every window in the town was broken. A heavy wind blew ten freight cars off the Rock Island track. Several buildings were destroyed. At Barnum, west of here, great damage was also done. At Clare, north of here, a small tornado struck the place and several buildings were demolished.

At the place of John Law, west of Clare, the tornado was most severe. Mr. Law, with his wife and children, had taken refuge in the cellar when the tornado completely demolished every building on the place. None of the family was hurt, but Mr. Law is completely crazed and is now a raving madman. The damage to buildings, and especially to crops, is almost incalculable and will reach high into the thousands of dollars.

### The commencement exercises of the St. Ann's parochial schools took place on Tuesday evening before a large and appreciative audience.

The program which was rather lengthy was well carried out, the children showing the effects of the careful drill given them by the Sisters in charge of the school. The program consisted largely of drills and tableaux and the little folks did their parts splendidly. The event of the evening was the presentation of a gold medal to Miss Margaret Lally who has completed the entire musical course of the school. Miss Lally, as the two selections given by her proved to the audience, is an accomplished musician and her excellence speaks very highly for the instruction given at the school. The program which has already been published in the REVIEW, closed with brief addresses by Rev. Father M. J. Farrelly and Rev. Father White of Dunlap.

The Dow City Enterprise's republican column says Senator Gear is a drinking man and A. B. Cummins an abstainer. The truth is that Senator Gear formerly used liquors but has not touched a drop for several years, and that Mr. Cummins drinks whenever he pleases with his friends and is not hypocrite enough to claim otherwise. Let us keep the facts straight without prejudice to either side.

### DROUTH DESTROYS RANGES.

Cattle and Sheep Industry In a Bad Way in Colorado and the Southwest.

DENVER, June 23.—According to reports received by Secretary Charles F. Martin of the National Live Stock association the drouth has destroyed all the large Colorado ranges. "The reports coming to this office," said Mr. Martin, "show that unless there is speedy relief from present conditions the loss to stockmen will be something enormous. Even should the cattle and sheep survive the summer they will be so poor and emaciated when the snows come that they will drop like leaves from the forest."

Already cattle are dying in the San Luis valley, where the drouth has assumed a most serious phase. Like conditions, varying in severity, are reported from northern New Mexico, parts of Oklahoma, the Indian nation, western Kansas and southern Utah.
