SINKS WITH THE CREW

Steam Barge Margaret Olwill Goes Down In Lake Erie.

ALL ON BOARD PERISH SAVE ONE.

Rudder Chain Parts at Height of Hurricane and Vessel Was at Mercy of Wind and Wave—Passing Steamer Rescues Sailor Who Clings to Wreckage.

TOLEDO, June 30.—Eleven lives were lost by the foundering of the steam barge Margaret Olwill in Lake Erie at 2 a. m. The following are those who went down:

JOHN BROWN, captain, Cleveland.
MRS. BROWN, wife of Captain Brown.
BLANCHARD BROWN, son of the captain.
MISS HUNT, guest of Captain and Mrs. Brown, Cleveland.
ALEX. McLANE, chief engineer, Cleveland.

R. ROLINSKI, second engineer, Cleveland.
JOHN SMITH, second mate, Cleveland.
W. DOYLE, fireman, Cleveland.
GEORGE HEFFRON, wheelman, Cleveland.
FRANK HIPP, watchman, Kelly's Island.
—JAMES, Cleveland.

Duncan Coyle, a deck hand, whose residence is at Port Huron, is the only survivor so far as known. He was rescued after having been in the water four hours. The large left Kelly's island at 6 o'clock Wednesday night, bound for Cleveland with a cargo of stone. At 10 o'clock the gale commenced and the wind blew at the rate of 50 miles an hour. Suddenly the gale turned to the north and Captain Brown found the boat was making little headway, and concluded the only thing to do was to turn back and go with the storm. The vessel had turned half way around when the rudder chain parted and in an instant the boat was at the mercy of the storm.

The cabins came loose from the hull of the barge and floated on the water while the rest of the ship went to the bottom. Coyle and Heffron clung to a part of the after cabin.

Captain Willoughby of the steamer State of Ohio, sighted the wreckage about 5:12 a. m. directly in the course from Cleveland to Toledo.

The big steamer immediately put into service her lifesaving crew and after sailing around the wreckage for an hour and a half Coyle was rescued. Heffron was thrown a line but he was too weak to take hold of it and went down in the presence of a large crowd on board the steamer.

Heffron's death was a pathetic one, for he grabbed the rope and, being encouraged by the crowd, made a superhuman effort to put the rope around himself, but he was too weak, and had to give up the desperate struggle with the waves.

The rescue of Coyle was effected with difficulty. Expert linemen walked up and down the steamer and every time the big boat could be worked near the man a line was thrown. He at last fastened it about him.

Captain Willoughby said he did not leave the spot until he was sure everyone alive had been rescued.

FLOODS IN TEXAS.

Brazos Out of Its Banks, Bridges Washed Away and Railroads Tied Up.

AUSTIN, Tex., June 30.—Reports from the flooded district contiguous to the Brazos river bottom received last night, indicate that the damage attendant upon the heavy waterfalls is more serious than at first reported. Both the Big Brazos and the Little Brazos are reported to be rushing over their banks and rising rapidly. Miles of the rich bottom farms are under water. Five of the big trunk lines of the state are tied up on account of floods and 14 big bridges have been swept away on their main lines.

KEARNEY, Neb., June 30.—Report comes from Sweetwater, in the north of Buffalo county of the drowning of three persons in Beam creek. It seems that a preacher and two young women were out riding Monday evening and the horses either ran away and threw the occupants out of the buggy into the creek, or else went through a bridge. The start for the drive was the last seen of the persons. The buggy, harness, horses and portions of the women's clothes were found at different places along the creek.

Brussels Rioters Not Dispersed Until Many Are Wounded.

SHOTS ARE FIRED ON BOTH SIDES.

Train Cars Are Turned Into Barricades and City Seems on the Eve of a Revolution—Mobs Finally Repelled by the Gendarmes and Many Arrests Made.

BRUSSELS, June 30.—At the conclusion of a great meeting in the town hall last evening thousands attempted to cross the Grande place, in which the town hall stands. The gendarmes charged with drawn swords and the crowd retaliated with stones. Shots were fired on both sides. Three persons were wounded, one fatally, and a police officer was severely stabbed with a shoemaker's knife. The rioters on being dispersed assembled at another point. A large crowd gathered in the Rio Royale, tearing up the paving stones and using them as missiles. Finally the civic guard was ordered out to relieve the police.

Despite the efforts to suppress the disturbances rioting continued to a late hour, many persons being injured. A tramway conductor received two bullet wounds. Ultimately the troops were called and 35 arrests were made, many of those taken into custody being in possession of revolvers.

The Liberals, being in a hopeless minority in parliament, abandoned the idea of fighting the electoral reform bill by parliamentary methods and started a campaign of obstruction. The city wears a complete revolutionary aspect. Trams were overturned and used as barricades. The commander of the civic guard asked to be supplied with 15,000 cartridges.

The scenes in the chamber quite beggar description. M. Van Denpereboom was dubbed "murderer," "bandit" and "minister of civil war" by the socialists, who declared that they would appeal to the king.

Baron, formerly an eastern newspaper man, has written the following to the Associated Press from Wrangell, Alaska, under date of June 24: Information received here several days ago confirms the story that Andree, the Arctic explorer, is dead. A Norwegian, who was a passenger on the *Rosalie*, a Seattle boat bound for Skagway, showed a letter supposed to have been written by Andree. The letter, in a sealed bottle, had been washed ashore off the Norwegian coast, and dated May 4. The latitude was given as 74 north, and the balloon was somewhere to the westward of Iceland. On the approach of the guards Acosta, who was at a well drinking, attempted to reach his horse, but the guards fired and Acosta dropped on his knees and begged them to spare his life. He was taken to Guanajay jail and was afraid the guards would kill him on the way there. On the promise of his life being spared, he said his party numbered 29, among whom, he claimed, was Colonel Carrillo Dolz, who was appointed last week chief of the Guanajay rural police. Acosta received \$300 as his share of the Mariel robbery.

A bullet entered his right side and passed out at the back, but did not penetrate the abdominal cavity. Sheriff Langford received word that six highbinders were coming from San Francisco to kill Lee Gu Poon, president of the Hip Sing Tong, and with several deputies was on the watch, when a gang of Chinese appeared and opened fire, which was returned by the officers. DEADWOOD, S. D., June 30.—Judge Moore, Eighth district, decided the 13 liquor cases of Sturgis, Meade county, in favor of the demurrers. The grand jury recently brought indictments against the saloon men of Sturgis for violating the liquor law and the defendants demurred, raising the question of the validity of the law. Judge Moore's decision practically leaves this part of the state without a liquor law of any sort.

HARVARD WINS ALL.

Crimson Oarsmen Victors In Every Race at New London.

THREE TRIUMPHS IN THREE HOURS

Boys of Cambridge Taste Sweets of Victory After Eight Years of Gallant Defeat—Land the 'Varsity by Over Six Lengths in 20:52.

NEW LONDON, Conn., June 30.—Harvard won all of the boat races yesterday—three victories over Yale in three hours—and the western sky glowed crimson last evening, when the Harvard 'varsity crew pulled over the finish line six and a half lengths ahead of Yale. After eight years of defeat, the students of Cambridge are tasting the sweets of success. Harvard's university eight won from Yale, over a 4-mile course, by six and a half lengths, in 20:52.

Harvard's freshmen eight won from Yale over a two-mile course by two and a half lengths in 9:33 1/2.

Harvard's substitute four won from Yale over a two-mile course by six lengths in 10:51.

The Harvard crews rowed a modification of the English stroke, coupled with some features of the stroke pulled by Wisconsin, and Coach McConville of Wisconsin, who saw the race, said: "If Harvard's crew in yesterday's form had been at Poughkeepsie, I am afraid they would have given us all a hustle for first place."

The course was badly policed, boats setting into the lane and steamers kicking up swells after the race had started. Harvard in the 'varsity race very nearly collided with a number of small boats at the finish and a heavy swell impeded Yale.

The 'varsity race was prettily rowed, but the defeat was crushing. Yale, however, rowed gamely to the finish and neither crew showed signs of distress.

The contest between the substitutes constituting the 'varsity fours, was like the 'varsity eight, a procession, with Harvard six full lengths ahead at the finish. The freshmen effort was a mighty and splendid one up to the last eighth of a mile, when Harvard's superior staying powers, coupled with an unfortunate obstruction of the course of the Yale youngsters by a large steamer worked for Harvard's advantage and sent the 1902 men of Harvard across the line two lengths ahead of Yale.

Peace Reigns in Pana.

PANA, Ills., June 30.—The departure of the state troops and the closing of the mines has resulted in a complete restoration of peace in Pana. Last night was without doubt the quietest that Pana citizens have experienced since the strike began, April 1, 1898. Agents of mining companies in Missouri, Kansas and Texas succeeded in employing 280 negroes, whom they furnished free transportation, they leaving for Bevier, Mo., and other western striking miners' camps to take the places of union miners. They carried four coaches, and on passing the townworks of the Pana Coal company opened fire upon the offices and mine buildings, doing considerable damage.

STRIKE IN PINGREE FACTORY

Men in One Department Quit and Company Shuts Down Entire Plant.

DETROIT, June 30.—A complete lock-out is in effect in Pingree & Smith's big shoe factory, employing upwards of 600 people. The only work in progress is that necessary to clean up the machines. The trouble was forced by a strike of employees of the turning and welt departments. Three weeks ago the factory started new machines in the shoe turning department, which are operated by boys in place of men. The Shoemakers' union decided that unless higher wages were paid in that department the upwards of 100 men employed in the turning and welt department should quit. The company announced that if these men went out the entire factory would shut down.

Nearly 50,000 men will be thrown idle by the shutdown. How long it will last is a matter of speculation. NEW HARTFORD, Ia., June 29.—From further particulars just learned of the death of John Marks near here there seems to be no doubt that it was a case of murder. The ground in the vicinity of the place where the body was found was all torn up and there were other indications that a severe struggle had taken place. About 20 rods from the body was found a pitchfork which was covered with blood. The man's neck bore an ugly wound, extending about one inch across the right side in the vicinity of the jugular vein.

Remarkable Case of Skin Grafting.

WATERLOO, Ia., June 28.—One of the most extensive skin graftings ever attempted was performed at noon yesterday, local physicians grafting on Will Barrett to cover an area of three square feet burned during a fire two months ago. Fibrous tissue was donated by 11 friends of the young man, who is very popular. The fire started in a room occupied by Barrett and his body was completely enveloped before he awakened.
